mi.gov/flintwater
website edits

Here's some things I have found tonight:

1. Attached is a screenshot of the bottom left hand corner of the page. The video has a text on it that has the word indicator spelled incorrectly.

2. The graphic that reads "Free water filters available" needs to have the fire stations added to the list of places that you are taken to if you click the graphic.

Hey, just doing a quick triage on my email... I'm teaching today. Trevor should have rights to be able to edit this. If not, please forward it to the eMichigan mailbox.

Hi Ron,

Here is the updated video. Can we get this link in place of the current one on the Flint Water website? Once it's up, let me know and I will hide the one on our YouTube page.

Thank you,

Angela

Subject: SEOC Update 1/10/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify;

however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.

9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

SEOC 1

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

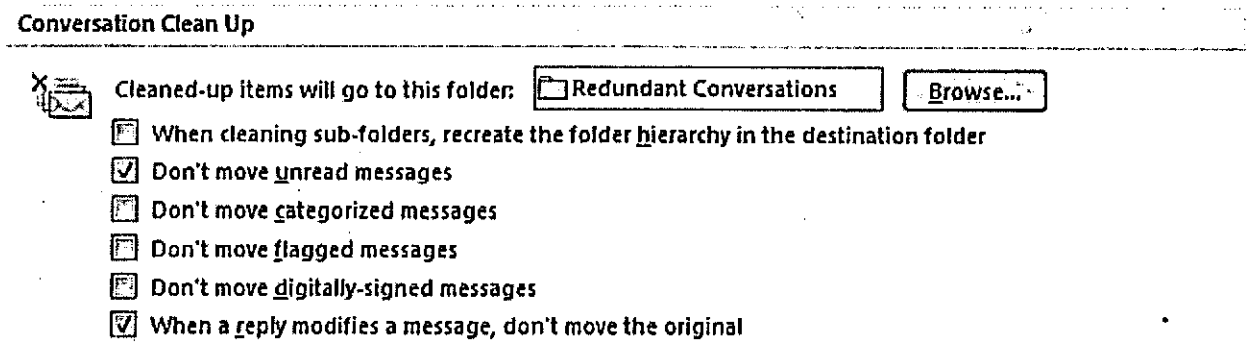
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

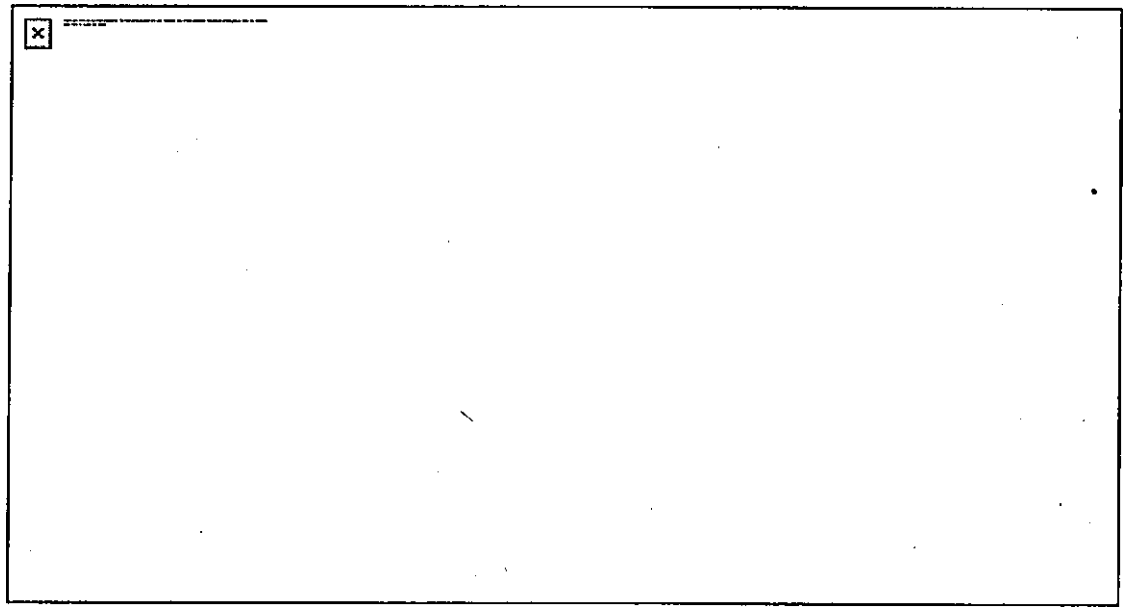
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

SEOC Report for Sunday February 21, 2016

Full Days Since Emergency Declaration: 47

Items to Note

- Southern Baptist Disaster Relief is transitioning to a new unit today and is not planning to deploy field teams for delivery of supplies requested via 211 hotline until February 22, 2016.
- 5 American Red Cross Teams are scheduled for Sunday, February 21, 2016. The teams will continue to visit the 1,300 Access & Functional Needs addresses.
- DEQ has 23 sentinnel teams in the field today continuing efforts to find lead pipes to meet the EPA Tier 1 criteria. The sentinel program objectives are being met and have received sufficient participation.

Tom,

Please see the attached, the form needs to be completed daily and sent back to MSP-seocda2, and cc MSP-EOC-MDSP. You may have to bring in another person under your command to do some of the paperwork. A scribe would be a good idea for you so everything going on is tracked.

Thanks, Mike

Hi Tom

Attached is a spreadsheet that will assist us with being able to keep track of the resources that the team have. It would be extremely beneficial to have the provided every morning.

Please let me know if you have any questions.

Thanks

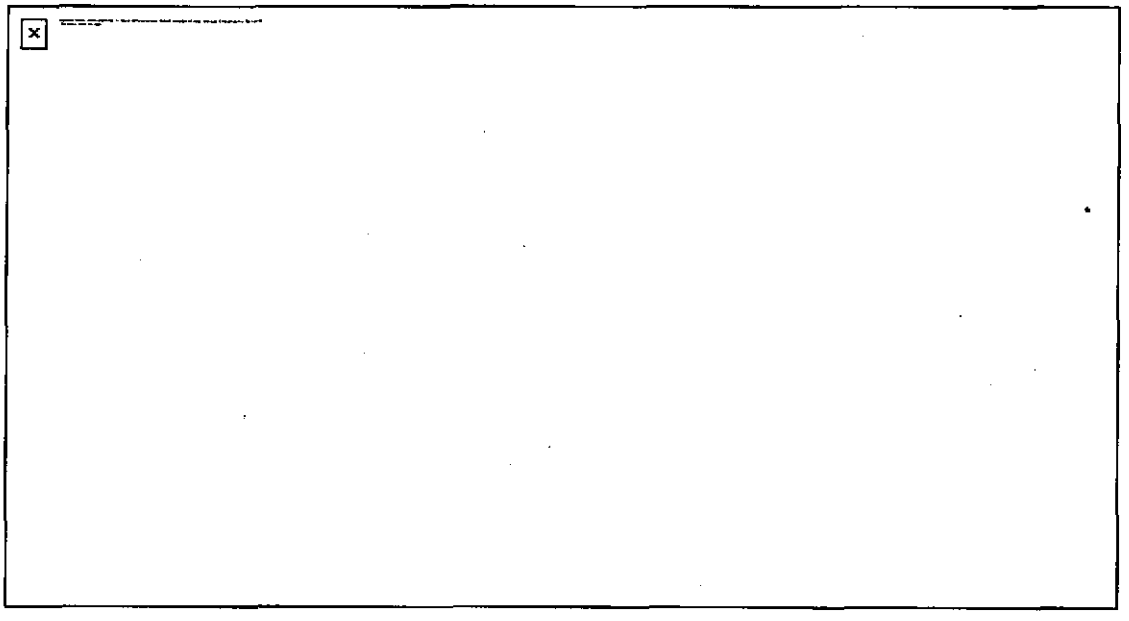
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern. Michigan is helping Flint's families.

LISTEN IN; Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

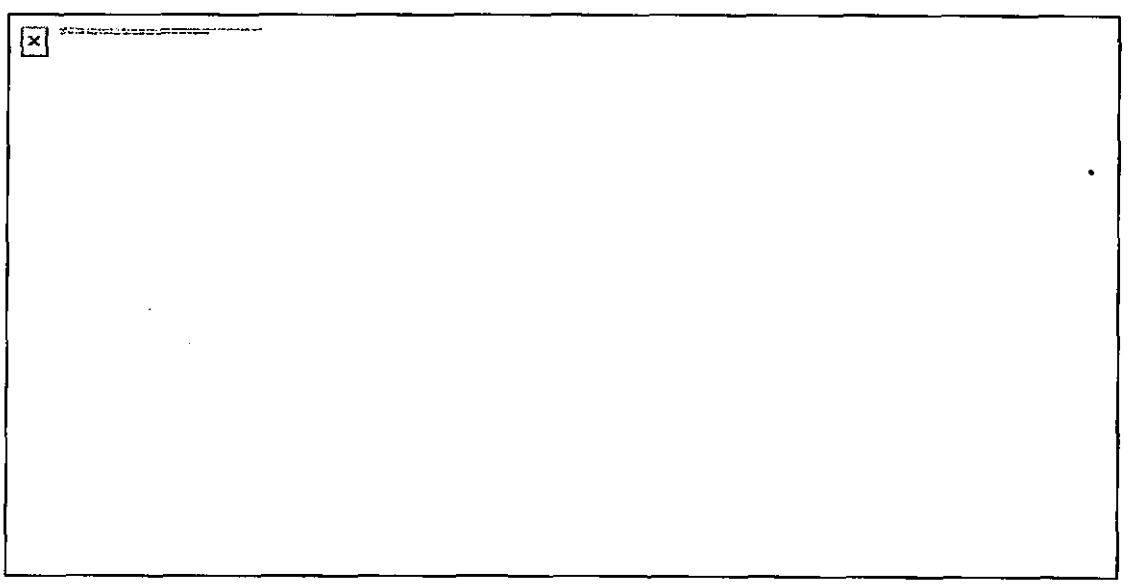
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

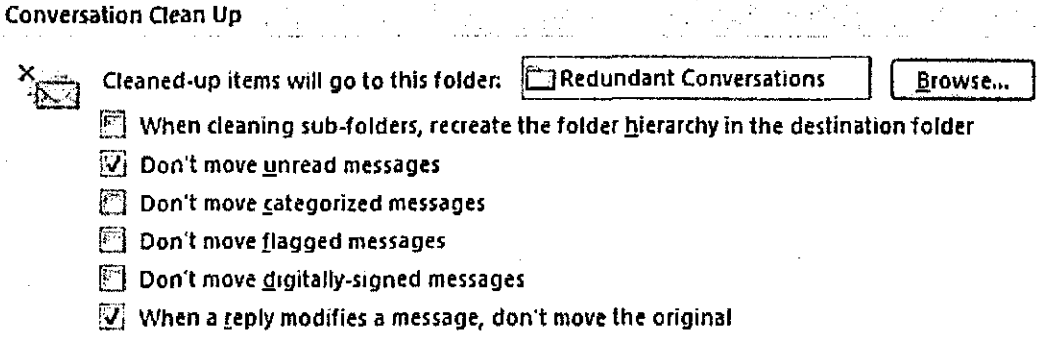
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

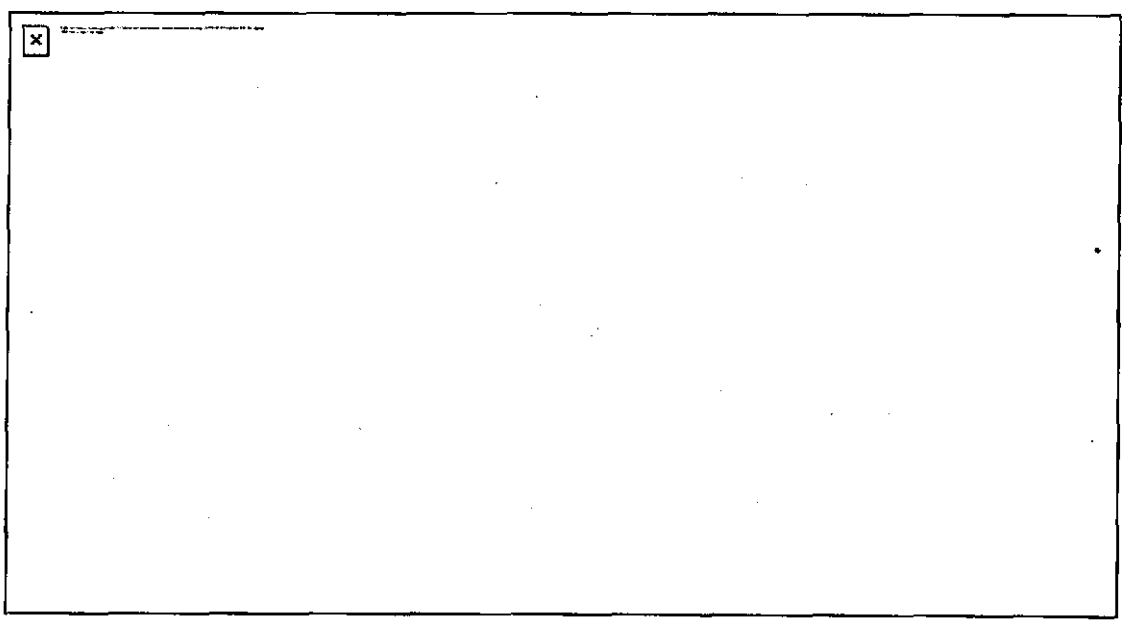
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

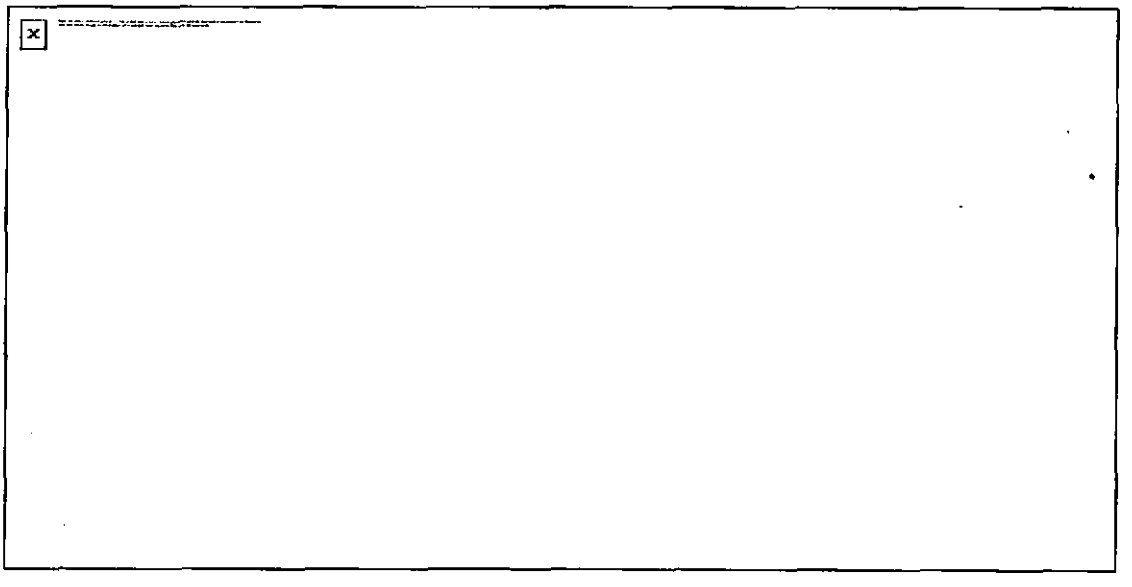
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

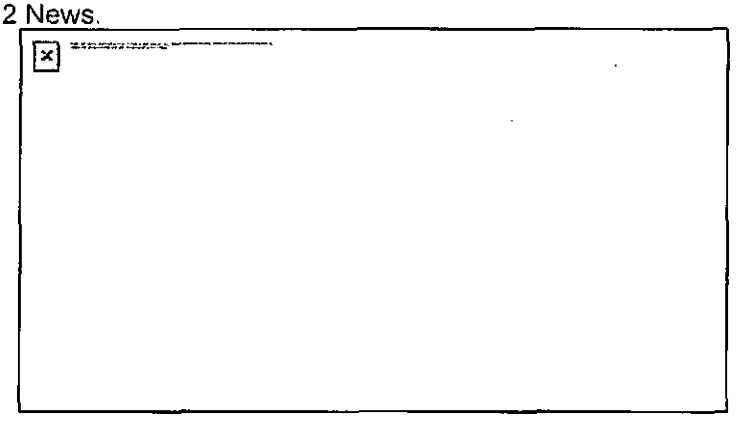
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

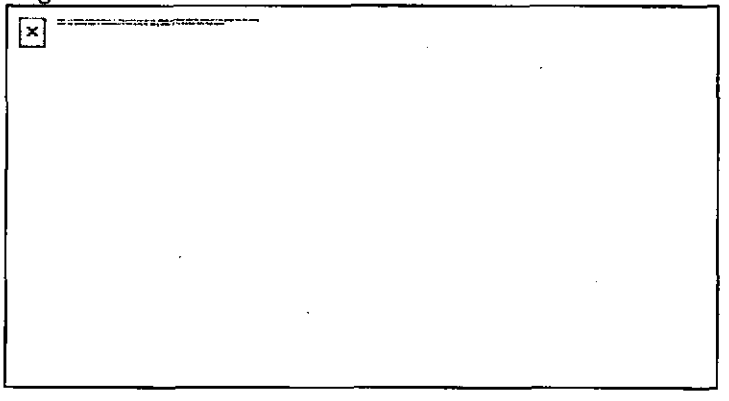
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

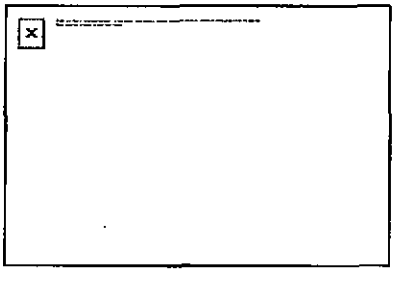


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

Subject: Donations and Volunteer to date

Information as requested:

Below is the list of all the groups that have donated/volunteered as of yet. We know of some unreported resources donated; however none have been confirmed.

- The Flint Child Health & Development Fund United Way: Charitable fund created for needs of Flint children exposed to lead www.flintkids.com
- American Red Cross: Stood up a formal Disaster Relief Operation and established headquarters in Flint, Volunteer Reception Center for Volunteer Management, Volunteers for Water Response Teams, Staffing at each of the 5 PODS-distributing water, filters, and test kits, Inventory Management of Resources at the Warehouses, Providing meals for all the Water Resource Teams, Assembly of Water Test Kits, provided a Disaster Relief Logistic-Planning consultant
- National Pipefitters Association-(Kroger): Donated 20 pallets = 6,384 cases
- State of Michigan Employees & family members: Volunteers to assist with distribution off or January 16, 17, 18
- Dean Transportation, Patrick Dean, patrickd@deantrans.com: Donated 21 Drivers to drive the donated Penske trucks - for Saturday 1/16 and Sunday 1/17
- FOX 2 and iHeartRadio Clio: Donated 2 Semi-Truck loads of cases of water
- Faith Based Organizations distributing water:
    - Mission of Hope
    - Vernon Chapel
    - Saints of God
    - Mt Zion Baptist Church
    - Metropolitan Baptist Church
    - Mt Carmel Baptist Church
    - Mt Calvary Baptist Church
    - Grace Emmanuel Baptist Church
    - Christ Fellowship Baptist Church
- Genesee County Community Action Resource Department (GCCARD)-Distribution Point/Warehouse-distributed water, filters, and test kits.
- Fire stations that are Points of Distributions (PODS): for water, water testing kits, replacement water filters
    - #1, #3, #5, #6, #8
- Flint Water Treatment Plant: Water sample drop off site
- Grainger: Donation of Shipping costs for resources
- Flint City Hall: Water sample drop off site
- Country Fresh: Donated 20 cases w/4 gallons in each case = 80 gallons of water

Please let me know if you need any additional information.

Just an FYI. I just cleared Ms Northcutts. I Provided her a Pur water system and a replacement cartridge. Along with the filter i gave her a case of bottle and can water. I also provided literature. She was informed last nite that someone was to install the system. So i hooked up the filter onto her kitchen faucet. Because she is in a condo association in Mundy Township I suggested she contact her landlord to confirm what water system she is on. She will still utilize the test kit, and get her water tested. .

Correct Bob. SEOC OPs stated that any donations of good, (water in your example) from state employees (Jackson Co & BSC) in your example should be emailed to SEOC Logistics at MSP-.seoclgc@michigan.gov

I have copied them here in case that has changed.

On putting something on our website, you should just work with the JIC on any of those communications.

Subject: RE: Flint Water volunteer efforts
Importance: High

Richard,

So I'm confused.

Yesterday I learned of a Business Service Center-wide effort started by the Jackson County MDHHS director to collect water and have it delivered to Flint in a semi. I was told by Nicole Lisabeth, one of the JIC managers from MSP, that these types of volunteer efforts need to go through the SEOC, and that they should contact you as our SEOC coordinator.

So what does a county office or a group of MDHHS employees need to do if they want to do something within their local office or with other offices in their BSC?

I've already told the Jackson County director and Kent County (which is also organizing a volunteer effort to assist a Pathways school in Flint) that they need to email MSP-.seoclgc@michigan.gov

Also, I want to put out a message on our intranet on Tuesday providing instructions to employees/county offices, so I need to clarify this.

Thanks,
Bob

Subject: RE: Flint Water volunteer efforts

Just to be clear Bob, these instructions which you were given yesterday just relate to donations of goods from state employees. State employees wishing to volunteer will do so through normal volunteer avenues unless special volunteer projects like this weekend are set up.

Thank you bob
We have staff in the EOC who are the ones managing the requests for volunteers with Red Cross
I will work with Richard to determine how we Should communicate things out publicly
I have asked staff to not push it out until we get confirmation from the JIC on how it should be done
I will work with Richard on this

There is a crew of volunteers (4-5) people from Clare County, POC Nicole Haring. They have a trailer with 4.5 pallets of loose cases of water. She is to call me when they leave Clare County. At this time I was informed they could bring this supply of water directly to Clio warehouse. I plan on meeting the crew when they arrive in Genesee County at a staging area. I will then assess if the volunteers should go directly to the VRC if they plan to volunteer, or if their intention is to just off load the water. I will hold off on sending the trailer to any location until I make a visual assessment, and have direction from Logistics. They plan on leaving Clare County MONDAY 1/18/2016 around 11:00 am.

I spoke with . She lives in . Outside the city limits of Flint. She was informed by City personnel her address is not in the impacted area. However I told her I would get her some water and a filter. Regarding her health concerns she advised she is seeing a physician with in the last few weeks. I will ask the County Public Health EOC liaison reach out to her regarding any health concerns.

advised she is going to church for a 10:30 am service. I informed her I will get her the water and filter after her church service.

We received another voicemail from Ms. Helen Northcutt. She is now complaining about her hair falling out, so perhaps someone may advise her to contact the health department or PCP, if that is appropriate.

Can you ensure she received a filter, too? From the sounds of her voicemail she hasn't received one yet.

To: MSP-SEOC4
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

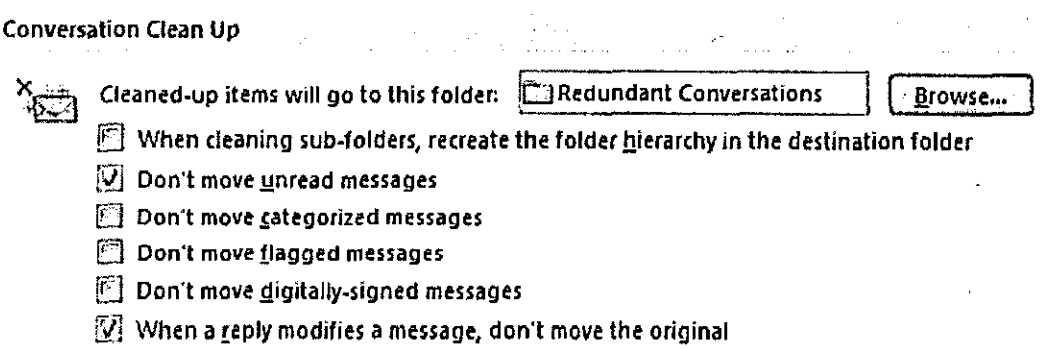
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

Flint Water Response Team Plan for Sunday, 01.17.16_V2.0_FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
GCSO	Genesee County Sheriff Office
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

WRT OIC	Lt. Pat Young	
ARC OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Priority Distribution Areas
GCSO/MSP	10 Type III	3000 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg
ARC	10 Type V	1000 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg

Resource Status

Team Type & Quantity	Type: Type III Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/16/16	2000
16ft box truck	10	10		1/16/16	1450
Truck Driver	10	10		1/16/16	1450
Team Member	60-90	112		1/16/16	1835
Team Transport Vehicle for 6-9 Team Members	10	10		1/16/16	1450
Team Transport Driver	10	10		1/16/16	1450
Patrol Car	10-20	10			
iPads	10-20	20		1/16/16	1450

Distribution Kit	3000	3000		1/16/16	2010

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/16/16	1450
ARC ERV	10	10		1/16/16	1450
ARC ERV Driver	10	10		1/16/16	1450
Team Member	30-60	60		1/16/16	1450
Team Transport Vehicle for 2-4 Team Members	10	10		1/16/16	1450
Team Transport Vehicle for Driver	10	10		1/16/16	1450
Patrol Car	0	0		1/16/16	1450
iPads	10-20	10		1/16/16	2010
Distribution Kit	1000	X		1/16/16	2010

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Water Response Team: Concept of Operations and Support

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

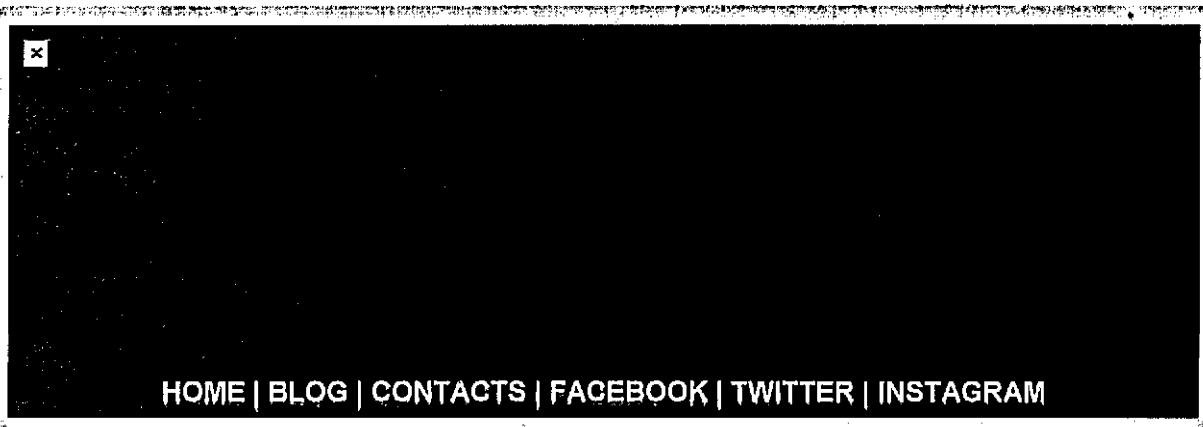
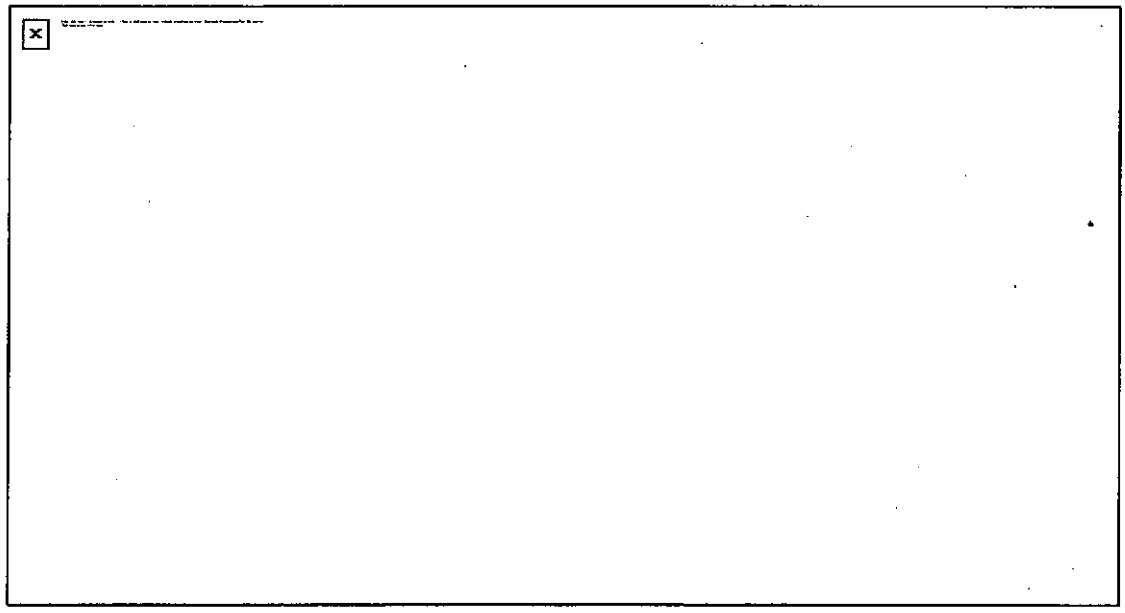
Subject: VIDEO: Volunteering in Flint



VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

Subject: RE: State Water Filtration Devices.

Do you have the SKUs for the all the items you are ordering? The two types of filters, two types of cartridges, and items that make up test kits? Thank a lot..

From: Thelen, Richard (DHHS) [mailto:ThelenR4@michigan.gov]
Sent: Sunday, January 17, 2016 11:32 AM
To: Session, Kendal
Cc: Gamble, Jason; Doll, Jeanette (DTMB)
Subject: State Water Filtration Devices.

Attached is the list of filtration devices that we have provided so far for the city of Flint residents. The only outstanding order we are aware of is the 2500 pitcher replacement filters scheduled for 1/18 delivery. As of last night, resources is reporting about 60,000 faucet filters and 60,000 replacement cartridges. I believe planning or logistics has the best idea as to how long that supply should last.

Thanks

Richard Thelen

Cc: Weber, Thomas (MSP)
Subject: RE: SEOC Availablity

Hello –
I am available all day on Monday the 15th (holiday),
only in the morning of Tuesday the 16th,
available all day on Wednesday the 17th,
I have a couple of limited scheduling conflicts before and after lunch on Thursday the 18th,
Available all day on Friday the 19th,
Only starting in mid-afternoon on Saturday the 20th,
Available all day on Sunday the 21st (if my hours in the previous week haven't been excessive)
Only in the morning of Monday the 22nd,
Only in the morning of Tuesday the 23rd,
All day on Wednesday the 24th,
All day on Thursday the 25th,
I have one limited scheduling conflict in the early afternoon on Friday the 26th,
I project being available starting in mid-afternoon on Saturday the 27th,
Available all day on Sunday the 28th (if my hours in the previous week haven't been excessive),
Available all day on Monday the 29th.

SPECIAL NOTE: This assumes that the SEOC is not staying open overnight. I'm usually falling asleep around 11am and will not be able to readily adjust this pattern. If SEOC shifts are still running for 12 hours, then I should probably alternate days on with days off. In my opinion, splitting a shift so that it's normal length or less (e.g. 6 or 8 hours) works best for quality of work, energy, accuracy, etc. If staff is not available to split a 12-hour SEOC period into two 6-hour shifts, then some sort of flex time could also make SEOC duties more sustainable, such as 4 hours starting in the morning and then 4 hours toward the end of the day, with a break in between for personal maintenance and getting other things done, with those shifts timed to include key meetings and report deadlines.

Thanks,
Mike

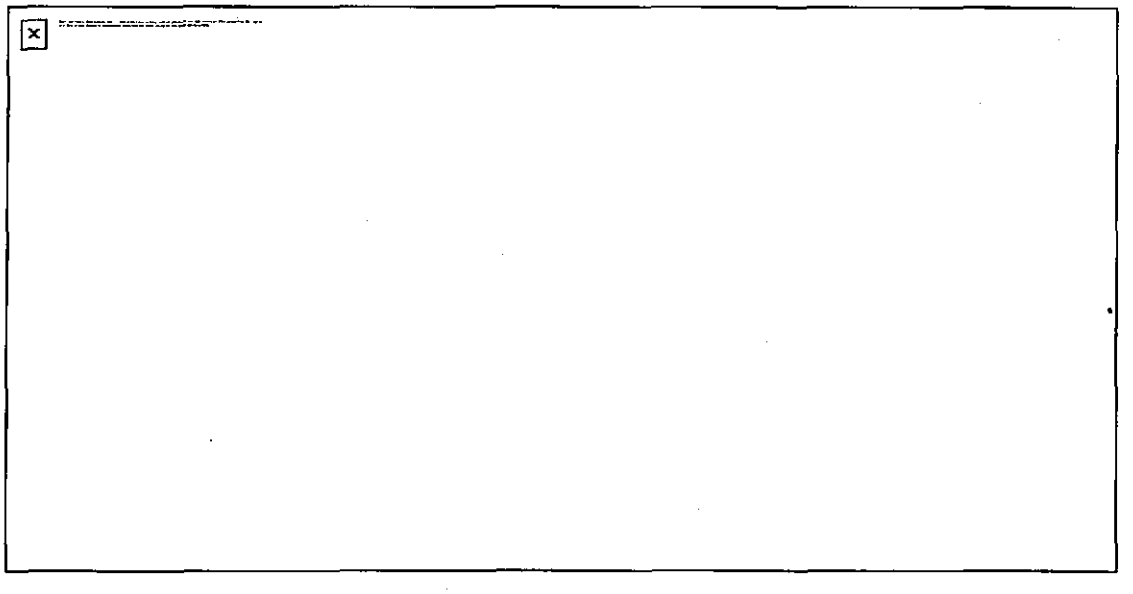
To: MSP-SEOC7
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

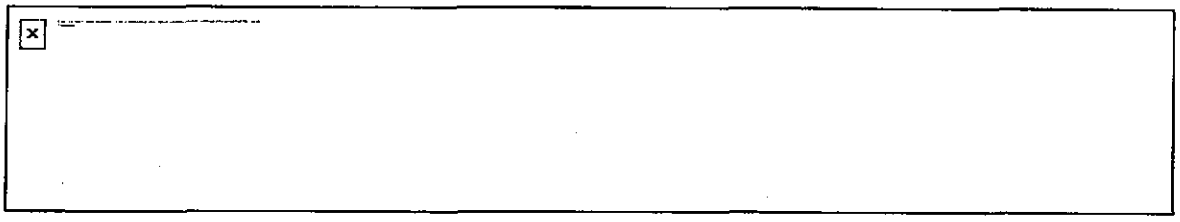
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

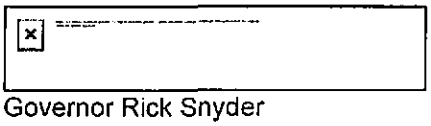
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Subject: State cybersecurity is up to you

You have likely seen the media reports regarding the threats being made through Twitter and YouTube to attack and take down Michigan.gov and other websites related to state government and the City of Flint. The State of Michigan team consisting of DTMB, MSP and the National Guard is working closely with our federal and private partners to identify any threats and mitigate any potential attempts to interrupt our services.

Effective cybersecurity is a complete team effort. It is imperative that every one of us, as state employees and general citizens, are following proper security protocols in order to stay safe. Recent data shows that 95 percent of cyber breaches are caused by human error such as emailing sensitive documents, clicking on phishing scams and inappropriately using flash drives.

You have learned about the ways that cyber criminals attempt to gain access through your Security Mentor training. Here are a few tips to serve as a reminder on how to protect you both personally and professionally.

- Choose strong passwords and change them often. A strong password uses a combination of letters, numbers, and symbols (when allowed) and does not include a person's name or other commonly known information such as their children's or pet's names.
- Do not use the same password for multiple accounts.
- Be aware of possible phishing attacks. If you receive an email claiming to be from an email provider, bank, or other frequented website that asks you to change your account password or update account information, make sure the email is legitimate. To be safe, go directly to websites to change your password, and type the link yourself rather than clicking on links embedded in emails.
- Be on the lookout for other people accessing your personal accounts. Monitor email and social media accounts for suspicious messages or messages appearing from you, but that you did not send. Monitor bank and credit card accounts for unauthorized charges.
- Be observant in state office buildings for anything unusual. Do not let in anyone without a valid state ID. If you see any unusual behavior contact central control at 517-373-0196.

As always, if you receive an email or a phone call that seems unusual, please report it to 517-335-1722 or abuse@michigan.gov.

Subject: Gordons Food

Hi
I forgot there are three Gordon Food invoices here that cover coffee supplies, ice, snacks, for the SEOC Collins Rd.
$58.31+111.25+93.54 Total $263.10
+ My purchase from Kroger's today that I will expense back for more Ice, Pop and healthy snacks for the SEOC was Total $51.86

Total supplies $314.96
Note: I did have one Gordons noted on the second tab of my spreadsheet marked $58.31 that is rolled into the above total.

I have another from Gordons here from Jodie when she took a boat load of water down to Flint.
$488.95

PS next time I will get diet Pepsi if I get the opportunity. Got to spoil my own team.

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: MSP-SEOC7
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Here are our sign-in sheets. There were some days where we neglected to obtain sign-out times.

We're correcting that issue and will have sign-out times.

Good Afternoon,

I am working on Overtime Projections in the SEOC. I need copies of the sign in/out sheets or whatever you have for who is working in the local EOC and JIC and for how long each day. I need these from the activation forward.

Thank you,

Kevin Jenness

Last one Main just kicked me off. I didn't know it didn't stay up until 6 on Saturdays. I had two more to enter for Diane. Oh well.
I have one in the folder I need rejected I couldn't read handwriting for White Horse and then when I double checked it I missed .50 cents.
w6604994.
I will put in your bin to release but I don't think Main is up until Tuesday. Ugh
Signing off I will be back in tomorrow at 2pm.

Hi Penny,

Here is a rough draft of the spending plan amounts. Still need an estimate of hours for JIC people put in.

Not all of the delivery from DHHS came in so it is off to the side.

I will put the binder in your chair upstairs.

Have fun!

Kevin

Subject: Weekly Financial Reporting - City of Flint

Hi Susan:

I am going to be providing weekly cost updates to the State Director here in the SEOC and the State Budget Office for costs related to the City of Flint emergency. I will be providing an update for all agencies at 6:00 pm on Mondays each week – it gives a chance for MAIN to roll over the weekend and pick up some actual costs to include. With this timeline, I will need to have weekly information from all agencies by 4:00 pm on Mondays. It doesn't have to be a fancy report because I'll just be pulling it into a statewide picture. I know DHHS has played a significant role in this emergency and also has resources in the field. Richard Thelen and Brian Wilson are doing a great job tracking things here in the SEOC, so they will of course be able to provide you with any information you need to gather costs.

At this point, I don't have much information on how state agencies will be reimbursed for this activation. We still have federal requests being considered and I have a state fund for disasters as well. Either way, the following items are generally allowable costs under disaster assistance grants:

- Overtime costs with related benefits.
- Cost to repair equipment that was damaged during response
- Equipment costs such as fuel. No hourly rental rate for agency owned equipment.
- Travel and meal costs incurred by staff in field.
- Contracts necessary for emergency response.
- Procurement of water, filters or other commodities for current emergency.
- Other expendable supplies

Again, this is not an exhaustive list so if you have other costs that you aren't sure about please give me a call or include them for me to review.

If you have any questions, please contact me at the SEOC number listed below or on my cell at . Thanks so much for your assistance with this.

Thanks,
Penny Burger

Subject: Bullet Reminder

Importance: High

Good afternoon all,

This is a reminder to send me your daily activity bullet points.

ACTIONS:

1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to msp-seocda1@michigan.gov.

Bullet points are due by 5 p.m.

Thank you,

June Martin, PEM
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

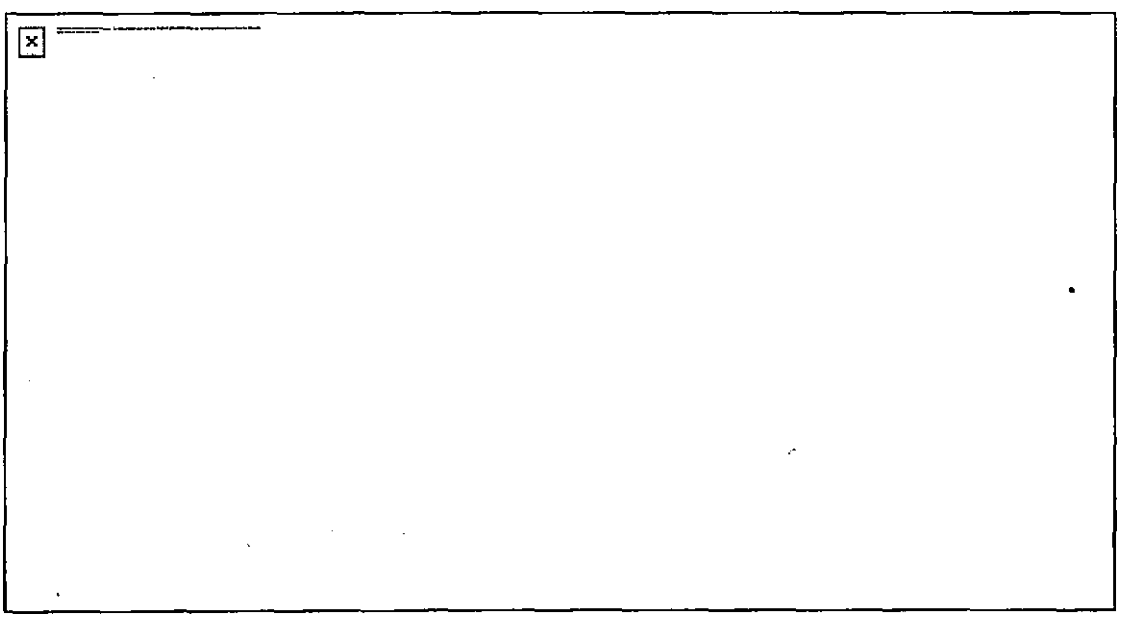
Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN; Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

Subject: Bullet Reminder

Importance: High

Good afternoon all,

This is your reminder to send me your daily activity bullet points.

ACTIONS:
1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to msp-seocda1@michigan.gov.

Bullet points are due by 5p.m.

Thank you,

June Martin, PEM
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

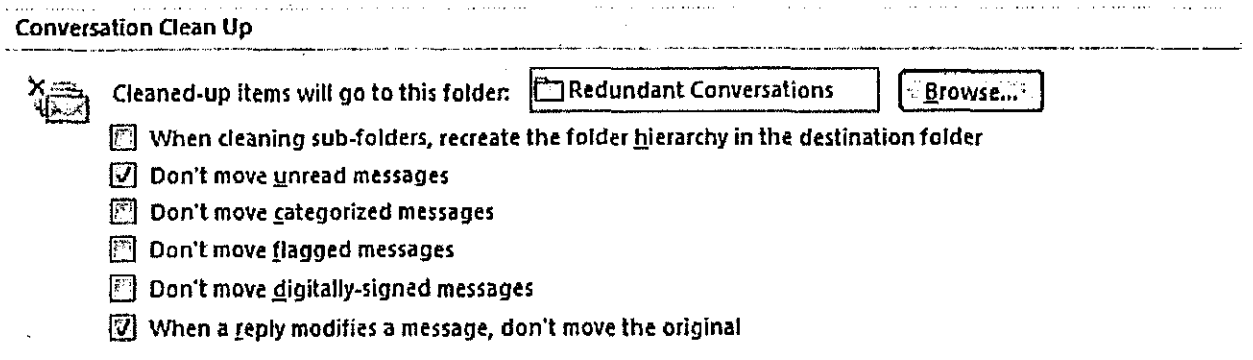
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to *Oralya Garza or Jodie Frese (daily staff) located just outside* Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- *Print emails by selecting* ***up to 100 at a time*** *(select one, hold shift, click on the last one).*
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- *Sort documents in folders by "Type".*
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

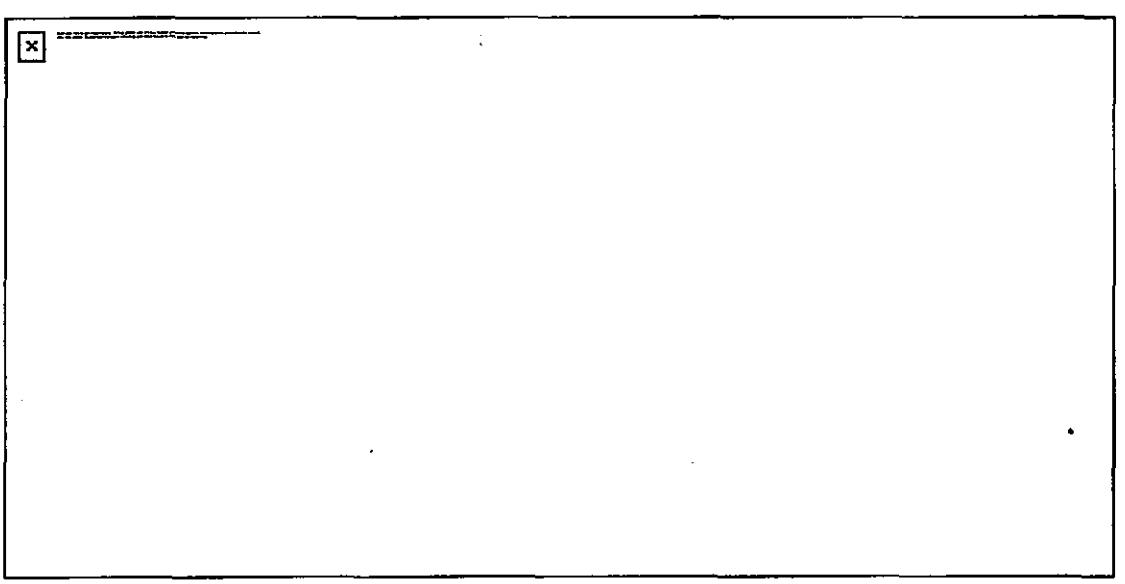
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

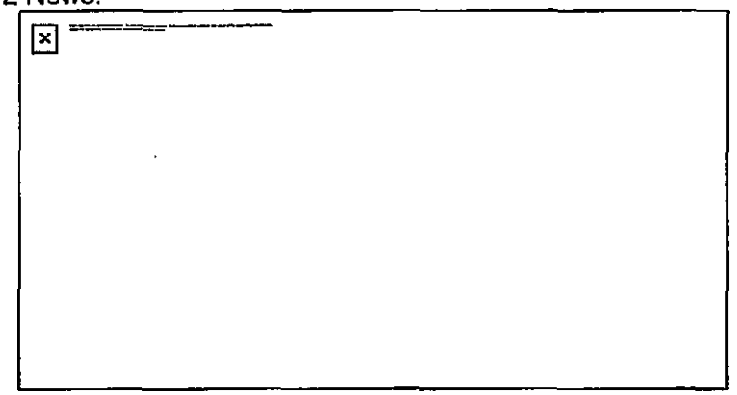
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

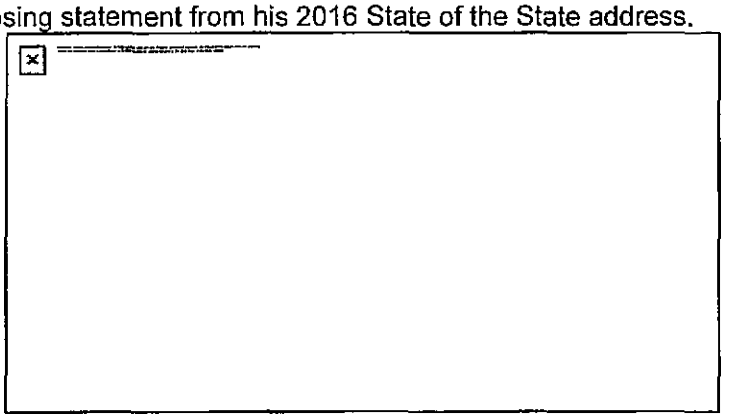
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

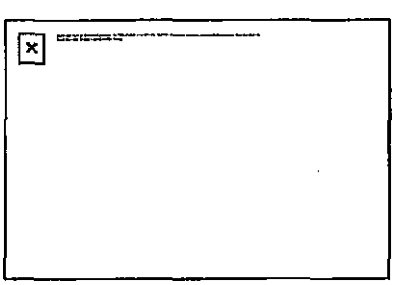


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best *counter-programming*. **Click here to read the full story in the Washington Post.**

Subject: Public Health Group Meeting

Working on scheduling a Public Health Group meeting in Flint for Tuesday, January 19, 2016 at 2:30 p.m. EST. It looks like Mike Glasgow, City of Flint and Jim Henry, Genesee County Health Dept. are available. I'm working with April Swartout, GC Health Dept. in an effort to get Mark Valacak, GC Health Director to also attend.

Please contact the appropriate state agency reps to arrange for their attendance at this meeting and advise confirmation of participants and contact information. Suggested minimum agencies, DEQ and DHHS.

Purpose of meeting is to discuss development of one common unified communication (letter) to be distributed to the community with test results and common return point of contact. Development of a common procedure for distribution of results and communication and procedures for immediate communication should also be worked out during this meeting.

Meeting will be held at the Flint County Administration Bldg (1101 Beach St) or Genesee County Health Dept. (630 S. Saginaw St.) and will be confirmed Tuesday morning. DuCharme available to initiate the meeting and facilitate, if necessary.

Thank you.

Thanks Kirby.

George sent us a spreadsheet with data yesterday that looks like what we need and we've got the GIS folks working on putting it into a layer showing sample locations. We'll talk about ordering Tuesday @ 1 pm and I'm now working to identify whether you should expect to see samples at the lab today and will advise when I have an answer.
Thanks

RE: Bottle Orders

After consultation with DTMB at the SEOC, we (DEQ) need to continue ordering the sample bottles ourselves due to the fact that we've already received an appropriation. When and if our allotment is expended we can revisit having DTMB/logistics do the ordering.

Also DTMB confirmed what you said earlier, i.e. that we should first attempt to order though our contract vendor, and if they can't meet our needs (be it time to supply or number of bottles), we can go to the alternates, starting with other State of MI contract vendors.

Thanks

Mitch

Subject: Follow on Discussion w/Mayor Weaver

Following the 1600 SEOC call today, I contacted Mayor Weaver to follow up on any potential concerns with use of the fire stations as sample collection points. Mayor Weaver thought it was an excellent idea if we are able to implement same. The Mayor agreed it is important to make sample collection convenient for the community and that it is important to get the data quickly. I'll add to activity log. Please advise Capt. Kelenske accordingly.

Please evaluate if necessary to get word out on this via SEOC/JIC or video Krisztian developed. We'll gauge receipt of samples over the next couple of days.

Subject: more bullets

From 1/13
The Department of Environmental Quality (DEQ) completed the following activities:
• DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
• Coordination of DEQ and LARA personnel for Freeman School Faucet Replacement plan and school testing over the weekend

1/12

Delivery of 6101 water test kits to GCCARD
• Verification of NSF/ANSI 53 certified filters for future ordering
• Arranged for DEQ staff deployment to supervise volunteers assembling water kits at GCCARD
• Arranged for DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
• Established additional vendors for supply of water test bottles

1/11

Delivery of 1500 water test kits to MCCARD
• 10,000 water test bottles ordered
• Sampling form developed in collaboration with the City. 20,000 printed.
• SEOC Staffed
• DEQ personnel supporting local needs

1/10
The Department of Environmental Quality (DEQ) Laboratory (lab) provided 1000 water test kits for stock at Flint points of distribution. 500 kits have been prepared for MDARD inspectors for pickup Monday morning. 1000 additional kits will be prepared for pickup Monday for supply for the teams scheduled to begin on Tuesday. 3000 kits are being ordered Monday morning to supplement stock. DEQ lab staff are scheduled to provide training to the teams in Flint on Monday afternoon. Contracts are being identified and examined to possibly expand vendor capabilities for providing additional resources.

DEQ staff are coordinating with Licensing and Regulatory Affairs (LARA) for the implementation of the Freeman Elementary faucet replacement plan.

DEQ and DNR staff are supporting state and local activities where needed.

MSP-SEOC12

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: MSP-SEOC12
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Public Health Group Meeting

Working on scheduling a Public Health Group meeting in Flint for Tuesday, January 19, 2016 at 2:30 p.m. EST. It looks like Mike Glasgow, City of Flint and Jim Henry, Genesee County Health Dept. are available. I'm working with April Swartout, GC Health Dept. in an effort to get Mark Valacak, GC Health Director to also attend.

Please contact the appropriate state agency reps to arrange for their attendance at this meeting and advise confirmation of participants and contact information. Suggested minimum agencies, DEQ and DHHS.

Purpose of meeting is to discuss development of one common unified communication (letter) to be distributed to the community with test results and common return point of contact. Development of a common procedure for distribution of results and communication and procedures for immediate communication should also be worked out during this meeting.

Meeting will be held at the Flint County Administration Bldg (1101 Beach St) or Genesee County Health Dept. (630 S. Saginaw St.) and will be confirmed Tuesday morning. DuCharme available to initiate the meeting and facilitate, if necessary.

Thank you.

RE: Bottle Orders

After consultation with DTMB at the SEOC, we (DEQ) need to continue ordering the sample bottles ourselves due to the fact that we've already received an appropriation. When and if our allotment is expended we can revisit having DTMB/logistics do the ordering.

Also DTMB confirmed what you said earlier, i.e. that we should first attempt to order though our contract vendor, and if they can't meet our needs (be it time to supply or number of bottles), we can go to the alternates, starting with other State of MI contract vendors.

Thanks

Mitch

Beautifully put Brother!
I am available anytime – this is an EMERGENCY!
I NEED to grab some tainted water and test it- before and after processing it.
We have dip strip testing kits to determine if the water does in fact have lead or other undesirable agents within immediately.
With the tainted water- it then goes directly to the EPA Certified Lab in Ohio, then with the results, (potability confirmed), we are free to install where ever deemed appropriate. We have the one location earmarked and ready to go—other than that we NEED HELP!
Thanks,
Joe Novitsky

Subject: Unexpected Help for the Flint Water Crisis?

Chris-
I suspect that you are overwhelmed with the Flint water crisis.

I am a Mich State Univ grad (Evans Scholar) living in California/Si Valley. I am in my local Rotary Club; Amy Krug, president of the Flint Rotary Club gave me your contact info.

My brother lives in Detroit, and designed a water purifier that is in use in California (Earthquake preparedness), in Nepal (earthquake relief), and in Kenya (purifying the water for the Maasai out on the Serengetti). The water purification machine is manufactured near Grand Rapids, and has passed the US EPA water quality tests, in addition to state level tests in California, in Michigan, in Oregon and in Minnesota.

We set up a "Go Fund Me" website, and have donors ready to buy them, so we can install them. We have one pastor at one church in Flint ready to receive the unit. He will use this unit to produce clean drinking water for his community.

I have asked my brother's company to 1) go through a rigorous and formal lab certification process, before any installation, 2) attempt to work with the local people "in charge", don't just go around them. That's why I am reaching out to you, and copying the two principals of the company on this thread. Joe lives near Detroit, and runs engineering. Charles lives near Grand Rapids, and runs manufacturing.

We can bring some Si Valley money + public donations to help the poorest of the poor, with a solution that could be installed broadly within a week. We view this as a similar effort to the private relief efforts we did for earthquake relief in Nepal, and for drought relief (forcing consumption of known contaminated water) in Kenya. In California, for the earthquake preparedness, we work with a public/private model, working through the fire departments, the city/county emergency managers, the city/Town managers, and private home/business owners (i.e. owners of the private water sources).

Please contact me, or forward this email to your person who is looking at solutions besides bottled water. The cost of that much bottled water, and the mountains of discarded bottles it produces, will both be staggering.

Regards,
John Novitsky

Cell #

The following is a "strawman" plan. It is not a formally committed, agreed to, or a binding commitment. It represents the current thinking by the managers of Merlin Ecosolutions + friends of the company + private donors, as of Friday, January 15, 2016. We invite and welcome the comments of the Flint government officials, and invite them to observe this unique program, intended to offer a very low cost and highly reliable alternative to mass distribution of bottled water. Our thinking is that if it works, and works very well on the first couple of installations, then we scale the solution to communities where appropriate, and stop doing it when it no longer makes sense.

Company name/product info: Merlin Eco Solutions www.merlinecosolutions.com

Rough product description: 120V AC powered water purification system, derived from our portable solar powered unit.

- Flow rate: 0.6 gallon per minute output. Input restrictor used to manage the flow rate through the lead removing substrate.
- Additional purification methods: 0.5 micron mechanical filtration, followed by UV blast at 42k mV/cm**3/sec (2.8x WHO spec). EPA calls our output water "sterilized" suitable for surgical/operating room use.
- Base Price: $1,200/unit.
- Consumable lead filter lifetime/replacement cost: about 2,000 gallons (test strip cost about $0.50/test), @ 0.6 gpm that's a replacement about every 2.3 days – if run continuously, filling water storage tanks.
- So cost for 1M gallons of "sterilized" lead free water, is the $1,200 + 50 replacement filters ($10,000)= about $0.012/gallon or $0.003/liter. Bottled water, purchased at the pallet level, sells for about $0.50/liter. Bottled water cost will be some 170x more than manufacturing purified water out of the water in the municipal water supply right now. Let alone the storage costs, the transportation costs, the distribution costs, the labor costs of the National Guard troops, the additional costs of waste disposal of the trash mountains.

People served/unit: at 0.6gpm, that makes 864 gallons/24 hrs, or 3,283 liters/24 hrs.

- WHO requirements are 2 liters/person/day for drinking water, so each unit is good for some 1,641 people/day.
- WHO requirements for cooking water, washing up water, etc are 10 liters/person/day, so that works out to about 328 people/day/unit. This unit is sized for a community, overkill for one individual home.
- In California earthquake preparedness applications, we actually plan one unit for every 250 people. That means we don't have to monitor/run it 24/7. We also don't know who has stockpiled their own water, who is in living in Town when the emergency strikes, etc. It also means that we have excess capacity/redundancy in the overall system for a city, in case one unit fails, in case one community's source water disappears, etc.

Project Status:

1) Undersink/AC powered version already installed in Toledo, Ohio; used to take the algae out of the Lake Erie toxic bloom.
2) A pair of units for Flint lead removal have been built. These have pressure reducing flow restrictors on the input, to control the output flow rate down to 0.6 gpm off 80PSI municipal water line.

3) Flint water is being collected tomorrow, using EPA methods by a licensed and trained professional engineer, and transported down to a certified lab in Ohio. We should have the formal certified lab test results by middle of next week, for review by any water engineer/public or private person.
    a. Lab is also instructed to test/confirm that the chemicals that will be used to recoat the pipes with an insulating layer of oxidation, can themselves be filtered out of the input water, using a fresh $20 filter in this water purifier. So whenever Flint Water Company chooses to put the chemicals in the system to "re-line" the inside of the pipes through the entire distribution system, the only thing each system user will need to do is to change out the filter, one time (takes 1 minute), turn the water on and clean drinking water is again flowing out of the purification unit – until the time that Flint Muni Water says that the "flushing" is complete.
    b. Lab will use a sample of Flint tap water, mix in the chemicals to duplicate what is expected to be used to re-oxidize the pipes, and verify the purity of the output water.
    c. Of course, after the damage to credibility, many users of this machine might continue to keep it installed for their drinking and cooking water.

Proposed priority of installation (by our private donors): If other purchasers wish to install, they can choose to do this also.

1) The poorest of the poor. Work with churches, community centers.
2) Preschools and elementary schools, where the lead is most harmful.
3) Hospitals, and first responders.
    a. There is zero enthusiasm from private donors to pay for water purification machines for public governmental buildings in the region, as you might imagine.
    b. There is also zero enthusiasm from private donors to pay for water purification machines for individual homes or apartments.

Scalability/Water Purification Machine Distribution method:

1) Hire Flint veterans to do the install; pay them through an existing 501 c 3 set up to do such work in Michigan.
2) Manager will be a Flint native (friend of the company).
3) We'll use some kind of home/church/community center as a staging area, to physically receive the units, for the veterans to arrive at daily, to be trained, and they get paid at the end of each day, after the recipient signs off on the installation/verification/trained on test procedure (use the test strips, when they change color, replace the filter). Sign off by the recipient is also a liability waiver of future lawsuits for lead poisoning by us. We are trying to help clean up the mess, not be responsible for past mistakes by others.
4) From the Rotary Club in California, we'll also work with the Rotary Club in Flint.

Drinking Water Distribution Method:

1) Similar to what we do for earthquake preparedness in California, identify a suitable community based location as the water source, close enough for people to easily walk to.
2) Have individual people walk to the clean water place, fill up their containers, and carry them back home.

First Installation:

1) First site has already been identified (a church).
2) If all goes well (lab tests "pass", local Flint gov't doesn't get heavy handed and force a legal stop between private donations and a church), we can install the first system at that church next week, on Friday, January 22, 2016. We can observe how the community responds to this solution, and then decide to improve the process, scale it, or stop the effort.

We invite Genesee county officials, and Flint officials, to help "aim us", and to partner with us. We offer one alternative among many. It's worth trying. Keep trying your other solutions as well. It's how we do things in Silicon Valley: try several approaches, learn what works where, and apply as appropriate. Stop doing the things that don't yield productive results.

Additional references on the company, on our products, can be supplied. These include California fire chiefs, Maasai tribe chief, a medical/ER doctor, FEMA officials, a manager from International Medical Corp, etc. I don't know if anybody from US AID will go on record for us – yet, but we work with them, too. If you want my FEMA guys to work with your FEMA guys, or your fire chiefs to work with my fire chiefs, or my California or Ohio water testing lab guys to work with your water testing lab guys, we can do that too.

Subject: RE: Unexpected Help for the Flint Water Crisis?

Beautifully put Brother!
I am available anytime – this is an EMERGENCY!
I NEED to grab some tainted water and test it- before and after processing it.
We have dip strip testing kits to determine if the water does in fact have lead or other undesirable agents within immediately.
With the tainted water- it then goes directly to the EPA Certified Lab in Ohio, then with the results, (potability confirmed), we are free to install where ever deemed appropriate. We have the one location earmarked and ready to go—other than that we NEED HELP!
Thanks,
Joe Novitsky

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

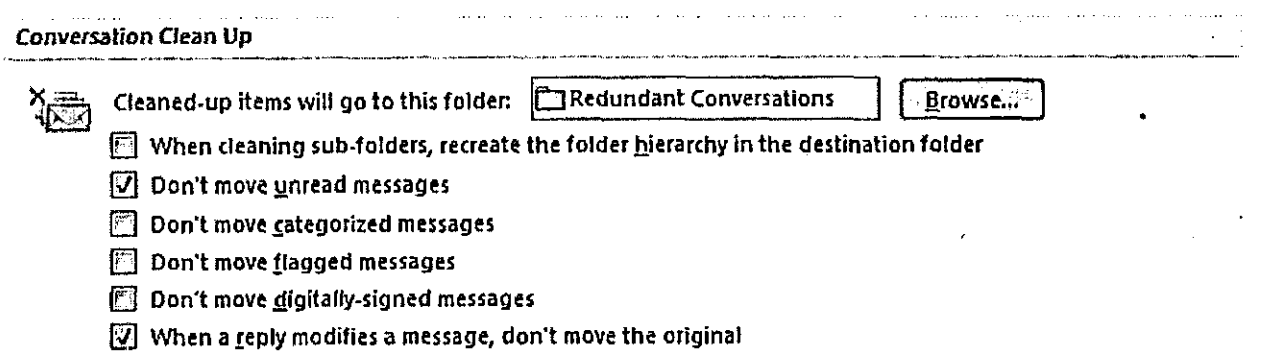
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- *Make sure to clip or rubber band your information to keep separate from others information being turned in.*
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- *On the top, select Recover Deleted Items.*
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

ATT00001

October 28, 2015	Michigan Department of Environmental Quality issues construction permit for additional corrosion control treatment	54
October 30, 2015	Michigan Department of Environmental Quality letter to Flint regarding corrosion control treatment operation	55

MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY
FLINT DRINKING WATER EVENTS TIMELINE

Date	Event	Attachment
November 3, 2015	United States Environmental Protection Agency Memorandum regarding "Lead and Copper Rule Requirements for Optimal Corrosion Control Treatment for Large Drinking Water Systems"	56
November 4, 2015	United States Environmental Protection Agency Memorandum regarding "Transmittal of Final Report – High Lead at Three Residences in Flint, Michigan"	57
Mid-Late 2016	Planned connection to Karegnondi Water Authority (Lake Huron water to Flint Water Treatment Plant)	None

Lab Bottle Ordering and Preparation Procedure

1. The Lab will order bottle quantities based on the EOC's request and confirm to the EOC the order has been placed and quantity ordered.

2. The Lab initiated bottle orders will be shipped to the State Flint Response Warehouse directly from the vendor to the following address with one box from the order shipped to the Lab for lot testing.

   4315 N Clio Rd, Flint, MI

3. Upon receipt of the bottle order shipment, WAREHOUSE will confirm from the shipment's packing slip, that the received quantity matches the ordered quantity. If the received quantity does not match the ordered quantity, WAREHOUSE will immediately notify Kirby Shane, Julia Pieper, or Carol Smith at 517-335-9800. WAREHOUSE will write the receipt date and lot number, and send the packing slip to the Lab to retain.

4. WAREHOUSE will call the Lab immediately with the lot number on the shipment boxes and confirm that all boxes in the shipment are identified with the same lot number. The Lab will verify that the one box received at the Lab is identified with the same lot number. If additional lot numbers are identified in the shipment to WAREHOUSE, or the lot numbers from WAREHOUSE and the Lab do not match, WAREHOUSE will send one box from the additional lot numbers to the Lab for lot testing.

5. The Lab will complete lot testing from the one box shipped to the Lab. Any additional lot numbers identified in the shipment by WAREHOUSE, and sent to the Lab, will also be tested. Upon successful lot testing, the Lab will assign a lot number or lot numbers to the shipment of bottles.

6. The Lab will print enough bottle labels, identifying the bottle type and lot number, to label the entire shipment of bottles. The Lab will Label the bottles in the one box received and any additional boxes sent to the Lab by WAREHOUSE for lot testing, and send these and printed labels to WAREHOUSE.

7. WAREHOUSE will firmly place one printed label on each bottle from the shipment, horizontally, at the approximate center of the bottle, from the labels supplied by the Lab for this shipment. After the label has been placed on the bottle, attach 1- "Request for Water Analysis" (2-sided 8 1/2 x 11 form) with rubber band (the forms DO NOT have to be folded in half). **Do Not Use any extra previously supplied Labels unless the lot number of the previously acquired labels match the lot number of the new labels.**

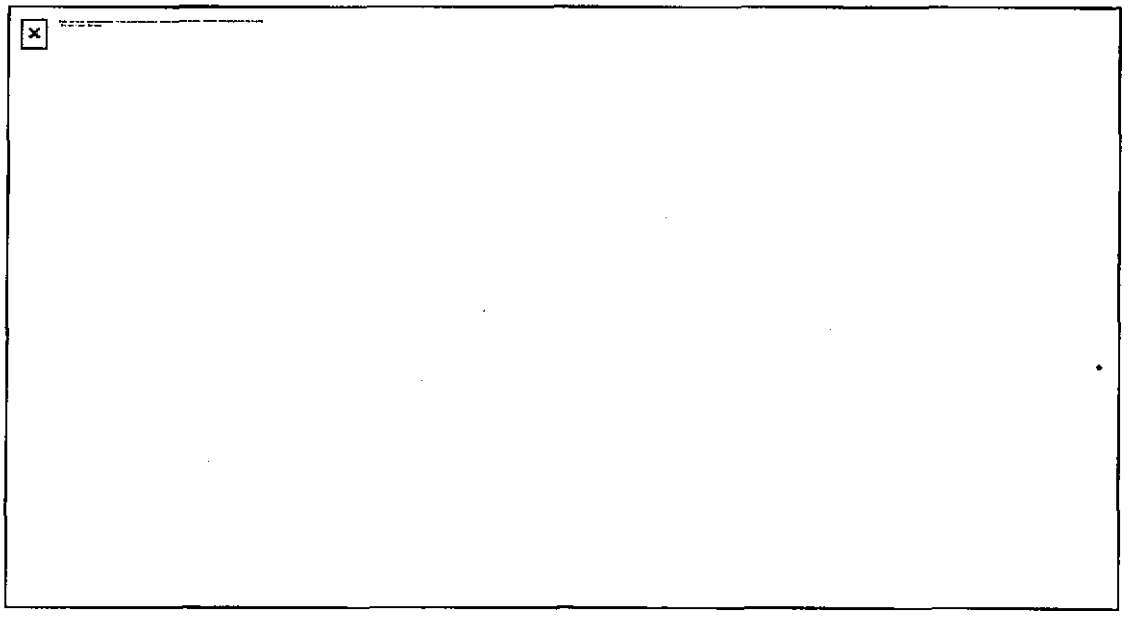
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

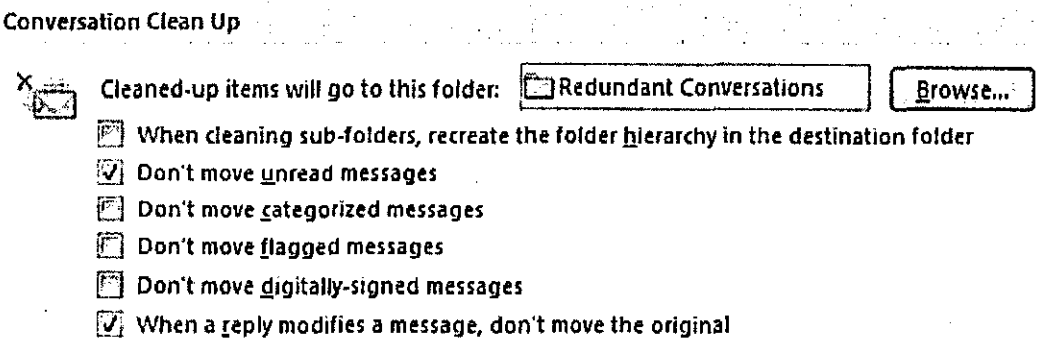
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

Subject: Michigan 529 College Savings Program Webinars

Michigan Education Trust (MET) and Michigan Education Savings Program (MESP) are encouraging parents and grandparents to learn more about college savings by offering monthly webinars beginning in January through October on the second and fourth Tuesday of the month as well as November 15 and December 6, 2016. These webinars will cover program details of MET and MESP.

Webinar sessions are scheduled to last one hour including time for questions and answers. You may be allowed administrative leave to participate in a webinar; however, you must obtain your supervisor's approval before participating. If you are unable to participate in a scheduled Webinar, a power point document is available.

To participate in a webinar session, visit the calendar of events to select the date you would like to participate. Once you have selected a webinar, click "RSVP today" and the "RSVP" site will provide login instructions.

Questions regarding the scheduled Webinars may be directed to the MET office at (517) 241-4884 or 1-800-638-4543 outside the Lansing area. Program information may be obtained by calling MET at 1-800-MET-4-KID (1-800-638-4543) or MESP at 1-877-861-MESP (1-877-861-6377). Enrollment booklets are available on line at MET www.SETwithMET.com or MESP www.misaves.com.

All,

Here the draft for the first Situation Report.
I was planning on publishing this draft around noon today, and publish an updated SitRep2 with additional measurable objectives for distribution of filters, water, testkits, nutritional assistance for the next OP before the end of the day. Most of the day here was overtaken by donations management and logistics considerations, so I wasn't able to finalize SitRep1 or establish the objectives here with the EMC and staff that is involved in the Ops side of things here.

Please just use for information and do not publish.

Thanks,
Henrik

Subject: Water and Filter Lists

By the time I get in the office, ~0930, I want a list of water distribution sites, address, hours open, status of water, etc. Info was sent to GIS by Chris D yesterday on water locations and filter locations. I want a map of all these also so we can determine if we need more locations.

This is a priority. Real or perceived, I do not feel we are moving quick enough. I checked some of the tasks and am not seeing entries where work is being done but agencies may just not be entering the info. I am concern that Richard is over tasked. DHHS needs more support so someone get with Richard on that to see if this is accurate and if he needs help.

I have been on the phone with Chris D this morning to discuss some of my concerns.

Right around the corner will be a request for assistance with nutrition support and that will take a lot of resources.

Importance: High

Good afternoon, Pam.

Per our conversation, I was in attendance at the SEOC from 11:03a to 3:45p. With the recent transition of these responsibilities at MTED, I have not been trained on/logged in to the SIMs system to date. Therefore, this message contains the report from Michigan Department of Talent and Economic Development (MTED), due by 4:30p:

MSHDA

1. Allowable: Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint.
2. Allowable: Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
3. Allowable: Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
4. Allowable: Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
5. Allowable: Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
6. Allowable: Purchase of water for low income households (50% AMI).
7. Allowable: Purchase of water filters for any low income households (50% AMI).
8. Allowable: public awareness through HDF grants

- The grants staff team is already drafting the necessary background materials for a potential grant application request. We would just need to know the recipient of the grant and purpose (allowable uses).

- We are exploring CDBG grant funds or other assistance from HUD.

MSF/MEDC

- MSF/MEDC had offered low interest loans as part of the deep freeze crisis. While this would require legislative action to authorize, it is something that could be considered in this scenario. It would require re-purposing any remaining funds.

Please let me know if there is additional information required. I *am* receiving the SEOC emails/voicemails.
As a side note, Melanie Brown has been temporarily reassigned to DEQ during the Flint Water Crisis. Jeremy Hendges will be acting as PIO for TED (cc'd on this message).

Thank you for your assistance, Pam.

Regional Weather and Impacts

Ardent Mills Says Resumes Operations At Illinois Flour Mill After Flooding
(Reuters)
Alton, Illinois: The largest U.S. flour miller Ardent Mills has resumed bulk shipments at a mill in Alton, Illinois, as floodwaters along the Mississippi River receded while a mill in Chester, Illinois, "likely will be down for multiple weeks," company spokeswoman Mary Ann Strombitski said on Tuesday. Near-record high floodwaters following deadly winter storms forced the company to shut down the mills a week ago.

Federal Officials Make Recommendations To Prevent Future Flood Damage
(WSIL ABC 3)

Grand Tower, Illinois: Federal development officials are touring areas affected by flooding throughout the southern Illinois region. They are assessing ways government aid can help communities recover and rebuild. A group of Delta Regional Authority employees made several stops, including the levee in Grand Tower. Their goal is to figure out exactly what investments will help make local flood protection sustainable for years to come. As federal officials tour Jackson County with Delta Regional Authority - they also recommend installing a better river gauge on the Big Muddy and creating an overpass road above the Cora levee to prevent Route 3 from closing down. Damage in Jackson County varies. Most levees along the Mississippi River held up, while chunks of the Big Muddy levee were eroded away. Some say Jackson County got lucky. The Len Small Levee near Olive Branch in Alexander County did breach, flooding dozens of properties and putting some local residents out of a job.The levee could take months to repair. Emergency officials are considering how soon to lift their recommendation for voluntarily evacuation.

Alexander County Levee Break Will Bring More Challenges
(Southern Illinoisan)
Illinois: The grim reality of unseasonable flooding that led to a levee break in Alexander County last week might be compounded when high waters finally recede. After the 1993 flood, it cost about $4 million to repair the Len Small Levee, said Alexander County Board Chairman Chalen Tatum. He also pointed out that the '93 levee break was smaller than last week's breach. It's too early to know how much the latest breaks — a second, smaller breach occurred sometime after Friday's breach — but Tatum believes repairs will cost more than they did 23 years ago, just considering inflation. The good news is the U.S. Army Corps of Engineers will likely cover 80 percent of those costs if the Levee District meets a long list of conditions, a Corps spokeswoman said. The bad news — in a sparsely populated area of small towns and farmland in one of the state's poorest counties, there's still the 20 percent to come up with It is too soon to tell how bad the levee damage was, at Len Small or elsewhere in Southern Illinois. Most levees in the region, as well as the state within the Corps' St. Louis District, are currently at minimally acceptable or unacceptable status of Corps standards. That means repairs needed outside of flood damage must be locally funded. Most of those levees are also Corps built, unlike the Len Small Levee. For those levees, the Corps will pay 100 percent of the cost for flood-related repairs. Several districts, including the Grand Tower Levee District and the Degonia and Fountain Bluff Levee District have enrolled in a Corps program designed to provide technical advice to restore systems to acceptable levels. Officials in Jackson and Union counties said it is still too early to assess damage, though it appears the flood did not cause significant damage. The worst might be at the Degonia and Fountain Bluff Levee and Drainage District, President Carl Heins said. Some sliding on the levee wall did occur that will likely need to be built back up.

Water Sector
Michigan Governor Declares State of Emergency over Flint's Toxic Tap Water
(Weather.com)
Michigan: Michigan Gov. Rick Snyder has declared a state of emergency in Flint and Genesee County due to a contaminated drinking water crisis. Coincidentally, this declaration came on the same day that the U.S. Attorney's Office confirmed its investigation into the contamination of Flint's water supply, according to the Detroit Free Press. "The health and welfare of Flint residents is a top priority and we're committed to a coordinated approach with resources from state agencies to address all aspects of this situation," said Snyder in a press release. "Working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, we will find both short-term and long-term solutions to ensure the health and safety of Flint residents." In 2014, Flint swapped over from Detroit's water system to water from the Flint River in an effort to cut costs, reports FOX News. It was a temporary set up until a pipeline was built from Lake Huron. The change did not go unnoticed by residents, who complained about the taste of the water, as well as its smell and appearance. The issues worsened as elevated levels of lead were found in children as a result of drinking the water. In October 2015, the city returned to Detroit's drinking water. "The damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services," said Snyder in the declaration. The emergency declaration makes federal aid possible. Snyder can request a damage assessment from the Federal Emergency Management Agency (FEMA) to use as a basis for determining eligibility for federal aid.

Federal Officials Probe Lead-Tainted Water In Flint, Michigan

(Reuters)

Michigan: Federal officials are investigating the lead contamination of drinking water in Flint, Michigan, after the financially beleaguered city switched sources to save money, a spokeswoman for the U.S. Attorney in Detroit said on Tuesday. Michigan Governor Rick Snyder apologized in late December for the state's mishandling of lead contamination of Flint's water supply and accepted the resignation of the state official whose department is responsible for overseeing water quality. The U.S. Attorney's Office is working closely with the U.S. Environmental Protection Agency to address the concerns of Flint residents and investigate the contamination of Flint's water supply, said Gina Balaya, a spokeswoman for the U.S. Attorney. Snyder later on Tuesday declared a state of emergency in Genessee County, which includes Flint, authorizing additional state resources to address the health and safety issues. The city declared a local emergency in mid-December. Snyder spokesman Dave Murray said the state would cooperate with any requests from the U.S. Attorney's Office "as it looks into Flint's water challenges." The governor has appointed an independent panel to review local, state and federal actions related to the drinking water situation and is working with city and county leaders, he said.

Boil Water Advisory Issued For Belle Isle

(The Detroit News)

Michigan: There is a boil water advisory in effect on Belle Isle after low water pressure and low chlorine levels were detected Tuesday, according to the Michigan Department of Natural Resources. "Bacteria levels came out negative which means that's OK, but the chlorine levels are still low," said Ron Olson, chief of parks and recreation for the DNR. "The suspicion is because the water pressure is low, that may affect the chlorine levels." The issue was detected around 12 p.m. Tuesday after city officials tested water near the island's Coast Guard outpost, which recently had been experiencing varying levels of water pressure, Olson said. Belle Isle is hooked up to the city's water and sewerage system. Further testing showed no harmful bacteria in the water but officials determined the water "may not be potable" due to the low pressure and low chlorine, Olson said. The advisory was issued "as a precautionary measure." Several agencies including the city, the DNR and the Michigan Department of Environmental Quality are working to pinpoint the cause of the low water pressure, Olson said. Meanwhile, Olson said aquatic life at the island's aquarium are protected in their controlled tank environments.

Communications/Information Technology Sector

DHS Issues Process and Privacy Guidance on State and Local Drones

(Electronic Frontier Foundation)

National: Just before the holidays, a Department of Homeland Security (DHS) working group released guidance for state and local agencies using drone aircraft. The document, Best Practices for Protecting Privacy, Civil Rights & Civil Liberties In Unmanned Aircraft Systems Programs, addresses concerns over the implications of high-tech tools that, without rigorous controls and oversight embedded in law and embodied in code, can easily be abused. Some aspects of the guidance construct a robust process surrounding the adoption of drones. For instance, it suggests consultation with legal counsel and issue experts, as well as a clear definition of a program's mission and scope. The guidance also recommends ongoing assessment of privacy impacts and a redress program. Other more substantive provisions address the use of drones themselves. For instance, the DHS guidance suggests limits on how drones collect data, how the data used, how long it is retained, and to whom and for what purposes it is disseminated. At root, the guidance remains advisory, binding neither state nor local agencies, nor even agencies within DHS itself. Longstanding concerns about inadequate transparency and protections by DHS component agencies will remain and continue to mount. The guidance is also limited to particular settings. The working group said its guidance was "intended for first responders (e.g., emergency management, emergency medical service, fire departments, and security professionals responding to disasters and other emergencies) and does not seek to provide guidance in regard to investigative use of [drones]," despite the group's recognition of historical patterns of recurring abuses by law enforcement agencies.

Very Respectfully,

Cornelius C. Miller

Dr. Wells, Mr. Krisztian,

Attached please find a draft for the Executive Summary to be included in the first Situation Report for this incident, which will be published on MI CIMS later today.
The Executive Summary is supposed to provide a brief overview of the incident to increase situational awareness of responding agencies.

If you can find time, please review the draft to see if any statements that relate to the area of expertise of your agencies are incorrect, or if you can recommend any additions.

Subject: Objectives

1. Activate the State Recovery Task Force
2. Ensure coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate subject matter experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish operational period and hours of operations.
5. Investigate and identify available programs for assistance with direct or related impacts.
6. Develop a comprehensive GIS strategy.
7. Identify critical resources for acquisition and allocation.
8. Coordinate response and recovery activities and identify mission areas with MIVOAD.
9. Facilitate and coordinate technical assistance among state agencies and to local agencies.
10. Provide technical assistance and facilitate the local Damage Assessment process.
11. Establish a Joint Information Center and develop a public information strategy.
12. Monitor MI CIMS for resource requests and address as appropriate.
13. Establish and disseminate cost center information for the incident.

Subject: GIS Update

Today the following was accomplished by EMHSD GIS:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call in to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25th Water Monitoring Results (Partial, some data remains to be digitized)
    - Effected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to get data

During the next day GIS staff will

- Conduct the first synch call with GIS staff including identified specialists who prepared the predictive analysis layer
- Begin production of planning maps
- Update any out of date data
- Continue identifying partners supporting Flint Water GIS

Subject: RE: SitRep1 Executive Summary

Thanks, Henrik
I do actually have some recommendations...

The first involves the nature of the wording of the overall incident.

1. Instead of "introduction of lead into the public water supply, which has caused elevated blood lead levels" I would suggest wording which does not suggest a clear causal effect: "presence of lead in the public water supply, and the detection of elevated blood lead levels"

Studying the rest for factual accuracy, according to my knowledge so far, leads to the following notes:

2. I have an official Flint water report stating May 2014 as the start of Flint River water, not April, so I think that may need to be changed.
3. In the next sentence, I doubt whether the water should be called "untreated" – one of their solutions for over-chlorination (ferric chloride to offset total trihalomethane levels) seems to have been a partial cause of accelerated corrosion.
4. "Elevated blood lead levels in young children" might be interpreted as "all young children in Flint" unless it is worded more carefully.
5. My notes from MDEQ this morning had Oct. 15 as the date of returning to Detroit water... I can double-check that with other sources.
6. The abbreviation for Detroit water should be DWSD, but the third paragraph says "DSWS" and "DWSW" and these should be corrected.

Hope you find this initial input to be of use.
I'll be doing some more study to further assess this information. I have some really useful official documents from Flint with good info to be sorted through and compared...
Thanks!

Subject: SitRep1 Executive Summary

Mike,

Here the first draft for the Executive Summary for the first SitRep.

Thanks,
Henrik

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the introduction of lead into the public water supply, which has caused elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

In April 2014, the City of Flint switched from the Detroit Water and Sewer Department (DWSD) to the Flint River as their primary water source. The untreated corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels in young children were observed in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWS as their primary water source on October 16, 2015. Funding to reconnect to DWSW was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSW system, water in the City of Flint is still not safe to drink.

Good afternoon Dr. Wells,

We are working on the first SEOC Situation Report for later today. One of the categories is identifying injuries from the incident. I wanted to seek your guidance on what to consider an injury: just the child who was hospitalize? The number of individuals who have EBLs? Over a certain level?

I appreciate any guidance you could offer on this point. I've also copied this to our Situation Unit Leader who is drafting the SitRep.

Thanks again!

Water Resource Team Plan for Saturday, 01.16.16_V2.0_FINAL

Water Resource Team Commander	Lt. Paul Pummil	
Red Cross OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Wards
MSP	10 Type III	3000 HH	Refer to Target Area Prioritization Map
Red Cross	10 Type V	1000 HH	Refer to Target Area Prioritization Map

Resource Status

Team Type & Quantity	Type: Type III Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
16ft trucks	10	10		01.15.16	2330
Truck Drivers	10	10		01.15.16	2330
Volunteers	60-90	70		01.15.16	2330
Chase Vehicle for 6-9 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	3000	X		01.15.16	2330

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
ERV	10	10		01.15.16	2330
Truck Drivers	10	10		01.15.16	2330
Volunteers	20-40	40		01.15.16	2330
Chase Vehicle for 2-4 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	1000	X		01.15.16	2330

Execution:

Team	Assembly Area	Hours of Operation	
MSP	LEOC 1101 Beach St, Flint	0900-1700	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-Dusk	
Warehouse	4315 North Clio Road, Flint	0700-1900	

Critical Task: Assemble, coordinate, and monitor Water Resource Teams (WRT)
Tactics:

1. *Assign team leaders, team members, and routes to teams*
2. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings
3. Issue boxed lunch if available
4. Issue vest and badge to team members
5. Provide training to new team members
6. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

MSP WRTs will be issued lunch prior to team departure if available. If not, WRTs will return to LEOC to receive lunch

Reporting:

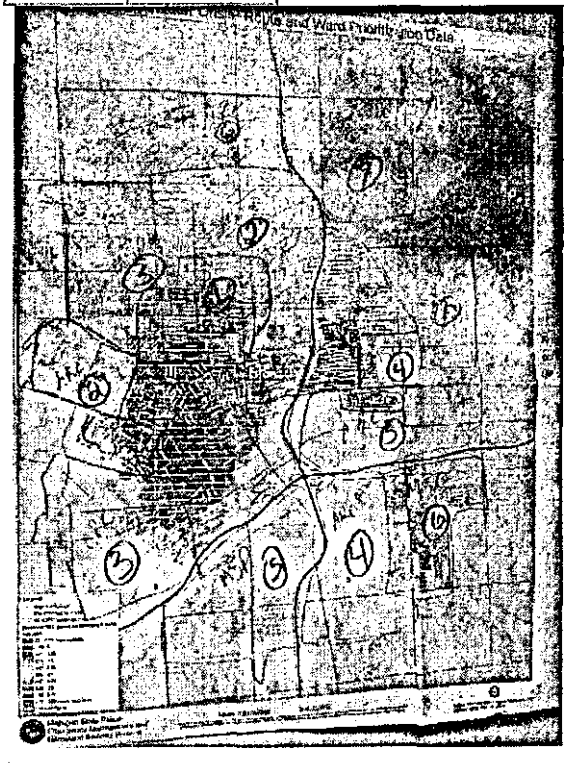
Tactics:

1. All WRTs will utilize ipads as primary reporting method and paper tracking as seconday method if ipads fail

Target Area Prioritization Map

Key

MSP	Black 1-7
ARC	Blue 1-6



Mike Sobocinski's notes on January 15, 2015 - 2nd daily SEOC briefing (4:00am):

MSP SEOC Planning Section (Amanda Bresler): Goes over upcoming battle rhythm items.

MSP SEOC Operations (Gabe Covey): Must ensure adequate supplies at the pods and the warehouse. Obtain volunteer numbers for tomorrow.

(Health and Environmental Branch: includes the next several agencies, including Red Cross)

MDHHS (Kathy Wald): Getting addresses for medically dependent persons. Following up on "the lab issue from this morning." Offer from SAMSA (?) to activate hot line. [A couple other items, too fast to capture in notes]

MDARD (Brad Deacon): Training staff to be able to test samples, prepare and visit sites.

MDLARA (Alisha Gensler?): Helping DEQ with school water testing. [1st comments to fast to capture in notes]

MDEQ (Jen Wolf): Plan coordinator is establishing teams for the school water testing. By February 6, the whole program will be running, but by next weekend, (some initial more urgent parts of it will be implemented?) 2600 test kits left in the pods (?something about 2 days?). About 1100 test kits coming in today. Have ordered another 28,000, to arrive in the next couple of weeks. The total amounts to more than one test kit per Flint home since the declaration started. Labs are staying open on the weekend and the Monday holiday.

"Human Services Branch" (Rich Thelen): Processing filter and replacement cartridges – more than 30,000 each. Requested after-hours contact person [I didn't catch where or with whom].

MDOE (Kevin Walters): Working with Civil Rights for student and staff counts for all educational institutions, to deliver the EPA message.

MDHHS (don't know who?) A few I-Pad "hiccups" were clearing up well this afternoon. (Jeannette Doll, MDTMB: over 30,000 [of something] are available through Home Depot.)

MOSA? "Aging and Adult Services" (Steve Betterly): We've sent more than 80 additional addresses to GIS, from the local area agency on aging, for mapping. Working on the Recovery Resource Guide.

ARC (Paul Spata): Operating the Volunteer Reception Center, putting supplies in the field. Coffee was being provided for volunteers, the JIC, etc., and tomorrow this will expand to actually provide meals. 20 volunteers are assigned tomorrow (for kit assembly?) The warehouse and inventory management activity continues.

MSP Public Safety (Matt Bolger): Working on distribution mechanism with ARC. Want to pre-load trucks during the night. Over 50,000 homes visited [if I caught this information correctly]. Volunteer staffing numbers were provided for the coming 3-day weekend period.

MDOC (don't know who?): Adding two 24-foot trucks and drivers. Working to add 5 more for the next operational period.

MDMVA (don't know who?): 34 soldiers active—a couple in the Genesee County EOC and the JIC, and the remaining 32 distributed across the 5 pods.

MDTMB (Jeannette Doll): Received notification of more than 300 identification badges ready to be used this weekend. 30 additional I-Pads, which SEOC GIS will load software onto. A dumpster is headed to Clio Road. Notify that additional traffic will be going to the state lab over the weekend.

Local EOC EMHSD liaison ([garbled name over phone?]): Working to re-establish local fire stations as ([distribution/receiving points?]). (Capt. Kelenske: The mayor said that samples will not be received there. We must have a consistent message on this topic.)

MSP SEOC Logistics Section (Wendy Galbreath): Two sites are still open, but are moving to consolidate to one at Clio Road warehouse. We want 4 out of the 20 vehicles to be pre-loaded tonight—only 4, so that water won't be frozen in the outdoor temperatures. Rain parkas are on their way to ARC and EOC locations.

MSP SEOC Planning Section (Amanda Bresler): [something..] warehouse data, app numbers, [something else] numbers should therefore be available here to analyze.

SEOC Recovery Branch (MSP Brianna Briggs): Good progress today. Plan in place. Supply the pods first, *then the teams. Pre-load vehicles with potentially everything needed throughout day, with a resupply* then available if needed.

ARC (Lauren Twohig): We want to increase resource teams and daily volume, to increase the number of households reached.

PIO (Nicole Lisabeth): Capt. Kelenske gave a legislative briefing. We updated the talking points. We'd like to issue a news release containing specific numbers on personnel and resource distribution, but we still need to confirm some of these numbers before the press release can be made. The ARC news release will probably be delayed a couple of days. The MING could still get a news release out today. MDHHS has new blood level test results, to be placed online as soon as possible. An inquiry was received from Jackson, MI regional HHS regarding donated water plus a Wal Mart truck, but it is best to have a coordinated statewide response over separate individual agency activities. Media were at the *Genesee County office building all day today, due to Governor and Mayor meetings. Still awaiting a city* PIO at the JIC. Updating web site information on 2-1-1 and other topics. Confusion exists regarding FEMA, which is not actually a source of the water so far. The JIC is getting requests (media and legislative) for the presidential declaration request letter itself. The Governor did release yesterday's letter to Detroit newspapers. (Capt. Kelenske: concerned that information from such a release is not final, and therefore will require clarification.) We're requesting better coordination with Governor's office, etc.

Capt. Kelenske: SEOC operating hours are still 8am to 8pm until the situation stabilizes. Please arrange staffing for your agency. Leave contact information if not directly represented by a person at the SEOC. The JIC should be prepared for an upcoming legislative call with the Captain and FCO, when a response is received on the declaration request. We want to increase MING staff from 50 to over 65, but that will need to be approved first. A group [I didn't note who] is doing some sort of mobile testing in Flint. There was an SEOC briefing on stress and emotions, providing handouts with tips—take a minute to obtain and read those. The Lieutenant-Governor is here.

Lt. Gov. Brian Calley: Offering thanks and appreciation. The anxiety level in Flint is being reduced. As immediate needs are being met, longer-term aspects can be more focused on. Thanks for the high level of professionalism under trying and difficult circumstances.

MSP Amanda Bresler: Situation reports due at 6pm. Next briefing will be tomorrow at 9:30am.

Water Resource Team: Concept of Operations and Support

Goal: Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (Vehicles, Members) Product
        ii. *Priority: Wards/Precincts*
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Lunch
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: MSP
    c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: MSP Water Resource Commander
    c. Responsible: All Water Resource Teams

Team Typing

	Mission # of Households (HH)	Truck	Truck Driver	Team Members	Chase Vehicle (s)	Chase Driver (s)

Mike Sobocinski's notes on January 15, 2015 - 1st daily SEOC briefing (9:30am):

MSP SEOC Planning Section (Amanda Bresler): Reads off the battle rhythm for the day. Yesterday's IAP was approved.

MSP SEOC Operations (Gabe Covey): The top priority today is tracking to ensure that adequate staff and resources are in the field. We are setting up the Water Resource Teams for the weekend. The Governor had asked for a declaration of both an emergency and disaster by the federal government yesterday. Working to improve coordination with JIC.

National Weather Service (Jim Askow sp?): It will be about 40 degrees F all day today but afternoon rains will cause some slippery conditions. Temperatures drop tonight. It will be very cold Saturday through next week. Standing water will freeze in place tomorrow morning. Sunday's high temperature will be about 15 degrees F. Becoming breezy on later days, through next week, again resulting in circumstances in which exposed skin risks frostbite in 15 to 30 minutes outdoors.

Capt. Kelenske: We have intended to give credit to all who were involved, but some agencies were recently missed when trying to list them all.

(Health and Environmental Branch: next several respondents)

[redacted] (Kathy Wald): The CHECC will be open Saturday, Sunday, and Monday, helping with the county phone banks on those days. Coordinating with GIS regarding those who are dependent upon medical equipment in their homes. Data is being obtained and provided to GIS. Genesee County Health Department requesting 10,000 copies of an EPA document, so MDTMB will arrange (Capt. Kelenske: or EPA itself can provide them).

MDARD (Brad Deacon): Prioritizing food facilities for follow-up next week. Coordinating with DEQ.

LARA ([redacted]): 20% of the 244 health facilities [something... Too fast for notetaking]

MDEQ (Jen Wolf): Working on teams for the plan [for? and?] testing water [at schools?]. Logistics of 10,000 water bottles' assembly and distribution.

"Human Services Branch" [MDHHS? (Rich, Thelen?)]: Filter and cartridge numbers were stated. Reordering is necessary today. Met with Finance, figuring out stuff with others. (Capt. Kelenske: Yesterday there was a budget meeting with SBO [redacted].)

MI Dept. of Education (Kevin Wolff?): Coordinating with private and parochial schools. [something else; didn't catch it]

Dept. of Civil Rights (Mark Bishop): The EPA document is available online in multiple languages, has been handed out at schools. Would be good to coordinate with these other agencies and order more copies to meet everyone's needs.

[redacted] (Brian [redacted]): door-to-door [something. TOO FAST FOR NOTETAKING!]

State Office Services to the Aging (Steve Betterly): The Valley Area office (and Kathy Bolz) referral issue has been resolved by MSP Michelle Kuzera. 400 new addresses of "my choice waiver clients" [redacted] were received and forwarded to GIS. Information on independent and assisted living facilities in Flint (non-regulated congregate settings) to overlay onto the existing heat map. Received question on

Legionnaire's Disease—any connection known? (Capt. Kelenske: no known connection. May need to put out a statement from DHHS or the Governor for PIO use.) Question on whether the heat map (by Dr. Mona Hanna-Attisha) is available to the public. (Capt. Kelenske: It is already available, open source.)

American Red Cross (Paul Spata): Many persons are asking about Legionnaire's Disease at the Flint fire stations. (Capt. Kelenske: Again, we will check this morning with the Governor on how to keep these topics disconnected. It's okay for fire stations to refer people to the web site, but there's a problem with providing handouts there and connecting the topics.) Five sites were staffed by ARC yesterday, but the MI National Guard takes over the staffing today. ARC is supporting the Water Response Teams today, and continuing to operate the Volunteer Reception Center. Supporting the distribution of materials, and providing warehouse operations management.

ARC (Lauren Twohig): Describes some sort of coordination. [Too fast for notetaking]

MSP ([? Over phone]): States various numbers of volunteer state employees. 10 teams are in the field, in wards 5 to 7 of the city. The ARC has an additional 5 teams, focusing on Ward 6. The I-Pad issue was partly the result of low temperatures, and partly related to software and operator handling of the software. Working with MDTMB on software to prevent I-Pad problems. (Capt. Kelenske: If there is a way to weatherproof them, let us know how to help.) Could use rain ponchos. (Capt. Kelenske: Will do.) Various sign-ups so far for working on Saturday (24), Sunday (39), and Monday (46). Working with Penske on truck donations.

MI Dept. of Corrections ([?]): Total of 14 vehicles including a handicap-accessible van.

MI National Guard (Lt.-Col. Randall): "O and O" [?] at local EOC. Have been transitioning into pods, which is going well. (Capt. Kelenske: TAG discussions—will provide info separately, soon. No tents are to be used.)

MDTMB (Jeannette Doll): Specialized items are available at the Mundy Township Home Depot, to use in the pilot (such as water bubblers). Volunteer identification badges should be available today. (Capt. Kelenske: We'll discuss re: "Volunteer" on badge design, since not all workers are volunteers.) Something was also said about fuel cards and employee "Survey Monkey" [unclear].

Attorney General (Peter Manning): Will be submitting some legal questions.

MSP SEOC Logistics Section (Wendy Galbreath): Working with Jeannette Doll (MDTMB) on the consolidated warehouse. Today is day 1 of the plan.

MSP SEOC Planning Section (Amanda Bresler): Situation reports due again by 6pm today.

MSP Recovery Branch (Brianna Briggs): Working on the weekend team logistics, and on identifying standardized information to be submitted daily (rather than repeatedly asked for).

PIO/JIC (Nicole Lisabeth): The Governor stopped by at a fire station, unannounced. Positive media regarding the federal declaration request that was made. No known media errors identified lately. A legislative briefing occurs today. There have been a couple requests for the presidential request letter (Capt. Kelenske: Not available publicly yet. Its release is to be discussed first for approval.) Today there are 3 news releases. Potential on Saturday for [something]. Attorney General Schuette: sending out some info on his investigation. Today there is a Time Magazine interview with Dr. Eden Wells. Please notify the JIC of any agency messages that are being sent out. A Governor's statement is being made

today about returning additional powers to the Flint mayor. The Genesee County Health Department is on furlough right now, so people should dial 2-1-1 instead.

MSP Capt. Kelenske: At about 11am, 50,000 phone lines in Flint will receive a message from the Governor. This could cause a spike in calls to 2-1-1 as well as in the demand for supplies. Would like to get a briefing to the Mayor of Flint and to the Governor, summarizing agency actions. Please send bullet points to Gabe Covey (MSP Operations Chief) for him to assemble for this list of specific things being done. More items are better for the list, but each item should be short. SEOC hours will continue to be from 8a to 8p on Saturday, Sunday, and Monday. The #1 focus is on the pods, for distribution of water resources to Flint. If necessary, the field teams will support these pods if there is a need.

Mike Sobocinski's notes on January 14, 2015 - 2nd daily SEOC briefing (4:00am):

[NOTE: The initial tactics was much too rapidly paced to take notes on, and its content should be available once the ICS 204 forms are all submitted.]

(Health and Environmental Branch: first several respondents, including Office on Aging)

DHHS (Jennifer ?): Working on nutrition plan and behavioral health work.

MDARD (Brad Deacon): *Food guidance went out in today's mail. Now working to prioritize sites in the most at-risk zones (the redder zones on a map) for forthcoming inspections.*

MDEQ (Jen Wolf): Only 80 samples are present at Flint, perhaps because the only two collection sites for them are at City Hall and the Water Treatment Plant, and the plant might not be on the bus transit routes. May need to make fire stations into collection points, but indications had been that they didn't want to be responsible. The governor wants 8 teams—staff is needed who have some scientific background. Many bottles are coming in (overseen by American Red Cross?) Lot testing is needed to verify bottle cleanliness after they've been received from the vendor.

MDLARA (Karen Towne): *Supplies were received. Pilot project installation to occur Saturday, with testing on Sunday.*

MDHHS (Brian Wilson): Volunteers in the field have been receiving a lot of positive feedback from the community. IPad operation was much better today—fewer delays.

American Red Cross (ARC) (Lauren ?): Standardization of water response teams [??Can't be sure this completely represents her statement...It went by too quickly.]

ARC (Paul Spata): Continued to staff the 5 fire stations. Coordinating with MING regarding their staffing over the weekend.

State Office on Aging (Steve Betterley): Coordination of referrals problem was successfully solved by Michelle Kuzera. Still in the process of identifying senior addresses in Flint who may need assistance.

MSP Public Safety: [some 2330 number rattled off along with a bunch of other stuff. Possibly the number is a cumulative number of doors visited to date by field teams?? Way too much info, presented in too fleeting a manner to capture any of it in written notes. ☹☹☹☹☹☹☹☹☹☹☹☹]

MDMVA/MING (unidentified speaker in SEOC): Hotel rooms confirmed for 35 [something—soldiers?] who will be there. Each pod is to have a government phone (and?) Blackberries. List provided to planners. Providing liaison to local EOC and a PIO to the JIC.

MDTMB (Jeannette Doll?): Four U-Haul trucks were obtained. Working on resource requests all day.

Local EOC MSP Liaison (Lt. B.J. Roach): *Working with churches to coordinate.* (Capt. Kelenske: Is a person available to handle that duty and thus free her up for many other tasks?)

MSP Logistics (Wendy Galbreath): Many requests regarding volunteer donations. Penske offered 15 to 20 trucks, Dean transportation has drivers available. Confusion regarding whether to go to EOC or to GCCARD, but that's now cleared up. MSHDA's 24 Flint properties are to get filters installed. "Zero water" [?] news event—to offer match (i.e. donations) of filters.

MSP SEOC Planning (Amanda Bresler): Logistics resource plan and IAP work today—need info as soon as possible. Situation reports are due by 6pm.

MSP Recovery Team (Kriste Davis): Planning involving the teams and coordination (mostly covered by others).

JIC/PIO (Shannon [redacted]): The email for state employees has been drafted, and is being reviewed. Several media requests received for warehouse events but need to be delayed until the transition is done and the warehouse is operating smoothly (in about 2 days?). Found no major media errors today. Many questions are pending and the list of them is growing in number—need info from the SEOC to answer them—especially needed for rumor control, since the same questions are being asked by activists. Trouble getting in contact with local community PIOs and need help to contact them. (Capt. Kelenske: need documentation of unsuccessful contact efforts, and submission of an actual list of questions; a follow-up call will occur on this topic.)

Capt. Kelenske: Met with TAG ([redacted]) today—General Vadinez ([redacted]). There's an issue involving used empty water bottles—a recycling system needs to be provided (regardless of whether it actually receives widespread use) so there isn't an issue with empty bottles everywhere. West Virginia has an after-action report which probably has good ideas about handling this. The next briefing will be tomorrow at 9:30am.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through XXX
            2. Red Cross will conduct transition brief with Michigan National Guard on XXX
            3. Michigan National Guard will assume staffing responsibility as of XXX
         ii. Mobile Distribution is being conducted via Water Resource Teams
            1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water Resource Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave, Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western, Flint, MI 48506	0900-2100

Water Resource Site Fire Station 6	716 West Pierson, Flint, MI 48505	-0900-2100
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	-0900-2100

2. POD Product Composition
    1. *NEED FROM SHAWN*

ii. Mobile Distribution is being conducted via Water Resource Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
        2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        4. Red Cross will manage the Volunteer Reception Center
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

Comment [JE1]: To get resources for this operation should local EOC call SEOC or Logistics? -Jay

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI		John Foust
Court	3086 East Court Street		John Foust

    iv. Volunteer Reception Center
        1. 1 location managed by American Red Cross
        2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, Mi 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
      https://docs.google.com/spreadsheets/d/1wXVQvQ2lJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
   6. Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

Comment [JE2]: In the google doc Henrik is listed as the local logistics POC. He is planning section in the EOC. Jay Eickholt is the current Logistics POC.

Distribution Reporting

Mike Sobocinski's notes on January 14, 2015 - 1st daily SEOC briefing (9:30am):

MSP SEOC Planning (Amanda Bresler): A 10:30am distribution process meeting has been added to the battle rhythm. Today is a "planning day" [this phrase was still not clearly explained but might refer to the development of a new IAP]. 12:30pm submission deadline for the ICS 204 form. Developing the IAP for the next operational period. (Numerous objectives were read aloud.)

MDEQ (George [redacted]): There's been a question of when the water is to be considered safe. A tentative SEOC answer (*not for public dissemination yet*) – since the question is complex, it will result from a consensus decision of all major partners, including locals. Copper and lead rules: a new 6-month monitoring period has just begun in Flint, involving a June 30 deadline for 60 samples to be tested for Cu, Pb. This routine schedule is of course too long for our current circumstances. Since December 9, phosphate supplements had been added to discourage pipe corrosion, rebuild a protective layer. There's a meeting with the Flint mayor regarding various system access points beyond the Pb and Cu rule's minimum test requirements. Seeking resident volunteers for monthly water test, to start analyzing trends over time. (Capt. Kelenske: It's being asked during the door-to-door visits, and over 60 so far have agreed. This info will be sent to DEQ.)

MSP SEOC Operations Section (Gabe Covey): An additional 80,000 square feet of warehouse space has been secured.

National Weather Service (Jim Askew[redacted]): Temperatures go up to the freezing point today. A mixture of snow and drizzle with the potential for icy roads where roads have been left untreated. Tomorrow from about 11am until about 6pm we expect rain showers, with the high temperatures around 40 degrees F. Not too much rain, a little ponding potential. Then from Friday evening, a little snow, as Saturday temperatures would be back down in the teens again and also during next week. Just one brief warm-up over the next day.

(Health and Environmental Branch, next few agencies)

MDHHS (Jennifer [redacted]): Subject matter experts are in the CHECC working on yesterday's question regarding emergency vs. disaster eligibility of a particular program under the Stafford Act. Working on the stress effects of the event upon mental health. Developing educational materials and messaging. Developing short and long-term goals regarding the "food desert situation." [NOTE: Afterward, I gave her my contact info to join discussion of definitions and alternatives, related transportation access ideas such as providing paid bus passes to improve food access.]

MDARD (Brad Deacon): A revised handout was approved and is being mailed out to food service locations, and web posting. Inspections of these locations will begin.

MDLARA (Karen Towne): Something about a pilot project (involving, or in addition to?) insulation and retesting. There's a question involving licensed in-home child-care facilities (up to 6 kids?) and asking them whether they want to be water testing sites. Will research whether the authority exists to require testing.

MDEQ (Jen Wolf): Ensuring the transport and storage of water test kits. Heard a report of non-residential (e.g. businesses) told that the kits were only for residential units, but this is not true and therefore must be corrected. Test kits, etc. are free to all, not just residential: "No one gets turned away for anything."

MDHHS? (Richard Thelen): A database with more than 17,000 addresses was supplied to the GIS section. 2-1-1 inquiry regarding whether State Emergency Relief (SER) is available. Will need to develop messaging on this topic, to explain to everyone what it is and what is available.

Lauren (Loren?) of the American Red Cross?: A logistics pipeline plan [is/was/is being?] developed.

American Red Cross (Paul Spata): Volunteer Reception Center was opened but not yet publicized, because it's first day was to test its processes to ensure they will be up to speed. About 6 volunteers were processed yesterday. Today, it should be fully open. Ten emergency response vehicles were staged to support the response teams in the field.

Department of Education (Louie Burgess): Receiving calls from federal level regarding things like unlicensed child care centers (residential, for up to 4 kids at a time). Checking into information for those inquiries. A 17-level departmental director is now on the educational planning team. The department is seeking contact with the Flint school district for something... [very unclear]

MDHHS (Brian Wilson): Volunteers remain active in Flint.

State Office on Aging? (Steve Betterley): Sent at least 500 additional names to GIS staff yesterday. The Valley Area Agency on Aging raised a question regarding GCCARD: something about it not being involved in something [I didn't discern the details in any coherent way], and Michelle Kuzera, MSP representative at the local EOC, will follow up with Kathy Bolz (sp?) to resolve the issue. Getting information on Medicaid waiver clients. Teri Simmons (sp?) will represent this office for the 4pm briefing.

MSP Public Safety (Inspector Bolger): MSP is at the local EOC. [Phone-in participants interrupted numerous times with information; I'm not totally sure who said what in the end.] Buses are being used to shuttle residents. 36 MSP volunteers available today for Flint activities. Adequate filters and water are on hand right now (at least 1000). Wrapping up with the southwest side of Flint today, and proceeding to the north and northeast sides starting tomorrow. Discussion about different teams having different sizes, creating confusion over estimates of how many total persons are on them...between 4 and 15 persons per team? (Captain Kelenske directs a standardized number on each team, with accurate summary info presented to him in writing. A 10:30am follow-up call was agreed to.) Obtained trailers were not all adequate for their required purpose, such as being open-top trailers—situation must be resolved.

MDMVA / MING (?): All went well yesterday with the National Guard soldiers posted at the fire stations. More than 30 troops are being used today. 1pm media address occurring today. Tomorrow at 9am, 3 soldiers will be assigned to each fire station.

MDTMB (Jeannette Doll): Getting water moved over to Clio. A water-order program is in process. U-Haul trucks are being ordered to fill the MSP resource transportation needs. Have upgraded now to a $30 million Home Depot contract. Replacement filters are important for long-term recovery.

Local EMHSD Liaison [MSP's Michelle Kuzera]: Working on planning tasks and processes for the homebound.

MSP SEOC Logistics (Wendy Galbreath): Site visit took place yesterday (with Lauren) to check into new locations. Three locations are now moving toward one large location at Clio Road, which has its own experienced crew for loading and unloading trucks, plus a Red Cross warehouse manager. Daily logistics meetings now occur at 10:30am (brief) and at 7pm (longer). Court Street and GCCARD will have their resources moved to and consolidated at Clio. (MSP's Kriste Davis: Mission-ready packages MRPs. Working toward standardized teams of similar size, plan being pushed up to work on it today. Yesterday's final numbers turned out to be 492 occupied homes visited (total 653, implied to include vacant ones).) About 2 minutes per door – a good rate of field work.

PIO/JIC (Shannon ?): Reviewing fact sheets. Michigan Association of Broadcasters sending radio PSA today. Received a request for door-to-door team credentialing (with official ID). If this is to be used, info will be needed for official distribution. (Capt. Kelenske: Each team has either a sheriff or MSP vehicle, "marked unit car." Someone else: the problem may be when teams cover an entire block, with the 1 vehicle not easily visible to every household.)

MSP Planning (Amanda Bresler): Improving the pod technology thanks to MSP James Tchorzynski's work there. Meeting with agencies to help with ICS 204 forms. 6pm situation reports are due. Next briefing will be at 4pm.

Capt. Kelenske: Senator Arenic(?) was met with and shown the SEOC; appeared impressed.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. *Mission Statement:*

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. *Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile* Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through **XXX**
            2. Red Cross will conduct transition brief with Michigan National Guard on **XXX**
            3. Michigan National Guard will assume staffing responsibility as of **XXX**
         ii. Mobile Distribution is being conducted via Water Resource Teams
            1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution

v. Resource Request and Tracking Process

1. Pipeline Report
   https://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
6. Volunteer Workforce Request for Volunteer Reception Center
   1. *REQUIRED INFORMATION:*
      i. Who is the Point Of Contact?
      ii. Who is the supervisor?
      iii. Where do volunteers report?
      iv. What Dates are volunteers needed?
      v. What times are volunteers needed?
      vi. How many volunteers are needed?
      vii. Who is providing transportation for the volunteers?
      viii. Who is providing meals, snacks and beverages?
      ix. Are there any qualifications needed?
      x. IMPORTANT NOTE:
         - Brief job description is required
         - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
         - The requestor of the volunteers are responsible for managing and providing direction.
         - 48 hour advance notification required for request.
         - Reasonable expectations of the volunteer workforce

Mike Sobocinski's notes on January 13, 2015 - 2nd daily SEOC briefing (4:00pm):

MSP SEOC (Brianna Briggs): leads the meeting: Agency situation reports are due by 6pm. "Tomorrow is a planning day." [No explanation for this statement was provided.] Agencies, be sure to update 204 forms tactics, especially pods, teams, warehouses, etc.

(Health and Environmental Branch, next few agencies) MDHHS Community Health (Kathy Wahl [sp?]): Working on nutritional plan with several other agencies. Lori ([Laura?]) Sempler ([sp?]) will be the lead on that plan. Disaster behavioral health coordination is occurring, with CHECC exploring options, checking with DTAC at SAMSA [references not explained], targeted to Stafford Act qualifications. (Capt. Kelenske: does it qualify under an emergency such as this? This needs to be verified.) Some wording changes were suggested for the fact sheet.

MDARD (Brad Deacon): Mailing out food establishment requirements—about 800 of them.

MDEQ (Jen Wolf): Conversation about bringing more health people into the ([local?]) EOC.

M???: Two of the 5 trucks loaded with water filters are at the GCCARD. 10,700 filters, [two other large numbers were given for other types of resource there, rattled off too quickly for my poor & tired writing hand to keep up with]

American Red Cross (Paul Spata): Staffing fire station points of distribution. Further coordination with MI National Guard (MING) on staffing. Volunteer reception center was up today; numbers to be reported in the sit rep tonight. Fielding a request to feed field response teams.

MDHHS (Brian Wilson): Their volunteers are still in the field. Heard concerns about some IPads not functioning in the cold, then seemed to work better? Awaiting confirmation of replenished stock.

Offices of Services on Aging (Steve Betterly): Valley Area Agency on Aging has been fielding calls. Something fell apart regarding the schedule of water/filter deliveries—need to get in touch with local EOC on this. (Brian Wilson: probably fixed last night.) (Michelle Kuzera?: Local EOC confirms follow-up to occur [She disappears from phone suddenly, not to reappear]).

Capt. Kelenske: Any more personnel needed by the Sheriff's department for deliveries?

[Unknown replacement on phone from local EOC]: Being handled okay by the locals so far.

Capt. Kelenske: Consider replacing sheriff staff with area health and social work specialists, to better match staff with their expertise and free up sheriff personnel for their normal duties. (Services on Aging ([Steve?]): off-duty teams are available to help with phone lines and resource distribution.)

MSP: Working with MDOT for shuttle vans, working with Public Affairs re: state agency volunteers for the weekend.

MI National Guard (Colonel Reynolds): 1 full-time staff at each of the 5 "pods." Friday morning 9am will resume handing out water at the pods. 800 MHz channel. MING needed 33 volunteers, and actually

obtained 48. (Capt. Kelenske: Any feedback on public reaction or questions re: MING soldier presence? A: not known.)

MDTMB (Jeannette Doll): A warehouse has been located at another site. Red Cross and MSP Wendy Galbreath are checking it out as a replacement for the other site that had problems (Court Street school district site). Stuff is to be moved from the old to new site. Based upon truck loads, will be maintaining 8 truck loads per day through Saturday, available on Sunday too, if needed. 117,000 filters coming in, and 139,000 faucet (founts???). Tablets are coming in tonight to the EOC for GIS staff to download an app, then going to Flint in the morning. Information cards sent to Flint. 15 trucks are waiting. (Capt. Kelenske: They must offload somewhere and not wait.) Only 1 loading dock at each facility. Court Street won't work—told that it was vacant and had 80,000 square feet, but it was full. (Someone on phone, Jackie Hampton perhaps?, later announces that the site will be available tonight, after all. Commissioner Curtis had prompted warehouse emptying which is allowing trucks to be moved there now. Equipment and staff available to unload, with warehouse reportedly able to be cleared out tonight. A Dort Highway location is being investigated for suitability.)

Local EOC (unknown person): Information entry and radio [channels?] seem good. Only the issue of supplies waiting on the road (presumably: on trucks or in transport) must be cleared up.

MSP SEOC Logistics (Penny Burger): Working on trailers and vehicles from Department of Corrections, for door-to-door campaign. Coordinating with MSP for Thursday and Friday volunteers. Financial analysis being finished up—to be reviewed first by Captain Kelenske before submission.

MSP SOEC Planning (Zach Baker? Couldn't see across room.): Progress on tracking inventory. Sit reps due at 6pm.

MSP SEOC Recovery Team (Kriste Davis): Some numbers may not be in yet—issue of paper substitute for frozen IPads. 394 homes were visited yesterday, plus 378 more today, possibly more, once additional reports are processed. Even if number appears lower today, there was a smaller number of vacant homes today, so the actual number of inhabited homes is higher today. Working with the Red Cross this weekend for teams. Monday is a holiday. (Capt. Kelenske: Any info on community reaction? A: No info yet.)

JIC/PIO (Shannon Banner?): Media hotline saw a markedly increased number of calls, although it was not overloaded. Some media questions need answers to come from the SEOC. Good collaboration with 2-1-1, county, and state agency PIOs. Could use the local PIO today, though. From 11:30a to 12:30p there was a media briefing at fire station #3—very good media turnout, positive in tone. Waiting for the logo approval (from local and county) for the response team. (Capt. Kelenske: How is 2-1-1 doing—being monitored for success of call handling, good staffing levels, etc.? Nicole Lisabeth [JIC/PIO]: 2-1-1 is going well.

(Phone discussion regarding Legionnaire's disease report—unclear who the participants were.)

Capt. Kelenske: DHHS will handle those Legionnaire's-related questions through separate, normal channels, not through the SEOC or local EOC but through other channels, as a separate matter.

SEOC Planning Brianna Briggs: The next briefing will be tomorrow at 9:30am.

Mike Sobocinski's notes on January 13, 2015 SEOC briefing (9:30am):

MSP SEOC Planning chief (Amanda Bresler): leads the meeting: Agency situation reports are due by 6pm. A new IAP is available. Agencies need to update their "204 forms" throughout the day.

National Weather Service (Jim Askill?): Still cautioning about the potential for frostbite in 30 minutes or less (for exposed skin outdoors). Tomorrow's temperatures are expected to rise to about the freezing point (32 degrees F). Possible light rain on Friday could cause icy roads. The weekend will be a little colder, with occasional snow.

MDHHS (?): CHECC is working on a nutritional plan with other agencies. The plan could address education, short-range and long-range goals, and the mitigation of lead vulnerabilities, perhaps working with a farmer's market. Reference to Flint as a "food desert" and to perhaps open a decent grocery store there. A potential lead impact document has been submitted to planning. Currently considering mental health impacts and resources. Following up with local health departments to determine their staff and support needs.

MDARD (Brad Deacon): A document was approved: Requirements for Licensed Food Establishments using City of Flint Water.

MDLARA (?): Coordinating with MDEQ. MIOSHA scientists are to help with residential water testing.

MDEQ (Jen Wolf): Extra staff are in Flint today to help with kits. A field observer is helping to organize and plan for the transport of kits to the lab. Helping with the request for a presidential declaration.

Human Services (DHHS?) (Rich ?): Reports "zero filtration products" at the fire stations as "Good job!" [Unclear to me exactly what and why he is reporting as good.] Regarding trucks, information is needed about the quantities on them, being distributed.

American Red Cross (Paul Spata): Five fire stations are staffed for resource distribution. [something] management team for GCCARD (Genesee County Community Action Resource Department). Began [?? just the start of ARC involvement, does he mean?] assembling water testing kits. Volunteer reception center is active today. "Lauren" [who??] was brought in for logistics planning in the SEOC.

MDHHS (Brian Wilson): Staff volunteers are on site to help with distribution.

[also MDHHS?] (Steve Federly): Valley Aging is "extracting" data on seniors for use by GIS.

Michigan State Police (?): Teams are out now, matched with sheriff personnel. G-event channels were set up on 800 MHz radio: 9 is the primary and 10 is the secondary channel.

Michigan Department of Corrections (Brent Travelbee): Teams are in the area, assisting. A 50' truck was delivered to the food bank. Local shuttle bus will start tomorrow in the area, able to take about 20 persons at a time to obtain resources.

Michigan National Guard (Chad Randall): Some soldiers are to help at distribution points. Just one per location. MING leaders meeting with Flint mayor today.

MDTMB (Jeannette Doll): There is [some sort of unclear] issue with the Court Street warehouse...something which sounded like it involved its seller having a $2 million liability on it. Might need a food-grade warehouse [not sure whether I heard this phrase correctly]. Working on resource requests and replacement cartridges and water.

MSP SEOC Logistics (Penny Burger): Every agency remember to update past assignments and resource requests in MI CIMS. There's been a request for a budget projection of total costs for this year, which would be hard to do more than just guess at right now.

Recovery Team (Brianna Briggs): "Water Resource Teams" are in the field—that is their official name and is to be used. Could place and maintain an extra 15 teams in the field (Friday). Working with Red Cross to assemble real-time data from "pods" at the fire stations.

PIO/JIC (Nicole Lisabeth): Set up [something; could not make it out]. Good media reports at 11pm last night. Monitoring media and clarifying the role of the MI National Guard, who are at resource sites, not going door to door. Red Cross is dealing with distracting media personnel at water distribution sites. Flint's bus system is now including water resource sites on its routes. Arabic-language information card is proceeding ahead, and logo/branding of water resource teams is being worked on. There was some sort of Legionnaire's Disease report in the media today, according to MDHHS.

MSP SEOC Planning section (Amada Bresler): Resource list to integrate with fire stations and local EOC info. The next briefing is at 4pm today.

Subject: Brita info for FEMA

Hey Kim

This is still from the other day. FEMA is not looking for the instructions for installing the Brita Faucet Filter. I am not sure what else you have on the Brita question from FEMA, but there was a misunderstanding. FEMA is looking for the information of what parts per billion (ppb) lead the filters can remove.

The below are some links from mi.gov/flintwater.

- Free Filters are NSF International-Approved to Remove Lead

http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf

http://www.nsf.org/consumer-resources/what-is-nsf-certification/water-filters-treatment-certification/contaminant-reduction-claims-guide

It sounds like there is something more clear that is being looked for. The information does not clearly indicate the ppb lead removal. I do not know if Capt. or someone sent anything to OPS or not. Hopefully there is something that will clarify this request more.

Thanks
Sam

Sam,

Can I ask you to add one more name to your distro list for this report? Our DFCO, Alicia Tate-Nadeau would also like to receive this report daily: Alicia.tate-nadeau@fema.dhs.gov

Thanks again for all of your help this morning!

Suzanne M. Ragsdale

AS OF **February 7, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,029 (97.8)** of the parcels have been engaged as part of response efforts
- **29,492 (75.8%)** of the parcels have been confirmed have some form of filter
- **11,883 (30.6%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26812** residential parcels that have the ability to use the Flint Water System. Of these:

- **26542 (99.0%)** of of the parcels have been engaged as part of response efforts
- **23387 (87.2%)** of the parcels have been confirmed have some form of filter
- **10448 (39.1)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

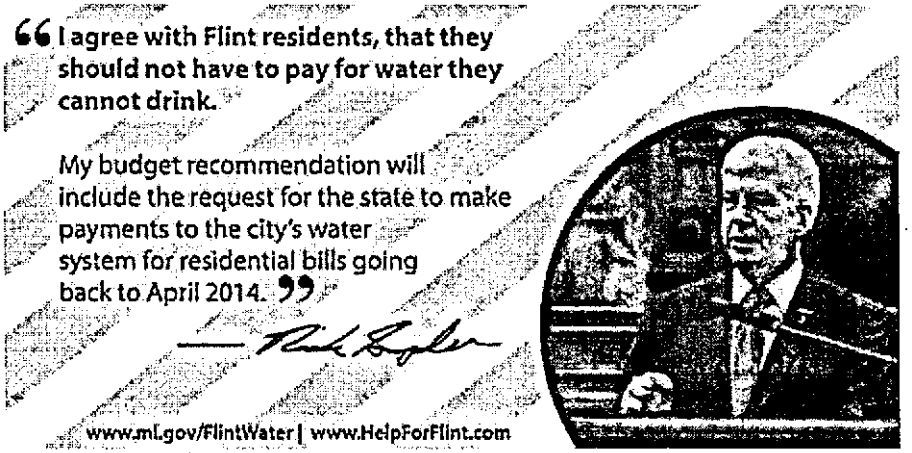
From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:24 PM
To: MSP-seocda2
Subject: "Flint residents should not have to pay for water they cannot drink"



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

LEARN MORE

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Subject: Daily Summary

Capt. Kelenske,

Below is the summary of today's events. The Sit Rep. was reviewed by Peter Manning and is attached. We are waiting for GIS to finalize the Water Sample Analysis Map and will email to you once it is complete.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/2/16 – 29th Day (28th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Flint Water Timeline (updated)
2. MDDHS Director's Sit Rep: Reference blood lead testing results.
3. Governors Spreadsheet (draft updated-ongoing work)
4. Sit Rep #28
5. **Water Sample Analysis Map (waiting for GIS to finalize)**

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Wednesday, February 3, 2016**
- **City Sections Scheduled Tomorrow*:** Apartment Complexes
  *City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Completed Section 8 list. City Sections Visited Today: 10 remaining franchise customers.
- SEOC Logistics worked with DTMB to secure additional warehouse location for donated water.
- JIC partnered with the Michigan Association of Broadcasters (MAB) to record two PSAs in Spanish. The PSAs were shared with MAB member stations.
- SEOC Finance met with State Budget Office to discuss and develop collaborative cost reporting for all state agencies.
- SEOC Planning finalized Small Business Administration request for economic injury.
- Information reported to the JIC:
  - As of 2/2/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    - Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 2/2/16*
30,770	37,844	12,406	530

*There were issues with the app in the field on February 2, 2016. Outstanding data will be included tomorrow night.

- Distributed:

Commodity	Total to Date
a. Number of cases of water	255,457
b. Filters	102,498

c. Filter cartridges	206,642
d. Test kits	33,243*

*Adjusted due to test kits were not assembled at POD 1 yesterday and sent back to warehouse. Those kits were included as distributed and should not have been.

- Total number of customers on the Flint water system
  a. 29,994 current water system subscribers
  b. ~45,000 hookups (This is our high end target #)
  c. ~39,000 includes apartment complexes (The is the low end target #)

- *Resources purchased:*
  a. Cases of water 2,715,324 Liters (additional 1,209,675 Liters donated)
  b. Filters 266,312*
  c. Filter Cartridges 584,957*
  d. Test kits 62,701
  *Includes back data, not previously accounted for, from MDHHS purchases on January 12-16, 2016.
- Teams going out tomorrow:
  a. 10 American Red Cross Teams scheduled for Wednesday, February 3, 2016.

<u>New Standing Information Requirements</u>

1. **Number of homes visited each day:**
   a. 2/2/16, as of 5 pm, 530 homes were visited today
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 12,406
3. **Total number of National Guard on the ground:**
   a. 53
4. **Total Number of Volunteers each day:**
   a. 27 volunteers on 2/2/16, per ARC.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,277
Active residential water subscribers	26,673	22,491

6. **Number of Water filters distributed (each day and to date):**
   a. 587 (172 FWRT + 415 PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and total distributed to date is 102,498.

7. **Cases of Bottle water distributed (each day and to date):**
    a. 10,524 (444 FWRT +10,080 cases or 120,960 liters PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and the total distributed to date is 255,457 cases or 3,065,484 Liters.
8. **Number of testing kits distributed (each day and to date):**
    a. 491 (56 FWRT +435 PODs [1700 2/1 to 1600 2/2]) were distributed since this report yesterday and the total distributed to date is 33,243.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. See attached MDHHS Sit Rep, pages 1 and 3.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. See attached MDHHS Sit Rep, pages 1 and 3.
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Drinking water (Analyzed 9/3/15 to 2/2/16)
        i. 5516 out of 5906 (93%) at or below 15 ppb (390 tests above)
        ii. <5 ppb: 4853 (82%)
        iii. 5-15 ppb: 663 (11%)
        iv. > 15 ppb: 390 (7%)
        v. >30 ppb: 214 (4%)
        vi. >150 ppb: 50 (0.8%)

    *Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Coordinating distribution of appropriate supplies to Flint water system franchise customers outside the City of Flint.
- Coordinating with owner of new warehouse site for access to the site, and operations at the facility.
- Addressing various public concerns, including availability of supplies to residents in apartment complexes.
- Attended meeting with UM-Flint to discuss student volunteer opportunities and potential communications support.
- Attended VOAD meeting to discuss volunteer engagement, volunteer management, and distribution management.
- Coordinating replacement for Team Rubicon after their demobilization for rapid response deliveries.

Subject: monthly test results spreadsheet with graphs
Attachments: Water Test Reluts by Month With Percentages and Totals.xlsx

Sam,

Here is what I showed you. This is just for your reference, however I broke it down by month and threshold categories. The top graph is # of tests, the bottom is converted to percentages. The thresholds I use are as follows:

Total # of tests
≤ 15 (at or below 15ppb)
<5 ppb
5 to 15 ppb
>15 ppb

Results higher than 15ppb are considered actionable levels. At or below 15ppb is considered safe.

I hope this helps,
Sgt. Meka

Subject: Daily Summary

Capt. Kelenske,

Below is a summary of activities for the SEOC today. The Sit Rep has been reviewed by Peter Manning and is published to MI CIMS.

To further clarify the numbers I have added the calculation to the highlighted sections below.

Attached:

1. Flint Water Timeline (updated)
2. Governors Spreadsheet (draft updated-ongoing work)
    a. Spreadsheet is being worked on by Sam and we have requests out to individuals for further data.
3. Field Team Activity Map (updated)
4. Lead Service Line map (completed)

a. Per GIS this map is as accurate as the data from city. GIS suggests we do not distribute this map until we compare with DEQ testing and confirm accuracy.

Have a great evening,

Zach Baker, PEM
Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/31/16 – 27th Day (26th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Monday, February 1, 2016**
- **City Sections Scheduled Tomorrow***: Franchise Customers, Additional to be determined
  - *City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- **City Sections Visited Today:** 28, 17, 11, 27, 29, 30, 31.
- Information reported to the JIC:
  - As of 1/31/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    - Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/2016
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

    - Distributed:

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736
d. Test kits	32,093

    - Total number of customers on the Flint water system
      a. 29,994 current water system subscribers
      b. ~45,000 hookups (This is our high end target #)
      c. ~39,000 includes apartment complexes (The is the low end target #)

    - Resources purchased:
      a. Cases of water 2,637,324 Liters (additional 996,080 Liters donated)
      b. Filters 165,048
      c. Filter Cartridges 383,282
      d. Test kits 62,701
    - Teams going out tomorrow:
      a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/31/16, as of 5 pm, 551* homes were visited today
      i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**

a. Targeted Canvassing Mission: 9,577

3. **Total number of National Guard on the ground:**
   a. 53
4. **Total Number of Volunteers each day:**
   a. 236 volunteers on 1/31/2016, per ARC.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

6. **Number of Water filters distributed (each day and to date):**
   a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**
   a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
       *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.
- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

Subject: FW: Governer email

NOTE, THE LAST OF THE PAPER FORMS HAVE BEEN PROCESSED, SO THERE WAS A SIGNIFICANT JUMP IN THE NUMBERS. ADDITIONALLY, AN ERROR OCCURRED IN YESTERDAYS REPORTING THAT SHOWED A DROP IN WATER TESTING TOTALS. THIS IS ERRONIOUS DATA AND RESULTED FROM A DATABASE VIEW ISSUE THAT HAS SINCE BEEN REPAIRED. ALSO, THE PARCEL COUNTS SHOULD REMAIN STABLE FROM THIS POINT AS WE HAVE FINALIZED OUR FILTERS ON RESIDENTIAL PARCELS. THAT NOTED, A NEW PARCEL LAYER WILL BE MADE AVAILIBLE TO US BY THE CITY OF FLINT ON OR ABOUT FEBRUARY 5TH, 2016 AND SOME MINOR VARIATIONS IN RESIDENTIAL PARCEL COUNTS MAY ARISE.

AS OF **January 29, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,831** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **37,577 (96.7%)** of the parcels have been engaged as part of response efforts
- **27,855 (71.7%)** of the parcels have been confirmed have some form of filter
- **12,710 (32.7%)** of the parcels have volunteered for water testing
- **3,342 (8.6%)** of the parcels that have been visited by a Flint Water Response Team but not had personal contact (not home and did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26673** residential parcels that have the ability to use the Flint Water System. Of these

- **26,363 (87.9%)** of of the parcels have been engaged as part of response efforts
- **22,158 (73.9%)** of the parcels have been confirmed have some form of filter
- **11,167 (37.2%)** of the parcels have volunteered for water testing
- **2,568 (8.5%)** of the parcels that have been visited by a Flint Water Response Team but have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

From: plangc
Sent: Friday, January 29, 2016 8:31 PM
To: Kelenske, Chris (MSP)
Cc: Katarsky, Anthony (MSP)
Subject: Daily Summary

Capt. Kelenske,

Below is a summary of activities for the SEOC today. The Sit Rep has been reviewed by Peter Manning and is published to MI CIMS.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/29/16 – 25th Day (24th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 24
- Governor's Timeline (draft, to be updated tomorrow).
- Comprehensive Data List (draft, to be updated tomorrow).

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal..

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- City Sections Scheduled Tomorrow*: 28, 29, 30, 31 as primary and 27, 17 and 11 as secondary.
  *City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- City Sections Visited Today: 2, 3, 9, 10, 11, 17, 19, 20, 23 and 28.
- Recovery compiled a list of apartment buildings to send out water resource team.
- SEOC Logistics coordinated Niagara water donation delivery times/dates of 25.5 semi-trailers.
- SEOC Logistics Worked with warehouse to send temporary donation's for the weekend to the LEOC established staging area.
- JIC coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.
- Planning developed SBA loan request letter.
- Finance contacted State EMC for the Department of Insurance and Financial Services after receiving a request for information from the American Red Cross (ARC) concerning a volunteer who was injured working at the warehouse in Flint.
- GIS continued refinement of data.
- Information reported to the JIC:
  - As of 1/29/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/29/2016
30,770	37,844	7,658	924

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	216,605
b. Filters	98,641

c. Filter cartridges	202,566
d. Test kits	31,111

3. Total number of customers on the Flint water system
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 2,151,444 Liters (additional 715,404 Liters donated)
    b. Filters 162,536
    c. Filter Cartridges 376,903
    d. Test kits 62,701
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/29/16, as of 5 pm, 924 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 7,658
3. **Total number of National Guard on the ground:**
    a. 73
        i. Number in PODs: 58
        ii. Command Cell: 6
        iii. Cyber Mission: 3
        iv. Joint Forces Headquarters: 5
4. **Total Number of Volunteers each day:**
    a. *100 volunteers on 1/29/2016.*
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,855
Active residential water subscribers	26,673	22,158

6. **Number of Water filters distributed (each day and to date):**
    a. 1,218 were distributed on 1/29/2016, and total distributed to date is 98,641.

7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,458 were distributed on 1/29/2016, and total distributed to date is 216,605.
8. **Number of testing kits distributed (each day and to date):**
    a. 221were distributed on 1/29/2016, and total distributed to date is 31,111.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
        *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 4,084 water samples out of 4,351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Attended long-term recovery planning meeting with MSP/EMHSD, FEMA and community leaders.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff.
- Coordinating distribution of Spanish-language water sample forms to affected populations.
- Identifying and securing additional warehouse space.
- Refining rapid response process and coordinating rapid response deliveries to special locations.
- Continuing to coordinate vehicle and technology demobilization.
- Implementing the recycling program with the Community Recycling Coalition.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC, and other VOADs.

Recovery Branch – 2/6/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meetings, and Distribution Process Meetings
- Completed plan for ARC to visit zero contact list.
- Worked with GIS to obtain a Follow-up Visits list for ARC teams to visit homes with few visits by our teams, focusing especially on those without a filter
- **Team Priority Visited Today:** Zero Contacts from Previous Sweeps List
- **Team Priority Scheduled Tomorrow:** Zero Contacts from Previous Sweeps List; Follow-up Visits List
- **10 American Red Cross Teams scheduled for Sunday, February 7, 2016**

Water Response Teams	TOTALS	2/6/16
Occupied Homes	13,344	1,034
Vacant Homes	675	0
Unknown	2,542	0
Total Homes Visited	**16,561**	1,034
Resources Provided		
Door Hangers	2,239	49
Water - Cases	9,659	364
Filters - Faucet	7,093	81
Replacement Filters	3,332	265
Filter Pitchers	67	0
Water test kits	1,803	169
Total Resources Dispersed	**24,193**	
Future sample test site	1,131	UNK

Run the numbers per hour based on a percentage. To see the percentage of 2atwr used each hour. Determine if t he pods can be shut down at 8:30. Suggest a news release going out saying that the pods will be closing at 8:30 s tarting next monday, so that people have a week to be prepared. Make a determination that based on the percent age used that cost out ways the benefit

Discuss with Mike Farmer to see about making sure that the pods are stocked at the 6:00 deliveey.

Do graphs based on the hourly comparison. do weekly graph based on totals for the week.
Create a sheet that has the auto pull for the hours. Use the find and replace to build the sheet. Hight light the sect ion and change all to (example : 2016-02-3). This maybe the hourly sheet that I already started.

Distribution Kit	1000	1000		2/6/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas
Team Priority – Continue to work on the "Zero Contact Address List" of 959 Addresses.

Map Support

The Apartment List from 2/2/16 was completed today. It appears once all entries are completed, some of the apartment addresses may need to be re-visited. Additional maps showing the 959 addresses with Zero Contacts made have been provided. ARC will continue to work on these sites until completed. The maps and addresses will be included with this plan and take NOTE that the Excel Address List has been updated since being sent out last night to include Site Numbers for each address as well as the franchised addresses.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

BRITA®

WATER FILTRATION SYSTEMS

ENGLISH

USER'S GUIDE

For optimal performance, please carefully read all instructions before attaching and using your Brita® Faucet Filtration System.

Hello and welcome!

Thank you for choosing Brita®, the world's No. 1 brand of household water filtration. Brita's certified water filtration systems turn ordinary water into healthier, great-tasting drinking water. Just follow the easy instructions in this booklet to quickly install your Brita® Faucet Filtration System (no additional tools needed!). To find out more about Brita, check out our website at www.brita.com.

Limited One-Year Warranty

Brita LP (Warrantor) warrants your Brita® Faucet Filtration System (FF-100) for one year from the date of purchase (except for the filter cartridge, which is warranted for 30 days) against all defects in materials and workmanship, when used in compliance with the user's guide. If for any reason the product proves to be defective within one year from the date of purchase, call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada), or ship the unit to the address below and the unit will be repaired or replaced without charge. Please package your unit carefully to avoid damage in transit.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

The Warrantor assumes no responsibility for incidental or consequential damages; for damages arising out of misuse of the product or the use of any unauthorized attachment; or for damages resulting from the use of the product with a defective water faucet. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

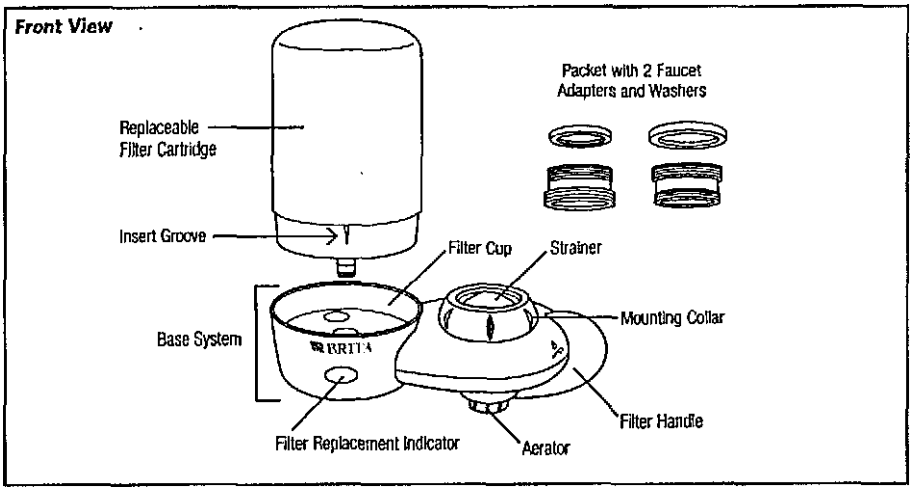
Should service be required during or after the warranty period, or should you have any questions regarding how to use your Brita product, please call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada) Monday through Friday between 9:00 a.m. and 5:30 p.m., Eastern Standard Time.

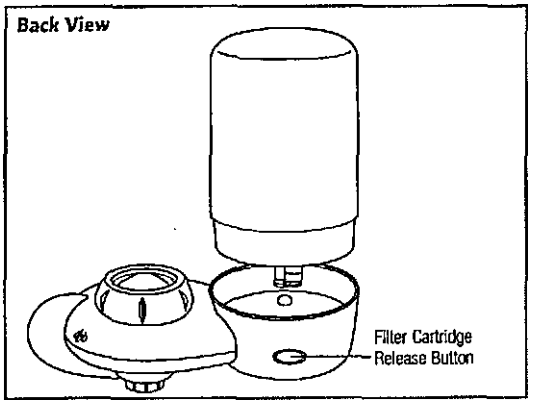
In U.S.: Brita
1221 Broadway
Oakland, CA, U.S.A.
94612-1888

In Canada: Brita
150 Biscayne Crescent
Brampton, ON, Canada
L6W 4V3

You may reach Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada).

COMPONENTS AND FEATURES





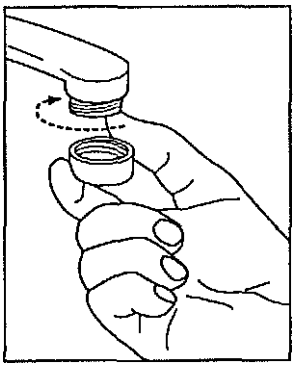
If any parts are missing, or to locate retailers, please call BRITA Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada).

NOTE: *This product contains a nonreplaceable, sealed battery. The batteries and electronics are sealed in a waterproof compartment inside your Brita® Faucet Filtration System and do not come into contact with water. The Filter Replacement Indicator is designed to last for the life of your Brita® Faucet Filtration System (about 5 years, depending on usage).*

INSTALLATION IN FIVE EASY STEPS

STEP 1: Remove aerator from faucet.

Unscrew (clockwise) the aerator and remove any original rubber washers from your faucet. If difficult to remove, use a dry towel to grip the aerator. Clean off any scale or rust buildup.



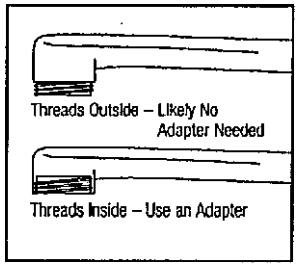
STEP 2: Determine if you need to use an adapter.

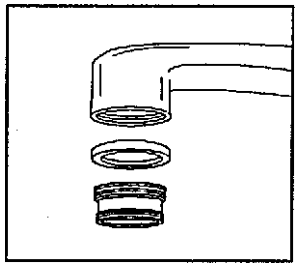
If your faucet has threads on the outside:
You most likely will not need to use an adapter. Attempt to attach the system directly to your faucet. If it does not fit, call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada). **Proceed to Step 3.**

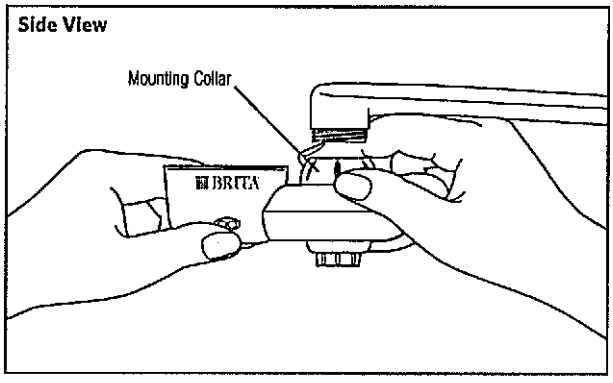
If your faucet has threads on the inside:
You will need to use one of the adapters and corresponding washers provided. Select the proper adapter and washer that fit onto your faucet. If neither adapter fits, please call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada).

Place the washer into the recessed end of the adapter. Twist the adapter (counterclockwise) onto your faucet and tighten by hand until snug. If difficult to tighten, insert a coin into the notch in the bottom of the adapter and twist until snug. Caution: Using pliers to tighten the adapter may damage the threading.

NOTE: *The Brita® Faucet Filtration System cannot be attached to faucets with a built-in spray feature at the end of the faucet.*

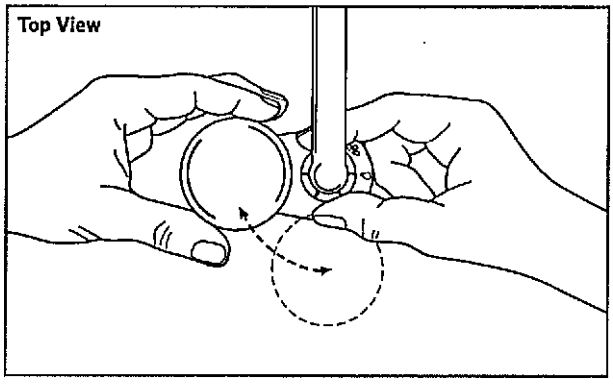






STEP 3: Attach the base system to your faucet.

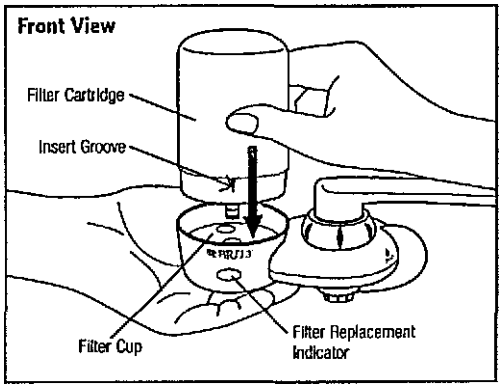
Position the base system so that the filter cup is on the left side of your faucet and the Filter Replacement Indicator is facing you. Twist the mounting collar onto the faucet and tighten by hand until snug. Do not tighten with pliers. Do not over-tighten.



If you are having difficulty, rotate the base system backward and forward while further tightening the mounting collar.

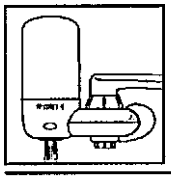
STEP 4: Insert filter cartridge into filter cup.

Support the bottom of the filter system with one hand. Align the insert groove on the lower part of the cartridge with the Filter Replacement Indicator at the front of the filter cup. Insert the filter cartridge into the filter cup until a "click" is heard. Do not force the filter cartridge into the system base. Inserting the new filter cartridge automatically resets and activates the electronic Filter Replacement Indicator. A green signal will flash, indicating that the filter is engaged.



STEP 5: Flush the new filter cartridge with water.

Move the filter handle toward you to the filtered Brita® water setting: BRITA



Turn on the faucet to flush the new filter for 5 minutes to remove any carbon dust and activate the filter. It is normal for carbon dust to appear. The 100 gallon/ 378 liter filter life begins after the 5-minute conditioning period.

NOTE: *Use with cold water only. Do not run hot water (above 100°F/38°C) through the filter, as it may damage the filter.*

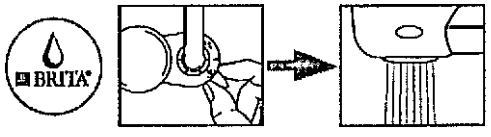
USE AND CARE OF FILTER

Your Brita® Faucet Filtration System is ready to use!

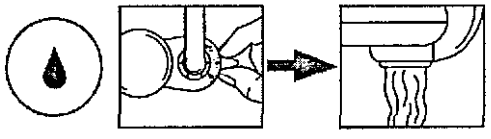
By adjusting the handle to the following positions, you can select the water you want:

FILTERED WATER
Move handle to forward position to...

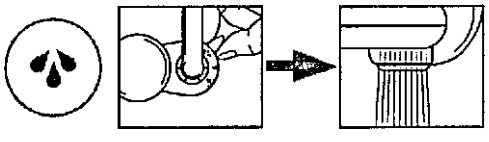
Only draw filtered water from filter port. All other water is unfiltered.



STREAM OF UNFILTERED WATER
Move handle to middle position to...



SPRAY OF UNFILTERED WATER
Move handle to rear position to...



Filter Replacement Indicator

Regular filter replacement is the key to ensuring healthier and great-tasting water. The Brita® Faucet Filtration System makes it easy for you to know when to change your filter.

The Filter Replacement Indicator monitors the filter life and tells you when to replace the filter cartridge, based on average water quality and filtered water usage by the average family of four.

The Filter Replacement Indicator will signal the need for replacement after approximately 100 gallons/378 liters or 4 months, whichever comes first.

Each time you begin filtering water, a light will illuminate to signal the filter status.

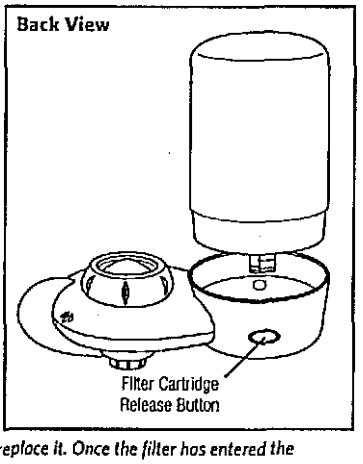
INDICATOR LIGHT	FILTER STATUS
Flashing Green	**Filter Working** When switched to the filtered Brita® water setting, the green light will flash to show your filter is working.
Flashing Amber	**Change Filter Soon** When switched to the filtered Brita® water setting, the amber light will flash when your filter has 2 weeks or approximately 20 gallons/75 liters of life left. Your filter is working, but it has entered the Replacement Warning Period signaling that the filter will need to be replaced soon.
Flashing Red	**Change Filter Now** When switched to the filtered Brita® water setting, the red light will flash to indicate that your filter cartridge has reached the end of its life and needs to be replaced now.

Replacing filter cartridge

Replacing the filter cartridge is easy. If the Filter Replacement Indicator flashes red when you switch to the filtered Brita® water setting, it is time to replace the filter cartridge. Prompt filter replacement assures you of healthier, great-tasting water.

To remove the old cartridge, turn water off, press the filter cartridge release button located at the back of the filter cup and pull cartridge up to remove it. To insert a new cartridge, follow the directions in Step 4.

Brita® Faucet Replacement Filters are available in white or chrome finish.



NOTE: *If the filter is removed for cleaning purposes (e.g., for rinsing or wiping off) while in green mode, please insert filter back into unit within 30 seconds to make sure the counter is not reset. However, once the Filter Replacement Indicator has begun to show a red light (indicating the Replacement Period), do not remove the cartridge unless you intend to replace it. Once the filter has entered the Replacement Warning Period, inserting a cartridge will automatically reset the Filter Replacement Indicator.*

NOTE: *Only the Brita® Faucet Replacement Filters will fit the Brita® Faucet Filtration System.*

Early filter replacement and manual reset of the Filter Replacement Indicator

Brita® Faucet Replacement Filters have an extra layer to help prevent premature clogging due to sediment buildup. However, it may still be possible that very high sediment in your tap water may cause your filter to prematurely clog with sediment. This may reduce the water flow from the system and require an earlier filter change. If, for any reason, you need to replace your filter early (before the red flashing signal from the indicator), remove the old cartridge (see directions on Replacing Filter Cartridge) and prepare to insert a new one (Step 4).

To manually reset the indicator for your new cartridge, wait at least 30 seconds after the old filter has been removed before inserting the new one. This allows the counter to reset properly.

For optimal use, care and safety

- The Brita® Faucet Filtration System is not intended to purify water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts. Individuals requiring water of special microbiological purity should follow the advice of their doctor or local health officials regarding the use and consumption of their tap water and Brita® water.
- The system and installation must comply with state and local laws and regulations.
- Use with cold water only. Do not run hot water (above 100°F/38°C) through the filter, as it may damage the filter.
- Do not push filter cartridge release button while filtering water.
- Prior to each use, let water run through the filter for five seconds to activate the filter. If the filter has not been used for a few days, let the water run for 30 seconds before use.
- For optimal system performance and highest-quality filtered water, promptly replace the filter cartridge when signaled by the Filter Replacement Indicator.
- Clean the exterior of the Brita® Faucet Filtration System with a damp sponge or soft cloth. A mild dishwashing liquid may be used. Do not use abrasive cleaners or scouring pads to clean this product. DO NOT put any parts of this product in the dishwasher.
- Only draw filtered water from filter port. All other water is unfiltered.
- Do not use the Brita® Faucet Filtration System if incoming tap water exceeds 170°F/77°C. Very hot water will damage the system. (While most of the newer hot water heaters are preset to 120°F/49°C, temperatures vary from household to household. If you suspect your water temperature may be higher than 170°F/77°C, check the setting on your water heater.)

TROUBLESHOOTING

You are unable to attach the system to your faucet.	See Step 2 of Installation in Five Easy Steps to determine if you need to use an adapter. Check to see that you have correctly inserted the proper adapter and washer.
Adapters provided do not fit your faucet.	Call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada).
Water leaks or sprays from connection at faucet.	Check to see that you placed the washer between the faucet and the adapter. Check to see that the mounting collar is tight and the threading is aligned with the faucet or adapter threading. Only water from filter port is filtered. All other water is unfiltered.
Water leaks or sprays from the system itself.	Make sure the filter cartridge is locked into place. Water leaking or spraying from system may not be filtered. Only water from filter port is filtered. All other water is unfiltered.
Flow rate of filtered water slows.	Remove the system from the faucet and clean the sediment from the strainer in the mounting collar. If flow rate of filtered water remains slow, replace filter cartridge. Although Brita® Faucet Replacement Filters have an extra layer to reduce sediment buildup, very high sediment in your water may cause the system to prematurely clog before the typical end of filter life. The clogging means that your Brita® Faucet Replacement Filter is removing the sediment from your tap water. See directions for Early filter replacement and manual reset of the Filter Replacement Indicator on page 5.
Filter Replacement Indicator does not reset with new cartridge insertion.	Make sure the filter cartridge is locked into place. If you replaced the cartridge before the indicator light flashed red, you need to manually reset the Filter Replacement Indicator. See directions for Early filter replacement and manual reset of the filter replacement indicator on page 5.
Filter Replacement Indicator does not illuminate.	Call Brita Consumer Services at 1-800-24-BRITA (U.S.) or 1-800-387-6940 (Canada).

Performance testing conducted by NSF International. This system has been tested according to NSF/ANSI 42 and 53 for reduction of the substances listed. The concentration of each of the indicated substances in water entering the systems was reduced to a concentration less than or equal to the permissible limit for water leaving the system, as specified in NSF/ANSI 42 and 53.

System tested at 60 psig (414 kPa) using a minimum flow rate of 0.58 gpm (2.19 L/min).

Testing was performed under standard laboratory conditions. The contaminants or other substances removed or reduced by this water treatment system are not necessarily in all users' water. Filter performance may vary based on local water conditions.

The Brita® Faucet Filtration System is not intended to purify water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts. Individuals requiring water of special microbiological purity should follow the advice of their doctor or local health officials regarding the use and consumption of their tap water and Brita water.

Brita® Faucet Filtration System Specifications *Model FF-100 with Filter FR-200*

Capacity:	Service Flow Rate:	Working Pressures (min./max.):	Filtered Water Temperature (min./max.):	Electrical Requirements:
100 gallons (378 liters)	0.58 gpm (2.19 L/min)	20 psig/100 psig (138 kPa/689 kPa) ($1.4\ kg/cm^2/7.0\ kg/cm^2$)	34°F/100°F (1°C/38°C)	None

Please refer elsewhere in this User's Guide for the proper installation, conditioning, use and care requirements and an explanation of how the filter replacement indicator functions. Maintenance according to the manufacturer's instructions is essential for proper filter performance. Filter life should not exceed 100 gallons. If a decrease in flow rate is noticed, replace the filter earlier. Replacement filters (model FR-200) are available in one-, two- and four-packs with an approximate retail price of US$15 per filter/CAN$18 per filter.

The Brita® Faucet Filtration System has been tested and certified by NSF International against NSF/ANSI Standards 42 and 53 for the reduction of the claims specified on the Performance Data Sheet.

The Brita® Faucet Filtration System has been tested and certified by the WQA against NSF/ANSI Standards 42 and 53 for the reduction of the claims specified on the Performance Data Sheet.

SYSTÈMES DE FILTRATION D'EAU

FRANÇAIS

GUIDE DE L'UTILISATEUR

Veuillez lire attentivement toutes les instructions avant de fixer et d'utiliser votre système de filtration d'eau sur robinet Brita® pour obtenir un rendement optimal.

Bienvenue!

Merci d'avoir choisi Brita®, la première marque de systèmes de filtration d'eau domestiques au monde. Les systèmes de filtration d'eau certifiés de Brita font de l'eau du robinet ordinaire une eau potable plus saine et qui a toujours bon goût. Il vous suffit de suivre les instructions toutes simples de ce livret pour installer rapidement votre système de filtration d'eau sur robinet Brita®. (Aucun outil supplémentaire n'est nécessaire!) Pour en savoir plus sur Brita, visitez notre site Web : www.brita.com.

Garantie limitée de un an

Brita LP (Garant) garantit le système de filtration d'eau sur robinet Brita® (FF-100) contre tout défaut de matériaux et de fabrication pendant une période de un an à partir de la date d'achat (sauf la cartouche-filtre qui est garantie pendant une période de 30 jours), à condition qu'il soit utilisé conformément aux instructions du guide de l'utilisateur. Si, pour quelque raison que ce soit, le produit s'avère défectueux dans l'année qui suit sa date d'achat, veuillez appeler le service à la clientèle de Brita, au 1 800 24-BRITA (É.-U.) ou au 1 800 387-6940 (Canada), ou expédiez le produit à l'adresse indiquée ci-dessous pour qu'il soit réparé ou remplacé sans frais. Veuillez emballer le produit avec soin afin d'éviter les dommages pendant le transport.

La présente garantie vous confère des droits légaux spécifiques, ainsi que d'autres droits qui peuvent varier selon les régions.

Le Garant n'assume aucune responsabilité quant aux dommages indirects ou accessoires ni quant aux dommages résultant d'une mauvaise utilisation du produit, de l'utilisation d'un accessoire non autorisé ou de l'utilisation du produit avec un robinet défectueux. Certains États ou territoires n'autorisent pas l'exclusion ou la limitation des dommages indirects ou accessoires, de sorte que l'exclusion ou la limitation ci-dessus peut ne pas s'appliquer dans votre cas.

Pour vous prévaloir du service après-vente pendant ou après la période de garantie, ou pour toute question sur l'utilisation de votre produit Brita, veuillez appeler le service à la clientèle de Brita, au 1 800 24-BRITA (É.-U.) ou au 1 800 387-6940 (Canada), du lundi au vendredi, entre 9 h et 17 h 30 (HNE).

Aux É.-U. : Brita
1221 Broadway
Oakland, CA, É.-U.
94612-1888

Au Canada : Brita
150 Biscayne Crescent
Brampton (ON) Canada

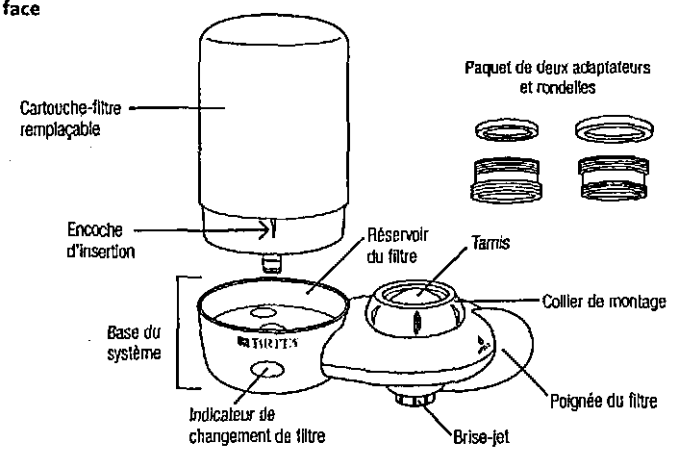
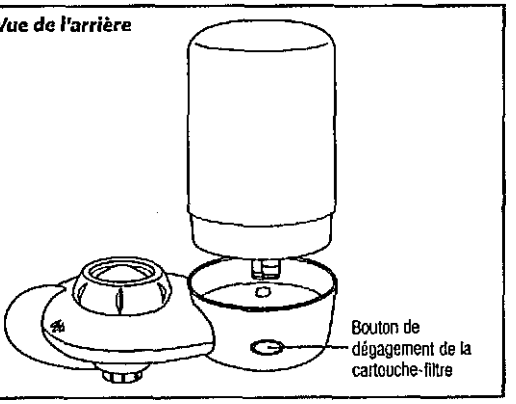
Veuillez communiquer avec le service à la clientèle de BRITA au 1 800 242-BRITA (É.-U.) ou au 1 800 387-6940 (Canada).

COMPOSANTS ET FONCTIONS

Vue de face



Vue de l'arrière



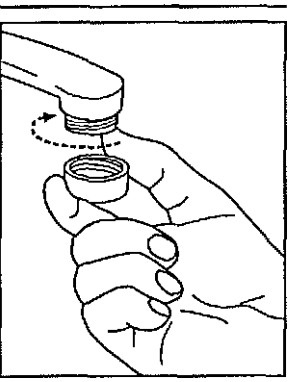
Si une pièce manque, ou pour connaître l'adresse d'un détaillant, veuillez appeler le service à la clientèle de BRITA au 1-800-24-BRITA (É.-U.) ou au 1-800-387-6940 (Canada).

NOTA : *Ce produit contient une batterie sans entretien qui n'est pas remplaçable. Les batteries et les parties électroniques sont logées dans un compartiment hermétique à l'intérieur du système de filtration d'eau sur robinet Brita® et n'entrent pas en contact avec l'eau. L'indicateur de changement de filtre est conçu pour fonctionner aussi longtemps que votre système de filtration d'eau sur robinet Brita® (environ cinq ans en fonction de l'utilisation).*

INSTALLATION EN CINQ ÉTAPES FACILES

ÉTAPE 1 : Enlevez le brise-jet de votre robinet.

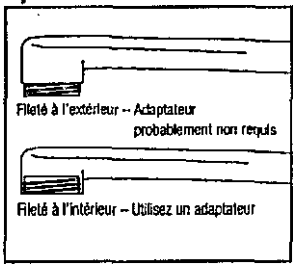
Dévissez (dans le sens des aiguilles d'une montre) le brise-jet et *enlevez toute les rondelles de caoutchouc d'origine.* Si vous avez de la difficulté, utilisez une serviette sèche pour tenir le brise-jet. Nettoyez toute trace de rouille ou de tartre.



ÉTAPE 2 : Déterminez si vous avez besoin d'un adaptateur.

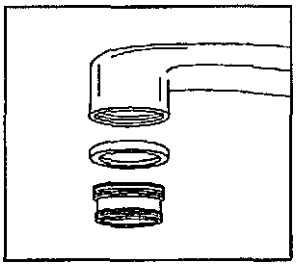
Si le robinet est fileté à l'extérieur :

Vous n'aurez probablement pas besoin d'adaptateur. Essayez de fixer le système directement sur le robinet. Si vous n'y parvenez pas, communiquez avec le service à la clientèle de Brita (aux États-Unis, composez le 1 800 24-BRITA et au Canada, le 1 800 387-6940). **Passez à l'étape 3.**



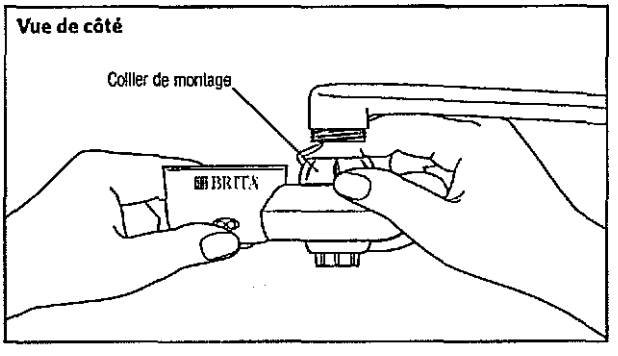
Si le robinet est fileté à l'intérieur :

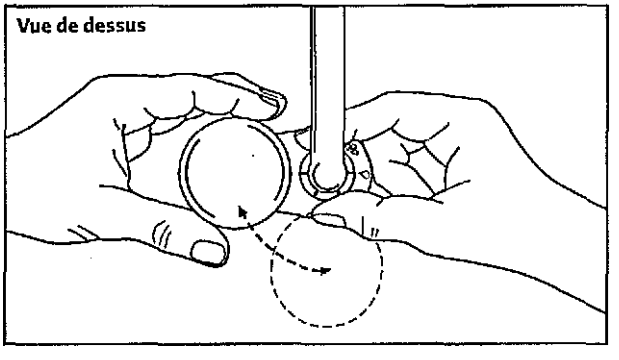
Vous aurez besoin d'utiliser l'un des adaptateurs fournis avec les rondelles correspondantes. Sélectionnez l'adaptateur et la rondelle qui s'adaptent à votre robinet. Si aucun des deux adaptateurs ne convient à votre robinet, communiquez avec le service à la clientèle de Brita (aux États-Unis, composez le 1 800 24-BRITA et au Canada, le 1 800 387-6940).



Placez la rondelle dans la partie en retrait de l'adaptateur. Vissez l'adaptateur (dans le sens inverse des aiguilles d'une montre) sur votre robinet et serrez bien à la main. Si vous avez de la difficulté à serrer, insérez une pièce de monnaie dans l'encoche au bas de l'adaptateur et serrez bien. Mise en garde : l'utilisation de pinces pour serrer l'adaptateur peut endommager le filetage.

NOTA : *Le système de filtration d'eau sur robinet Brita® ne peut pas être monté sur un robinet équipé d'une douchette incorporée.*





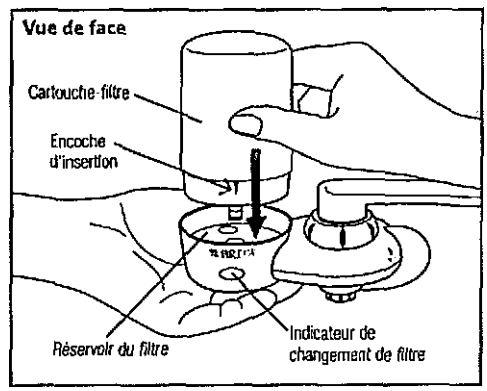
ÉTAPE 3: Fixez la base du système à votre robinet.

Placez la base de façon à ce que le réservoir du filtre se trouve du côté gauche du robinet, l'indicateur de changement de filtre face à vous. Vissez le collier de montage sur le robinet et serrez bien à la main. Ne pas serrer avec des pinces. Ne pas forcer.

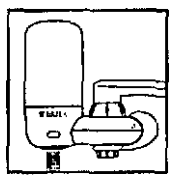
Si vous avez de la difficulté, faites pivoter la base d'avant en arrière tout en serrant le collier de montage.

ÉTAPE 4 : Insérez la cartouche-filtre dans le réservoir du filtre.

Placez une main sous le filtre pour le soutenir. Alignez l'encoche située sur la partie inférieure de la cartouche avec l'indicateur de changement de filtre à l'avant du réservoir. Insérez la cartouche dans le réservoir jusqu'à *entendre un déclic.* N'essayez pas de faire entrer de force la cartouche dans la base. Lorsque vous insérez une nouvelle cartouche-filtre, l'indicateur de changement de filtre est automatiquement remis à zéro et activé. Un témoin vert *clignotera, indiquant que le filtre* est bien installé.



ÉTAPE 5 : Faites couler de l'eau dans la nouvelle cartouche-filtre.



Faites tourner la poignée du filtre vers vous jusqu'au réglage d'eau filtrée Brita® : BRITA

Ouvrez le robinet et faites couler de l'eau dans la nouvelle cartouche-filtre pendant cinq minutes pour enlever la poussière de charbon et activer le filtre. Il est normal que de la poussière de charbon apparaisse. La durée de fonctionnement de la cartouche-filtre — 378 litres ou 100 gallons — est calculée à partir de la fin de la période de conditionnement de cinq minutes.

NOTA : *Ne l'utilisez qu'avec de l'eau froide. Ne faites pas couler d'eau chaude (plus de 38 °C/100 °F) dans la cartouche-filtre, car cela pourrait l'endommager.*

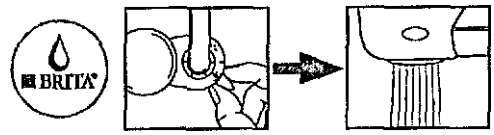
UTILISATION ET ENTRETIEN DU FILTRE

Votre système de filtration d'eau sur robinet Brita® est prêt!

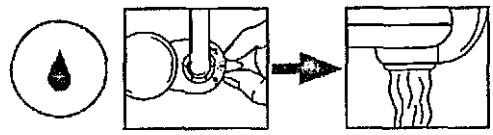
En réglant la poignée sur les positions suivantes, vous pourrez sélectionner le type d'eau voulu :

EAU FILTRÉE
Réglez la poignée du filtre sur la position avant...

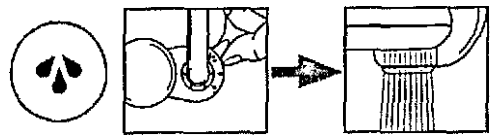
L'eau filtrée ne peut sortir que du port d'eau filtrée. Le reste de l'eau n'est pas filtrée.



ÉCOULEMENT D'EAU NON FILTRÉE
Réglez la poignée sur la position du milieu...



JET D'EAU NON FILTRÉE
Réglez la poignée du filtre *sur la position arrière...*



Indicateur de changement de filtre

Il est essentiel de remplacer la cartouche-filtre régulièrement pour bénéficier d'une eau plus saine, au goût agréable. Le système de filtration d'eau sur robinet Brita® vous permet de savoir facilement quand changer la cartouche-filtre.

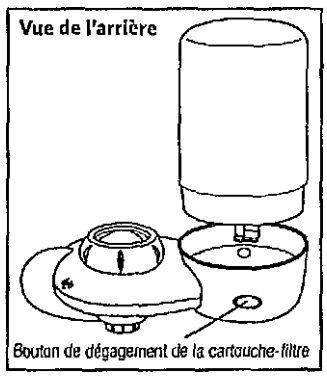
L'indicateur de changement de filtre surveille la durée de fonctionnement de la cartouche-filtre et vous avertit lorsqu'il faut la remplacer. La durée est basée sur une qualité moyenne d'eau et sur la consommation moyenne d'eau filtrée d'une famille de quatre personnes.

L'indicateur de changement de filtre vous signalera qu'il faut changer la cartouche-filtre après environ 378 litres (100 gallons) d'eau ou 4 mois, selon la première de ces éventualités.

Chaque fois que vous commencerez à filtrer de l'eau, un témoin s'allumera pour vous indiquer l'état du filtre.

COULEUR DE L'INDICATEUR	ÉTAT DE LA CARTOUCHE-FILTRE
Vert clignotant	**Le filtre fonctionne** *Lorsque le filtre est réglé sur eau filtrée* Brita®, le témoin vert clignote pour vous signaler que le filtre fonctionne.
Ambré clignotant	**Changer le filtre bientôt** Lorsque le filtre est réglé sur eau filtrée Brita®, le témoin ambré clignote pour indiquer que la durée de fonctionnement restante du filtre est de deux semaines ou qu'il lui reste environ 75 litres (20 gallons) d'eau à filtrer. Votre filtre fonctionne, mais il est entrée dans sa Période de changement pour signaler qu'il doit bientôt être remplacé.
Rouge clignotant	**Changer le filtre immédiatement** Lorsque le filtre est réglé sur eau filtrée Brita®, le témoin rouge clignote pour signaler que le filtre est à la fin de sa durée de fonctionnement et qu'il doit être remplacé immédiatement.

Remplacement de la cartouche-filtre



Le remplacement de la cartouche-filtre est facile. Si le témoin rouge de l'indicateur de changement de filtre clignote lorsque le filtre est réglé sur eau filtrée Brita®, il est temps de remplacer la cartouche-filtre. Le remplacement régulier du filtre garantit une eau plus saine, au goût agréable.

Pour enlever l'ancienne cartouche, arrêtez l'eau, appuyez sur le bouton de dégagement de la cartouche-filtre situé à l'arrière du réservoir et tirez sur la cartouche pour l'enlever. Pour insérer une nouvelle cartouche-filtre, suivez les instructions de l'étape 4.

Les filtres de rechange pour système de filtration sur robinet Brita® sont offerts avec un fini blanc ou chromé.

NOTA : *Si vous retirez le filtre pour le nettoyer (par exemple pour le rincer ou l'essuyer), alors que l'indicateur de changement de filtre est vert, replacez-le dans les 30 secondes pour éviter que le compteur ne se remette à zéro. Cependant, lorsque l'indicateur de changement de filtre est rouge (indiquant que la période de changement de la cartouche-filtre est en cours), ne retirez la cartouche que pour la remplacer. Si vous insérez une cartouche-filtre pendant la période de changement, l'indicateur se remet automatiquement à zéro.*

NOTA : *Seules les cartouches-filtres de rechange Brita® conviennent au système de filtration d'eau sur robinet Brita®.*

Remplacement anticipé de la cartouche-filtre et remise à zéro manuelle de l'indicateur

Les filtres de remplacement du système de filtration sur robinet Brita® possèdent une couche supplémentaire pour réduire les risques d'obstruction dus à l'accumulation de sédiments. Cependant, il est possible que la cartouche-filtre s'obstrue avant la fin de sa durée de fonctionnement normale en raison d'une forte concentration de dépôts dans l'eau de votre robinet. Ceci peut réduire le débit d'eau du système et nécessiter le remplacement anticipé de la cartouche-filtre. Si, pour quelque raison que ce soit, vous devez remplacer le filtre prématurément (avant que l'indicateur ne soit rouge), retirez l'ancienne cartouche (voir les instructions relatives au remplacement de la cartouche-filtre) et reportez-vous à l'étape 4 pour insérer une nouvelle cartouche-filtre.

Pour remettre manuellement à zéro l'indicateur pour la nouvelle cartouche-filtre, attendez au moins trente secondes après le retrait de l'ancienne cartouche avant d'insérer la nouvelle. Le compteur pourra ainsi se remettre à zéro correctement.

Pour optimiser l'utilisation, l'entretien et la sécurité

- Le système de filtration d'eau sur robinet Brita® n'est pas destiné à purifier l'eau. Ne l'utilisez pas avec de l'eau qui n'est pas pure sur le plan microbiologique ou de qualité inconnue sans la désinfecter de façon adéquate avant ou après l'utilisation du système. Un système homologué pour la réduction des sporocystes peut être utilisé pour filtrer les eaux désinfectées susceptibles d'en contenir. Les personnes qui doivent boire une eau d'une certaine pureté microbiologique doivent suivre les conseils de leur médecin ou des autorités sanitaires locales en ce qui a trait à l'utilisation et à la consommation d'eau du robinet et d'eau Brita®.
- Le système et son installation doivent être conformes aux lois et à la réglementation locales.
- Ne l'utilisez qu'avec de l'eau froide. Ne faites pas couler d'eau chaude (plus de 38 °C/100 °F) dans la cartouche-filtre, car cela pourrait l'endommager.
- N'appuyez pas sur le bouton de dégagement de la cartouche-filtre pendant la filtration de l'eau.
- Avant chaque utilisation, laissez couler l'eau à travers la cartouche-filtre pendant cinq secondes pour l'activer. Si le filtre n'a pas été utilisé depuis quelques jours, laissez couler l'eau pendant 30 secondes.
- Pour obtenir des performances optimales et la meilleure qualité d'eau filtrée possible, remplacez rapidement la cartouche-filtre lorsque l'indicateur de changement de filtre en signale la nécessité.
- Nettoyez l'extérieur du système de filtration d'eau sur robinet Brita® avec une éponge ou un chiffon doux humide. Vous pouvez aussi utiliser un détergent à vaisselle doux. N'utilisez pas de détergent abrasif ni de tampon à récurer. Ne placez AUCUNE pièce de ce produit dans le lave-vaisselle.
- N'utilisez que l'eau filtrée sortant du port d'eau filtrée. Le reste de l'eau n'est pas filtrée.
- N'utilisez pas le système de filtration d'eau sur robinet Brita® si la température de l'eau du robinet dépasse 77 °C/170 °F. De l'eau très chaude risque d'endommager le système. (Bien que la plupart des chauffe-eau récents soient réglés pour fournir de l'eau à une température de 49 °C/120 °F, cette température peut varier d'un foyer à l'autre. Si vous pensez que la température de l'eau peut être supérieure à 77 °C/170 °F, vérifiez le réglage de votre chauffe-eau.)

DÉPANNAGE

Vous êtes incapable de fixer le système sur votre robinet.	Reportez-vous à l'étape 2 de la section Installation en cinq étapes faciles pour déterminer si vous avez besoin d'un adaptateur. Vérifiez si vous avez correctement inséré le bon adaptateur et la bonne rondelle.
Les adaptateurs fournis ne conviennent pas à votre robinet.	Appelez le service à la clientèle de BRITA (aux États-Unis, composez le 1 800 24-BRITA; au Canada, le 1 800 387-6940).
De l'eau fuit ou fuse du joint avec le robinet.	Vérifiez si vous avez bien placé la rondelle entre le robinet et l'adaptateur. Vérifiez si le collier de montage est bien serré et si le filetage est aligné avec celui du robinet ou de l'adaptateur. Seule l'eau qui sort du port d'eau filtrée est filtrée. Le reste de l'eau ne l'est pas.
De l'eau fuit ou fuse du système lui-même.	Assurez-vous que la cartouche-filtre est bien fixée en place. L'eau qui fuit ou qui fuse du système peut ne pas être filtrée. Seule l'eau qui sort du port d'eau filtrée est filtrée. Le reste de l'eau ne l'est pas.
Le débit de l'eau filtrée diminue.	Enlevez le système du robinet et retirez les dépôts de la crépine à l'intérieur du collier de montage. Si le problème persiste, remplacez la cartouche-filtre. Bien que les filtres de rechange pour système de filtration d'eau sur robinet Brita® possèdent une couche supplémentaire pour réduire l'accumulation de dépôts, une forte concentration en dépôts peut obstruer le système et écourter la durée de fonctionnement théorique. Cela signifie que votre cartouche-filtre de rechange Brita® élimine bien les dépôts de l'eau du robinet. Reportez-vous aux instructions sur le Remplacement anticipé de la cartouche-filtre et la remise à zéro manuelle de l'indicateur à la page 15.
L'indicateur de changement de filtre ne se remet pas à zéro lorsqu'on insère une nouvelle cartouche.	Assurez-vous que la cartouche-filtre est bien fixée en place. Si vous remplacez la cartouche avant que le voyant rouge ne clignote, vous devrez remettre à zéro manuellement l'indicateur de changement de filtre. Reportez-vous aux instructions sur le Remplacement anticipé de la cartouche-filtre et la remise à zéro manuelle de l'indicateur à la page 15.
L'indicateur de changement de filtre ne s'allume pas.	Appelez le service à la clientèle de BRITA (aux États-Unis, composez le 1 800 24-BRITA; au Canada, le 1 800 387-6940).

[a] Les niveaux EPA (É.-U.) sont les niveaux maximum de contaminants et correspondent au plafond autorisé de concentrations par la NSF à moins d'indication contraire.

[b] Quantité mesurée en millions de fibres/L; fibres de plus de 10 µm de longueur.

[c] *Exigence de réduction du pourcentage minimum* autorisé par la NSF.

[d] Niveau d'action EPA (É.-U.) par technique de traitement.

[e] Concentration maximale acceptée (CMA) par Santé Canada.

[f] Essais réalisés avec des oocystes de cryptosporidium vivants. Mesures en *oocystes/L*.

[g] Réduction minimum en % par la méthode de traitement selon l'EPA (États-Unis)

[h] Objectif de Santé Canada en ce qui concerne l'odeur et le goût.

[i] uTN = unité de turbidité néphélémétrique.

[j] Niveau par méthode de traitement.

[k] Particules mesurées en nombre de particules/ml

S.O. = Sans objet.

[b] Objectif de Santé Canada en ce qui concerne l'odeur et le goût.
S.O. = Sans objet.

Essais de rendement effectués par NSF International. Ce système a été testé conformément aux normes NSF/ANSI 42 et 53 pour la réduction des substances énumérées. La concentration de chacune des substances indiquées dans l'eau entrant dans le système a été réduite à une concentration inférieure ou égale à la limite autorisée dans l'eau quittant le système, *conformément aux normes NSF/ANSI 42 et 53.*

Essais effectués à 414 kPa (60 lb/po²) de pression *avec un débit minimal de 2,19 L/min (0,58 gpm).*

Les essais ont été *effectués dans des conditions standard en laboratoire.* Les contaminants et autres substances éliminés ou réduits par ce système de traitement ne sont pas nécessairement présents dans l'eau de tous les utilisateurs. Le rendement du filtre peut varier selon la qualité de l'eau dans la région.

* Le système de filtration d'eau sur robinet Brita® n'est pas destiné à purifier l'eau. *Ne l'utilisez pas avec de l'eau qui n'est pas pure sur le plan microbiologique ou de qualité inconnue sans la désinfecter de façon adéquate avant ou après l'utilisation du système.* Un système homologué pour la réduction des sporocystes peut être utilisé pour filtrer les eaux désinfectées susceptibles d'en contenir. Les personnes qui doivent boire une eau d'une certaine pureté microbiologique doivent suivre les *conseils de leur médecin ou des autorités sanitaires locales en ce qui a trait à l'utilisation et à la consommation de l'eau du robinet et de l'eau Brita.*

Caractéristiques du système de filtration d'eau sur robinet Brita® Modèle FF-100 avec cartouche-filtre FR-200

Capacité :	Débit de service :	Pressions de fonctionnement (min./max.) :	Température de l'eau filtrée (min./max.) :	Exigences *électriques :*
378 litres (100 gallons)	2,19 L/min (0,58 gal/min)	138 kPa/689 kPa (1,4 kg/cm²/7,0 kg/cm²) (20 lb/po²/100 lb/po²)	1 °C/38 °C (34 °F/100 °F)	Aucune

Veuillez vous reporter à la section pertinente du présent guide de l'utilisateur pour ce qui est de *l'installation, du conditionnement, de l'utilisation* et de l'entretien, ainsi que pour *savoir comment fonctionne l'indicateur de changement* de filtre. Il est essentiel que l'appareil soit entretenu conformément aux instructions du fabricant pour bien fonctionner. La durée de fonctionnement de la cartouche-filtre ne devrait pas excéder 378 litres (100 gallons). Si le débit diminue, remplacez le filtre plus tôt. Les cartouches-filtres de rechange *(modèle FR-200) sont offertes en paquets de une, deux ou quatre à un prix de détail approximatif de 15 $ US ou 18 $ CAN l'unité.*

Le système de *filtration d'eau sur robinet Brita® a été testé* et certifié par NSF International, conformément aux normes NSF/ANSI 42 et 53 pour la réduction des substances spécifiées dans la fiche de données sur le rendement.

Le système de filtration d'eau sur robinet Brita® a été testé et certifié par la WQA, conformément aux normes NSF/ANSI 42 et 53 pour la réduction des substances spécifiées dans la fiche de données sur le rendement.

BRITA®

SISTEMAS DE FILTRACIÓN DE AGUA

ESPAÑOL

GUÍA DEL USUARIO

Para un óptimo rendimiento, lea todas las instrucciones cuidadosamente antes de ensamblar y utilizar el Sistema de Filtración Brita® para Grifos.

Estimado cliente:

Gracias por elegir Brita®, la marca líder en filtración de agua doméstica en todo el mundo. Los sistemas de filtración de agua certificados de Brita transforman el agua potable común en agua más saludable y de exquisito sabor. Basta con que siga las instrucciones de este folleto para instalar fácilmente el Sistema de Filtración Brita® para Grifos (no se necesita ninguna herramienta). Para ver más información sobre Brita, visite nuestro sitio web en www.brita.com.

Garantía limitada de un año

Brita LP (el Garante) garantiza su Sistema de Filtración Brita® para Grifos (FF-100) por un año a partir de la fecha de compra (excepto para el cartucho del filtro, que se garantiza por 30 días) contra todo tipo de defecto en los materiales o en la mano de obra, siempre y cuando cumpla con las instrucciones en la guía del usuario. Si por cualquier motivo el producto presentase defectos dentro del año cubierto por la garantía, comuníquese con el servicio de atención al cliente de BRITA, llamando al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá), o simplemente envíe la unidad a la dirección a continuación para que sea reparada o reemplazada sin cargo alguno. Embale la unidad cuidadosamente para evitar que se dañe durante el envío.

La presente garantía le brinda derechos legales específicos. Es posible que cuente con otros derechos dependiendo del estado donde resida.

El Garante no asume ninguna responsabilidad por daños indirectos o secundarios, daños por el uso indebido del producto o por el uso de accesorios no autorizados, o daños provocados por la instalación del sistema de filtración en grifos defectuosos. En algunos estados o jurisdicciones no se permite la exclusión o limitación de responsabilidad debido a daños indirectos o secundarios; por tanto, es posible que la limitación o exclusión anterior no corresponda en su caso.

En caso de que deba reparar el sistema de filtración durante o después del periodo cubierto por la garantía, o en caso de que tenga preguntas sobre cómo usar el dispositivo Brita, llame al servicio de atención al cliente de Brita al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá) de lunes a viernes de 09:00 a 17:30, hora del este.

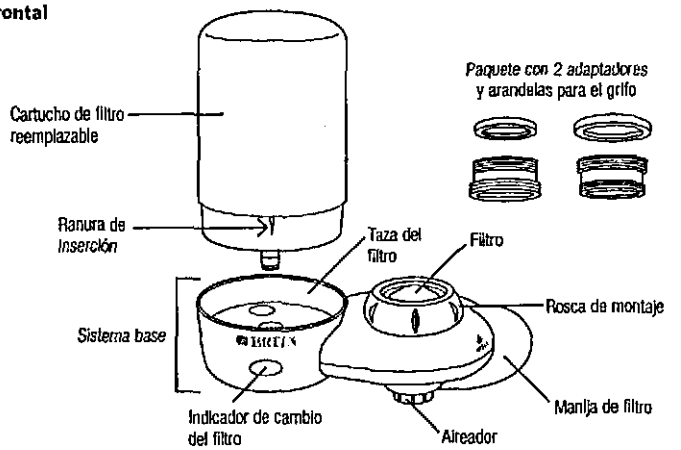
En EE. UU.: Brita
1221 Broadway
Oakland, CA, U.S.A.
94612-1888

En Canadá: Brita
150 Biscayne Crescent
Brampton, ON, Canada
L6W 4V3

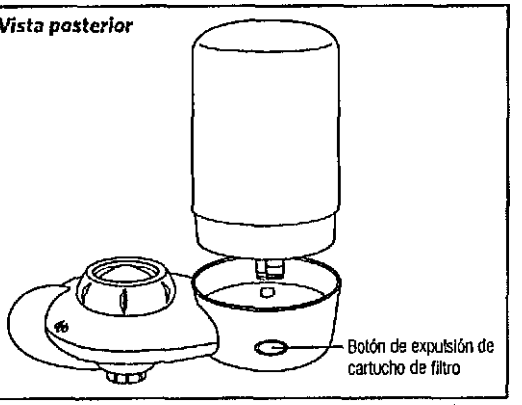
Llame al servicio de atención al cliente de BRITA al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).

COMPONENTES Y CARACTERÍSTICAS

Vista frontal



Vista posterior



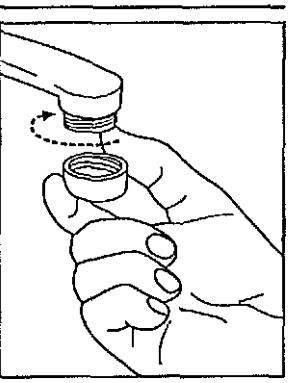
Si faltara alguna parte o para ubicar las tiendas minoristas, llame al servicio de atención al cliente de BRITA, al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).

NOTE: *Este producto contiene una batería sellada no reemplazable. Las baterías y las partes electrónicas se sellan en un recinto a prueba de agua dentro del Sistema de Filtración Brita® para Grifos y no entran en contacto con el agua. El indicador de cambio de filtro se diseñó para durar todo el ciclo útil del Sistema de Filtración Brita® para Grifos (alrededor de 5 años, dependiendo del uso).*

INSTALACIÓN EN CINCO PASOS SIMPLES

Paso 1: Retire el aireador del grifo.

Desenrosque (hacia la derecha) el aireador y quite todas las *arandelas de goma originales del grifo. Si estuviera atascado,* use una toalla seca para tomar el aireador con más firmeza. Remueva los depósitos de herrumbre o sarro.



Paso 2: Determine si necesita usar un adaptador.

Si el grifo cuenta con roscas hacia afuera:

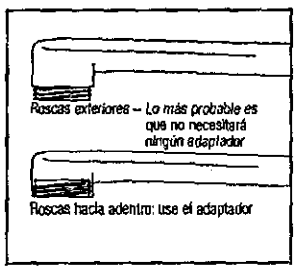
Probablemente no tenga que usar un adaptador. Intente conectar el sistema de filtración directamente al grifo. Si no calza, llame al servicio de atención al cliente de BRITA al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).
Siga con el paso 3.

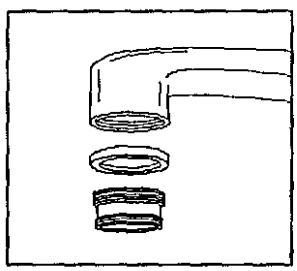
Si el grifo cuenta con roscas hacia adentro:

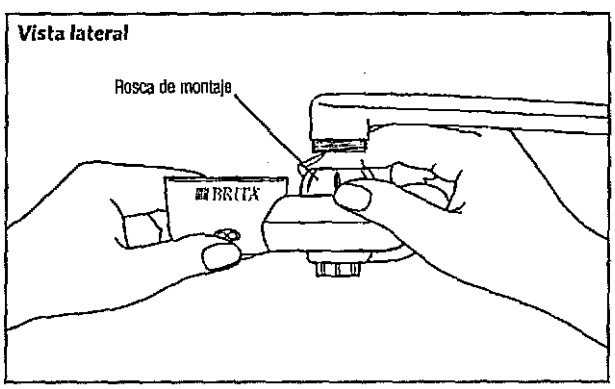
Deberá usar uno de los adaptadores y las arandelas correspondientes que se incluyen en el paquete. *Elija el adaptador y arandela que se ajusten al grifo. Si ninguno de los adaptadores calza, llame al servicio de atención al cliente de BRITA al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).*

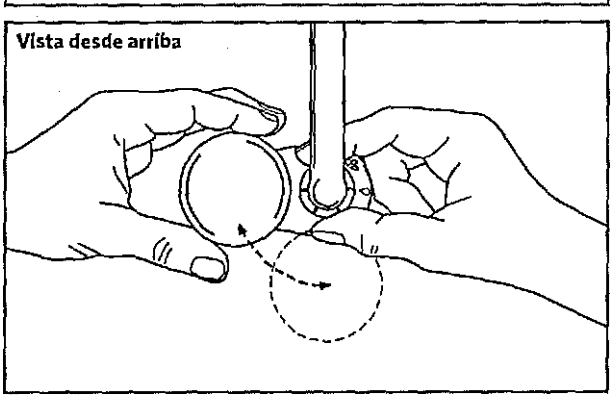
Coloque la arandela en el extremo hueco del adaptador. Enrosque el adaptador haciéndolo girar a la izquierda. Apriételo hasta que quede ajustado. Si no puede apretarlo, coloque una moneda en la muesca ubicada en la parte inferior del adaptador y hágalo girar hasta que quede firme. Cuidado: No use un alicate para afirmar el adaptador ya que podría dañar las rosas.

NOTA: *El Sistema de Filtración Brita® para Grifos no se puede usar en grifos que tengan un sistema rociador instalado.*









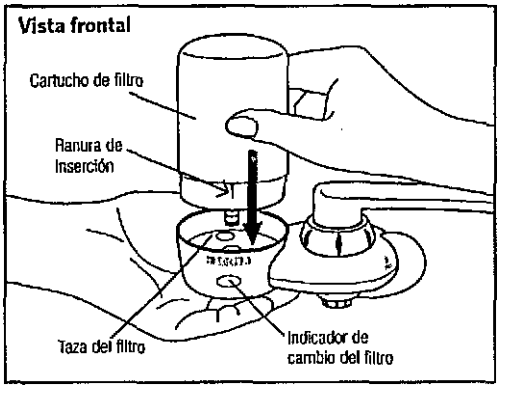
Paso 3: Conecte el sistema base al grifo.

Coloque el sistema base de modo que la taza del filtro esté en el lado izquierdo del grifo y el *indicador de cambio del filtro* esté mirando hacia usted. Enrosque el cuello de montaje en el grifo y ajústelo bien con la mano. No use un alicate para ajustar. No ajuste de más.

Si tiene problemas, haga girar el sistema base hacia adelante y hacia atrás al mismo tiempo que ajusta el cuello de montaje.

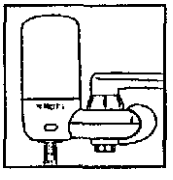
PASO 4: Inserte el cartucho del filtro en la taza del filtro.

Sostenga la base del sistema de filtro con una mano. Alinee la ranura de inserción en la parte inferior del cartucho con el indicador de cambio de filtro al frente de la taza del filtro. Inserte el cartucho del filtro en la taza del filtro hasta escuchar un chasquido. No ponga demasiada presión sobre el cartucho del filtro en *la base del sistema. Al insertar el nuevo* cartucho del filtro restablecerá y activará automáticamente el indicador electrónico de cambio de filtro. Una luz verde parpadeará para indicar que se activó el filtro.



PASO 5: Haga correr agua por el nuevo filtro.

Mueva el filtro hacia usted y colóquelo en el ajuste de agua Brita® filtrada: BRITA



Abra el grifo para dejar correr el agua por el nuevo filtro por 5 minutos para remover cualquier partícula de carbono que pueda tener y activar el filtro. Es normal que aparezcan partículas de carbono. El ciclo útil del filtro de 100 galones/378 litros de agua comenzará después de 5 minutos de acondicionamiento.

NOTA: *Use sólo con agua fría. No use agua caliente (más de 100° F/38° C) con el filtro ya que podría dañarlo.*

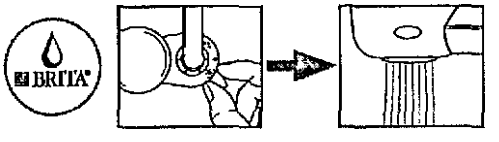
USO Y CUIDADO DEL FILTRO

¡El Sistema de Filtración Brita® para Grifos viene listo para usar!

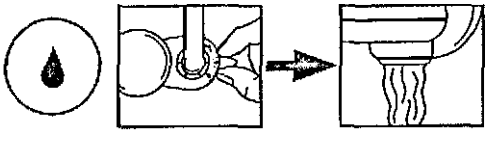
Con sólo mover el selector a las siguientes posiciones podrá elegir el agua que desee:

AGUA FILTRADA
Mueva la manija a la posición adelantada...

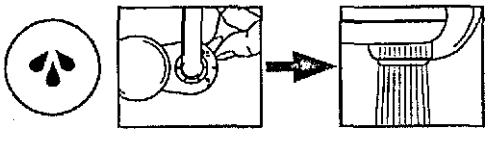
Sólo extraiga agua filtrada del puerto del filtro. El resto quedará sin filtrar.



CHORRO DE AGUA NO FILTRADA
Mueva la manija a la posición del medio...



ROCÍO DE AGUA NO FILTRADA
Mueva la manija a la posición de atrás...



Indicador de cambio del filtro

El cambio del filtro en forma regular es la clave para tomar agua más saludable y de sabor más exquisito. El Sistema de Filtración Brita® para Grifos le indica cuándo debe cambiar el filtro.

El indicador de cambio del filtro monitorea la duración del filtro y le indica cuándo cambiarlo, tomando como base una cantidad promedio de agua y el uso de agua filtrada de una familia de cuatro.

El indicador le mostrará que debe reemplazar el filtro después de que se hayan filtrado aproximadamente 100 galones/378 litros de agua (o unos 4 meses), lo que ocurra primero.

Cada vez que filtre agua se encenderá una luz para indicarle el estado del filtro.

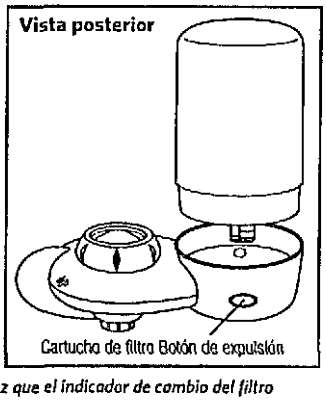
LUZ DEL INDICADOR	ESTADO DEL FILTRO
Verde parpadeante	**El filtro funciona** Cuando se cambia al ajuste de agua Brita® filtrada, una luz verde parpadea para indicarle que el filtro está funcionando bien.
Ámbar parpadeante	**Cambiar filtro pronto** Cuando se cambia al ajuste de agua Brita® filtrada, la luz ámbar parpadea cuando al filtro le quedan 2 semanas o aproximadamente 20 galones/75 litros de vida útil. El filtro está funcionando, pero ahora indica el mensaje Período de advertencia de cambio porque será necesario cambiar el sistema pronto.
Rojo parpadeante	**Cambiar filtro ahora** Cuando se cambia al ajuste de agua Brita® filtrada, la luz roja parpadea para indicar que el cartucho del filtro llegó al fin de su ciclo útil y debe reemplazarse.

Reemplazo del cartucho

El cambio del cartucho del filtro es fácil. Si el Indicador de cambio del filtro parpadea con una luz roja cuando cambia al ajuste de agua Brita® filtrada, debe cambiar el cartucho del filtro. El cambio inmediato del filtro garantiza agua más saludable y de sabor más exquisito.

Para quitar el cartucho viejo, cierre el agua, presione el botón de expulsión del cartucho del filtro, ubicado en la parte posterior de la taza del filtro y tire del cartucho para sacarlo. Para insertar un nuevo cartucho, siga las instrucciones en el Paso 4.

Los Filtros de Repuesto Brita® para Grifos se ofrecen en color blanco o acabado en cromo.



NOTA: *Si el filtro se quita para su limpieza (por ej., para lavarlo o enjuagarlo) durante el modo de luz verde, vuelva a insertar el filtro en la unidad en 30 segundos para asegurarse de no restaurar el contador. Sin embargo, una vez que el indicador de cambio del filtro ha comenzado a mostrar una luz roja (indicando el período de cambio), no quite el cartucho, a menos que tenga intente reemplazarlo. Una vez que el filtro entra en el período de advertencia de cambio, la inserción de un cartucho restablecerá automáticamente el indicador de cambio del filtro.*

NOTA: *Sólo los Filtros de Repuesto Brita® para Grifos encajarán en el Sistema de Filtración Brita® para Grifos.*

Cambio anticipado del filtro y restablecimiento manual del indicador de cambio de filtro

Los Filtros de Repuesto Brita® para Grifos tienen una capa adicional para prevenir el estancamiento prematuro debido a los depósitos de sedimento. Sin embargo, es posible que el sedimento excesivo del agua potable haga que el filtro se tape prematuramente con sedimento. Esto puede reducir el flujo de agua en el sistema y requiere que se cambie el filtro antes de tiempo. Si, por cualquier motivo, debe cambiar el filtro antes de tiempo, (antes de aparecer la señal roja parpadeante del indicador), quite el cartucho viejo (vea las instrucciones en Cambio del cartucho del filtro) y prepárese para insertar uno nuevo (Paso 4).

Para restablecer el indicador manualmente para el nuevo cartucho, espere por lo menos 30 segundos después de quitar el filtro viejo y antes de insertar el nuevo. Esto permite que el contador se restablezca correctamente.

Seguridad, cuidado y uso óptimo

- El Sistema de Filtración Brita® para Grifos no se ha fabricado para purificar el agua. No lo utilice con agua que no sea microbiológicamente segura o de calidad desconocida sin la correcta desinfección antes o después del sistema. Se pueden usar sistemas certificados para reducir quistes en aguas desinfectadas que contengan quistes filtrables. Las personas que necesitan agua con pureza microbiológica especial deben seguir los consejos del médico o de los funcionarios de salud locales sobre el uso y el consumo del agua potable y del agua Brita®.
- Tanto el sistema usado como su instalación deben ajustarse a las normas y leyes locales, del estado y de la jurisdicción.
- **Sólo use agua fría. No use agua caliente (más de 100°F/38°C) con el filtro ya que podría dañarlo.**
- **No empuje el botón de expulsión del cartucho del filtro al filtrar el agua.**
- Antes de usar un cartucho nuevo, deje correr agua por el filtro unos 5 minutos para así activar el filtro. Si el filtro no se usa por algunos días, deje correr el agua unos 30 segundos.
- Para un rendimiento óptimo y agua filtrada de la mejor calidad, **cambie el cartucho lo antes posible después de que se encienda el indicador de cambio del filtro.**
- Limpie el exterior del Sistema de Filtración Brita® para Grifos con una esponja o paño suave húmedos. Puede usar un detergente suave para vajilla. No use limpiadores abrasivos ni fibra esponjas para limpiar el producto. NO coloque las piezas del sistema de filtración en el lavaplatos.
- **Sólo extraiga agua filtrada del puerto del filtro. El resto quedará sin filtrar.**
- No utilice el Sistema de Filtración Brita® para Grifos si la temperatura del agua es de más de 170°F/77°C. El agua muy caliente dañará el sistema. (Si bien la mayoría de los calentadores de agua más nuevos vienen ya ajustados para 120°F/49°C, las temperaturas pueden variar de un hogar a otro. Si piensa que la temperatura del agua de su hogar es de más de 170°F/77°C, revise el ajuste en el calentador.)

SOLUCIÓN DE PROBLEMAS

No puede conectar el sistema de filtración al grifo.	Consulte el paso 2 de la sección Instalación en 5 pasos simples para ver si necesita usar un adaptador. Compruebe que haya insertado correctamente el adaptador y la arandela que corresponda.
Los adaptadores que vienen con el sistema de filtración no sirven para mi grifo.	Llame al servicio de atención al cliente de BRITA al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).
Hay una pérdida de agua a través de la conexión del sistema con el grifo.	Compruebe que haya colocado la arandela entre el grifo y el adaptador. Compruebe que la rosca de montaje esté bien ajustada y que las roscas estén alineadas con las del grifo o del adaptador. Sólo se filtra agua que pasa por la entrada del filtro. El resto quedará sin filtrar.
Hay una pérdida de agua a través del sistema de filtración mismo.	Asegúrese de que el cartucho esté bien instalado. Es posible que el agua de la pérdida no esté filtrada. Sólo se filtra agua que pasa por la entrada del filtro. El resto quedará sin filtrar.
El flujo de agua filtrada es lento.	Desinstale el sistema de filtración y retire los sedimentos que se hayan acumulado en la rosca de montaje. Si el flujo de agua sigue siendo lento, cambie el cartucho. Aunque los Filtros de Repuesto Brita® para Grifos tienen una capa adicional para reducir el depósito de sedimentos, el alto contenido de sedimentos en el agua puede hacer que el sistema se tape prematuramente, antes de su ciclo útil normal. La acumulación de sedimentos significa que el Filtro de Repuesto Brita® para Grifos está extrayendo sedimentos del agua potable. Consulte la sección Cambio anticipado del filtro y restablecimiento manual del indicador de cambio del filtro en la página 25.
El indicador de cambio del filtro no se restablece al insertar un nuevo cartucho.	Asegúrese de que el cartucho esté bien instalado. Si cambió el cartucho antes de que el indicador parpadeara con una luz roja, deberá restablecer manualmente el Indicador de cambio del filtro. Consulte la sección Cambio anticipado del filtro y restablecimiento manual del indicador de cambio del filtro en la página 25.
El indicador de cambio del filtro no se enciende.	Llame al servicio de atención al cliente de BRITA al 1-800-24-BRITA (EE. UU.) o al 1-800-387-6940 (Canadá).

Xilenos	70 ppb	>99%	1 ppb	10 ppm	≤300 ppb[b]

[a] Se usó cloroformo como sustancia química sustituta para las declaraciones de reducción de COV.

[a] *Concentración máxima aceptable* (MAC – *sigla en inglés*) *de Health Canada.*

[b] Objetivo estético (AO – sigla en inglés) de Health Canada.

N.A. = No aplicable.

Prueba de rendimiento realizada por la NSF International. Este sistema se ha probado conforme a los estándares NSF/ANSI N° 42 y 53 para la reducción de las sustancias que aparecen en la lista. La concentración de cada una de las sustancias indicadas en el agua que entró al sistema se redujo a una concentración menor o igual al límite permitido para el agua que sale del sistema, según lo especificado en los estándares NSF/ANSI N° 42 y 53.

El sistema se probó a 60 psig (414 kPa) utilizando un flujo mínimo de 58 gpm (2.19 L/min).

Las pruebas se realizaron bajo condiciones normales de laboratorio. Los contaminantes u otras sustancias que se eliminen o reduzcan con este sistema de tratamiento de agua no necesariamente se encuentran presentes en el agua disponible a todos los usuarios. El rendimiento del filtro puede variar según las condiciones del agua.

El Sistema de Filtración Brita® para Grifos no se ha fabricado para purificar el agua. No lo utilice con agua que no sea microbiológicamente segura o que se de calidad desconocida sin la correcta desinfección antes o después del sistema. Se pueden usar sistemas certificados para reducir quistes en aguas desinfectadas que contengan quistes filtrables. Las personas que necesitan agua con un nivel de pureza microbiológica especial deben seguir los consejos de su médico o de los funcionarios de salud locales sobre el uso y el consumo del agua potable y del agua Brita.

Especificaciones para el Sistema de Filtración Brita® para Grifos Modelo FF-100 con filtro FR-200

Capacidad: 100 galones (378 litros)	Velocidad de flujo de servicio: 0,58 gpm (2,19 L/min)	Presiones operativas (mín./máx.): 20 psig/100 psig (138 kPa/689 kPa) (1,4 kg/cm²/7,0 kg/cm²)	Agua filtrada Temperatura (mín./máx.): 34°F/100°F (1°C/38°C)	Requerimientos eléctricos: *Ninguno*

Consulte la guía del usuario para los requisitos para una correcta instalación, mantenimiento, uso y cuidado, y para ver información sobre el funcionamiento del indicador de cambio del filtro. Es fundamental seguir las instrucciones del fabricante para el mantenimiento del sistema para que el filtro funcione correctamente. El ciclo útil del filtro no debería exceder los 100 galones. Si observa una disminución del flujo de agua, cambie el filtro ante de tiempo. Los filtros de repuesto (modelo FR-200) están disponibles en paquetes unitarios o de dos y cuatro unidades a un precio aproximado de $15 por filtro en los EE. UU. y $18 por litro en Canadá.

La NSF ha sometido a pruebas y certificado el Sistema de Filtración Brita®, conforme a los estándares 42 y 53 de la NSF/ANSI respecto a la reducción de lo especificado en la hoja de datos de rendimiento.

La WQA ha sometido a pruebas y certificado el Sistema de Filtración Brita® conforme a los estándares 42 y 53 de la NSF/ANSI respecto a la reducción de lo especificado en la hoja de datos de rendimiento.

Distribuido en EE. UU. para: Brita LP, 1221 Broadway, Oakland, CA 94612; 1-800-242-7482
Distribuido en Canadá por: Brita Canada Corporation, 150 Biscayne Crescent, Brampton, ON L6W 4V3 1-800-387-6940

Recovery Branch – 2/5/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meetings, and Distribution Process Meeting
- Completed plan for ARC to visit apartment complexes.
- Updated Zero Contact from Previous Sweeps list and map with help from GIS.
- Supported the efforts of MSDHA to provide resources to tenants in their facilities.
- **Team Priority Visited Today:** Remaining Apartment List from 2/2/16 and began the Zero Contacts from Previous Sweeps List
- **City Sections Scheduled Tomorrow:** Zero Contacts from Previous Sweeps List
- **10 American Red b Cross Teams scheduled for Saturday, February 6, 2016**

FEMA POD Comparison

Open S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\Day to Day POD Comparison

Rename: S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\FEMA POD Comparison\ Day to Day POD Comparison for FEMA mm-dd-16

Will need to do the following for the followings tabs:

- =station 1, station 3, station 5, station 6, & station 8
- Click on the view tab on the top of excel.
- Go to "freeze panes".
- Click the down arrow.
- Click unfreeze panes.
- Click on the top left corner of the spreadsheet or ctrl+A.
- Right click on any row number.
- Click unhide in the menu that pops up.
- Make sure the entire spreadsheet is selected. If not click on the top left corner of the spreadsheet or ctrl+A. Right click anywhere in the spreadsheet and click copy in the menu that pops up.
- Click ctrl+home to make sure the cursor is in cell A1. Right click do a special paste as either "value" or "text" (different windows may open is why it may be labeled "value" or "text".
- Check to see if the chart data on the chart tab has been entered for the current day if not see the next section.

Day to Day POD Comparison

S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep

Go to the "Charts" table.

There are two sets of charts listed. The top row is POD trends based on hourly information. The bottom row is POD daily totals.

The following will be done for all of the POD trend charts:

- Right click in a chart.
- Click the "select data" in the window that pops up.
- Click the "add" button. A new window will open.
- Click the " " button next to the "series name" section.
- Click on the "total" tab on the bottom of the spreadsheet.
- Click on the date in row 7 that data will be pulled from.
- Hit "enter".
- Click on the " " button next to the "series values" section.

- Click on the "total" tab on the bottom of the spreadsheet.
- Click on the item that is being used (next to water cases, total filters, total replacement filters, or lead testing kits) under the 0900-1100 section, then click and hold ctrl, then click the same value under the 1100-1400, 1400-1700, and 1700-2100 sections. Let go of crtl and click enter.
- After the window closes click ok.

The following will be done for all of POD daily totals:

- Do the same as above until the "series value" section.
- Click on the button next to the "series value" section.
- Click of the "total" tab on the bottom of the spreadsheet.
- Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the "total" section.
- Click enter. After the window closes click ok.

Recovery Branch – 2/4/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meeting, and Distribution Process Meeting
- Updated plan for ARC to visit apartment complexes.
- Worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Supported the efforts of MSDHA to provide resources to tenants in their facilities.
- Collaborated with GCCARD to develop additions to the list of vulnerable persons requiring additional support within the City of Flint.
- **Team Priority Visited Today:** Apartment List from 2/2/16
- **City Sections Scheduled Tomorrow*:** Continuation of Apartment List from 2/2/16
- **10 American Red Cross Teams scheduled for Friday, February 5, 2016**

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Apartment List from 2/2/16.

Map Support

No additional maps will be provided today. The Apartment List from 2/2/16 remains the priority.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

Flint Water

Day	Date	Event
	October 1 Thursday	• *Genesee County Health Department declares a Public Health Emergency*
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • *1400 media round table at Collins Road with Capt. Kelenske and Dr. Wells*
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • *Deployed two EMHSD personnel to the local EOC to assist with command and control.*
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of what the state is doing versus locals. • Held first legislative/congressional conference call. • JIC has been co-located in the City of Flint. • Originally we were advised we had 80-90 PODS from the local EM. Identified those as party stores, etc.

		Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these locations is being worked on by the SEOC and EOC. • Finalizing 9 church locations to distribute 2000 filters (200 each) plus water. • State personnel deployed to (3) assist with incident management functions at the local EOC (not public information)
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 0900-1600. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging. • The County EOC has no support from the City of Flint, liaison is necessary for smooth operations and to serve residents.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 0900-2100 until further notice. • Freeman Elementary School pilot project initiated. • State agencies working to translate materials into multiple languages.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Media event held at the Genesee County Office Building. • Some supply issues arose due to the hard time keeping up with the large demand for water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams...App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • 7,824 cases of water arrived (109 pallets) • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day). • PSA video pushed out by the Governor's office.

9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed 5-7 personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC. • Secured 80,000 square foot warehouse. • Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed 33 total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • 10 state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed 11 state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Website attacks of Michigan.gov, city of Flint, and Flint township website occur. • Conference call with legislative and congressional representatives. • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches

14	January 18 Monday	• Jesse Jackson in Flint. • Deployed 12 state/local and 10 ARC FWRT. • Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. 200 National Guard personnel arriving on Wednesday (1-20-16). • Media availability event at the Volunteer Reception Center. • Faith based organizations continue to assist with distributing resources. • 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridges; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the next few days. • National Guard in-processed 33 Soldiers to augment points of distribution operations. • Deployed 5 state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridges; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 1100 about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed 10 National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridges; 19,866 test kits.

17	January 21 Thursday	• Deployed18 National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridges; 21,625 test kits. • Dr. Lurie the US DHHS ASPR at the CHECC and SEOC to explain the US DHHS transition.
18	January 22 Friday	• Deployed 15 National Guard/state/local and 15 ARC FWRT. • National Guard is working to deploy 3 cyber personnel to assist at the Michigan Cyber Command Center (MC3). • 6,166 homes visited. • 12,582 homes visited by FWRT, phase II. • 121,404 cases of water distributed to date; 82,687 filters; 191,704 cartridges; 23,415 test kits.
19	January 23 Saturday	• Deployed 18 National Guard/state/local and 40 ARC FWRT. • 14,118 homes visited. • 21,291 homes visited by FWRT, phase II. • 153,005 cases of water distributed to date; 84,505 filters; 195,264 cartridges; 24,866 test kits.
20	January 24 Sunday	• Deployed 15 National Guard/state/local and 19 ARC FWRT. • DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. • Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. • MDNR and MSP GIS are working to map known lead service lines based off of geographical locations and zip codes. • MIARNG has 280 Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). • 11,243 homes visited. • 37,943 homes visited by FWRT, phase II. • 164,991 cases of water distributed to date; 91,763 filters; 197,775 cartridges; 28,763 test kits.
21	January 25 Monday	• Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. • JIC coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon. • MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities.

		• National Guard demobilized canvassing teams. 68 Soldiers are currently assigned to the POD operations and cyber mission. • Deployed 11 ARC FWRT. • 2,596 homes visited by ARC as part of the targeted canvassing mission. • 176,118 cases of water distributed to date; 93,048 filters; 198,552 cartridges; 29,320 test kits.
22	January 26 Tuesday	• Operations for the Flint Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted. • Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). • Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. • Legislative and Congressional Call with FEMA. • NAACP meeting at U of M Flint. • Deployed 10 ARC FWRT. • 1,350 homes visited by ARC. • 3,946 homes visited to date for targeted canvassing mission. • 186,309 cases of water distributed to date; 94,301 filters; 199,489 cartridges; 29,841 test kits.
23	January 27 Wednesday	• Senate Appropriations Committee meeting. • Press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. • MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. • Donations Management team and several branches of State and FEMA met regarding donation and volunteer management, will be meeting weekly. • Deployed 10 ARC FWRT. • 1,020 homes visited by ARC. • 4,966 homes visited to date for targeted canvassing mission. • 196,456 cases of water distributed to date; 95,417 filters; 200,654 cartridges; 30,255 test kits.

24	January 28 Thursday	• Media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at 1200 at Fire Station #1. • Community Partnership meeting, local, state, and FEMA representatives attended. • MDHHS is collective historical blood lead data is being obtained and an accurate display that is clear and understandable is in development. • Deployed 10 ARC FWRT. • 1,768 homes visited by ARC. • 6,734 homes visited to date for targeted canvassing mission. • 207,055 cases of water distributed to date; 97,342 filters; 201,848 cartridges; 30,801 test kits.
25	January 29 Friday	• Began working on SBA loan application. • Deployed 10 ARC FWRTs. • 924 homes visited by ARC. • 7,658 homes visited to date for targeted canvassing mission. • 216,605 cases of water distributed to date; 98, 641 filters; 202,566 cartridges; 31,111 test kits.
26	January 30 Saturday	• Deployed 10 ARC FWRTs. • 1,368 homes visited by ARC teams today. • 9,026 homes visited to date in targeted canvassing mission. • 227,188 cases of water distributed to date; 99,969 filters; 203,932 cartridges; 31,512 test kits.
27	January 31 Sunday	• Deployed 10 ARC FWRTs • 551* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • *9,577 homes visited to date in targeted canvassing mission.* • 234,490 cases of water distributed to date; 100,593 filters; 204,736 cartridges; 32,093 test kits.
28	February 01 Monday	• EMHSD Liaison participated in the Incident Action Plan development for the Unified Coordination Group. • Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, and ARC regarding volunteer coordination and reporting. • Deployed 10 ARC FWRT • 1,135 homes were visited by ARC yesterday. Data was not included in daily report. • 1,164 homes visited by ARC teams today. • 11,876 homes visited to date in targeted canvassing mission. • 244,933 cases of water distributed to date; 101,911 filters; 205,820 cartridges; 33,561 test kits.
29	February 02 Tuesday	• Deployed 10 targeted ARC FWRTs. • State VAL, Recovery Branch, and local, state and, federal partners met today to work on finalizing the long

		term transition and recovery plan. • 530* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • 12,406 homes visited by FWRT to date in targeted canvassing mission • 3,065,484 liters or 255,475 cases of water distributed to date; 102,498 filters; 206,642 cartridges; 33,243 test kits(numbers down from previous day due to 432 test kits at POD being returned to warehouse due to missing instructions).

MDHHS Director's Situation Report
Flint Water Response
02 February 2016

Blood Lead Testing Results in Children Enrolled in Medicaid and Residing in City of Flint as of February 1, 2016

Tests Performed on or After April 1, 2014

Zip Codes 48501-48507

Blood Lead Testing	Age				Total	
	0-11 months		1-5 Years			
	N	%	N	%	N	%
Children Tested	89	5.7%	3945	54.7%	4034	46.0%
Children Not Tested	1480	94.3%	3264	45.3%	4744	54.0%
Total Enrolled	1569		7209		8778	
Blood Level ≥ 5 µg/dL* among Tested Children	3 of 89	3.4%	180 of 3945	4.6%	183 of 4034	4.5%

Zip Codes 48501-48507, 48509, 48519, 48529 and 48532

Blood Lead Testing	Age				Total	
	0-11 months		1-5 Years			
	N	%	N	%	N	%
Children Tested	100	5.0%	4814	53.5%	4914	44.7%
Children Not Tested	1900	95.0%	4178	46.5%	6078	55.3%
Total Enrolled	2000		8992		10992	
Blood Level ≥ 5 µg/dL* among Tested Children	3 of 100	3%	194 of 4814	4.0%	197 of 4914	4.0%

*The highest level for each child tested was selected. If a child had a venous test, that was selected over any capillary test.

Flint Daily Blood Test Report

Week of February 1-5, 2016: Includes Zip Codes 48501 to 48507

The table on p.2 presents daily counts of the total number of venous or capillary blood lead test results for Flint residents in zip codes 48501-48507 received by MDHHS in the previous 24 hours. (Counts on each Monday of the week include the previous week-end.) Cumulative total counts are also provided for the week. These counts do not represent the number of individual people tested, as some individuals may be tested more than once per year. For information on the number of people tested per calendar year, please see the weekly Flint Blood Test Report (available at www.michigan.gov/flintwater) that includes counts and percentage of tests with blood lead levels ≥ 5 micrograms per deciliter of blood by calendar year.

Table Key

 # Tests: the total number of venous or capillary blood lead test results received in the previous 24 hours.

 # => 5: the number of venous or capillary blood lead test results received in the previous 24 hours that were => 5 micrograms per deciliter of blood

 # => 5 new: the number of those test results => 5 micrograms per deciliter of blood that were from people not previously tested.

% ≥ 5: the percent of total tests received in the previous 24 hours that were => 5 micrograms per deciliter of blood.

Environmental Investigations

Elevated Blood Level Environmental Investigations:

Through 02/1/2016:

- 28 families contacted
- 25 EBL investigations completed
- 22 Water sampling completed
  - 10 Homes where water filters were observed
- 7 EBL Reports Received
  - 13 homes with lead dust hazards were identified
  - 5 homes with lead in soil hazards
  - 13 homes with lead-based paint hazards

- 9 homes with lead detected in tap water
  - 2 home with lead water levels greater than 15 ppb
- 1 investigations scheduled
- 10 applications received for the Lead Safe Homes Program
  - 2 family enrolled

Filters distributed GCCARD/DHHS:

	Distributed Feb 1, 2016	Total Distributed Oct- Feb 1
Brita Filters	5	13,193
Zero Water Pitchers	0	558
PUR Filters	15	271
Replacement Cartridges - Brita	10	3,719
Replacement Cartridges - PUR	23	678
Replacement Cartridges - Zero	5	434

<u>State Emergency Operations Center (SEOC) Update</u>

Data is for 2/1/16 as of 5:00 pm

- Total homes visited:
  - 11,876 (round 3 total)
  - 1,686 (total 1/31)
  - 1,164 (today)
- Water Cases (liters calculated by multiplying # of cases x 12):
  - 87,792 liters or 7,316 cases (round 3 total)
  - 13,932 liters or 1,161 cases (total 1/31)
  - 5,796 liters or 483 cases (today)
- Replacement Cartridges:
  - 1,866 (round 3 total)
  - 144 (total 1/31)
  - 473 (today)
- Faucet Filters:
  - 6,228 (round 3 total)
  - 407 (total 1/31)
  - 437 (today)

<u>Bureau of Disease Control, Prevention, and Epidemiology</u>

- Provided the April 2014 to date list of addresses of all children tested for lead in Flint to the CHECC for GIS mapping in the SEOC.

<u>Case Management</u>

- Case management DATA through 2/1/2016:
  - Contacted 190 (0-5 year olds) and 12 (6-17 year olds)
    - Offered case management services to 147 (0-5 year olds) and 8 (6-17 year olds)
  - Case management services provided to 27 (0-5 year olds) and 4 (6-17 year olds)
    - 16 (0-5 year olds) and 1 (6-17 year olds) billed to Medicaid

- 20 (0-5 year olds) and 1 (6-17 year olds) with 'Other' disposition, which includes moved out of county or out of state, or Case Management closed because child's lead level is testing <5.

➢ During a weekly call with Genesee County Case Management staff (2/2), the following challenges were raised from a Community Forum; Members expressed concern with navigating the FlintWater website and delays with 211 response.

Flint Water Crisis: Michigan's Aging Network/Aging & Adult Services Agency

➢ Prior to the State Declaration of Emergency on Jan. 5, Valley Area Agency on Aging (VAAA), in partnership with other local community agencies such as the Genesee County Community Action Resource Department and the Genesee County Health Department, participated in the local ad-hoc response to the local water crisis by helping organize local meetings and by distributed water and water filters to the Region 5 Planning and Service area home-delivered meals participants.

➢ **AASA Staff:** AASA has a staff person who supports the SEOC and serves as a liaison to VAAA.

➢ **Trusted Access Point/Call Center:** VAAA continues to serve as a trusted access point for calls from homebound seniors who need assistance with bottled water, water filters, or if they have other general questions. VAAA also makes referrals to other agencies who can provide other needed services.

Children's Services Agency (CSA)

➢ Actions:
- 89% visual confirmations of water filters (or otherwise confirmed as outside city of Flint water source) for all impacted foster care placement providers. Deadline 2/8/16
- Genesee County Child Welfare Health Liaison Officer (HLO) reviewed lead testing information available on MCIR for 100% of foster children currently placed in Flint
- Completed 100% of blood lead level testing for children placed at Whaley; results are pending

➢ Resources distributed by MDHHS child welfare staff (additional resources distributed by general services staff):
- Water Filter Units: 63
- Replacement Cartridges: 167
- Test Kits: 45
- Zerowater Pitchers: 32
- Zerowater pitcher replacement cartridges: 24

➢ Interagency Coordination/Communication:
- Written communication sent on 2/1/16 to all Child Welfare staff regarding expectation for water testing, follow up medical care for foster children, safety planning, and updated foster parents/agency agreement
- Informational conference call conducted on 2/2/16 with the Business Service Center and county directors regarding the written communication sent on 2/1/16

Outreach

➢ The CHECC will be hosting the MDHHS Chief Medical Executive webinar tomorrow at 12:00PM for Genesee County healthcare providers titled: *An Introduction to the Health Implications of Lead Exposure*

➢ The CHECC have provided a Fluoride, Bottled Water, and Oral Health Prevention FAQ to the JIC

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/02/2016 08:00:00
Operational Period End:	02/09/2016 08:00:00
Situation Report No.	28
SEOC Status:	*Full*
SEOC Hours of Operation Begin:	02/02/2016 08:00:00
SEOC Hours of Operation End:	02/02/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 2, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded rapid response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Coordinated warehouse deliveries – donated water.
- Submitted proposal to open second warehouse – proposal approved.
- Sent request to Chad Veeser to secure Adventists to staff warehouse.
- Requested equipment/supplies from ALANaid for new warehouse.
- Requested FEMA advisors for new warehouse.
- Requested DOC's assistance with warehouse management and staffing for new warehouse.
- Revised staffing for the Recovery branch.
- Requested DOC work crew to assist in short-term staffing for the new warehouse.
- Fielded inquiry from ARC on the Washington Post wanting to tour the warehouse.

JIC:
- Created a morning and afternoon media monitoring report and looked for information requiring correction.
- Updated internal talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications about water bottle and water filter recycling and water filter installation fact sheets.
- Partnered with the Michigan Association of Broadcasters (MAB) to record two PSAs in Spanish. The PSAs were shared with MAB member stations.

Recovery Branch:
- Attended local brief, SEOC state agency briefing meeting, and distribution process meeting
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource teams.
- Created plan for ARC to visit apartment complexes.
- Worked with GIS to develop a map and street addresses for franchise customers to send out to Red Cross water resource teams.
- Team priority visited today: completed section 8 list.
- City sections visited today: 10 remaining franchise customers.
- City sections scheduled tomorrow*: apartment complexes
- 10 American Red Cross Teams scheduled for Wednesday, February 3, 2016.

o Data is for 2/2/16 as of 5:00 pm (Data is low due to iPad difficulties, additional data will be included in tomorrows numbers):
o Total homes visited:
❑ 12,406 (round 3 total).
❑ 530 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
❑ 93,120 liters or 7,760 cases (round 3 total).
❑ 5,328 liters or 444 cases (today).
o Replacement cartridges:
❑ 1,965 (round 3 total).
❑ 99 (today).
o *Faucet filters:*
❑ 6,400 (round 3 total).
❑ 172 (today).

Planning Section:
- Published Sit Rep #28.
- Finalized SBA request.

• Participated in local EOC, state agency, and distribution process conference calls.
• Posted signed IAP #8 to MI CIMS.
• Expanded Governor's data tracking worksheet.

Operations Section:
o DHHS is researching options for seniors to open bottled water.
o DHHS reported CDC is sending staff today to assist with the response.
o Held a 1000 meeting with State Director, DEQ, DHHS, and Recovery branch to develop a plan for residences testing over the action level of 150 ppb.
o Facilitate daily local EOC and SEOC state agency briefings
o 27 total volunteers (20 ARC and 7 event based) were active across the operation today.

o Warehouse Numbers as of 1800:
❑ Water (liters):
• 538,085 liters or 48,757 cases.
❑ Filters (faucet):
• 49,016.
❑ Replacement cartridges:
• 372,350.
❑ Test Kits (prepped):
• 22,292.

o PODs (1700 2/1 – 1600 2/2):
❑ Water (cases):
• 120,960 liters or 10,080 cases.
❑ Filters (faucet):
• 415.
❑ Replacement Cartridges:
• 723.
❑ Test kits:
• 435.

Finance Section:
• Met with State Budget Office to discuss and develop collaborative cost reporting for all state agencies.
• Reviewed EMHSD Staff overtime to estimate current costs.
• Reviewed FEMA RRFs for commodity costs for projections and match calculation.

GIS Branch Updates:
• Created a map for DHHS of blood levels for children 0-6 years old in the city of Flint.
• Updated the data collection application to include parcels outside of the city of Flint.
• Worked in verifying HUD housing addresses for recovery.
• Calculated the number of kitchen sinks in the city of Flint
• Consolidating field team data to streamline daily map requests.

DTMB:
• DTMB Print & Graphic Services translating aerator fact sheet in Spanish and Arabic.
• DTMB has five trucks/drivers assisting with delivery of supplies; three for the point of distribution sites and two assisting the food bank.
• Asked to provide credentialing for contractors working on fixture replacement work at regulated facilities.
• Providing a lockset at the JIC office space in Flint.
• DTMB Real Estate worked with landlord of former Kroger store on Pierson Road in Flint to write up a month-to-month rental agreement.

DHHS-CH:
• Participated on a conference call with DEQ, LARA, EPA, CHECC, and MDHHS Environmental Health to discuss the plan and process going forward to follow-up with the homes that have tested at 150 PPB or higher for lead.
• Confirmed with MDARD and the JIC that MSU is not offering free lead testing for pets; and therefore, this information should not be provided to callers who call the CHECC hotline. This information has also been provided to Human Services for 2-1-1.
• Held a discussion with the CHECC regarding identification and outreach to pregnant women and young children in Flint. Those activities are ongoing and include the development of an info-graphic as well as inclusion in the Wednesday webinar series that Dr. Wells will be providing to health professionals weekly.
• Worked with GIS to obtain a map that depicts an overlay of blood lead level testing results and water testing results. Not available for dissemination, as they contain sensitive health information protected by HIPPA.

DEQ:
• 621 test kits delivered to lab.
• Coordinated with the EPA for participation on the high lead home strike force.
Local EOC Update:
• Coordinating rapid response deliveries to homebound residents and special locations.
• Coordinating distribution of appropriate supplies to Flint water system franchise customers outside the City of Flint.
• Coordinating with owner of new warehouse site for access to the site, and operations at the facility.
• Addressing various public concerns, including availability of supplies to residents in apartment complexes.
• Attended meeting with UM-Flint to discuss student volunteer opportunities and potential communications support.
• Attended VOAD meeting to discuss volunteer engagement, volunteer management, and distribution management.
• Coordinating replacement for Team Rubicon after their demobilization for rapid response deliveries.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.

8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 2. The JIC was operational until 10:45 p.m. on Feb 1.

State agencies at the JIC included the Michigan State Police and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Transportation, and Military and Veterans Affairs. The Genesee County Sheriff's Office and the American Red Cross were also present.

Tasks accomplished:
- Media hotline staff answered more than 20 emails and phone calls ranging from DEQ staff legal representation to National Guard members refusing to deliver supplies to certain areas of Flint because it is considered "too dangerous."
- Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with the Baltimore Sun, New York Times, Lansing State Journal, ABC News, WJRT-TV 12 in Flint, WEYI-TV 25 in Flint, and WNEM-TV 5 in Flint.
- Created a morning and afternoon media monitoring report and looked for information requiring correction.
- Updated internal talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from about water bottle and water filter recycling and water filter installation fact sheets.
- Continued adding individuals to staff the Flint JIC for the next two weeks.
- Partnered with the Michigan Association of Broadcasters (MAB) to record two PSAs in Spanish. The PSAs were shared with MAB member stations.

Agriculture and Rural Development (MDARD)

As of 2/2/16, MDARD completed water assessments at all 21 food businesses in the high risk area and 127 in the medium risk and 221 in other areas (numbers differ from those reported 2/1/16 due to risk reclassification of some businesses). Follow-up assessments/verification sampling was completed at 15 firms.

Staff have collected 125 water samples to date, with more scheduled for this week. Results for 61 of the samples are back. 51% had elevated lead levels (over 0.01 ppb) including 4 samples with levels greater than 15 ppb.

MDARD Environmental Stewardship Division staff held a conference call today with several local entities regarding how we can coordinate urban agriculture/gardening questions related to the Flint Water issue. One resource is the MSU Extension Lead Webpage: http://msue.anr.msu.edu/program/info/lead .

There was a rumor that the Michigan State University Veterinary Clinic was conducting free lead testing for Flint pet owners. It was confirmed this afternoon that this is not true.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Tuesday, 2/2/16. It's anticipated that 10 teams will deploy tomorrow.
The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm, and processed 25 event-based volunteers. Assembly of water test kits will resume when materials become available.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Pull list of potential adaptive devices for bottle openers and forwarded to Branch Director Thelen. Requested PIO/JIC add Deaf/Hard of Hearing and Spanish language options to the website where The Disaster Distress Helpline is listed.

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD.

Participated on a conference call with DEQ, LARA, EPA, CHECC, and MDHHS Environmental Health to discuss the plan and process going forward to follow-up with the homes that have tested at 150 PPB or higher for lead. DEQ has drafted a plan that will be provided to the State Director for implementation as early as tomorrow, 2/3/16.

Requested that CHECC communications staff support MSP staff with updates to the Flint Water website.

Confirmed with MDARD and the JIC that MSU is not offering free lead testing for pets; and therefore, this information should not be provided to callers who call the CHECC hotline. This information has also been provided to Human Services for 2-1-1.

Confirmed with MDE the correct zip codes to be used when responding to the CHECC's inquiry for nutritional planning.

Confirmed with the CHECC that no additional activities have occurred involving CMS since the letters to healthcare providers were sent and posted to the Flint Water website.

Held a discussion with the CHECC regarding identification and outreach to pregnant women and young children in Flint. Those activities are ongoing and include the development of an info-graphic as well as inclusion in the Wednesday webinar series that Dr. Wells will be providing to health professionals weekly.

Worked with GIS to obtain a map that depicts an overlay of blood lead level testing results and water testing results. Not available for dissemination, as they contain sensitive health information protected by HIPPA.

Corrections (MDOC)

We continued operations at the warehouse and all PODs were well supplied.

We continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

621 Water Samples were collected and delivered to the DEQ Lab in Lansing. 584 Residential and 37 MDARD

We had 17 employees and an SAI work crew on the ground in Flint today. We continue to staff the SEOC from 0800-2000, 7 days/week.

We are in the process of establishing a second warehouse location and MDOC will be staffing the second location for at 2 weeks.

MDOC has also been asked to assume Recovery Branch duties.

Education (MDE)

1. Michigan School for the Deaf. Report from MSD that two of the three new drinking fountains were installed this past weekend (Jan 30-31). Landlord said he anticipates this weekend (February 6/7), to install final new drinking fountain. Based on that, MSD will contact Joe Madziar on Monday (8 February), to establish a tentative date for LARA to schedule Stevens Hall testing.
2. MDE was contacted by Senator Stabenow's office. Her representative was very interested in CEP and the schools in Flint. We sent her some info yesterday. She also told us Stabenow's office is available to assist us in any way they can. We will continue regular communication with her and keep SEOC posted.
3. MSD reports they received confirmation that Dr. Eden Wells, Chief Medical Executive of the Michigan Department of Health and Human Services, will be attending the February 9th MSD parent meeting to address any parental concerns regarding lead exposure.
4. MSD reports visit by Dr. Jamal Gwathney, representing the U.S. Department of Health and Human Services. He said his agency is part of a coordinated federal response involving HHS, FEMA, and CDC. He asked background questions about the school's response to the water crisis, and offered to assist MSD with any unmet needs. He seemed satisfied that the school's needs are met.
He asked about other potential contacts within the Deaf Community, and MSD referred him to Communication Access Center (CAC). They are the local non-profit group that runs several group homes for Deaf people, a Deaf senior citizens program, interpreter services, and provides contracted staff to MSD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

621 samples were delivered to the lab today.

Coordinated with USEPA, USDHHS, MDHHS and MDEQ for participation on High Lead Home Strike Force.

Human Services (MDHS)

Met with MDARD & MDE on joint efforts regarding food service establishments and schools.

Working with State VAL and Recovery on process for distributing replacement cartridges in the future.

Participated on 10:00 conference call with GCHD. GCHD continues to get resources out. They have lots of federal agencies there, The NCCC team arrived 02/01/16, they are being oriented to the area and what efforts have already been completed.

Provided logistics with information on bottle openers received from Aging and Adult and Civil Rights. This is to address the concern of some citizens with grip or strength limitations to open water bottles.

Reached out to see if MDHHS might have existing data that would help identify high population / low income areas.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Working with DEQ for Strike Teams.

Preparing materials lists for plumbing fixtures.

Military and Veterans Affairs (DMVA)

1. DTG: 0113002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell: Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. SEOC has the POC with MDOT. Lt. Benke will be linking up with MDOT technician to do a visual reconnaissance.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC was working through the Genesee County Road Commission and determined that they do not have the recourses to sustain our long term operations.

b. Flint City Electricians have assessed outside lighting issue at station 5 and 8. In addition, they will be fulfilling long requested work order for maintenance on all lighting at those stations. Station 8 work order to be initiated NLT 01FEB2016 0730.

8. PERSONNEL: : Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8. : Soldiers were released and conducted reverse RSOI. new Soldiers will report 2JAN2016 in support of TF Flint.

9. INTELLIGENCE / FORCE PROTECTION: Michigan militia did establish a presence within the AO. The intentions were not harmful and in support of efforts made to resolving issues to residents of Flint.

10. LOGISTICS: In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• Recycling has been implemented at PODs 1, 5, and 8. Recycling is happening frequently but at a restriction due to the lack of supply of clear recycle bags given from schupan..
• Consolidated Station Report OUT (last 24 hours)
Bottled water-3523 Water (Gallons)-244 Lead Testing Kits-235
Pitcher (23 cup)-0 Brita Faucet Filter-136 Brita Replacement Cartridge-186
Pur Filter-162 Pur Replacement Filter-346

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe

water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

1:36 p.m. The MIOC is monitoring a Facebook Post reference the next Flint City Council meeting which will be held on Wednesday, *February 3, 2016, City Council Chambers, 3rd Floor, City Hall, 1101 S. Saginaw Street, Flint.* There is a flyer making its rounds on Facebook stating: "We need the city hall packed. Even if you are just driving up and down Saginaw Street. Like back to the bricks."

(Also, on February 3, is the City Council Public Safety Committee Meeting from 6 p.m. – 7 p.m. same location)

The MIOC will continue to monitor this for additional information. This information was forwarded to the SEOC, Local EOC, along with the MSP Flint Post.

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services translating aerator fact sheet in Spanish and Arabic.
DTMB has five trucks/drivers assisting with delivery of supplies; three for the point of distribution sites and two assisting the food bank.
Asked to provide credentialing for contractors working on fixture replacement work at regulated facilities.
Providing a lockset at the JIC office space in Flint.
Warehouse is requesting additional supplies.
DTMB Real Estate worked with landlord of former Kroger store on Pierson Road in Flint to write up a month-to-month rental agreement.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Apartment Complexes with 60 Units or less – list attached

Map Support

Map has been provided to provide detailed information on complex locations. Teams will target specific complexes to assure that each door has been knocked on and contact attempt made.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Recovery Branch – 2/2/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meeting, and Distribution Process Meeting
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource teams.
- Created plan for ARC to visit apartment complexes.
- Worked with GIS to develop a map and street addresses for franchise customers to send out to Red Cross water resource teams.
- **Team Priority Visited Today:** Completed Section 8 list.
- **City Sections Visited Today:** 10 remaining franchise customers.
- **City Sections Scheduled Tomorrow*:** Apartment Complexes
- **10 American Red Cross Teams scheduled for Wednesday, February 3, 2016**

Water Response Teams	TOTALS	2/2/16
Occupied Homes	10,149	322
Vacant Homes	520	40
Unknown	1737	168
Total Homes Visited	**12,406**	530
Resources Provided		
Door Hangers	1,472	191
Water - Cases	7,760	444
Filters - Faucet	6,400	172
Replacement Filters	1,965	99
Filter Pitchers	67	1
Water test kits	1,019	56
Total Resources Dispersed	**18,683**	
Future sample test site	688	56

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

**There were issues with the app in the field on February 2, 2016. Data from app has been reported above – Planning Section advised that numbers may not be accurate.

iPads	10	10		2/2/16	8:00 am
Hand Warmers	40	40		2/2/16	8:00 am
Distribution Kit	1000	1000		2/2/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – MSHDA Housing/Apartment List

Priority – City Sections 5, 12, 27, 29, 30

Secondary – City Sections 15, 18, 31

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water

Day	Date	Event
	October 1 Thursday	• Genesee County Health Department declares a Public Health Emergency
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • 1400 media round table at Collins Road with Capt. Kelenske and Dr. Wells
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • Deployed two EMHSD personnel to the local EOC to assist with command and control.
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of what the state is doing versus locals. • Held first legislative/congressional conference call. • JIC has been co-located in the City of Flint. • Originally we were advised we had 80-90 PODS from the local EM. Identified those as party stores, etc.

		Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these locations is being worked on by the SEOC and EOC. • *Finalizing 9 church locations to distribute 2000 filters (200 each) plus water.* • State personnel deployed to (3) assist with incident management functions at the local EOC (not public information)
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 0900-1600. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging. • The County EOC has no support from the City of Flint, liaison is necessary for smooth operations and to serve residents.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 0900-2100 until further notice. • Freeman Elementary School pilot project initiated. • State agencies working to translate materials into multiple languages.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Media event held at the Genesee County Office Building. • Some supply issues arose due to the hard time keeping up with the large demand for water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams...App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • 7,824 cases of water arrived (109 pallets) • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day). • PSA video pushed out by the Governor's office.

9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed 5-7 personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC. • Secured 80,000 square foot warehouse. • Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed 33 total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • 10 state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed 11 state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Website attacks of Michigan.gov, city of Flint, and Flint township website occur. • Conference call with legislative and congressional representatives. • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches

14	January 18 Monday	• Jesse Jackson in Flint. • Deployed 12 state/local and 10 ARC FWRT. • Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. 200 National Guard personnel arriving on Wednesday (1-20-16). • Media availability event at the Volunteer Reception Center. • Faith based organizations continue to assist with distributing resources. • 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridges; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the next few days. • National Guard in-processed 33 Soldiers to augment points of distribution operations. • Deployed 5 state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridges; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 1100 about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed 10 National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridges; 19,866 test kits.

17	January 21 Thursday	• Deployed18 National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridges; 21,625 test kits. • Dr. Lurie the US DHHS ASPR at the CHECC and SEOC to explain the US DHHS transition.

Unified Command Group Meeting
February 1, 2016

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and Department of Health and Human Services Unified Coordination Group.
2. Ensure accurate tracking and accounting of all commodities.
11. Ensure accurate tracking and accounting of all donations.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain staffing to support operational requirements.

Flint Water Response Team Plan

Execution:

Key Locations

ARC	ARC *1401 S Grand Traverse St, Flint*	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority: Franchise Customers

Priority – City Sections 22, 33, 4, 7, 1, 32, 13

Secondary – City Sections 12, 15, 37

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water Response Team Plan
Saturday, 01.31.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher	Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/31/16	8:00 am
ARC ERV	10	10		1/31/16	8:00 am
ARC ERV Driver	10	10		1/31/16	8:00 am
Team Member	20-40	20-40		1/31/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/31/16	8:00 am
Team Transport Vehicle Driver	10	10		1/31/16	8:00 am
iPads	10	10		1/31/16	8:00 am
Hand Warmers	40	40		1/31/16	8:00 am
Distribution Kit	1000	1000		1/31/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Priority – City Sections 27, 29, 30, 31, 22, 33, 4

Secondary – City Sections 7, 1, 13

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water

Day	Date	Event
	October 1 Thursday	• Genesee County Health Department declares a Public Health Emergency
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • 2 p.m. media round table at Collins Road with Capt. Kelenske and Dr. Wells
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • Deployed two EMHSD personnel to the local EOC to assist with command and control.
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of state is doing versus locals. • Originally we were advised we had 80-90 PODS from the local EM. Identified those as party stores, etc. Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these

		locations is being worked on by the SEOC and EOC. • Finalizing 9 church locations to distribute 2000 filters (200 each) plus water. • State personnel took over incident management functions at the local EOC (not public information)
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 9a-4p. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 9a-9p until further notice. • Freeman Elementary School pilot project initiated.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Some supply issues ... hard time keeping up with the mass amount of citizens getting water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams. App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • 7,824 cases of water arrived (109 pallets) • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day).
9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed 5-7 personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC. • Secured 80,000 square foot warehouse.

		• Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed 33 total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • 10 state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed 11 state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Denial of service attacks occur • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches
14	January 18 Monday	• Jesse Jackson in Flint. • Deployed 12 state/local and 10 ARC FWRT. • Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. 200 National Guard personnel arriving on Wednesday (1-20-16). • Media availability event at the Volunteer Reception Center.

		• 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridge; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the next few days. • National Guard in-processed 33 Soldiers to augment points of distribution operations. • Deployed 5 state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridge; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 11 a.m. about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed 10 National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridge; 19,866 test kits.
17	January 21 Thursday	• Deployed18 National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridge; 21,625 test kits.
18	January 22 Friday	• Deployed 15 National Guard/state/local and 15 ARC FWRT. • National Guard is working to deploy 3 cyber personnel to assist at the Michigan Cyber Command Center (MC3). • 6,166 homes visited. • 12,582 homes visited by FWRT, phase II. • 121,404 cases of water distributed to date; 82,687 filters; 191,704 cartridge; 23,415 test kits.
19	January 23 Saturday	• Deployed 18 National Guard/state/local and 40 ARC FWRT. • 14,118 homes visited.

		• 21,291 homes visited by FWRT, phase II. • 153,005 cases of water distributed to date; 84,505 filters; 195,264 cartridge; 24,866 test kits.
20	January 24 Sunday	• Deployed 15 National Guard/state/local and 19 ARC FWRT. • DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. • Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. • MDNR and MSP GIS are working to map known lead service lines based off of geographical locations and zip codes. • MIARNG has 280 Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). • 11,243 homes visited. • 37,943 homes visited by FWRT, phase II. • 164,991 cases of water distributed to date; 91,763 filters; 197,775 cartridge; 28,763 test kits.
21	January 25 Monday	• Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. • JIC coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon. • MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities. • National Guard demobilized canvassing teams. 68 Soldiers are currently assigned to the POD operations and cyber mission. • Deployed 11 ARC FWRT. • 2,596 homes visited by ARC as part of the targeted canvassing mission. • 176,118 cases of water distributed to date; 93,048 filters; 198,552 cartridge; 29,320 test kits.
22	January 26 Tuesday	• Operations for the Flint Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted. • Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). • Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information

		and coordinate federal activities. • Legislative and Congressional Call with FEMA. • Deployed 10 ARC FWRT. • 1,350 homes visited by ARC. • 3,946 homes visited to date for targeted canvassing mission. • 186,309 cases of water distributed to date; 94,301 filters; 199,489 cartridge; 29,841 test kits.
23	January 27 Wednesday	• Senate Appropriations Committee meeting. • Press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. • MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. • Donations Management team and several branches of State and FEMA met regarding donation and volunteer management, will be meeting weekly. • Deployed 10 ARC FWRT. • 1,020 homes visited by ARC. • 4,966 homes visited to date for targeted canvassing mission. • 196,456 cases of water distributed to date; 95,417 filters; 200,654 cartridge; 30,255 test kits.
24	January 28 Thursday	• Media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. • Community Partnership meeting, local, state, and FEMA representatives attended. • MDHHS is collective historical blood lead data is being obtained and an accurate display that is clear and understandable is in development. • Deployed 10 ARC FWRT. • 1,768 homes visited by ARC. • 6,734 homes visited to date for targeted canvassing mission. • 207,055 cases of water distributed to date; 97,342 filters; 201,848 cartridge; 30,801 test kits.
25	January 29 Friday

Flint Water Response Team Plan
Saturday, 01.30.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher		Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	Type: Type V Quantity: 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/30/16	8:00 am
ARC ERV	10	10		1/30/16	8:00 am
ARC ERV Driver	10	10		1/30/16	8:00 am
Team Member	20-40	20-40		1/30/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/30/16	8:00 am
Team Transport Vehicle Driver	10	10		1/30/16	8:00 am
iPads	10	10		1/30/16	8:00 am
Hand Warmers	40	40		1/30/16	8:00 am
Distribution Kit	1000	1000		1/30/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Priority – City Sections 28, 29, 30, 31

Secondary – City Sections 27, 17 and 11

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

FYSA

- *Donations to the warehouse fell off significantly during the week – the trend for this week will be closely examined for comparison and revising planning factors if necessary.*
- *ARC teams went to door to vulnerable population – so far 1 out of 3 individuals (33%) meet the definition of "access and functional needs" and would be a candidate for direct distribution*
- *ARC encountered several volunteer groups wo self-deployed and were giving out water*
- *While in the field ARC encounter residence not on their contact list that wanted water*
- *SSA #2 approximately 80% full – distribution plan from SSA #2 is being formulated*
- *The State is in the process of identifying locations for one combined warehouse location*
- *Long term commodity distribution plan is being finalized by the state*
- *Grants for the funding of staffing for the Long Term Distribution facilities are being formulated*

Subject: Schedule for 2-28

Hello,

I am not going to be able to work all four days in Planning as the current schedule reads. I would be able to work two of the 8-2 shifts this week (your pick). If you need me to work a late shift I would be available one night this week (your pick). I am still needed to help in the Financial Group Chief roll at times. You have this weekend covered, but I could be available for one day in planning this weekend if needed. I would like to get this finalized today so that I can work with Penny on my schedule in Finance.

Thank you,

Richard P. Sheaffer, PEM

Subject: RE: Cap's Schedule

I am currently sending an email to OG and Pam to ensure we have a State Director at the (planning day) Monday 8:00 am UCG meeting. This is a planning meeting, so ultimately, planning should be responsible. There is also a 4:00 Planning Meeting/SEOC Briefing on planning day. If he should be at that, I would ask Planning Section Chief get that on his calendar.

Subject: Cap's Schedule

I was reminded today that all meetings at which Cap is expected, even "regular ones" that he sets up himself, have to have an invite or reminder sent to Oralya. He doesn't necessarily put things on his own calendar, and apparently he has missed a couple. For SEOC events, I'm not sure who the best person would be to send those to Oralya. I guess if you are scheduling a room for a meeting that includes Cap, just include Oralya too.

I was asked to convey this message, so hopefully I'm getting it to the right people. Feel free to forward it to anyone else that might need to know.

Samuel Jonker-Burke
Resource Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

2/15/16 Afternoon brief;

HE Branch:

DCH: discussions with UCG. Working on case management and lead testing plans.

DEQ: 4 teams each with DEQ staff and community partner. Providing new bottle and sampel with be done in 2 weeks. Needs 60 homees with lead pipe.

HS Branch

DHS: donation mangamrnt slow over weeked,m. 211 – 21 calls yesterday. Child services 99% of caes givers have submitted their water samples.

ARC: 6 teams. 2 Rapid response. 2 finish addresses of no contact. 2 water and filter delivery. VRC open till 1700 – so for 33 event based volunteers.

STATE VAL: longterm distribution plan in the Capt's hands.

PS Branch:

MSP: MIOC follow up – water sent to warehouse in Flint – stickers with who is hassin. Anomonous call *about threat to Governor.*

DOC: Warehouse 2 procees to turn over duties to 7th day Adventist.

DTMB: help supplies for warehouses. Techincal issues with iPad.

Local EOC: 241 houselhold to be senital monitoring points. Testing at those homes, will continue testing bi-weekly. Southern Baptist will take over tomorrow for rapid response. MSP talked about – water from who is hasson.

SEOC LOG: Check resource request - update them please.

Messages out with questions from Capt sent by SEOC OPS.

2/15/16 Morning Brief:

SEOC OPS: 107 parcels removed for vacant lots. 38,762 residential parcels. 58 soldiers switched out tomorrow

Is there a need to the USPS services still? Recovery working on.

FOIA: work for plan for printing. Everything will be through the 2/19/16. After that then it will be CC'd to the mailbox. In the field copies of things will be needed.

Weather: light snow – change to freezing drizzle. Taper off by 1200. Hiugh 33 wind 10 mph. Tuesday-Thursday 30's Firday upper 40-50 and 40 mph winds. Worry about trees and power lines.

HE branch:

DCH:

HS Branch:
ARC: 5 teams. VRC. Yesterday VRC 101 new event based voluntees and all were put to work. Visited over 1000 homes.

PS Branch:

LOCAL EOC:

UCG:

SEOC Planning: Update safety plan with MSP.

Recovery: Answere michelled questions on USPS – continue with the request.

PIO: congress call at 1430 tomorrow. Rep kildy office request – received help from staff – thank you. US surgeon general in town.

POD Recommendation:

Reduction of hours:

1. Generally 1% - 4% of water is distributed in the last hour the PODs are open (2000-2100). Based on these numbers, I would recommend that at a minimum the PODs operation hours be moved back to 2030.
2. I would recommend that a newsletter be issued on Tuesday (2/9/16) stating that the PODs will be changing the operation hours from 0900 – 2030 starting Tuesday February 16, 2016. This would allow people to plan ahead and prepare for the change. This will also allow the SEOC to be able to monitor the reaction to this change to potentially be able to predict future patterns with POD changes. This change could be monitored for the week and if there is no significate changes, then the PODs could be moved to 2000; after another newsletter allowing a week transition.
    - Could potentially do a pilot with Stations 1 & 5, since they are the lower distributors for the last hour.
    - Also, all 5 stations are submitting inventory numbers prior to 2100; some as early as 2045.

Stop handing out faucet filters:

1. Recommend to stop providing faucet filters at the PODs. There are 45,864 "kitchen sinks" in Flint. We have distributed 104,640 filters, which is more than double the amount of "kitchen sinks".

   I would recommend that if someone comes and says that they need a filter, then take the name and address. Have GIS run the address in the system. Find out how many faucet filters the address has already received. I would not deny another filter, but I would "politically correctly" let them know how many filters the address has. If the comment comes back that a filter has not been received, then they now have one. Someone could have accidently (or purposely) provided the wrong address, but this way everyone knows that the amount of filters is being tracked and we know that all of the new requests will be documented.

   I would not take away the replacement cartridges until there is a long term plan.

2/13/16 Afternoon Brief:

HE Branch

DCH: 28 medically indipentent people to be put on map.

MDARD: resopurce request –lead and copper testing for pets.

HS Branch:

ARC: 2 teams and 4 rapid response teams.

Recovery: working on list of 186 of Flint with water bill that do not show that they have been checked/contacted. ARC will be making sure they are contacted this week.

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for *all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program* in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits within the categories of both storm and flood given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water

system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation ...

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance

were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. DECLARED JANUARY 16, 2016

SUMMARY

STATE: Michigan

NUMBER: FEMA-3375-EM

INCIDENT: Contaminated Water

INCIDENT PERIOD: April 25, 2014, and continuing

DATE REQUESTED BY GOVERNOR: January 14, 2016

FEDERAL COORDINATING OFFICER: David G. Samaniego
National FCO Program

DESIGNATIONS AND TYPES OF ASSISTANCE:

The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

OTHER: Additional designations may be made at a later date if requested by the state and warranted by the results of further evaluation.

Note: This is an emergency declaration.

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint. I believe the severity of this disaster warrants all categories of the Individual and Public Assistance Programs in order to facilitate suitable recovery. In support of this appeal, I offer the following information:

State and Local Government Capabilities

While I agree with Mr. Brown's assessment that considerable local and state resources were brought to bear in response to this situation, I strongly disagree with the assertion that "effective response does not appear to exceed the combined capabilities of the State and local governments." In fact, nothing could be farther from the truth. State agencies and local governments were able to provide short-term solutions to many problems related to this flooding. However, permanent solutions to much of the public facility damage and environmental degradation can only come about if significant federal assistance is made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by the U.S. Army Corps of Engineers (USACE) and Natural Resources Conservation Service (NRCS), those efforts are simply not sufficient to meet the long-term recovery needs of this situation.

Limited Federal Assistance Has Not Addressed All Needs

The NRCS has identified eight "urgent and compelling" stream bank stabilization sites, totaling $733,000 in project costs, that it intends to address with Emergency Watershed Program (EWP) funding. The NRCS share of these eight projects would total $550,000, and the local governments would be expected to contribute the remaining $183,000. However, this assistance is only intended to provide a temporary "band-aid" for the affected sites until permanent restorative work can be completed. Unfortunately, the NRCS does not have provisions for that type of assistance under its emergency relief authorities and funding mechanisms. As a result, the affected counties are left without a ready funding source for the permanent restorative work unless the Public Assistance Grant Program (PAGP) is activated under a federal declaration.

The amount of permanent restorative work that needs to be done in the Dead River Watershed greatly exceeds available local, state and federal financial resources, absent a Presidential Major Disaster Declaration. The Central Lake Superior Watershed Partnership estimates the total flood-related damages in the Dead River Watershed to be $28.3 million. Of that total, $4.5 million is for temporary stream bank stabilization measures, $19 million is for soil restoration (1.9+ million cubic yards), $800,000 is for

sediment removal measures to be implemented over a five-year period, and $4 million is for habitat restoration projects. (It should be noted that the $19 million soil restoration estimate does not include over 1 million cubic yards of soil lost in the Silver Lake dike and Tourist Park dam. If that is included, the total soil restoration cost approaches $30 million. Also, the $4.5 million in stream bank stabilization measures are for stabilizing the stream banks in their current condition and not restoring them to their original, pre-flood condition.) As you can see, the considerable environmental needs brought about by this flooding greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the PAGP is activated. The only other possible option might be a special Congressional appropriation, which is highly unlikely given the current difficult status of the federal budget.

The dredging assistance provided thus far by the USACE has been instrumental in restoring the basic navigability of the Dead River and the Marquette Harbor, but it has not removed all impediments to navigation nor permanently restored the areas ravaged by the Dead River floodwater. Again, additional federal assistance is required to restore the Dead River and Lake Superior waters to their pre-flood conditions, thereby providing an acceptable level of safety for commercial navigation interests and boating public alike.

To help address a portion of the road and bridge damage in the four affected counties, the Michigan Department of Transportation (MDOT) will be submitting a formal request for $2.5 million in Federal Highway Administration (FHWA) funding assistance under the FHWA Emergency Relief Program. However, that assistance – if granted – will only address those damaged facilities that are part of the Federal-Aid System (FAS). The FAS damage amounted to approximately 50 percent of the identified $4.8 million in public road and bridge damage, leaving the remaining 50 percent of road and bridge damage (approximately $2.3 million) with no ready means of permanent repair, restoration and replacement. In addition, another $2.1 million in other public damages (under PAGP Categories A, B, D, E, F and G) have been left unfunded by the denial of our declaration request. The State of Michigan and the affected local governments do not have the available funding to address these unmet public damage needs and bring the affected facilities back to full operational status. As I indicated in my declaration request letter, the State and these same four counties are still dealing with another major flood disaster that occurred in this same area only a year earlier (1413-DR-MI) and we simply don't have the financial resources to address this additional, unexpected public facility damage.

Damage to Dams Not Completely Addressed

The Preliminary Damage Assessment (PDA) conducted for this disaster identified only $145,306 in damage to dams and other water control facilities, even though the flooding completely destroyed two publicly-owned and operated dams. I believe this damage figure is far too low and apparently does not include the complete cost of rebuilding the two dams (the Tourist Park Dam in Marquette and the Loughs Lake Dam in Baraga County) to their pre-flood condition. The Marquette Board of Light and Power estimates that the cost of restoring the earthen fill to the Tourist Park Dam alone will approach $1.1 million – far in excess of the $145,306 in total damage identified under PAGP Category D in the PDA. These dams together provide valuable water control and recreation functions for the local communities and the region; therefore, it is imperative that they be rebuilt as quickly as possible.

Unfortunately, the State and the affected local communities do not have the funding at this time to undertake such a project, and as you know, funding under the National Dam Safety Program cannot be used for this purpose because physical improvements and construction activities are not eligible grant activities. The USACE and NRCS have not identified or offered ready sources of funding for the reconstruction of these two dams. I believe FEMA's PAGP provides the best source of funding for rebuilding and restoring these valuable and needed public facilities, and that program can only be activated through the declaration of a Major Disaster by the President.

Lingering Public Health, Safety, and Environmental Threats

Although strides have been made in addressing the many public safety threats and the environmental degradation brought about by this severe flooding, there are considerable lingering issues yet to be addressed. For example, local governments have done an excellent job in identifying and cordoning off unstable stream banks and other unsafe areas. However, as I indicated earlier, permanent

solutions for those dangerous sites will not come about in a timely manner unless significant federal funding resources are made available to restore, repair and permanently stabilize the areas.

Similarly, while the Dead River is open for recreational use and warning signs have been posted at boat launch sites warning boaters and swimmers to be alert for dangerous conditions, those temporary preventive measures are hardly a final, permanent solution to the problem of subsurface flood debris, sedimentation, siltation, bacteria and chemical pollution brought about by the flooding. Again, permanent solutions are needed to eliminate these significant threats to public health and safety and the environment.

The environmental damage to the Dead River Watershed may also adversely affect future flood control activities because the river has changed its course and characteristics in many areas upstream of and in and around the city of Marquette. Unless the failed water control structures and stream banks are replaced / restored to their pre-flood condition, it will be difficult to predict exactly how well the Watershed will handle future flooding events. It is entirely possible that previously flood-free areas and structures will now be flood prone due to the new Watershed characteristics, and the generation of hydro power may be affected as well. These are all distinct possibilities unless the Watershed is restored to its pre-flood condition. In its pre-flood condition, the Watershed performed in a predictable manner and the flood control and power generation characteristics and capabilities were well documented. In its current post-flood condition, the Watershed has unknown characteristics and capabilities that may adversely affect the citizens of the city of Marquette and Marquette County in the years to come. I do not want to take a "wait and see" attitude in this situation, and I am certain the affected local citizenry does not want to be part of such an experiment either. Prompt and prudent action is called for to help rebuild and restore the environmental and hydraulic / hydrologic characteristics of the Dead River Watershed.

Unfortunately, the State and the affected local governments are in no position to provide those solutions without a significant infusion of federal disaster relief assistance. I believe that the direct federal debris removal assistance I requested in my June 4, 2003 letter would have addressed the majority of the health and safety concerns related to debris, sedimentation, siltation and water quality. Activation of the PAGP would have provided the ready means to restore many of the damaged public facilities that provide critical water control, power generation and transportation functions.

Vulnerable Power Generation and Distribution Capabilities

This flood disaster exposed the relatively fragile nature of the Upper Peninsula's power generation and distribution network. Even as bad as the situation has been, it could have been much worse had one or both of the remaining dams on the Dead River failed and severely damaged or destroyed the Presque Isle Power Plant in Marquette. Fortunately, the power plant survived mostly intact from a physical standpoint, but it took a major hit from an operational standpoint. The plant has been off-line for several weeks, and even now only six of the nine generating units are back on-line. As you know, the power generation situation has been precarious at best since the flooding occurred and has caused millions of dollars in economic injury to the central and western Upper Peninsula and temporarily idled two major iron ore mines that produce 20 percent of the U. S. iron ore supply.

Although the region voluntarily adjusted its power consumption to cope with the reduction in electrical power availability and it generally succeeded in that regard, had this disaster occurred in colder weather the situation could have been much more serious. To prevent that type of situation from ever occurring again and to reduce the vulnerability of this plant and the regional distribution network to all types of natural and manmade threats (up to and including acts of sabotage and terrorism), I believe that prudent mitigation measures may be called for. If federal disaster relief assistance is made available, we may be able to provide funding (under the Hazard Mitigation Grant Program or PAGP) to the affected utilities in the region to undertake needed measures to mitigate the vulnerabilities of the power generation and distribution facilities to all types of physical threats. Without such assistance, those measures will not likely be taken due to lack of funding.

Economic Injury to the Region

The economic injury to the four affected counties and the region from this flood disaster is significant. Only now are many of the negative economic impacts coming to light. As I indicated in my June 4 declaration request letter, the estimated economic impact to Marquette County alone is in excess of $80 million. I have requested that the Small Business Administration (SBA) activate its Economic Injury Loan Program, under its own statutory authority, to provide much needed financial relief to the dozens of businesses negatively impacted by this flood disaster. That request is currently pending. Even if the request is approved, the assistance rendered will be in the form of low-interest loans which must be paid back. For many struggling businesses, another loan is often the last thing that they need. However, for many other businesses the loans will provide much needed working capital and a margin of safety that will allow them to continue to operate until their business picks up.

One form of economic injury that will not be addressed by the SBA Economic Injury Loan Program is the increased costs of electric power generation and distribution brought about by this flood disaster. The two private utilities primarily affected by the flooding – the Upper Peninsula Power Company (UPPCO) and Wisconsin Electric (WE Energies) – have incurred increased costs in excess of $10 million. In all likelihood, the bulk of those costs will be passed on to electrical customers – individuals, families, businesses and institutions – in the form of electric rate increases allowed by the Power Supply Cost Recovery mechanism administered by the Michigan Public Service Commission. That $10+ million is $10+ million that will not be spent in other segments of the local and regional economy – at restaurants, retail establishments and other businesses, at colleges / universities, at travel and tourism destinations, etc. – effectively taking the money out of widespread economic circulation.

The economic injury to public agencies in the affected area is significant as well and unfortunately is also not covered under the SBA Economic Injury Loan Program. Unless the PAGP is activated, the State and the affected local communities will not have a ready funding source for repairing, rebuilding and restoring the many critical public facilities damaged or destroyed in this disaster. As I indicated earlier, this disaster comes on the heels of another Major Disaster (1413-DR-MI) that occurred just a year earlier in these same four counties. The counties and local municipalities are still recovering from that event, and now they have yet another major flooding disaster to deal with and not much in the way of available resources to address the public facility damage and the many public health, safety, and environmental threats.

I sincerely believe that a Presidential Major Disaster Declaration is warranted in this situation due to the extraordinary circumstances involved in this flooding disaster – the catastrophic failure of two dams, the widespread and severe public facility damage and environmental degradation, the prolonged reduction in electric power generation capability, and the severe economic injury inflicted upon the affected communities and the region. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

I have designated First Lieutenant Ralph Hobrat of the Michigan State Police, Emergency Management Division as the State Coordinating Officer for this appeal request. He can be reached by telephone at (517) 333-5048 and by e-mail at hobratr@michigan.gov. F/Lt. Hobrat will work with the FEMA in conducting additional damage assessments as necessary and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Deepwater BP Oil Spill

"To the people here in the Gulf, we are going to be standing by your side. And to Americans all across the country, come on down and visit."
– PRESIDENT BARACK OBAMA, U.S. COAST GUARD PANAMA CITY DISTRICT OFFICE, PANAMA CITY, FLORIDA, 8/14/10

Information on Spill-Related Damages and Claims

Individuals and businesses that have incurred damages as a result of the oil spill may submit a claim to the Gulf Coast Claims Facility (GCCF) for removal and cleanup costs, damage to real or personal property, lost earnings or profits, loss of subsistence use of natural resources, or physical injury or death. Claims can be submitted atwww.gulfcoastclaimsfacility.com, or by calling (800) 916-4893 (toll free); (800) 916-4893 (multilingual); or (866) 682-1758 (TTY).
If, after 90 days, BP or the GCCF has not settled your claim (or any time after BP or the GCCF has denied your claim), you may present it to the National Pollution Fund Center. Information on presenting a claim to the NPFC is available at 1-800-280-7118 and athttp://www.uscg.mil/npfc/Claims/.
For more information on assistance for small business owners and others in affected areas, visit RestoreTheGulf.gov.

What You Can Do

- *Request volunteer information and register to volunteer:***(866)-448-5816**
- Submit your vessel as a vessel of opportunity skimming system or submit alternative response technology, services or products:
  (281) 366-5511
- Report oiled or injured wildlife: **1-866-557-1401**
- Report oil on land: **1-866-448-5816**

State specific volunteer opportunities:

- Louisiana
- Mississippi
- Florida
- Alabama

Department of Homeland Security (DHS)

Since the moments after the oil rig explosion on the night of April 20, DHS has played a lead role in federal response efforts—deploying the U.S. Coast Guard to search and rescue the 126 people aboard the rig, and quickly leading efforts to establish a command center on the Gulf Coast to address the potential environmental impact of the event and to coordinate with all state and local governments. Secretary Napolitano leads the National Response Team, an organization of 16 federal departments and agencies responsible for coordinating emergency preparedness and response to oil and hazardous substance pollution events.

U.S. Coast Guard

The Coast Guard has played a major role from the very beginning, when it responded to the explosion on a search and rescue mission to save lives. Pursuant to the National Contingency Plan, Rear Admiral Mary Landry was named the Federal On-Scene Coordinator to lead a Regional Response Team which was stood up that included DHS, DOC/NOAA, DOI and the EPA, as well as state and local representatives. As the event escalated, Coast Guard Admiral Thad Allen was announced as the National Incident Commander for the administration's continued, coordinated response—providing additional coordinated oversight in leveraging every available resource to respond to the oil spill and minimize the associated environmental risks.

Department of the Interior (DOI)

The morning after the explosion, Secretary of the Interior deployed Deputy Secretary David J. Hayes to the Gulf Coast to assist with coordination and response to the event, and provide hourly reports back to the administration. Since then, DOI has played a vital role in overseeing BP's response efforts while—at the President's request—working to deliver a report with recommendations on what, if any, additional safety measures should be required for offshore operations. Secretary Salazar has announced that inspections of all deepwater rigs and platforms are underway.

Environmental Protection Agency (EPA)

Since the Deepwater BP Oil Spill, EPA has provided full support to the U.S. Coast Guard and is monitoring and responding to potential public health and environmental concerns. Environmental data, including air quality and water samples, will be posted and frequently updated on this site as it is collected and validated by EPA's response teams along the impacted coastlines. This data is meant to determine *potential risks to public health and the environment*: http://www.epa.gov/bpspill

National Oceanic and Atmospheric Administration

As the nation's leading scientific resource for oil spills, NOAA has been on the scene of the Deepwater Horizon oil spill from the start, providing coordinated scientific weather and biological response services to federal, state and local organizations:http://response.restoration.noaa.gov/deepwaterhorizon
Weather Forecast: http://www.srh.noaa.gov/lix/

Small Business Administration

SBA is making low-interest loans available to small businesses in the Gulf Coast regions of Alabama, Florida, Louisiana and Mississippi suffering financial losses following the April 20 Deepwater BP oil spill that shut down commercial and recreational fishing in the Gulf of Mexico. SBA's Economic Injury Disaster Loans (EIDL) are available immediately in designated counties and parishes of each of the four states to help meet the financial needs of qualifying small businesses following the oil spill:http://www.sba.gov/services/disasterassistance/

Department of Defense (DOD)

DOD continues to support the ongoing response effort by lending Naval and Air Force bases to provide vital staging areas for boom deployments and other activities, and providing C-130 aircraft equipped with Modular Aerial Spray Systems, which dispense chemical dispersant—capable of covering up to 250 acres per flight. DOD also plays a significant role in the National Response Team, helping to lead the coordination of response actions for the federal government. Secretary of Defense Gates has authorized use of Title 32 status for up to 17,500 National Guard members in four states: Alabama (3,000), Florida (2,500), Louisiana (6,000) and Mississippi (6,000).

Department of Labor

A number of agencies within the Department of Labor are working every day for the health, safety, and well-being of those involved in the oil spill response and cleanup operations. The Occupational Safety and Health Administration (OSHA) is evaluating the safety at worksites around the Gulf, covering the vessels of opportunity, beach cleanup, staging areas, decontamination, distribution and deployment sites. Worker exposure data and requirements for training and personal protective equipment are posted on OSHA's website. The Employment and Training Administration (ETA) supports a number of One Stop Career Centers in the area, and is helping to facilitate retraining and re-employment assistance to help workers who have been displaced find new work opportunities. In addition, DOL is providing resources to area workers regarding wage laws and federal contract compliance: http://www.dol.gov/dol/gulf.htm

Department of the Interior's Fish and Wildlife Service

The Fish and Wildlife Service continues to support the joint agency response to the Deepwater Horizon oil spill in the Gulf of Mexico with experienced specialists, land managers, and support personnel. Booms to capture and deflect anticipated oil are being deployed at Breton National Wildlife Refuge, where

thousands of brown pelicans and shorebirds are currently nesting. The Service also is initiating Natural Resource Damage Assessment and Restoration activities in this incident to assess and address the long-term damage to impacted resources:http://www.fws.gov/home/dhoilspill

Department of the Interior's National Park Service

The National Park Service is focused on human safety and resource protection in eight national parks in the Gulf area. These parks are working to assess resources, collect baseline data, coordinate boom placements, plan for responsible cleanup, install barriers for shore bird and turtle nest protection, and plan for potential park closures, if necessary: http://www.nps.gov/aboutus/oil-spill-response.htm

National Institute for Occupational Safety and Health

Oil spill response workers may be exposed to many different chemical, physical, biological, and psychological hazards. These hazards vary depending on the type and location of the oil spill, type and stage of response, degree of coordination between entities involved in response and recovery, and the workers' specific tasks. Therefore, occupational and environmental hazards need to be identified, assessed, and monitored in each oil spill response:http://www.cdc.gov/niosh/topics/oilspillresponse

Daily Updates

The latest in the Ongoing Administration-Wide Response to the Deepwater BP Oil Spill including additional resources and the response by the numbers is available here.

Information on Air, Food, and Water Safety

Air: EPA continues air monitoring effort to ensure the safety of local residents and track any developing air quality changes.

Food: Consumers need to know that seafood from the open waters of the Gulf of Mexico is safe and fishermen need to be able to sell their products with confidence. That's why there's an aggressive, comprehensive, coordinated, multi-agency program to ensure the safety of Gulf seafood – working across federal agencies and with state and local officials, and the seafood industry, to closely monitor the effects of the oil spill and its potential impact on seafood safety. This includes rigorous testing and protocols throughout the process of bringing safe Gulf seafood to market – from active monitoring of the Gulf fisheries where seafood is caught to the inspection of companies that catch and sell Gulf seafood to the frequent testing of seafood caught in the Gulf to ensure that all seafood that goes to market is safe.

Water: With the ongoing reopening of Gulf fisheries, fishermen are going back to work and Americans can confidently and safely enjoy Gulf seafood again.

Ms. Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery
500 C Street, SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL 60605

Dear Ms. Elizabeth Zimmerman,

I am submitting this letter of appeal to Associate Administrator for the Office of Response and Recovery *Elizabeth Zimmerman's letter to me dated January 22, 2016. In that letter, she indicated that the State of* Michigan has been denied in its request for the Individual and Households Program and reimbursement for emergency protective measures (Category B) under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to *request a reconsideration of that decision.*

Respectfully, I appeal the determination that "additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event". Given the unique characteristics of this disaster pose an imminent and long-term threat to the citizens of Flint that warrants special consideration for the Individuals and Households Program and reimbursement under the Public Assistance program for Genesee County. This unique disaster poses imminent and long-term threat to the citizens of Flint and warrants special consideration for all categories of the Individual and Households Program, as well as reimbursement under the Public Assistance program in order to facilitate recovery.

Over the past 5 years FEMA has approved 55 emergency declarations for various events across the country and territories. Of the 55 declarations only 7 (including this declaration) have been for man-made events and of those only the West Virginia chemical spill is a close comparison to this event. In that incident they faced a similar instance where the tap water was contaminated and unusable. They were faced with similar conditions and were granted Category B funding under the declaration to reimburse the costs incurred.

These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. I feel a more narrow reading of this definition does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 *constructed water distribution systems, I hope you will determine that providing assistance beyond* "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

My thoughts on EPA...

During the BP Oil Spill, the US Environment al Protection Agency (EPA) engaged to perform numerous actions. The following is taken from the EPA website:

- To date, no chemicals have exceeded human health benchmarks. However, people should heed warnings from their local health officials regarding oil-impacted beaches and water. As an added safety precaution, if people see or smell oil in the water or beach area, they should avoid the oil-impacted area.

- EPA's water sampling process includes the collection of the sample, laboratory analyses and data verification (which ensures high quality data). These steps take about 7 to 10 days to complete before the data can be posted on EPA's website. As such, the data EPA posts is not representative of current conditions but rather is a snapshot in time for a given location. We continue to take water samples and will post data as soon as it becomes available.

- EPA contaminant data are compared to technical benchmarks to determine the potential effects of contaminants on human health and aquatic life. Sample results are also being compared to EPA water quality criteria guidelines and State water quality standards, when available.

- In areas where contaminant levels exceed benchmarks, it is important to remember that historical contamination may exist in some sampling locations and may not be related to the BP spill.

- EPA, in partnership with states, oversees the National Coastal Condition Assessment (NCCA). NCCA reports describe the ecological and environmental conditions in U.S. coastal waters. When possible, EPA is comparing data collected during the BP spill response to the NCCA data.

OSHA offered the following:

- To determine whether or not workers were exposed to dangerous levels of toxic chemicals, OSHA conducted its own independent air monitoring, both on shore and on the cleanup vessels, and reviewed data from BP, the Environmental Protection Agency (EPA) and the National Oceanic and Atmospheric Administration (NOAA). No air sampling by OSHA detected any hazardous chemical at levels of concern. See more information on OSHA's sampling strategy, detailed findings, and evaluations. Read our frequently asked questions on health hazards and protections, including information on respirators and other personal protective equipment.

As indicated by the above, the federal government was highly engaged in event response, which was critical to restoring public confidence to avoid further economic damage due to perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in use of tap water.

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I hereby respectively submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision. While this unique disaster did not result from natural catastrophe, fire, flood or explosion, it poses imminent and long-term threat to the citizens of Flint. Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I am hoping you will choose to provide assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety." As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline. While I am greatly appreciative of the emergency declaration and the assistance it provides for the city of Flint, I am disappointed no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies. My appeal through Stafford Act measures follows, but I respectfully request assistance beyond providing "water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

JAN 16 2016

The Honorable Rick Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an expedited major disaster declaration for the State of Michigan as a result of water contamination described in your request as beginning on April 25, 2014, and continuing. You specifically requested Individual Assistance and Public Assistance, including direct federal assistance for Genesee County and Hazard Mitigation statewide.

Based on our review of all of the information available, a major disaster declaration under the Stafford Act is not appropriate. The request does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. §§ 206.2(17). The incident was not a result of a natural catastrophe, nor was it caused by a fire, flood, or explosion.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to the President through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

W. Craig Fugate
Administrator

Melissa Mays "We're not gonna be able to sell it for one, because it's not legal to sell your home with known copper and lead problems until you replace those problems," she said. So there's that thousands of dollars to do the service line and indoor plumbing. And yeah, nobody wants to buy a poison water house."

Erin Brockovich "Once again... I beg, plead... cry for the USEPA to get into the Flint drinking water investigation and stop with the denial; your continued silence has proven deadly."

Edwards criticized the U.S. Environmental Protection Agency for its slow response to the crisis in Flint. The EPA's Miguel del Toral tried to get the state to address the corrosion treatment question. In email and memos, he consistently spelled out his many concerns about the lead corrosion problem in Flint. Edwards says del Toral was essentially sidelined by his own agency.
"The EPA buried this problem. The record is absolutely clear. They've been in this up to their eyeballs since early July," Edwards says.
In fact, he tells us, much of the blame falling on Governor Snyder and former Flint Mayor Dayne Walling can be directly traced to the actions of the EPA Region 5 Administrator.
"[Del Toral is] not just any employee, he is recognized as the foremost expert on the Lead and Copper Rule in the United States. And his concerns were completely buried and brushed off, and EPA never communicated to either the governor or to the mayor of Flint that his concerns should be taken seriously. Instead they apologized for what he did."

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

In response to W. Craig Fugate's letter to me dated January 16, 2016, in which he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint, I submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, requesting a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. § § 206.2(17), the incident was not caused by a natural catastrophe, nor was it caused by fire, flood, or explosion." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster expands and fits both within the categories of a storm and flood given that it was qualities within the water that, over a long term, flooded and damaged the city's infrastructure in a way that was not immediately or easily detectable and will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A more narrow reading of this definition I feel does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels, if our primary mechanism for relief is read in a way that limits the hazards to which we can provide relief.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope that you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

While I greatly appreciate the emergency declaration and the assistance it provides for the city of Flint, I am disappointed that no other assistance is being offered or suggested, whether through Stafford Act measures or through programs of other federal agencies.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions to much of the public facility

damage can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water and is preparing a second. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million.

NOTE: What do we know about the new appropriation/what can we include?

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local, state and federal government unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated. The only other possible option would be a special Congressional appropriation, which is unlikely.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community with such a large percentage of its citizens living in poverty to recover requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with and few available resources to address the damages to health and public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination *arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and* potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

~~As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."~~

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

Governor

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

<u>State and Local Government Capabilities</u>

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event

and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	16.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Enclosures

OMB No. 1660-0009/FEMA Form 010-0-13

2/13/16 Morning Brief:

Weather: wind chill -3 to -10 today. Frost bite 30 minutes. Lite flurry. Tomorrow 18; wind chill -5 to -10. Wind chill tomorrow afternoon 5 – 10. Sunday – Monday lite snow maybe 1". Monday 34 degree. Next week gradual warming highs 40s by end of week.

HE Branch:

HS Branch:

ARC: 6 team. VRC 0900-1700.

PS Branch:

UCG:

LOCAL EOC: 1700 city lifted the boil water. Fire, Police, and City Admin fired yesterday – may affect operations because of new contacts.

PIO:

2-12-16 Afternoon Brief:

SEOC OPS: Temps cold overnight – be aware. Focus on IAP. 2nd warehouse open at 1200 today and also tomorrow. Boil water lift is expected today.

HE Branch:

MDARD: filed activity yesterday. 6 food assessment. 9 followuu asssesments. 5 water samples.

HS Branch

State Val: met mi workforce development for local higher program – grant based and higher based.

ARC: 8 teams, includeing rapid response teams. VRC open today and tomorrow.

PS Branch:

DMVA: coming by pod looking for filters for pitchers.

DTMB: parking issues at flint state office building – park in assigned water parking or move to the roof.

UCG: IAP #9 will be submitted today.

LOCAL EOC: Boiled advisory still not lifted. IAP now available – current period till Monday – looking to change ops period to line up with UCG op period.

PIO: boil water will go out once official. Please put names on email to the JIC.

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, Identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☒ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).
N/A

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see Enclosure C: Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

2/11/16 Afternoon brief:

OPS:

HE Branch: Jennifer new process for requesting federal res with the ucg. Flyers getting profited for PB and pregnant woman , county hd closed tomorrow boil advisory still in place

MDARD: Brad Deacon food est assessments continuing, along with follow-up, establishing team for pet concerns. Also addressed a resident concern in used PB contaminated h20 for crop irrigation

LARA: finalized faucet replacement for 3 facilities

HS branch: donation mgmt., has a GM contact for warehouse space, and labor donations,

DHS:

ED: 0830 meeting with US Dept of ED reps with state and local reps

ARC: Paul 9 teams out 6 h20 response teams and 3 rapid response teams; volunteer ops center operating since 0900 and did 2860 h20 test kits; expecting 3000 done by 1700

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide
☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds
☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, Identify Federally-recognized Tribes in the requested counties (If applicable).
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

2-11-16 Morning Brief

SEOC OPS: wants commodities update. Want recovery update.

Weather: 20 today. Sat high 10, sun 15. Light snow today. Friday maybe 1".

HE Branch:

DCH: CHECC work on long term blood and nutricien planning.

MDARD: completed 5 surveys. Will be back working today.

DEQ: 10 sample teams today. Futher coordinating with LARA on school sampling and licined adult and day care.

HS Branch

DHS: 80% of care givers that have submitted water samples. Recycle is posted in MICIMS.

ED: US dep of ed in flint on Friday 0830 at the ISD. Question from gov on school nurses – 300k for help with school nures.

ARC: wrt today. Finished knocking on all doors and apartment complexes. Today just handing out water. Assembled water test kits yesterday.

State VAL: meeting with mi work force for hire program for long term distributeion.

LOCAL EOC: long term distribution discussions. CAPT: wants infor for the amount of water main breaks and boil advisories over the past few years. Do the water department have the things that they need to get thoruhg these issues in a timely manner.

Recovery: working with city and county for course of action (5 of them) – working to develpe missions for ARC in the field.

PIO: press release about the boil water to change the filters.

LORI Hinckly:

2/10/16 Afternoon brief:
HE Branch:

Waterline break –expecting rush for bottled watered h20
Cold snap on way

UPS meeting with state agencies to potentially provide assistance; good starting block with more discussions coming

DHHS
Dr. Laurie meeting with FBOs in afternoon tomorrow
Dr. Wells hosted a webinar to medical personnel audience; this was the second webinar and had an increase in attendees; it is now also available on MITRAIN
Clarifying press release that different agency teams are going out together in Flint
USDA approved WIC funds for testing children Genesee County HD on furlough Friday-Monday

DEQ
Sentinel teams out this afternoon NSF advised to replace cartridges on filter after boil order is raised

MDARD:.none
DHS:. Human
Children's Services Administration gave #s on testing for foster homes. Involved with a recycling pj with *MSU BB team and alumini.*

ED:
Dr. Wilson visited elementary school to discuss outreach for children. Media Release in works about expansion of EBT and USDA food program to assist. Included info on flint farmers mkt and food education to citizens.

AGING: APS reviewing results of CU and PB test results received of client's households . Requested help in IDing thresholds of concern with other state agencies. Communications offline were advised to provide this information

ACR: 10 teams out; one with vehicle trouble, vol reception center open till 5 and same tomorrow. Volunteers put together 1800 water test kits and expecting 3600 tomorrow

Corrections: Replacing deployed box trucks that broke down

JIC: news release on standby for info about cartridge replacement. Release is pending the announcement of the boil order. Captain asked questions related toadding clarification on CARTRIDGE ONLY replacement.

2/10/16 Morning Brief

SEOC OPS: Water main break. Influx of bottle water and replacement cartridges. Press release should be coming out for what to do with the filters. Make sure we have one message from the SEOC. Long term recovery is meeting again today – should have recommendations by Thursday.

Weather: Snow showers this morning will be thru midday. Additional of 1" could be possible. Cold temps tonight will be daytime tomorrow and Friday upper 10s. Night lows single digit. Weekend will be windchills in the -10 below.

HE Branch:

DCH: check has volunteer for the distribution team with DEQ. Webinar for healthcare providers today. Preliminary behavior health model. Capt Cody with SAMSA will be in Flint today.

MDARD: 2 samples yesterday.

DEQ: 10 team for sentinel sampling. Also high lead and copper sampling.

LARA: finalize complete list of schools for faucets being replaced. Translating the documents into languages.

HS Branch:

DHS: children services administration for water testing. Blood testing executive staff received a letter from her insurance to get a blood lead test and said it was covered.

ED: work with LARA, MDARD, and DEQ for schools. Was parent meeting with school of def – went well. 12 parents, chanel 12 was there also. Water main happened during the meeting and the dr.s were able to anser quests.

ARC: 440 homes yesterday. 10 teams today. VRC yesterday 15 new people. 17 event passed volunteers on projects yesterday. VRC today 0900 – 1700. Water test kits assembled yesterday.

PS Branch:

DTMB: door hanger prontin grequest – should be available tomorrow.

UCG: in IAP #8, so some changes coming. EPA added a team for regidual clorine testing. Health and med task force – people transitioning out. Mental thealth team there till ??? EPA has 1000s samples. Follow up on rash has decreased.

LOCAL EOC: coordinate rapids response with warehouse. Water main break – all teams have been equipped with information.

SEOC LOG: monitor PODs – assumed that water will be going out at greater rates.

Recovery: working on next mission with water main break and replacement filter.

PIO: boil water advisory – Lt Wolf working on message that filters will need to be replaced

GABE: messaging about boiling water.

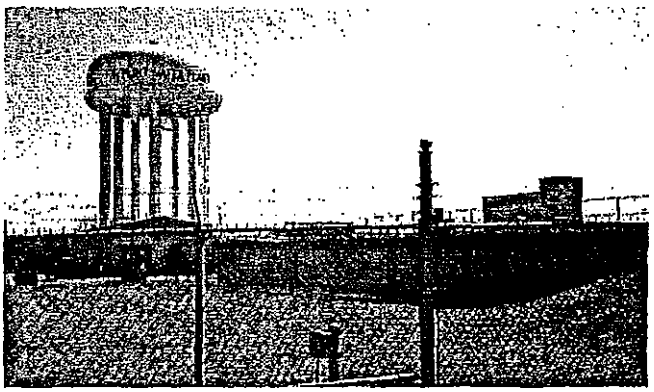
1. Incident Name: 2015-10-01 City of Flint-Water Contamination/Shortage	2. Operational Period to be covered by IAP (Date / Time): *From: 01/19/2016 08:00:00 To: 01/26/2016 08:00:00*	IAP Cover Sheet

3. Approved by:

FOSC:	
SOSC:	*FILt. Gabe Covey*
RPIC:	
State SEOC Director	Capt. Chris Kelenske

Incident Action Plan



4. Prepared by: Amanda Bresler Date / Time: 01/18/2016 17:21:00

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 01/19/2016 08:00:00to: 01/26/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

Approved Site Safety Plan(s) Located at:

6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

☑ ICS 202	☑ ICS 206
☑ ICS 203	☑ ICS 207
☑ ICS 204	☑ ICS 208

Comments [Add Comment]

Position	Name	Phone	Date/Time	Comment	Type
SEOC OPS Recovery Branch Director	Brianna Briggs		01/12/2016 10:57:24	Hours of operation for the teams has been established and will remain 8:30 a.m. to 5 p.m. Local GIS has provided IPads and software for tracking distribution in the field. A tracking sheet has been developed and printed for use in the field if software issues occur. Training was developed and conducted for the teams currently scheduled to be in the field Tuesday through Friday. MSP is currently developing a strategy for canvassing of the entire affected area. Teams were deployed into the field as of 1000 Tuesday, Jan 15. Weather conditions and media avail at GCCARD prevented start time at 0830. MSP continues to monitor any safety and security concerns for the teams. EMHSD staff delivered the four vehicles being used for canvassing to the GCCARD facility on Monday, Jan 11. All related requests are currently being worked on and monitored by Recovery Branch staff. Additional requests are being considered in order to expand operations of the teams in the field. Training was conducted for the current teams. Daily deployment briefings will be conducted. The first briefing occurred Tuesday, Jan 12.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Logistics Section (Obj. 2)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 2: Ensure accurate tracking and accounting of all commodities.	Date From: 01/19/2016 Time From:08:00:00	Date To: 01/26/2016 Time To: 08:00:00

JIC PIO Leader	Ron Lelx		01/12/2016 12:56:29	Tasks accomplished included: • Established contact with FEMA External Affairs. • Corrected inaccuracies in the media regarding the emergency declaration. • Helped arrange a legislative and congressional conference call to give updates on State and FEMA efforts. Provided talking points for Captain Kalenske for the legislative and congressional phone call. • Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents. • Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed. Event attended by FJLL Dave Kaiser, ARC warehouse manager, and Capt. Taleya of GCSD. • Provided printed instructions to 211 for installing a water filter. • Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters. • Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water. • Established nightly activity numbers press release template, issued first two nightly releases. • At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week. • Translated the palm card into Arabic.	Update

3. MDHHS/CHECC - Will communicate with the healthcare providers regarding blood testing.
4. MDHHS/CHECC - Continue to support local health with case management, as requested.
5. MDHHS/CHECC - Coordinate with MDARD, LARA, TED, MSP, and MDE on nutrition planning and communications to develop a long term strategy to provide assistance.
6. MDHHS/CHECC - Gather information for disaster behavioral health needs of the community and responders.
7. MDHHS - Order 10,000 EPA, nutritional pamphlets to be shipped to the Genesee County Health Department by end of the week. Determine the need for additional pamphlet (on going).
8. MDHHS/CHECC - Staff CHECC hotline Tuesday 1/19/2016 until mid-morning when LHD will assume responsibility to field questions transferred from 2-1-1. Staffing the hotline for the weekend is still TBD.
9.MDARD - Offer to conduct water sampling for all food establishments in the affected area. MDARD will send an individual to each businesses in the most impacted areas first, working to start scheduling visits.
10. MDARD - Participate and help coordinate long term nutrition by assisting in access to the food supply systems.

7. Special Instructions:

Comments — Add Comment

Position	Name	Phone	Date/Time	Comment	Type
SEOC OPS Health and Env MDCH	Kathy Wahl		01/18/2016 09:27:51	Request has been sent to logistics to order the 10,000 EPA pamphlets for the GCHD.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terril		01/16/2016 11:55:13	Maintaining communications and regular briefings with the CHECC leadership to determine priorities, provide updates, and discuss daily activities. Nutrition planning lead has gathered information and begun developing a nutrition plan and communication strategy. CHECC has maintained regular communications with the local health department. Conference call was held with SAMHSA to discuss the application process for disaster behavioral health, and new resources were provided to the CHECC SME to continue gathering that information.	Update
SEOC OPS Public Works and Engineering LARA	Karen Towne		01/14/2016 14:25:33	LARA Bureau of Community and Health Services are contacting all licensed facilities to determine potential needs and actions facilities are taking. We have successfully reached out to every facility either directly or left messages. LARA will continue to monitor and assess all needs and actions.	Update
SEOC OPS Health and Env MDARD	Brad Deacon		01/16/2016 11:25:04	MDARD updated water use requirements for food establishments (processing, retail / convenience stores, and food service/restaurants; document with cover letter was sent to all licensed facilities via US Mail on Thursday including how to request MDARD staff to collect water samples. Internal training for phone staff to handle and assign these requests occurred Friday and training for field staff on how to conduct tests will occur 1/20.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terril		01/14/2016 11:16:52	Maintaining communications and regular briefings with the CHECC leadership staff and section chiefs prior to each morning SEOC brief and after the 4pm SEOC briefing, to ensure coordination of health activities. Nutrition planning lead has been assigned to the Flint Nutrition Plan project. Key contacts from other State agencies have been identified and contacted to support the lead on this project. Regular communications continue with the local health department. Medscape/WebMD communication was provided to increase communication distribution of JIC approved messages to the healthcare community. Disaster behavioral health subject matter expert is now working out of the CHECC to begin gathering information for disaster behavioral health planning.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3.
Logistics Section (Obj.5)-City of Flint-Water Contamination/Shortage Objective: 5. Ensure adequate staffing to support operational requirements.	Date From: 01/19/2016 Time From:08:00:00	Date To: 01/26/2016 Time To: 08:00:00	**Branch:** **Division:** **Group:** **Staging Area:**

4. Operations Personnel:	Name	Contact Number(s)
Logistics Section Chief:	Wendy Galbreath	
Branch Director:		
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Logistics Section Chief	Wendy Galbreath	1		Logistics Chief rotates, may not always be Wendy

6. Work Assignments:

Tactic(s):
1. Maintain staffing plan for operational period.
2. Maintain a SEOC staffing spreadsheet indicated required positions.
3. Poll Section Chief's for personnel available to work.
4. Notify selected staff of their assignments.
5. Send staffing spreadsheet to assigned personnel.
6. Create daily sign-in sheet for SEOC sign-in.
7. Maintain regular communication with local EOC to assess staffing needs.
6. Deploy state staff to local EOC, if needed.
8. Ensure all assigned staff check in and are tracked via MI CIMS.
9. Identify additional personnel and vehicles for future distribution efforts.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: Indicate cell, pager, or radio (frequency/system/channel)
Wendy Galbreth	/Logistics Section Chief	
Penny Burger	/Finance Section Chief/Logistics Section Chief

MDARD	Brad Deacon			
TED	Lynne Feldpausch			
LARA	Alesha Gensler			
DEQ	Jen Wolf			
Education	Louis Burgess			
Aging	Steve Betterly			

6. Work Assignments:

Tactic(s):

1. Continued research being performed by identified state agencies.
2. EMHSD Recovery Branch will assist with questions as needed.
3. Coordinate with Federal Liaison.
4. Compile data as received.
5. Develop a report of possible assistance programs.

7. Special Instructions:

All programs have been given a deadline of COB Tuesday January 19, 2016.

Provide the following information, at a minimum, on potential assistance programs for individuals and/or government support in response to this incident:
- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

Position	Name	Phone	Date/Time	Comment	Details
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/17/2016 17:14:26	The major effort for the day was determining metrics for success regarding filter distributions. A method has been developed to tie back resource distributions to active water customers. As a result of this effort it was determined that of the 29,994 active water subscribers on the Flint Water System, 12,002 have been confirmed as having received filters (4623 of which were a result of SEOC driven operations that we began tracking on the 13th of January). There are a significant number of paper copies of records and database entries that need to be cleaned that are not included in the above. Additionally, there are a significant number of persons who do not show in the records as having been a water subscriber that received a filter. We are actively working to synch up all of these datasets to get a more accurate picture	Update

				of who does and does not have filters. Another major focus was determining what map should be provided through the JIC to the media to update the public on the status of response efforts. It was determined that the point data from the dashboard is ideal to show progress. This has been established as a recurring task and the map will be produced daily by 1700. Maps produced today: • Flint Water Response Teams Planning Maps • Team Activities Map for JIC • City of Flint Infrastructure Map for FEMA Additionally, provided tabular data from Flint Water Response Team Activities for the Recovery Unit. No progress was made on the mapping of lead water service lines in the City of Flint.	
SEOC LOG Resource Support Facilities Unit GIS	Walter Chomentowski		01/16/2016 12:01:07	Tactic A: Updated vulnerable elderly population locations database. Made wall map for showing water filter distributions by the county and Flint Water Response Teams. Fulfilled MOARD request for address location of livestock farms using water supplied by the City of Flint. Additionally, work continued mapping lead service line locations. At this point we are 35% complete with the city (northern third). A service line data set from the City of Flint was geocoded to assist with lead service line location automation. Tactic B: Provide daily filter updates to ArcGIS Online Collector App to field teams and tracked resources and site visits and deployed 30 additional tablets for field teams today. 25 of the pads are operational with ArcGIS Online Collector App.We prepad the pads at the SEOC and sent them to the local EOC where SEOC GIS will train field staff. Updating EOC dashboards to track metrics and track team locations and a POD distributions. Tactic C: Complete. Tactic D: Current focus is to provide maps of field team progress and tables of POD metrics daily to staff for planning purposes. Matt McCormick was in Flint today to train field teams. We will initiate contact with DEQ to begin defining the flow of data from DEQ testing labs to map water test results Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/14/2016 15:49:09	Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local presidential declaration document. Updated water services map to include customers outside of the Flint City boundary. Additionally, work continued mapping lead service line locations. At this point we are 30% complete with the city (NW Corner). Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and deployed 30 additional tablets for field teams today. We will be formatting them at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real time. Tactic C: Complete. Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The first phase is pushing out an app to POD staff controlling distributions to track their output in real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data. James Tchorzynski was in Flint for half of the day observing POD distribution flows which will inform how POD inventory control and tracking will be implemented. We will initiate contact with DEQ to begin defining the flow of data from DEQ testing labs to map water test results Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/13/2016 15:04:56	Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local EOC of PODS. Also made a franchise water customer map for MDHS. Additionally, work continued mapping lead service line locations. At this point we are 20% complete with the city (NW Corner). Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams. We will be formatting them at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real time. Tactic C: Complete. Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The first phase is pushing out an app to POD staff controlling distributions to track their output in real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data. Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/12/2016 15:50:01	Tactic A: Today we began migrating content to ArcGIS Online to streamline resource management operations. This includes a layer for water customers, updated filter locations, and PODS. Additionally, work continued mapping lead service line locations. At this point we are 10% complete with the city (NW Corner). Tactic B: Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Plan to incorporate water customers into the tool to better plan distribution routes. Created and implemented an operational dashboard to monitor distributions real-time from within the SEOC. Providing hourly updates until the operations dashboard can be better refined to show details of what is being distributed. Building a similar tracker for PODS to track status of distributions from fixed sites. Currently, we are facing issues with having enough government mobile devices for field staff. May need to do install for field teams to ensure their devices work properly if they are not preformated by GIS staff. Tactic C: Complete. ArcGIS online is the centralized resource. Coordination to continue, but recommend removing as a report item. Tactic D: Updated aging data, distro sites, and fillers data sets. Additionally, building operational dashboards to track resource distributions in real time. Lead analysis is ongoing and is at 10% of the city.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Operations Section (Obj. 8)- 2015-10-01-City of Flint-Water Contamination/Shortage Objective: 8: Maintain coordination between partnered agencies and organizations to include FEMA IMAT.	Date From: 01/19/2016 Time From:08:00:00	Date To: 01/26/2016 Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	F/Lt. Gabe Covey	
Branch Director:		
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Local EOC operations section chief	Michelle Kuzera	1		1101 Beach St. Flint
Local EOC Logisitcs section chief	Jay Eickholt	1		1101 Beach St. Flint
District Coordinator	Lt. BJ Roach	1		1101 Beach St. Flint
District Coordinator	Lt. Mark Russo	1		11001 Beach St. Flint
District Coordinator	Lt. Mike de Castro	1		1101 Beach St. Flint
FEMA Ops Chief	Jason Gamble	1		4000 Collins Rd, Lansing

6. Work Assignments:

Tactic(s):
1. Hold daily (8:30am) conference calls with the local EOC staff and key staff in the SEOC.
2. Hold daily (9:30 am) conference calls with the state agencies as well as an EMHSD representatives from the local EOC.
3. Conduct 10:30 am and 7:00 pm Distribution Process Meeting
4. Maintain constant communication with all partners via email/phone/MICIMS.
5. Maintain local EOC Operations Section Chief, Planning Chief and logistics Chief
6. Long term strategy for additional faith based organizations for distribution (Lt. BJ Roach).
7. Coordinate with FEMA on potential future PODs and distribution methods.
8. Coordinate future legislative and congressional calls.
9. Update tactics during IAP development days.
10. Support the tactics of the approved Logistics Support Plan.
11. Develop a plan for communication and coordination with FEMA IMT and other federal resources (CDC-ATSDR).

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function	Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/19/2016	Date To: 01/26/2016
2015-10-01 City of Flint-Water Contamination/Shortage		Time From: 08:00:00	Time To: 20:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the Local EOC at the Genesee County Administration Building for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Forecast Update for Flint, MI - Updated 900am January 18

* Very Cold Monday (Jan 18) through Thursday (Jan 21)
* Breezy Monday (Jan 18) through Tuesday (Jan 19) - Hazardous Wind Chills
* On and off light snow possible Monday (Jan 18). No Significant Accumulation

Temperatures will remain below 20 degrees Monday (Jan 18) though at least Tuesday night (Jan 19) and possibly longer. Low Temperatures Monday Night will be in the single digits above zero to near zero degrees. Above freezing temperatures may not occur again until early next week.

Wind Chill Values Monday (Jan 18) through at least Tuesday Night (Jan 19) will be near or below zero with Time to Frostbite from Exposed Skin generally 15 to 30 minutes Sunday through at least Tuesday Night.

Snow showers possible on Wednesday afternoon and evening (Jan 20). An inch of snow accumulation possible.

7-Day Forecast - Flint, MI : http://goo.gl/3qkSIa

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Reduce travel speeds as appropriate and be aware that stopping and turning on snow and ice covered roads will not be as responsive as on dry roads. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

4. Site Safety Plan Required? Yes ☐ No ☑

2/9/16 Afternoon brief:

HE Branch:

DCH: MDHHS staff accompaninig DEQ staff for high lead homes. MDHHS staff will be on initial teams. Mich pharmacy associateion for long term blood campaign.

MDARD: no sample because of water main break. 31 assessment at food establinmen 70something compliance. Tomorrow animal industry to discuss lead testing with pets.

HS Branch;

DHS: 211 calls related to flint water down to 10 ½ %. Standardized the donations board in micims.

ED: waiting direction for CDC direction. Excel spreadsheet for private schools in the flint area.

AGING: logic model for i&a on nutrient for senior.

ARC: 10 teams today. Reports midday – there should be fewer than 200 addresses to be contacted. Should be done tomorrow. VRC open today. Anticipating a loarge gorip of volunteers this weekend.

STATE VAL: over 100 people in the community working group. This is broken into many working groups. Worked on planning meeting with FEMA, State, County, and City. Seven Days Adventist – believed the MOU was signed. Needs Capt signature and review. UPS has expressed interest in distribution.

DTMB: work on financial info.

UCG: IAP# 8 will be posted in MICIMS. Questions on the MARKS- last understood there would be a meeting with the volunteers agency on this.

LOCAL EOC: Work on teams for tomorrow.

SEOC LOG: SBA location at Oak business center. Open tomorrow @ 1200. 2112 Saginaw M-F 0800-1700 open till 2/25.

Recovery: worked to finalize apartment list in the city of flint. Verify addresses that had issues with being tracked by GIS to make sure everyone is touched.

JIC: working on water main break issue.

TONY: Media saying a major water main. Director meeting tomorrow.

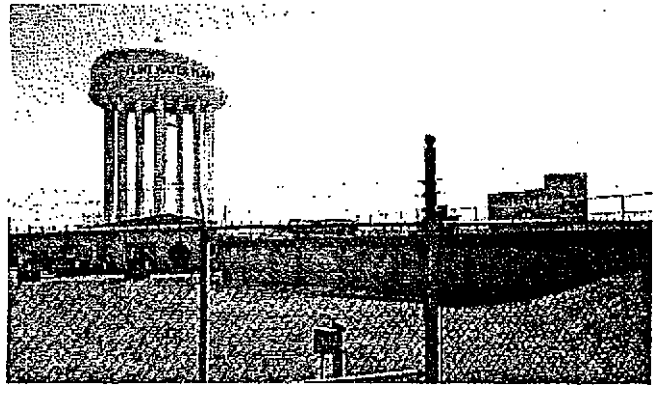
1. Incident Name: 2015-10-01 City of Flint-Water Contamination/Shortage	2. Operational Period to be covered by IAP (Date / Time): From: 01/26/2016 08:00:00 To: 02/02/2016 08:00:00	IAP Cover Sheet

3. Approved by:

FOSC:	David Samaniego
SOSC:	Kim Richmond
RPIC:	
State SEOC Deputy Director	Anthony P. Katarsky

Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 01/25/2016 17:44:41

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 01/26/2016 08:00:00to: 02/02/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

As requested, attached please find the daily test results spreadsheets and below please find a breakdown of the Residential Sample Results for February 15, 2016 to be included in the Governor's report.

Please note the spreadsheets will be updated on the Flint Water website tomorrow morning.

Should you have any questions or need anything further, please feel free to contact me.

Thank you, Nicole

This note is for Monday, February 15, 2016 ***Please note that the web stuff needs to be reviewed and approved by the Governor's office and will be posted the next day after that approval* There were changes in the report so if the webmaster could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 13, 2016 (posted February 15, 2016)" or something equivalent. ☺**

****NOTE** No. 3 needs to be sent to the following addresses: MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

Asset # 513922 – February 15 2016 Test Results Flint.xlsx
Asset# 513925 – February 15 2016 Test Results Flint_Sorted By Address.pdf
Asset# 513930 – February 15 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   Asset# 513955 - February 15 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 15 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

LEAD

Data Summary for *Current Date*	Number	Percent		
Total number of samples:	9939			
At or below 15 ppb:	9271	93%	Above 15 ppb:	668
<5 ppb:	8123	82%		
5-15 ppb:	1148	12%		
>15-30 ppb:	300	3.0%		
>30-100 ppb:	247	2.5%		
>100-150 ppb:	33	0.3%		
>150 ppb:	88	0.9%		

COPPER

Data Summary for *Current Date*	Number	Percent		
Total number of samples:	9939			
At or below 50 ppb:	5451	54.8%	Above 50 ppb:	4156
<50 ppb:	5451	55%		
50-350 ppb:	3817	38%		

>350-900 ppb:	270	2.7%
>950-1300 ppb:	20	0.2%
>1300 ppb:	42	0.4%

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by Address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Susan

Subject: 1095-C Tax Form

As we enter the tax filing season, we wanted to provide a few brief updates on the issuance of tax forms. First, W-2's are currently being printed and will be mailed to your home within the next 7 days. Tax forms will be mailed to the home address that you currently have entered within MI HR (HRMN).

This is the first year that the Affordable Care Act requires employers to send Form 1095-C to some employees. Form 1095-C contains information on your healthcare coverage. You can think of it as your "proof of insurance" for the IRS. The deadline for employers to provide Form 1095-C is March 31, 2016. The State of Michigan will distribute the form by then. Please note that you may not receive Form 1095-C if you did not receive an offer of health insurance coverage from the State of Michigan. The IRS has communicated that this form is not required for individuals to complete their taxes. You will simply need to keep the form with your tax documents once you receive it. If you have questions on Form 1095-C, please visit the IRS healthcare FAQ.

This e-mail was sent to msp-seocda2@michigan.gov using GovDelivery on behalf of: the State of Michigan, 111 S. Capitol Ave., Lansing, MI. *You are receiving this message because you are a State of Michigan employee.*

Subject: [Non-DoD Source] Updated Tracking Sheet

All active links contained in this email were disabled. Please verify the identity of the sender, and confirm the authenticity of all links contained within the message prior to copying and pasting the address to a Web browser.

ALCON,

Attached is the updated tracking sheet we will begin using Monday 18JAN16. It allows us to know what we have on hand at the beginning of each day, what supplies are going out and coming in each hour, and the amount of supplies we have on hand at the end of the day.

The spreadsheet is broken into 2 sheets due to slightly different column spacing organization but the sheet will be printed front to back so all data per day is contained on one sheet of paper.

We will do an inventory at the end of the day Sunday 17JAN16 to establish our on-hand amounts for Monday morning. The sheet is set up to allow this number to be subtracted from and added to by hour which will produce the amount of each product we should have on-hand at the end of the day. When we do a nightly inventory, we will be able to see any discrepancies between numbers we tracked vs actual numbers produced via the nightly inventory. With the increased proficiency in the handling and distribution of supplies, I do not expect any significant discrepancies.

We will also begin to compile the by hour data to establish trends of when each station gets busy so we can pass this information to the logistics team to help them further forecast and plan. Please let me know if there are any questions or concerns.

ALCON,

Attached is the problem/solution sheet that 1Lt Roland will use to fill in the actual SITREP. Logistical tracking of the amount of each type of water product that is be distributed started out today will populate on tomorrow's SITREP. I will also be updating our tracking sheets to include deliveries and the amount of each product we have on hand at the beginning and end of each day. I will send out that tracking sheet so everyone can see it once it is complete.

Also attached is our supply request sheet. Please let me know if you have any questions or concerns.

2Lt Benke

#yiv1388435320 It looks like you are receiving the inventory for all of the stations and compiling them. Do you happen to have the information for just Station 3 for the
1300-1400 & 1400-1500?
ThanksSam

There was a mistake made by the SPC entering the counts. It has been fixed and will be entered by Sgt Frick here on out.

The counts are correct.

Subject: Flint Fire Station #1 Inventory Report / 1900 (with corrections for 1700)
Attachments: STATION1 20160128.xlsx

ALCON:
Please see attached.

Recount of cases on the ground indicated that the 1700 count was not accurate. Correct counts added for 1700 and 1900 numbers.

V/r,
SSG Michael J. Cunningham

Hi Chris

We did not receive Station 6s final inventory. Can you please supply station 6's 2000-2100 sheet.

Thanks

Sam

Sam,

Inventory number have been sent hourly since 1100. We we're unable to send out numbers the first hour due to complications with our computer. I will attatch the most recent inventory list to this email; expect another shortly with the hours up to 1400. If you do not receive the list for up to 1400 within the next 30 mins please contact me.

Thanks,
David

Hi David I know that our system was
having issues this morning, but it appears to be working now. I have not received any inventory numbers for Station 6. Can you please provide me the most current inventory numbers.
ThanksSam

Subject: FEMA filter and replacement filter costs

Hi Penny

Can you provide me with the costs for the following:

Faucet Filters (Total cost –FEMA Share, State Share)
Replacement Filters (Total cost –FEMA Share, State Share)

Thanks
Sam

Sorry, we are short handed today. I just sent numbers out for 1000 and 1100.

From: MSP-seocda2@michigan.gov
To: aust1n_groat9@hotmail.com
Date: Mon, 1 Feb 2016 11:04:52 -0500
Subject: Station 3 numbers

Good morning Austin

I do not locate any emails this morning from Station 3 and I just wanted to make sure that there was not an email address issue happening again.

Thanks
Sam

Samuel Jonker-Burke

Sorry, I did not see this earlier. It looks like there was a 100 case math error during the 1000-1100 hour today. Based on the math it appears that the Total ON-HAND is 100 more than it should be.

Can you please confirm the correct Total ON-HAND amount.

Thanks
Sam

I'm not sure where the confusion is but our inventory at the moment is up to date.

On Sat, Feb 6, 2016 at 11:13 AM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Thank you for the report. There does not appear to be any formulas in the report and because of this the math appears to be wrong. The report shows 1,880 remaining in water cases at the end of the day however the math shows that there is 1,526 remaining. Please confirm what the correct ending inventory amount is.

Thanks

From: Davonta Barnes <dbarnes@mcc.edu>
Sent: Saturday, February 06, 2016 11:38 AM
To: MSP-seocda2
Subject: Re: Station 8 Hourly Report

I'm not sure where the confusion is but our inventory at the moment is up to date.

On Sat, Feb 6, 2016 at 11:13 AM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Thank you for the report. There does not appear to be any formulas in the report and because of this the math appears to be wrong. The report shows 1,880 remaining in water cases at the end of the day however the math shows that there is 1,526 remaining. Please confirm what the correct ending inventory amount is.

Thanks

Sam

Here is a copy of the hourly report from last night.

On Sat, Feb 6, 2016 at 10:36 AM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Please provide the 2000-2100 hour report from last night. Based on the beginning balance for today there is some concern. Because there was not a 2000-2100 report provided last night it appears that there was a delivery of 334 cases of water, but there is generally never delivery's made that late.

Thanks

Sam

To: MSP-seocda2
Subject: RE: [Non-DoD Source] RE: Flint Fire Station #1 Inventory Report / 1600 (with corrections for 1400)

At this hour, the Quartermaster, Rico Phillips is off duty. The only POC I have for the Fire Station is the District Commander at 810-577-8208.

Subject: [Non-DoD Source] RE: Flint Fire Station #1 Inventory Report / 1600 (with corrections for 1400)

All active links contained in this email were disabled. Please verify the identity of the sender, and confirm the authenticity of all links contained within the message prior to copying and pasting the address to a Web browser.

Thank you for the information. Is there a contact person who could provide additional information on how these test will be used (e.g. testing of hydrants)?

Subject: RE: Flint Fire Station #1 Inventory Report / 1600 (with corrections for 1400)

They were delivered here, intended for the fire station. They had a request form with them from "Flint Water Response Team", for 5 cases of lead test kits. I am assuming that they are for distribution, by the fire station personnel. The lead test kits were transferred to Rico Phillips, the Quartermaster for Fire Station #1.

Sent: Wednesday, February 10, 2016 12:20 PM
To: austin groat
Subject: RE: station 3 1200

Hi Austin

It looks like there is a key stroke error in the report. I believe that the water case amount should be 2,423, not 243.

Thanks
Sam

Subject: Agency Events for the week of 2/29/16

Please send the Planning Group a bullet list of any high level events that your agency will be participating in during the week of February 29, by noon on Monday (February 29th). (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list on Monday afternoon for the Governor's office.

Thanks!

Kari Day

Good morning-

Please submit any high level items regarding events/tasks/issues taking place today to be included in the Governor's report by 11:00am.

Please respond whether or not you have something to report.

Daily or routine tasks do not need to be submitted since they will be reported in today's Sit Rep.

Thank you!

Subject: RE: Agency Events for the week of 2/22/16

Please send the Planning Group a bullet list of any high level events that your agency will be participating in during the week of February 22, by noon on Monday. (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list on Monday afternoon for the Governor's office.

Thanks!

Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

Subject: Agency Events this week

Importance: High

Please send the Planning Group a bullet list of important events that your agency will be participating in this week by 6 pm today. (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list tonight for the Governor's office.

Thanks!

Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

Subject: *Thank you for your service*

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when *people do not make good decisions*, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement *at every level. We can never take* for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

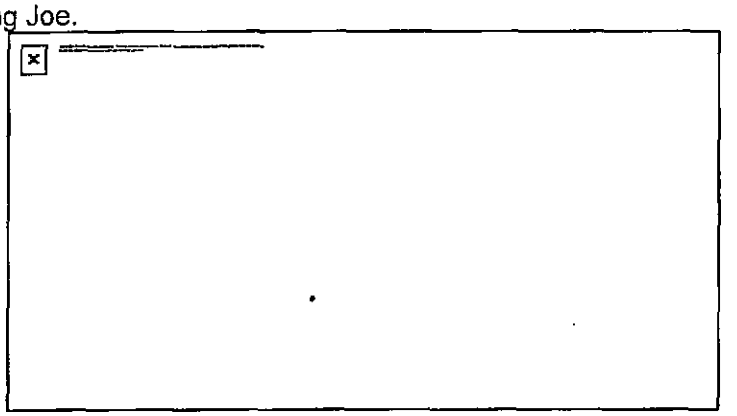
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

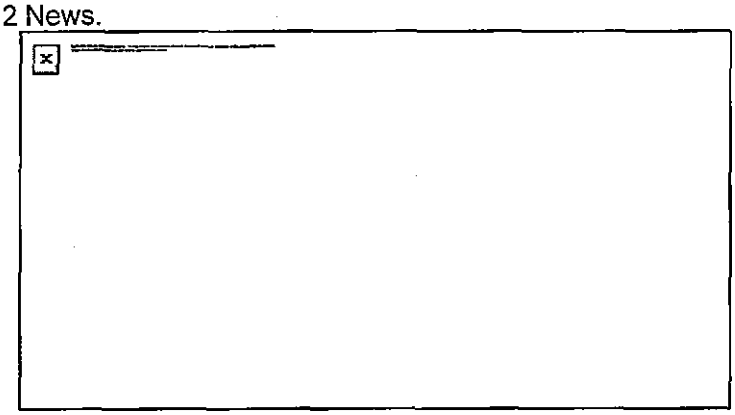
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

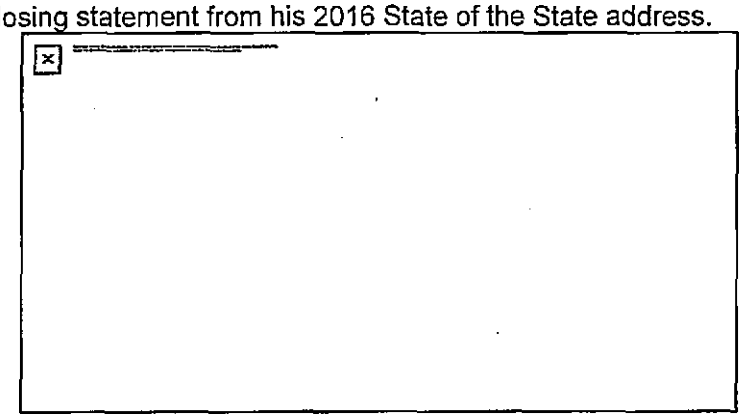
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

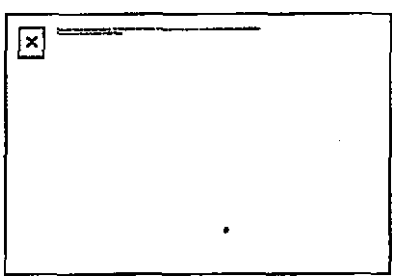


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



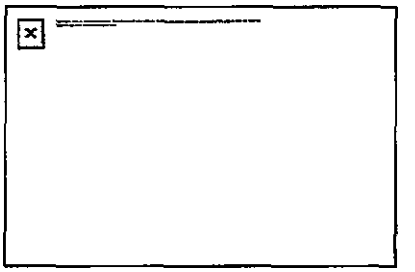
Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take *responsibility for what these families are going* through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But *unlike many other politicians facing crises of* leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**



Visit HelpForFlint.com to learn how you can help Flint residents.

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

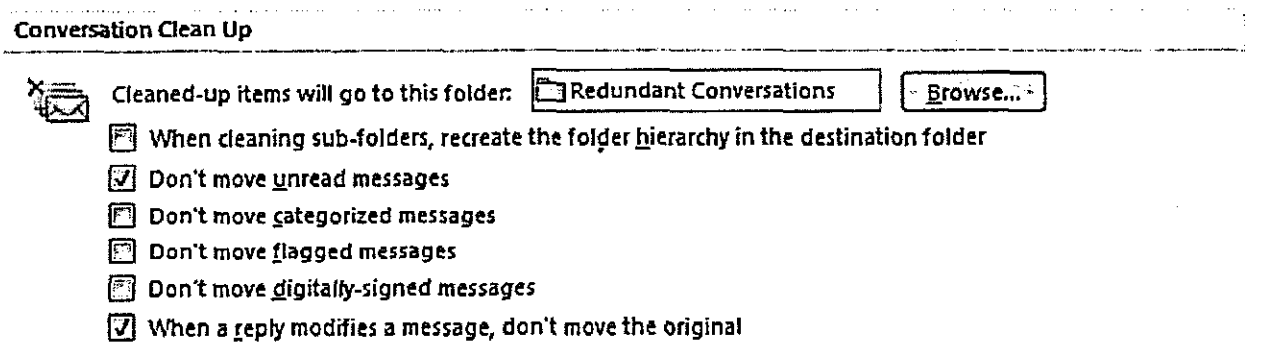
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on *"Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations."* Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

Key Elements and Lessons Learned: 17

Appendix 2: Examples of Potential Non-Stafford Federal Assistance Programs 24

Introduction

Purpose of the Guide

This guide provides a framework or strategy for government and non-government disaster recovery stakeholders at all levels to assess, plan for, and support the recovery of communities following events that do not rise to the level of or receive a Stafford Act declaration (herein referred to as "non-Stafford Act events"). To support this overall objective, this guide focuses on achieving three major goals:

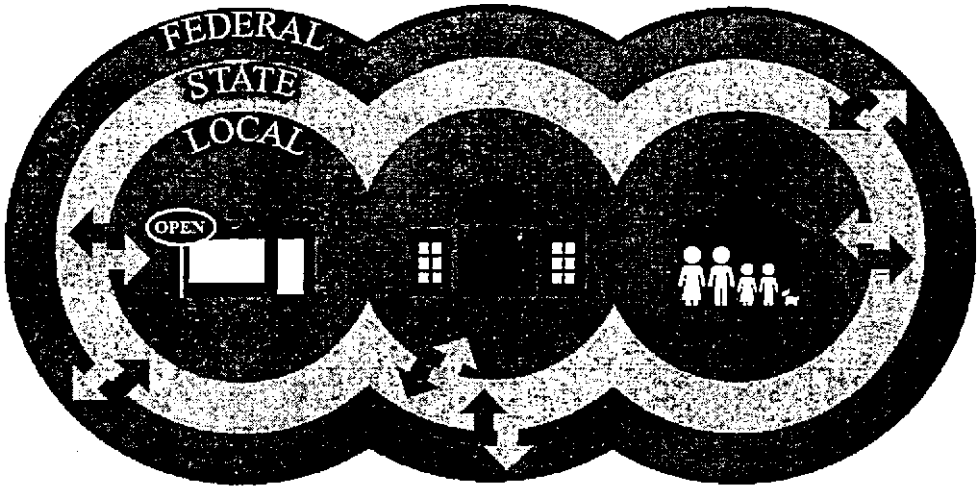
1. Emphasize the importance of local, State, and Tribal governments in assessing and addressing the needs of affected communities following non-Stafford Act disasters
2. Encourage the development of engaged partnerships between emergency management and non-emergency management stakeholders
3. Provide a framework that supports unified recovery-focused coordination between local, Tribal, State, and Federal agencies, non-governmental organizations, and the private sector

These objectives are intended to provide recovery stakeholders the means to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local level utilizing the principles of the National Disaster Recovery Framework (NDRF).

For the purposes of this document, non-Stafford Act events are defined as events that have recovery requirements exceeding the capability of individuals and the local community, but do not exceed the capabilities of the State.

Background

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the whole community.



The impact of concentrated damage can be overwhelming, even to well-resourced or resilient communities. Often times systems are disrupted, need exceeds individual resources, regular service providers are overwhelmed, and networks necessary to address disaster related needs do not exist. With capabilities exceeded, outside resources and expertise may be required to support the local community.

State agencies may have programs or grants that can generally be *re-prioritized* to meet identified recovery needs and goals. Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, a limited number of Federal agencies like the Small Business Administration (SBA) and the United States Department of Agriculture (USDA) do maintain programs or authorities that can directly support the needs of impacted communities outside Stafford Act declaration.

Principles and Concepts of the National Disaster Recovery Framework

The resources and needs of impacted States, Tribes, and communities may differ following a non-Stafford Act event; however, the nine core principles and the key concepts set forth in the NDRF can be equally applied to any event and any jurisdiction to holistically support recovery. For more information visit the National Disaster Recovery Framework website at www.fema.gov/national-disaster-recovery-framework .

Core Principles:

- Individual and family empowerment
- Leadership and local primacy
- Pre-disaster recovery planning
- Partnerships and inclusiveness
- Public information
- Unity of effort
- Timeliness and flexibility
- Resilience and sustainability
- Psychological and emotional recovery

Key Concepts:

Structure
The NDRF provides a scalable structure for organizing recovery operations around the needs of the community through the six identified Recovery Support Functions (RSFs);

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure
- Natural and Cultural Resources

These sector-specific functions can be developed at any level of government to facilitate problem solving and foster coordination among recovery stakeholders.

Planning
Recovery planning is set forth in the NDRF as a critical activity that should begin prior to an event and extend through all phases of the emergency management cycle. Successful recovery planning requires active engagement with and between all levels government, nongovernmental organizations, the private sector, and the community itself in order to increase post-disaster collaboration and unified decision-making.

Leadership
The NDRF outlines leadership positions at the local, State, and Tribal levels through Local Disaster Recovery Managers, State Disaster Recovery Coordinators, and Tribal Disaster Recovery Coordinators. Individuals in these positions are intended to serve as the primary point of contact for recovery for their jurisdiction, and are responsible for organizing, coordinating, and advancing recovery in all phases of the emergency management cycle.

Following a non-Stafford Act event, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, these representatives support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

When combined with the full involvement of all stakeholders and realistic and well-communicated expectations, the concepts and principles outlined in the NDRF can be used as building blocks to develop resiliency and support a successful recovery following a non-Stafford Act event.

General Recovery Needs

Understanding the needs of a community is critical to the development of appropriate structures, plans, and partnerships to support recovery. Specific needs will vary by event and community, and need to be assessed holistically following an event. Categorizing needs prior to an event may be helpful in identifying recovery partners and programs. Examples may include:

Individual needs

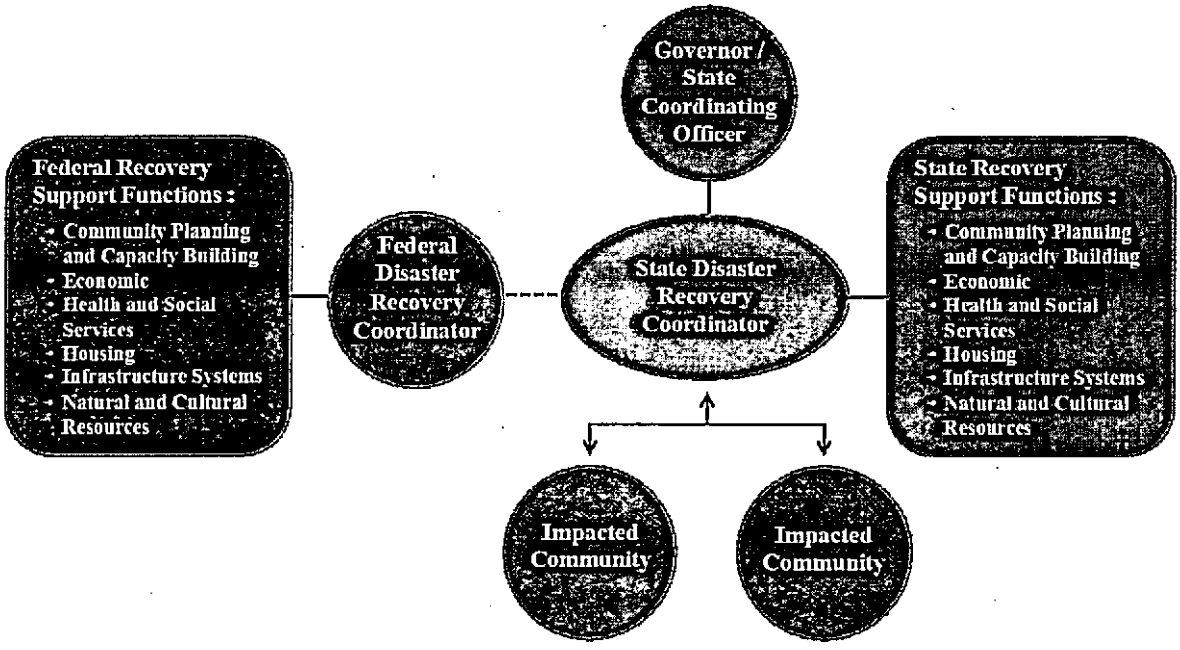
- Temporary housing (rental assistance or other temporary housing)
- Home repair/rebuild assistance (real property and mechanicals)
- Medical, dental, funeral assistance (including the replacement of damaged durable medical equipment)
- Personal property (clothing, household items, furniture, appliances) replacement assistance
- Transportation or vehicle replacement assistance
- Replacement of job related tools and specialized/protective clothing
- Moving and storage assistance
- Legal assistance
- Insurance claims assistance
- Mental health needs
- Employment related assistance
- Food replacement
- Agricultural support for farmers and ranchers
- Assistance to mitigate against the effects of future events

Government needs

- Recovery planning support
- Debris removal cost recoupment
- Legal and contract support
- Economic/Business stabilization support
- Reimbursement for emergency protective measures taken in the response phase
- Assistance to support repairs to roads, bridges, and other infrastructure
- Assistance to support necessary repairs to water and utility networks
- Assistance for damaged public buildings
- Support for public healthcare facilities
- Assistance for damaged equipment
- Insurance claims assistance
- Support to ensure environmental and historic considerations are taken throughout recovery
- Assistance to mitigate against the effects of future events

Non-Stafford Act Recovery Support Structure

The NDRF can provide a structure to support unified coordination between all governmental and non-governmental recovery stakeholders following non-Stafford Act events. While it is expected that the State and affected community will work together to scale this structure according to specific recovery needs, the structure defined in the NDRF may be helpful in defining and aligning the roles of local and State governmental and non-governmental recovery stakeholders.



The recovery structure defined in the NDRF centers around multi-agency coordination facilitated by the Disaster Recovery Coordinators/Manager and the RSF Coordinating Agencies. Multi-agency coordination is a process that allows all levels of government and all disciplines to work together more efficiently and effectively. Multi-agency coordination is a National Incident Management System (NIMS) compliant method of providing coordination to multidisciplinary, policy-level decision makers brought together to support incident level operations. This organizational concept is particularly relevant at the State and Federal levels where organizational leadership is brought together to identify resources to support needs in the impacted jurisdiction.

Local Non-Stafford Act Recovery Support Structure

Successful recovery coordination efforts stem from well-planned, well-coordinated and inclusive local recovery efforts. The local recovery support structure is made up of operational elements brought together to establish and prioritize recovery goals, develop community focused recovery plans, ensure clear and consistent public messaging, and support resource coordination.

Overall leadership for the local recovery coordination group is provided by the Local Disaster Recovery Manager (LDRM), identified by local emergency management or by the office of the senior elected official. This facilitative role centers on coordinating operational elements to meet recovery goals.

Local recovery Coordinating agencies/organizations are designated based on relevant authorities, roles, resources or capabilities. These agencies can support the LDRM and the overall recovery effort by ensuring coordination and providing resources and subject matter expertise in their given functional area.

Potential local leadership and Coordinating agencies may include:

Leadership

City/County office of Emergency Management or the office of senior elected leadership

Coordinating Agencies/Organizations

City/County Department of Commerce or Planning and Development Commission
City/County Department of Public Works and Engineering
City/ County Department of Health or Department of Human Services
City/County Department of Emergency Management
Local Housing Authority
City/County Parks Department

The local recovery structure must also coordinate with keystone partners from local faith and community based organizations, the private sector, educational institutions, and regular service providers that support children, elders, people with disabilities, and people with other functional and access needs. These community leaders provide essential support on an every-day-basis. Understanding the roles of these individuals and organizations allows local recovery leadership to identify needs and leverage resources more effectively.

Appreciating the actual capabilities and needs of a community is essential to supporting and enabling local actions.

Many non-governmental organizations have disaster programs which play a pivotal role in supporting the recovery of impacted individuals and communities. These organizations coordinate through local, State, and national coalitions known as Voluntary Organizations Active in Disaster (VOAD). VOAD member agencies can support a variety of needs including:

- Individual and community needs assessments
- Case management training and support
- Construction (repair/rebuild) support and coordination
- Long Term Recovery Group (LTRG) formation support
- Debris removal from private property
- Grant assistance
- Resource identification and fundraising support
- Disaster mental health or emotional and spiritual care
- Youth focused resiliency programs
- Support for faith leaders in impacted areas
- Coordination of spontaneous volunteers
- Donations management support
- Information and referral support

More information on Voluntary Organizations Active in Disaster can be found at http://www.NVOAD.org

State/Tribal Non-Stafford Act Recovery Support Structure

The State/Tribal recovery support structure is designed to augment recovery resources. This often requires the re-prioritization of resources so the intent and priorities of senior elected leadership must be made clear at the outset. Individual State/Tribal agencies may contribute operational elements to support local recovery operations; however, State/Tribal-level recovery coordination is conducted by policy-level decision makers with the authority to commit resources on behalf of their agency.

Leadership for the State/Tribal recovery coordination group is provided by the State/Tribal Disaster Recovery Coordinator (SDRC or TDRC), identified by State/Tribal emergency management, the office of the Governor, or Tribal leadership. The person in this role is responsible for facilitating coordination with and between State/Tribal agencies and the impacted jurisdictions(s).

State RSF Coordinating agencies are designated based on relevant authorities, roles, resources or capabilities and can support the SDRC/TDRC and the overall recovery effort by ensuring coordination with and between the impacted communities and State agencies working within their functional area(s) (RSF).

Potential State leadership and Coordinating agencies may include:

Leadership

State Emergency Management or the Governor's Office

Coordinating Agencies

State Department of Commerce or Economic Opportunity
State Department of Transportation
State Department of Health and Human Services
State Emergency Management Agency
State Department of Housing
State Department of Natural Resources

Additional State agencies and organizations may be identified as supporting agencies when their specific capabilities, resources, or programs can be used to support impacted communities. When scaling the State/Tribal recovery structure, recovery leadership must consider the actual needs of impacted communities and the mechanisms necessary to coordinate the broad range of support available through regular State programs and non-governmental organization partners.

Federal Non-Stafford Act Recovery Support Structure

The Federal recovery support structure following non-Stafford Act events does not change from that outlined in the NDRF. This structure is scalable and it may not be necessary for staff to be physically present in the state to provide support. Additional information on the Federal recovery support structure can be found in the NDRF.

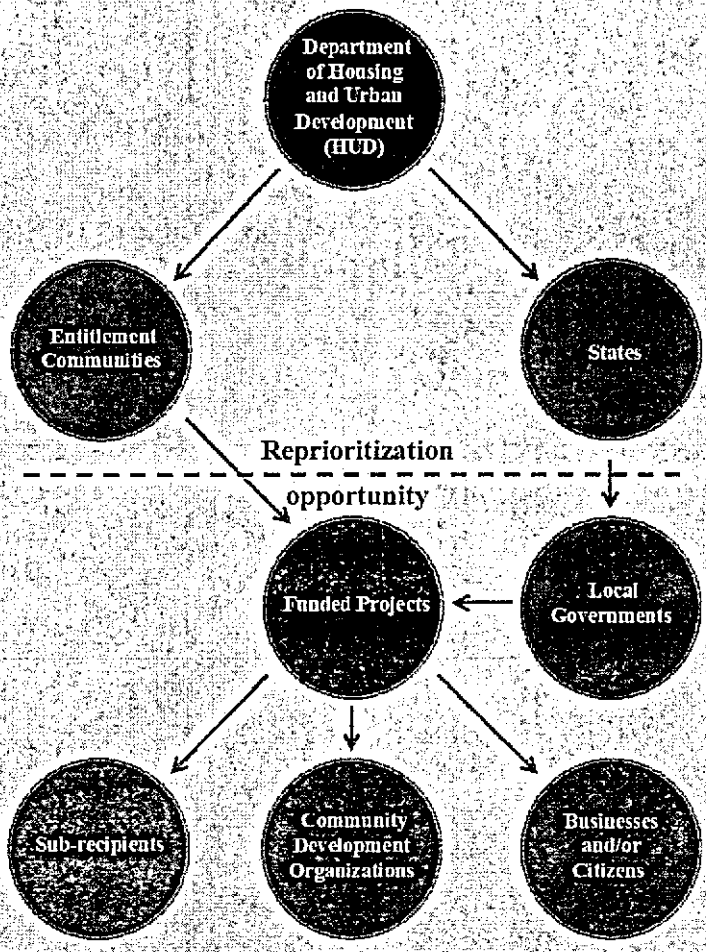
The following list of Federal agencies represents some of the resources and technical assistance that may be available to support impacted jurisdictions, States/Territories, and Tribes following non-Stafford events:

Department of Commerce
Department of Defense, U.S. Army Corps of Engineers
Department of Health and Human Services
Department of Homeland Security, Federal Emergency Management Agency
Department of Housing and Urban Development
Department of the Interior
United States Department of Agriculture

State recovery leadership and State Recovery Support Function leads are encouraged to coordinate with Federal agencies through regional or field offices as appropriate, to discuss authorities relevant to disaster recovery and better understand how non-disaster programs already being administered may have relevance following an event. More information on Federal recovery programs can be found on the National Disaster Recovery Program Database and at DisasterAssistance.gov

Non-Stafford Act Programs in Action:

Department of Housing and Urban Development
Community Development Block Grants (CDBG)



This flow chart outlines how CDBG funding is allocated to benefit programs and communities. Funds flow from the U.S. Department of Housing and Urban Development to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas.

Following a disaster, States and Entitlement Communities can shift funding priorities (at dotted line), for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

Governmental, Non-Profit, and Private-Sector Coordination

Integrating and coordinating with governmental, non-governmental and private-sector associations and their member agencies/organizations can be key to successfully addressing the needs of impacted communities. These partners may include sector-specific associations with missions directly or indirectly related to emergency management. Associations can support planning, coordination, and the development of agreements/understandings that support and leverage the capacity of member agencies. Additionally, associations can develop or improve overarching recovery coordination processes that independent organizations may not have the capacity to develop on their own.

GOVERNMENTAL ASSOCIATIONS

Governmental Associations provide coordination between agencies of all types and are engaged at the national, regional, State, and local levels. These organizations can provide additional coordination, lessons learned, and programmatic/subject matter support via peer-to-peer networks of government entities (mutual aid). Engagement with government associations can encourage resiliency through the development, promotion, and coordination of tools and best practices. Examples of government associations include:

- Council of State Community Development Agencies
- Emergency management associations (such as the National Emergency Management Association, the International Association of Emergency Managers, and local, county, and State associations of emergency managers)
- City/County Manager Associations
- National Association of Regional Councils
- National League of Cities
- State and national associations of county or municipal governments
- State and national associations of health departments (such as National Association of County and City Health Officials)
- State and national public works associations (such as the American Public Works Association)
- Tribal Associations

EXAMPLE:

International Association of Emergency Managers

The International Association of Emergency Managers (IAEM) serves to advance the profession by promoting the principles of emergency management; to serve members by providing information, networking and professional development opportunities; and to advance the emergency management profession.

Learn more at www.IAEM.com

NON-PROFIT AGENCIES, ORGANIZATIONS

Non-profit agencies, organizations, and associations can play a critical role following non-Stafford Act events. These key partners provide outside resources, and training that can help local non-profit, faith-based, and community-based organizations to maximize the support they provide in an affected community. This support is generally coordinated through member organizations and provided via peer-to-peer networks similar to mutual aid. Non-profit associations can be helpful to State and local governments working to expand their capacity by supporting the identification of member

organizations and helping to explain the resources and missions of their members and provide introductions. Examples of nonprofit associations include:

- Academic Associations
- American Planning Association (APA)
- State and national offices of civic organizations (such as Lions Club International, Kiwanis International, and Rotary Clubs)
- Disability service and advocacy organizations (such as the State Protection and Advocacy Agency, and the local Centers for Independent Living)
- Faith-based associations
- Foundation Associations (such as the Council on Foundations and the Association of Small Foundations
- Disaster Long Term Recovery Groups (LTRG)
- State and National Non-profit Associations
- Non-profit legal associations (such as the American Bar Association, the Legal Services Corporation, and the National Legal Defender Association)
- Trade unions
- Voluntary Organizations Active in Disaster (such as National VOAD and State VOAD)
- Community Organizations Active in Disaster (COAD)
- State and National offices of youth councils and organizations (such as the Boys and Girls clubs, Future Farmers of America, 4H clubs, and the Boy Scouts and Girl Scouts of America)

EXAMPLE:

The Extension Disaster Education Network (EDEN)

EDEN links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters.

Learn more at eden.lsu.edu

THE PRIVATE SECTOR

By actively engaging private sector partners *prior* to an event, and working to establish mutually-supportive relationships, recovery leadership can better take into account the needs and resources of the whole community and support successful recovery.

By working to establish public-private partnerships, recovery leadership can develop relationships with key stakeholders who have insight into economic and community needs as well as access to potential resources. While well-developed mutually supportive relationships with individual business partners is a goal, private sector associations and trade groups can help to provide recovery leadership with more information on the resources and needs of their membership and facilitate introductions to key stakeholders. Examples of private-sector associations include:

- Business Associations
- Professional Associations
- Local, State, and National Chambers of Commerce

EXAMPLE:

The Business Civic Leadership Center (BCLC)

BCLC helps businesses communicate and collaborate with each other and with the nonprofit and government sectors to make disaster relief, recovery, and reconstruction activities more effective.

Pre-Event Recovery Coordination and Non-Stafford Act Capacity Development

Pre-disaster recovery planning, coordination and capacity development is set forth in the NDRF as key to the successful recovery of communities affected by disaster. This is particularly true of non-Stafford Act events, where a premium is placed on coordination in order to maximize the impact of available resources. By identifying recovery leadership, defining roles, engaging with partners, expanding partnerships, planning, training, and exercising prior to an event, States can develop the resources and structure necessary to support impacted communities following any event.

Resource and Guidance Development

- Identify recovery leadership at all levels of government and define positions, authorities, roles, and responsibilities.
    - Determine how the State/Tribal/local Disaster Recovery Coordinator or equivalent will be identified, and what the specific authorities, roles, and responsibilities of the position will be.
    - Identify State/Tribal/local Recovery Support Function Coordinating agencies and define the authorities, roles, and responsibilities of these positions.
    - Develop guidance to support local jurisdictions in identifying and developing recovery leadership.
- Identify traditional and non-traditional State, Tribal, and Federal non-Stafford Act programs that can be used to support the needs of impacted communities.
    - Promote agency-specific policy development by all identified recovery stakeholders.
    - Promote the development and maintenance of State/Tribal and local recovery resource lists that outline the potential assistance available from state and or local agencies and recovery partners.
- Support the development of non-Stafford Act recovery coordination plans as part of each jurisdictions broader recovery plan.
    - Promote the inclusion of all governmental, non-governmental, and private sector stakeholders in the development and maintenance of recovery plans and partnerships.
    - Plan for the needs of individuals with disabilities and others with access and functional needs, children and seniors as a fundamental aspect of the recovery plan rather than as a supplement, annex, or separate plan.
- Promote the development of engaged recovery-focused partnerships at all levels and between all sectors of government, non-governmental organizations and the private sector.
    - Develop recovery-focused memorandums of understanding (MOU) or memorandums of agreement (MOA) between state agencies and agencies with identified recovery roles.
    - Develop recovery-focused mutual aid and Emergency Management Assistance Compact (EMAC) agreements with other States, Tribes, or local jurisdictions as appropriate.

- Promote the development of local, State, and National non-governmental organization consortiums (such as State/National VOADs, COADs, Inter-faith Councils, Disability related advocacy groups, and Private Sector networks).
- Work with government agencies to encourage collaboration between local, State and Tribal governments.

Pre-Disaster Coordination

- Promote non-Stafford Act support forums for idea and information sharing between recovery stakeholders at all levels.
  - Gather and disseminate lessons learned and best practices from other non-Stafford Act recovery operations to Federal, Tribal, State, local, non-governmental, and private sector partners.
- Organize State agencies with identified recovery roles according to RSFs or state recovery structure.
  - Promote the development of recovery taskforces according to identified RSFs
  - Support the identification and coordination of agency functions, roles, and capacity to support non-Stafford Act disasters.
- Insure that non-governmental organization partners are fully integrated into State, Tribal, and local coordination and capacity building initiatives.

Post-Event Recovery Coordination

Defining, coordinating and addressing the needs of an impacted community following a non-Stafford Act event requires active coordination and planning between all levels of government and with all sectors of society. This section outline steps that States, Tribes, and local communities can take to conduct a more accurate needs assessments, develop appropriate goals, and enhance multi-agency coordination.

Community Impact Assessment

- Ensure coordination with departments/organizations active in the response phase to discuss the current situation, activity to date, major areas of concern, and the transition to recovery. (i.e. share damage assessment numbers and identified community impacts, share known locations of displaced/evacuated residents)
- Conduct comprehensive damage and impact assessment to identify potential community needs and strategic recovery challenges across the 6 Recovery Support Function areas. Examples may include:
    - Convene a multidisciplinary impact assessment team to ensure that assessments are as efficient and comprehensive as possible. The team should be composed of governmental, non-governmental, and private sector stakeholders representing all identified RSFs.
    - Coordinate with existing community information and referral networks (2-1-1, 3-1-1, etc.) to support the identification of community needs.
    - Insure that assessments provide a base line need in each of the identified functional areas (i.e. Total number of damaged homes, number of homes with failed structural elements, and the number of destroyed homes).
    - Provide State/Tribal and Federal technical/subject-matter/policy support as appropriate to support local needs assessments.
- Coordinate local and State/Tribal governmental and non-governmental agencies/organizations to identify existing individual and community resources that can be used to support recovery – including insurance, continuity of business plans/support, locally administered programs, and donated/volunteer resources.
- Seek out the input of elected leadership, governmental agency/office leadership, faith leaders, faith and community based organization leadership, key private sector stakeholders, and individuals from the impacted community in order to identify community structures and priorities.
- Provide State and Federal technical/subject-matter support as appropriate to support local assessments.

Non-Stafford Act Planning and Recovery Strategy Development

- Develop State and local recovery strategies that support the needs, plans, and goals of impacted communities.
    - Engage local leadership and RSF taskforce stakeholders to support the development of local recovery strategies.
    - Involve the impacted community (public) during the development of the recovery strategy – considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.
    - Insure that recovery strategies take into account the specific needs of seniors, people with disabilities, and people with limited resources.
    - Insure that case management and other coordinative elements are incorporated into each community's recovery strategy in order to maximize impact and avoid overlap or gaps in service.
    - Request or provide State/Tribal/ Federal technical, subject-matter, and policy support as appropriate to support the development of local recovery strategies.
    - Develop a State recovery strategy to ensure the unified coordination of State/Tribal and Federal agencies supporting impacted jurisdictions.
- Support the development of local Business Recovery Plans for individual impacted businesses
- Support the development of Individual Recovery Plans for impacted survivors
    - Ensure that case management is available to assist impacted survivors to identify and coordinate resources necessary to support the holistic sustainable recovery solutions.
- Support ongoing recovery planning at the State and local level to align available resources with identified goals, priorities, and progress.
    - Promote local leadership in recovery planning.
    - Involve all recovery stakeholders in recovery planning initiatives. Include local and State/Tribal governmental agencies, non-governmental organizations, and local service providers.
    - Ensure that all recovery plans are in line with the goals and strategies of the impacted community.
    - Provide a mechanism for continued State and Federal technical assistance support as appropriate.
    - Ensure that State recovery planning is scaled to meet the coordination needs of supporting state agencies and takes into account the evolving needs of affected jurisdictions.
    - Promote public feedback opportunities to insure that recovery strategies and priorities continue to be in line with the needs of the community –considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.

Non-Stafford Act Coordination and Support

- Ensure that recovery leadership at the local, State and Tribal levels is adequate to support the recovery needs, strategies, and plans of impacted communities.
    - Assess the need to identify or assign a Local Disaster Recovery Manager (LDRM).
    - Assess the need to identify/assign, and deploy a State/Tribal Disaster Recovery Coordinator (SDRC/TDRC).
    - Assess the need for Federal technical assistance.
- Promote the development of Recovery Support Functions and recovery focused multi-agency coordination groups at the local, State, and Tribal levels as appropriate.
    - Implement RSF task forces as appropriate
    - Promote the broad inclusion of current and potential recovery partners – to include non-governmental organizations and the private-sector to ensure that technical support and programmatic resources are known, available, and coordinated.
    - Promote coordination between counterpart local, state, and national non-governmental and private-sector partners to maximize an understanding of available support and ensure coordination.
    - Promote the development of Long Term Recovery Groups (LTRG) and the use of case management to coordinate long-term unmet needs assistance to disaster survivors.
    - Identify the need for Federal RSF support to local and State/Tribal recovery functions.
- Ensure that the appropriate technical assistance is available from the State and through mutual aid networks to support local recovery assessment, planning, and program administration.
    - Coordinate and/or deploy technical assistance teams, made up of identified State/Tribal recovery partners, to support local communities in the assessment of disaster impacts and the development of local recovery strategies.
    - Identify the potential for peer-to-peer/mutual aid assistance to support local recovery coordination and planning efforts.
    - Ensure the development of an interface between local, State/Tribal, and Federal agencies to streamline policy discussions and promote an understanding of the processes and requirements associated with requesting and administering supplemental assistance.
    - Assess the need for Federal technical or programmatic advisors to support State/Tribal and local recovery efforts.
- Ensure that all non-Stafford Act programmatic assistance (financial and in-kind) is available to and coordinated with local recovery leadership.
    - Ensure that supplemental support is in alignment with identified local goals, strategies, and plans to maximize impact, identify gaps, and avoid duplication.
    - Identify additional State/Tribal and local programs that can be used, reprioritized, or altered to support the needs of affected communities identified in the assessment process.
    - Assess the need for and, if needed, request additional non-Stafford Act assistance from the State/Tribe or other Federal agencies.

Appendix 1: Case Study – State of Illinois, 2012 Spring Tornadoes

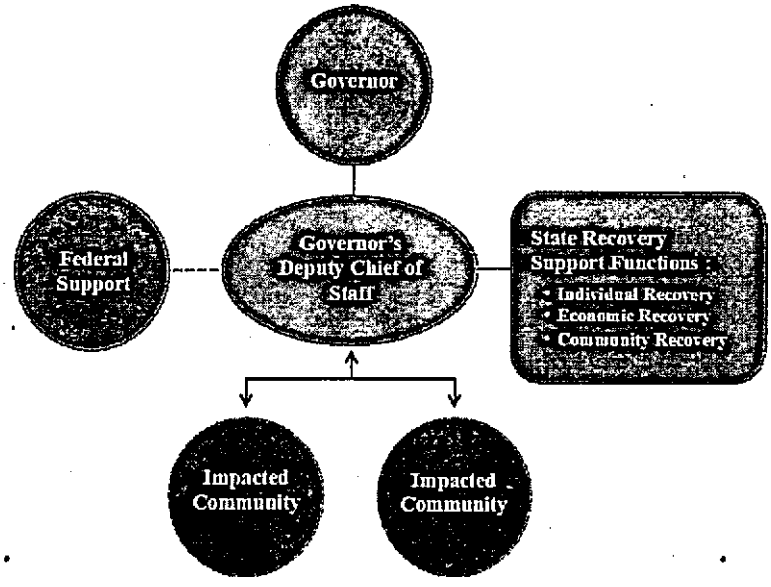
Overview:

In the early hours of February 29, severe storms and tornadoes tore through Gallatin, Massac, Saline, Union, and Williamson counties of Illinois. Around 5a.m. an EF4 tornado touched down in the City of Harrisburg in Saline County, and an EF3 tornado touched down in the Village of Ridgway in Gallatin County. The State estimated that 440 homes were impacted by the event, of which 176 were destroyed or suffered major damage. Eight people in Harrisburg lost their lives as a result of the tornado, making this the deadliest Illinois disaster in nearly a decade.

Subsequent to the determination that the event did not exceed the capabilities of the State of Illinois, FEMA Region V deployed two specialists to provide technical assistance in support of State efforts to identify and coordinate recovery assistance around the needs and goals of the impacted communities.

Strategy:

On March 25, 2012 the Governor's office held a meeting with twenty-three State agencies to outline the intent of leadership and begin coordinating state recovery support. Three Recovery Support Functions (RSFs) were outlined according to the goals of the state and the impacted communities, and leadership was assigned.



State RSFs and assigned State agency leads:

- Individual Recovery – Illinois Emergency Management Agency
- Economic Recovery – Illinois Department of Commerce and Economic Opportunity
- Community Recovery – Illinois Department of Commerce and Economic Opportunity

Over the ensuing week, RSF leads coordinated with local, State, Federal, and non-governmental partners to conduct comprehensive needs assessments in the impacted area and identify sources of non-Stafford Act assistance.

On April 2, 2012 the Governor's office issued a press release announcing $13 million in State assistance available to support recovery needs in the impacted communities. This package, made up of reprioritized existing State and Federal programs and block-grants, addressed needs in all three identified State RSFs.

Following the announcement, State agency representatives met in the affected communities to outline programmatic requirements, coordinate assistance, and support the development of a unified local recovery plan.

Key Elements and Lessons Learned:

Local needs assessments and recovery goals are critical to the identification and coordination of potential recovery support. Recovery efforts share many similarities; however, the impact of a disaster on a community is ultimately complex and unique. By conducting holistic community recovery assessments and engaging with the public, recovery leadership will be better equipped to set appropriate recovery goals, establish structures, and inform outside partners of needs. The State can support this effort by offering/providing technical expertise from state agencies, or helping to coordinate mutual aid support from experienced jurisdictions outside of the impacted area.

Senior leadership must clearly state recovery goals and priorities. Since support available to impacted communities following non-Stafford Act events is primarily accomplished through re-prioritizing existing funds, programs, and personnel, senior elected leadership must make clear the intent to redirect these funds to support impacted communities to agency level decision makers at the outset.

An understanding of how currently available programs can support the recovery of impacted communities is essential following non-Stafford Act events. Many of the resources available to support the recovery of impacted jurisdictions following non-Stafford Act events are available through existing programs. Understanding how block-grants and other programs/resources may apply to the recovery of affected citizens and the community is essential when considering potential resources.

A scalable, flexible, and adaptable support structure is crucial. Location-based, or in person, support from State and Federal recovery partners is not always warranted. Coordination requirements for current and potential support should be considered to ensure that the structures established are appropriately scaled.

Supporting recovery requires more than programmatic resources. Technical assistance is often key to successfully supporting recovery operations. The establishment of State subject-matter expert strike teams to support local assessments, planning, and resource identification should be considered as a best-practice.

Governor Quinn Announces Up to $13 Million in New Relief for Southern Illinois Communities

Governor Secures State, Federal Resources to Help Southern Illinois Families, Businesses, and Local Governments Recover from Tornado

HARRISBURG – April 2, 2012. At the direction of Governor Pat Quinn, the heads of a number of state agencies today announced in Harrisburg up to $13 million of financial aid and construction projects to help families, businesses and local governments recover from the deadly tornado that ravaged several Southern Illinois communities on Feb. 29. The package put together at the Governor's instruction includes reimbursements to local governments for some of their disaster-related expenses, road improvements, grants to help homeowners repair or rebuild damaged homes, and low-interest business loans to create jobs and help businesses recover.

"This assistance package offers real solutions for the long-term recovery effort in Harrisburg and other communities," Governor Quinn said. "Recovery from this tornado won't happen overnight, but these resources will help residents and businesses of hard hit areas in Southern Illinois begin to rebuild their lives."

Following FEMA's denial of assistance for people affected by the tornado on March 10 and denial of an appeal on March 21, Governor Quinn moved quickly to secure support for people and businesses through the U.S. Small Business Administration (SBA). That request was approved the following day, and the SBA began meeting with people interested in the low-interest, long-term loans on March 23.

"In the weeks since the severe storms and tornadoes hit Southern Illinois in February and early March, I have met with representatives from federal, state, and local emergency management agencies to discuss the ongoing recovery efforts in Harrisburg, Ridgway and surrounding areas," said U.S. Senator Dick Durbin (D-IL). "I will continue to work with Governor Quinn and the Illinois Congressional Delegation to seek further opportunities for federal assistance to help these communities rebuild."

In addition to the SBA loans, the state's multi-agency relief package includes:

- **Assistance from Illinois Department of Commerce and Economic Opportunity (DCEO) –** Up to $5 million from the Community Development Assistance Program (CDAP) will pay for public infrastructure improvements, housing rehabilitation and reconstruction efforts. In partnership with Ameren Illinois, another $1 million from the Energy Efficiency Trust will fund energy efficiency incentives through Ameren's Act on Energy program to benefit customers affected by the disaster. Additionally, DCEO will make as much as $750,000 in Workforce Investment Act grants available to cover wages for dislocated workers to participate in disaster

OFFICE OF GOVERNOR PAT QUINN **NEWS**

cleanup and structured work-based learning.

- **Assistance from Illinois Finance Authority (IFA)** - Up to $2 million in U.S. Department of Agriculture-Rural Development (USDA-RD) business loans will be available through IFA under a relending in Gallatin, Saline and Williamson counties. Loans from a minimum of $50,000 up to a maximum of $250,000 may be used for the purchase of land, construction or renovation of an industrial or commercial building or purchase of machinery and equipment. The IFA will partner with local banks to market the program to local businesses hurt by the recent storms and tornadoes.

- **Assistance from Illinois Department of Transportation (IDOT)** – Twenty-one municipal road improvements in Harrisburg will be completed at an estimated cost of $1.58 million.

- **Assistance from Illinois Emergency Management Agency (IEMA)** – Reimbursements up to $1.5 million to affected local governments for some of their disaster-related expenses will be made through the state's Disaster Response and Recovery Fund, which supports emergency response and recovery efforts.

- **Assistance from Illinois Housing Development Authority (IHDA)** – IHDA will commit up to $1 million in federal HOME Funds using the Single Family Owner Occupied Rehabilitation (SFOOR) Program. Up to $40,000 per household in forgivable non-payment loans will be made available to homeowners in affected areas. The funds can be used to build or renovate destroyed or damaged homes.

- **Delta Regional Authority** – Governor Quinn secured $400,000 in federal funding to reimburse local governments for expenses related to debris removal.

"Ameren Illinois is delighted to partner with the Illinois Department of Commerce and Economic Opportunity to help make recovery a little easier for residents of the Harrisburg and Ridgway areas," said Michael Moehn, Ameren Illinois senior vice president of customer operations. "Through our ActOnEnergy® program and the Warm Neighbors Cool Friends Home Repair Program, residents will be able to receive the financial assistance they need to meet the highest energy efficiency standards as they repair and rebuild. This will allow them to save money today and in the years to come."

Governor Quinn has directed his staff to continue to work with local, federal and non-governmental agencies to secure additional support for families in the affected areas.

This assistance package is in addition to nearly $1.4 million of in-kind state assistance already provided to the affected region. Shortly after the tornado stuck, Governor Quinn surveyed the damaged area and activated the State Emergency Operations Center to coordinate the deployment of state resources and personnel in support of local response and recovery efforts. The state's response included large deployments from IDOT, the Illinois Department of Corrections and the Illinois State Police, as well as assistance from several other state agencies and mutual aid organizations.

"The state of Illinois has been a trusted partner with us since the day the tornado struck," said Harrisburg Mayor Eric Gregg. "Recovery after a disaster of this magnitude isn't easy. This state assistance package will give our recovery efforts a significant boost. I appreciate Governor Quinn's continued commitment to helping our communities recover."

OFFICE OF GOVERNOR PAT QUINN **NEWS**

Governor Quinn directed state officials to start developing the state assistance package immediately after the state's request for FEMA assistance for individuals and subsequent appeal were denied. The administration has been exploring all possible opportunities to deliver relief and assistance to Southern Illinois' impacted communities.

Additional information about the state's response efforts is available at www.Ready.Illinois.gov.

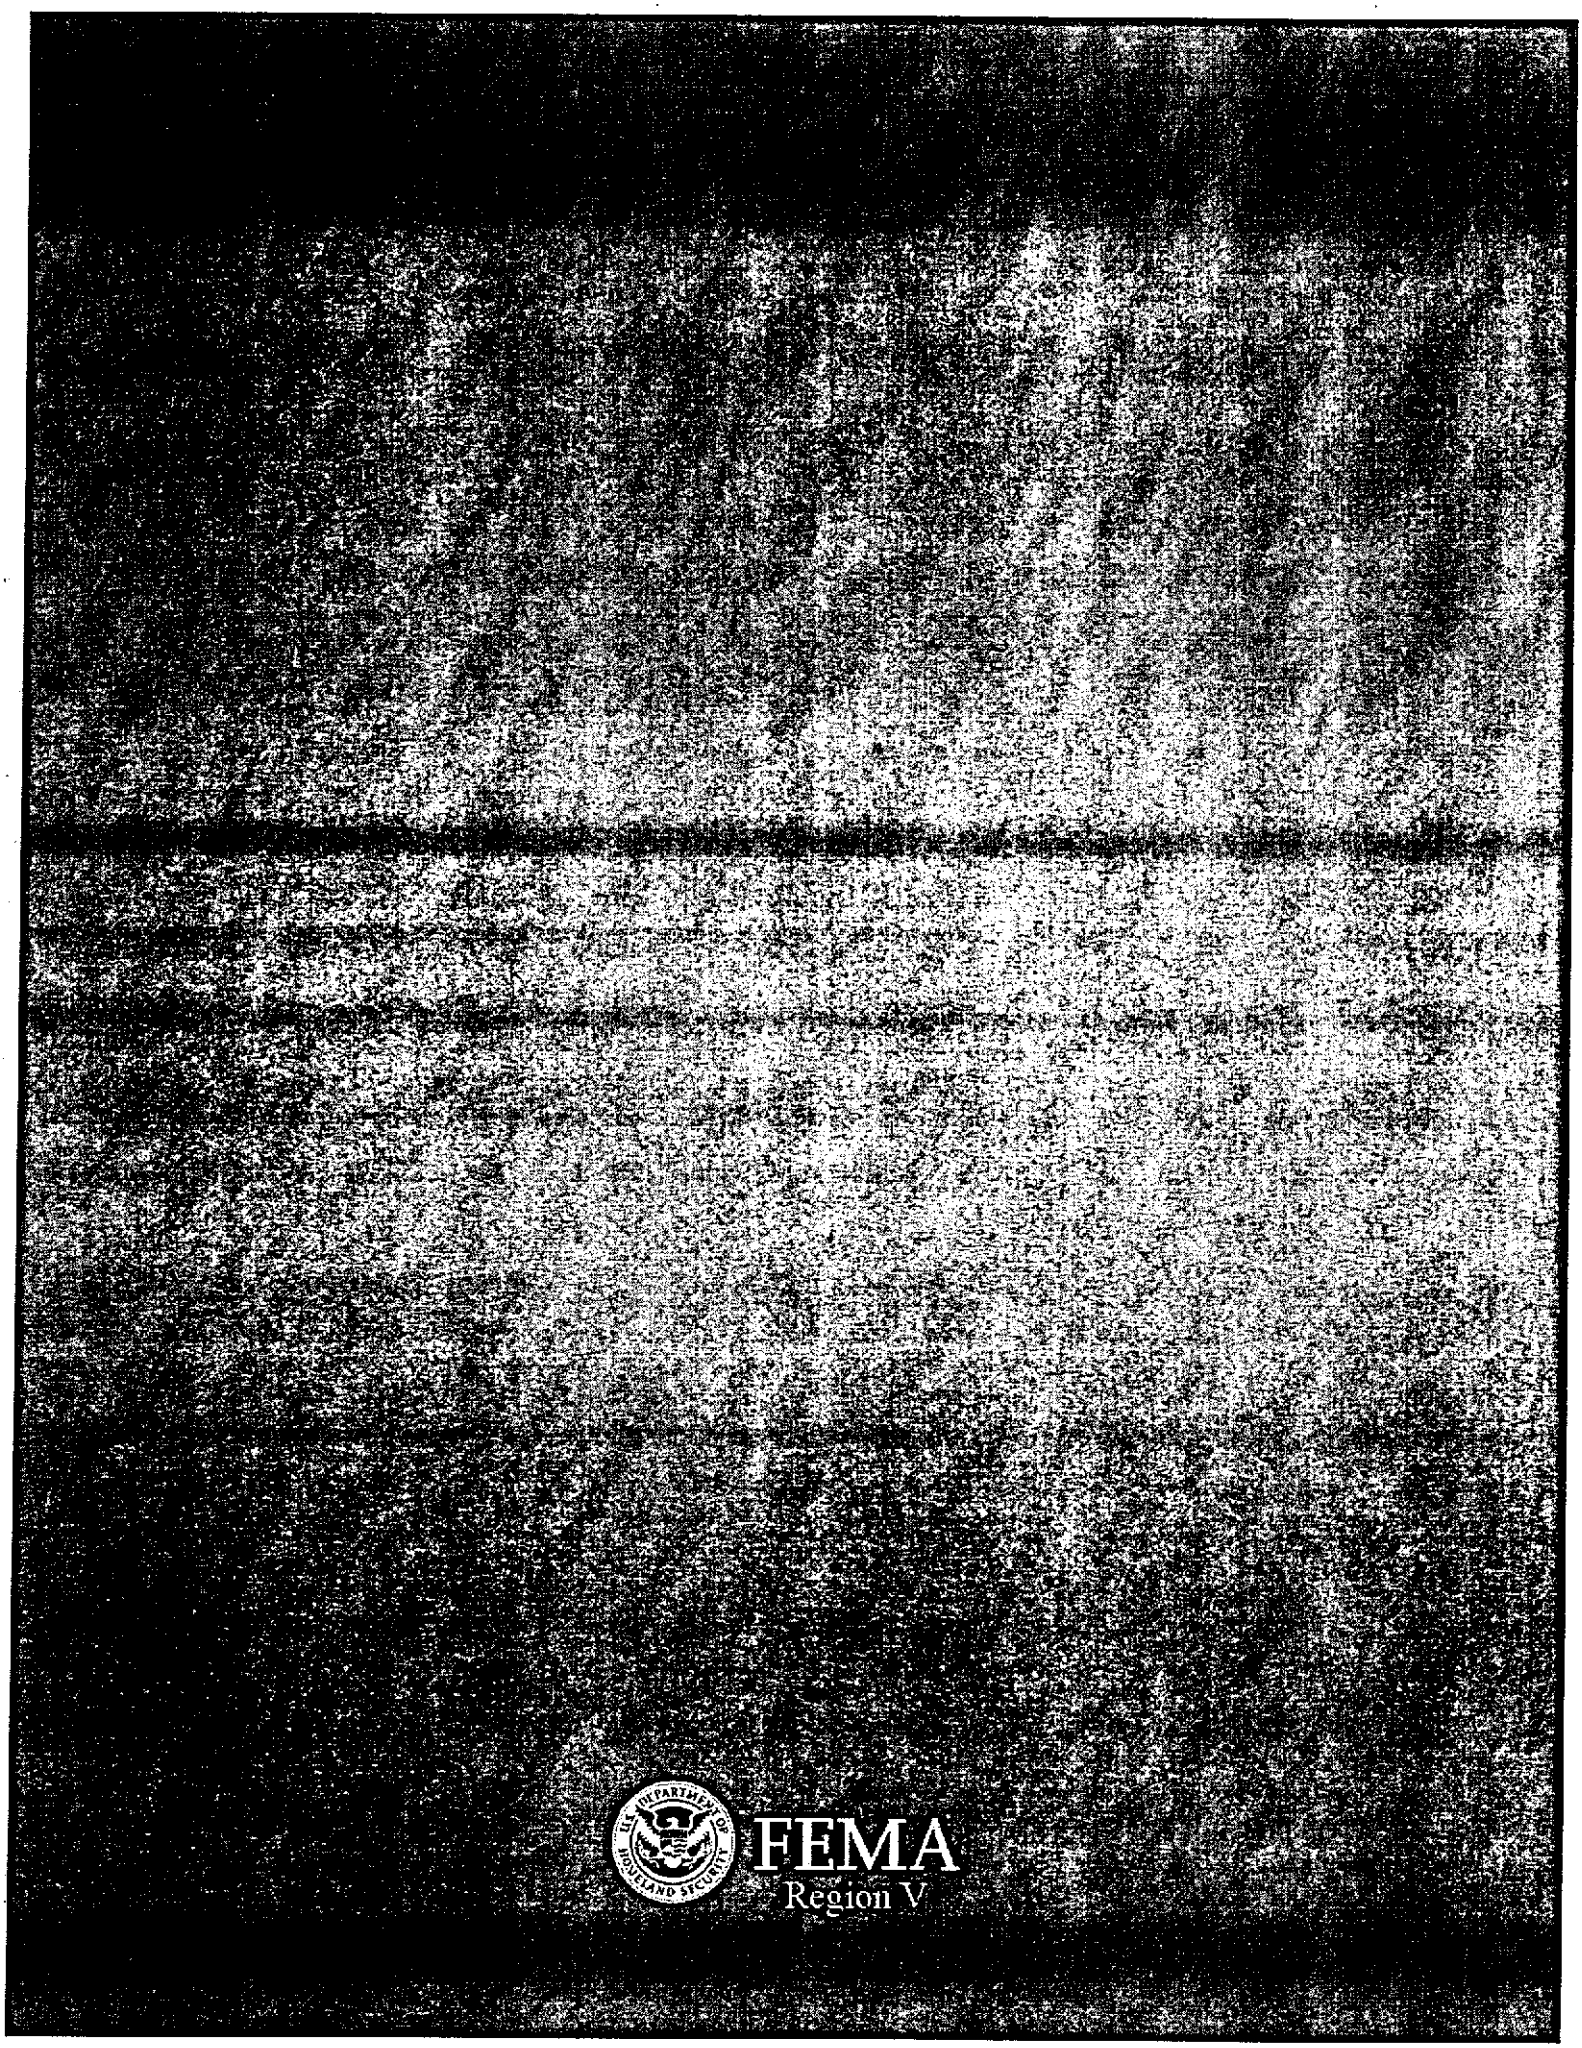
Department of Veteran Affairs (VA)	Specially Adapted Housing for Disabled Veterans	YES	NO
	VA Home Loans	YES	NO
	Burial Benefits	YES	NO



FEMA
Region V

MICHIGAN DEPARTMENT OF TALENT AND ECONOMIC DEVELOPMENT

TED Assistance Programs for Individuals and/or Government:

MEDC MSF

Community Development

a. **Program Name: Redevelopment Ready Communities**
b. Agency Responsible for program: MEDC
c. Point of Contact: Jennifer Rigterink
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is in the program and is an eligible applicant.
f. Benefits Available: Technical Assistance dollars that could be used for training on planning/marketing/crisis management, etc.
g. Application Process: Request from community

a. **Program Name: Core Communities Fund**
b. Agency Responsible for program: MEDC
c. Point of Contact: Katharine Czarnecki
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is an eligible applicant as a Core Community
f. Benefits Available: Up to $250,000 is available to be used for economic development activities, infrastructure is eligible.
g. Application Process: Form for community to complete, but should work directly with MEDC staff

---

Capital Access

a. **Program Name: Collateral Support Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of collateral.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Participation Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital

media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.

f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of cash flow in the near term.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Guaranty Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Support limited to not more than of 80% of the loan amount. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to increased risk as determined by the senior lender.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Private Activity Bond**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: Borrower must be primarily involved in manufacturing, be a not-for-profit corporation, or be a solid or hazardous waste disposal facility. Maximum bond amount is $1 million free of any restrictions on capital expenditures or $10 million subject to the condition that the company's total capital expenditure in the locality over the three years before and three years after the date of the issuance does not exceed $20 million. There is no size limit for bonds issued to finance solid or hazardous waste disposal facilities. Fees apply based on the amount of the bond
f. Benefits Available: Provide firms with capital cost savings stemming from the difference between taxable and tax-exempt interest rates.
g. Application Process: Applicant prepares an application for the bond and submits it to MSF staff. MSF considers an inducement resolution at its public meeting recognizing the public purpose of the project. Applicant structures the financing and bond counsel begins to prepare documents. MSF considers adoption of authorizing resolution.

Business Development

a. **Program Name – Michigan Business Development Program**
b. Agency Responsible for program – MEDC
c. Point of Contact – Josh Hundt
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – job creation and private investment by expanding or relocating business
f. Benefits Available – cash grant
g. Application Process – submission of application to MEDC staff, Michigan Strategic Fund review and approval, execution of incentive agreement, milestones and disbursements, reporting and compliance.

Federal Grant Development

a. **United States Department of Agriculture – Rural Community Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo

d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to improve housing, community facilities, and community and economic development projects
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on an annual basis through a Notice of Funding Availability (NOFA) in the Federal Register.

a. **United States Department of Agriculture – Rural Business Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to support community economic development.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted through the USDA Rural Development's local or State Office once per year.

a. **United States Department of Commerce – Planning Program and Local Technical Assistance Program**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

a. **United States Department of Commerce – Public Works and Economic Adjustment Assistance Programs**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – EDAP makes construction, non-construction, and revolving loan fund investments to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, and encourage economic resilience.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

MSHDA

Program Names: Community Development Block Grant Program (CDBG) and HOME

Agency Responsible For Programs:

Non-Entitlement Areas – Statewide

CDBG: Michigan Strategic Fund/Collaborative Community Development
Contact Person: Katherine Czarnecki Phone Number: 517.241.4950

HOME: Michigan State Housing Development Authority
Contact Person: Michelle Wildman Phone Number: 517.373.4363

Entitled Areas receive a direct allocation from the U.S. Department of Housing and Urban Development (HUD). Flint falls under the category of an Entitled Area and in FY15, HUD directly awarded Flint $3,617,741 in CDBG and $666,059 in HOME.

Type of Support: CDBG and HOME Federal Assistance

CDBG Eligibility Guidelines:
There is a lot of flexibility overall within CDBG. Note: activities identified in the City of Flint's Consolidated Plan include: **"Community Development and Infrastructure** - The City has 540 miles of water distribution lines, 570 miles of sanitary lines, and 350 miles of storm rain water lines. Much of this infrastructure is over 100 years old and in need of reconstruction or replacement. Insufficient funds are the major obstacle to addressing this need. CDBG and municipal financing represent a fraction of what is needed to address the problem. Additional funds from state and federal sources are needed and are being sought. CDBG will help fill the gap of inadequate resources to maintain community facilities and increase services."

For additional details go to the attached hyperlink City of Flint Consolidated Plan Link.

Overall CDBG can be used for: Acquisition of Real Property; Disposition; Public Facilities and Improvements; Clearance; Public Services; Interim Assistance; Relocation; Loss of Rental Income; Privately-Owned Utilities; Rehabilitation; Construction of Housing; Code Enforcement; Special Economic Development Activities; Microenterprise Assistance; Special Activities by CBDOs; Homeownership Assistance; Planning and Capacity Building; Program Administration Costs and Miscellaneous Other Activities.

CDBG can be qualified based on Urgent Need: An activity designated to alleviate existing conditions and the grantee certifies that those conditions are a serious and immediate threat to the health or welfare of the community, they are of recent origin or recently became urgent, the grantee is unable to finance the activity on its own, and other sources of funds are not available.

CDBG can be qualified based L/M Income Area Benefit: Can be used for an activity the benefits of which are available to all the residents in a particular area that is primarily residential, and at least 51% of those residents (or fewer if the exception criteria apply) are L/M income persons. **See hyperlink page 37 for a list of eligible census tracts.

HOME Eligibility Guidelines:
The actual activities that have been identified in the Consolidated Plan (hyperlink Page 155) are homebuyer assistance and refinancing of existing debt on multi-family projects.

Overall HOME can be used for: home purchase or rehabilitation financing assistance to eligible homeowners and new homebuyers; build or rehabilitate housing for rent or ownership; or for other reasonable and necessary expenses related to the development of non-luxury housing, including site acquisition or improvement, demolition of dilapidated housing to make way for HOME-assisted development, and payment of relocation expenses. HOME funds can also sometimes be used for tenant-based rental assistance contracts.

HOME can be qualified based L/M Income Household Benefit: The incomes of households receiving HUD assistance must not exceed 80 percent of the area median. HOME income limits are published each year by HUD. For rental housing and rental assistance, at least 90 percent of benefiting families must have incomes that are no more than 60 percent of the HUD-adjusted median family income for the area. In rental projects with five or more assisted units, at least 20% of the units must be occupied by families with incomes that do not exceed 50% of the HUD-adjusted median.

Benefits Available/Application Process: Undetermined – contact with the City of Flint regarding current allocation balances for FY15 and prior years is recommended.

Program Name: Housing Choice Vouchers (HCV)

Agency Responsible: HUD, MSDHA

Point of Contact: Kelly Rose

Type of Support: Individual, Rental Assistance

Eligibility Guidelines: 80% of applicants must be below 30% AMI, 20% below 50% AMI. Applicants must pass criminal screening that they do not have any violent crime in the past 24 months or drug offenses in last 12 months.

Benefits Available: HCV program pays a portion of the participants rent and utilities. It does not have any home repair funding component.

Application Process: MSHDA has a Homeless preference—homeless service agencies across the state can enter homeless person's application on waiting list. Non-homeless individuals/families must apply when the County resident waiting list is open for applications. This happens periodically when waiting lists get low on applicants. When vouchers are available names are pulled off the waiting list and applicants are contacted to fill out an application so their eligibility can be determined. Once eligibility is determined, they are issued a voucher and search for a rental unit. The unit is then inspected for HUD's HQS standards (does not have a water quality component) and if the unit passes a contract with the landlord is done and the family moves into the unit.

Editorial Comments: This program is not able to directly help with the Flint water issue. We are formulating a plan in consultation with HUD as to notifying individuals of their ability to get free water filters, etc. as well as their options for moving if they would like to relocate. We are also considering inspecting all homes with children 6 and under for proper installation of water filters.

Program Name: Section 8 Project Based Rental Assistance (Subsidized and Public Housing)

Agency Responsible for Program: HUD, MSHDA

Point of Contact: Daphne Wells

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: Housing is available to income eligible individuals at these specific properties. Eligible applicants must apply individually at each property in which they are interested in living at and each property has a tenant selection criteria that is adhered to for prospective applicants. Each individual property maintains its own waiting list for applicants wishing to reside there.

Benefits Available: This program wouldn't have any benefits available to the Flint Water issue in that the Section 8 housing is tied to a specific property and only offers rent assistance.

Application Process: Applicants can apply at each individual rental property.

Editorial Comments: The only thing that really fits this category (Subsidized and Public Housing) is the Section 8 program as it provides rental assistance to tenants. Nothing in the program can help as it relates to the water issue as the assistance is tied to the building itself. There isn't anything in the program that would help in this situation except using our contacts with agents and owners in Flint to provide them information as we have talked about.

Program Name: MSHDA Housing Development Fund

Agency Responsible for Program: MSHDA

Point of Contact: Brian Mills

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: In order for a proposal to be eligible for MSHDA's Statewide Partnership Grant program, the proposed activities must fit within one of five categories (Demolition, Land Acquisition & Development, Neighborhood Service Centers, Capital Improvements, or Community Development).

Benefits Available: Grants are limited discretionary budget dollars generated from interest from MSHDA earning on loan proceeds. Grants under $250,000 do not require formal board approval.

Application Process: Application is attached

Editorial Comments: Pursuant to communications with Mel Brown a few months ago, we suggested a number of different potential ideas for grant use in Flint. Those are detailed below:

- Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint. Evidently FHA is now conditioning all appraisals in Flint on a water quality analysis – and depending on the results won't put the mortgage through without the addition of a water infiltration system of some kind. Cost estimates are around $3,000 per home which is apparently having a negative impact on an already difficult real estate market.
- Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
- Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
- Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
- Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
- Purchase of water for low income households (50% AMI).
- Purchase of water filters for any low income households (50% AMI).

Program Name: Housing Counseling

Editorial Comment: We have one Counseling agency in Flint right now (Metro Community Development) and they are not involved with water/filter distribution nor are they a site for people to get these items. More information regarding program information can be obtained from Mary Townley at 517.373.6864

Program Name: Self-help Homeownership Opportunity Program (SHOP)

Editorial Comments: The SHOP program is not administered by MSHDA. Mary Townley has calls into HUD to find out who in the state offers this product. Above is a product eligibility information showing that it is administered through non-profits.

SHOP awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. SHOP funds must be used for eligible expenses to develop decent, safe and sanitary non-luxury housing for low-income persons and families who otherwise would not become homeowners. Homebuyers must be willing to contribute significant amounts of their own sweat equity toward the construction or rehabilitation of their homes.

SHOP is authorized by the Housing Opportunity Program Extension Act of 1996, Section 11, and is subject to other Federal crosscutting requirements. No separate program regulations exist. All program requirements are listed in the applicable SHOP Notice of Funding Availability (NOFA).

Eligible Applicants: National and regional nonprofit organizations or consortia with experience in using homebuyer and volunteer labor to build housing may apply for SHOP grants. Applicants must have completed at least 30 units of self-help homeownership housing within the last 24 months. Eligible homebuyers must apply to participate in the SHOP program through a current SHOP grantee or one of their affiliates.

Application: SHOP grant funds are made available through HUD's annual SHOP NOFA competition. The SHOP NOFA is published on HUD's e-grant portal. Once the NOFA is published, eligible applicants may apply through this e-grant portal.

Eligible Activities: SHOP grant funds can only be used for land acquisition, infrastructure improvements, and administrative costs. Total land acquisition and infrastructure improvement costs cannot exceed an average of $15,000 in SHOP assistance per unit. Administrative costs cannot exceed 20% of the SHOP grant amount. SHOP grantees must leverage other funds for the new construction or rehabilitation of their SHOP units.

Program Name: HOPE

Editorial Comments: At this time MSHDA is unaware of this program and do not administer functions related to it.

TIA/WDA

Program Name: Workforce Innovation and Opportunity Act (WIOA) Adult Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: Adults Age 18 and Older, Priority is given to recipients of public assistance, other low income individuals, and individuals who are basic skills deficient.

Benefits Available:

Basic Career Services: Basic career services are available to all adults and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.
Individualized Career Services: Individualized career services are designed for adults who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.
Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

A dislocated worker is an individual who:

1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   - Is eligible for or has exhausted entitlement to unemployment compensation; or
   - Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   - Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   - Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   - Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:

Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: **Workforce Innovation and Opportunity Act (WIOA) National Dislocated Worker Grants (NDWGs) – previously called National Emergency Grants (NEGs) under the WIA**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

A dislocated worker is an individual who:

1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   - Is eligible for or has exhausted entitlement to unemployment compensation; or
   - Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   - Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   - Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   - Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:

Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Disaster Relief Employment Specific NDWGs:

The Secretary of Labor is authorized to award NDWGs to provide assistance to the Governor of any state whose boundaries include a disaster area in order to provide disaster relief employment assistance in the disaster area.

"Emergency or disaster" means:

1. An emergency or a major disaster, as defined in paragraphs (1) and (2), respectively, of Section 102 of the Robert T. Stafford Disaster Relief Emergency Assistance Act; or
2. An emergency or disaster situation of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by the chief official of a Federal agency with authority for or jurisdiction over the Federal response to the emergency or disaster situation.

The term "disaster area" means an area that has suffered or in which has occurred an emergency or disaster.

If awarded, funds shall be used in coordination with the Administrator of the Federal Emergency Management Agency, as applicable, to provide disaster relief employment on projects that provide food, clothing, shelter, and other humanitarian assistance for emergency and disaster victims, and projects regarding demolition, cleaning, repair, renovation, and reconstruction of damaged and destroyed structures, facilities, and lands located within the disaster area and in offshore areas related to the emergency or disaster.

An individual may be eligible to be offered disaster relief employment if such individual is:

1. A dislocated worker;
2. A long-term unemployed individual;
3. Temporarily or permanently laid off as a consequence of the emergency or disaster; or
4. In the case of an individual who is self-employed, becomes unemployed or significantly underemployed as a result of the emergency or disaster.

No individual may be employed for more than 12 months for work related to recovery from a single emergency or disaster, unless an extension is granted by the Secretary of Labor. Extensions granted by the Secretary of Labor may not exceed an additional 12 months.

Program Name: Workforce Innovation and Opportunity Act (WIOA) Youth Program

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

Out-of-School Youth (OSY) are individuals who are:

- Not attending any school (as defined by State law);
- Not younger than age 16 or older than age 24; and
- One or more of the following:
    - A school dropout;
    - A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter;
    - A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is:
        - Basic skills deficient; or
        - An English language learner.
    - An individual who is subject to the juvenile or adult justice system;
    - A homeless, runaway, or current/prior foster youth;
    - An individual who is pregnant or parenting;
    - A youth who is an individual with a disability; or
    - A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment.

In-School Youth (ISY) are individuals who are:

- Attending school (as defined by State law);

- Not younger than age 14 or older than age 21 (unless an individual with a disability who is attending school under State law);
- A low-income individual; and
- One or more of the following:
    - Basic skills deficient;
    - An English language learner;
    - An offender;
    - A homeless, runaway, or current/prior foster youth;
    - Pregnant or parenting;
    - A youth who is an individual with a disability; or
    - An individual who requires additional assistance to complete an educational program or to secure or hold employment.

Benefits Available:

Available services include tutoring; study skills training; alternative secondary school offerings; dropout recovery services; paid and unpaid work experiences, including summer employment opportunities; occupational skills training; education offered concurrently with workforce preparation; leadership development opportunities; supportive services; adult mentoring; follow-up services; comprehensive guidance and counseling; financial literacy education; entrepreneurial skills training; provision of labor market and employment information; and activities that help youth prepare for, and transition to, post-secondary education and training.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: **Community Ventures**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: James Durian, Manager, Community Ventures

Type of Support (Individual or Government): Government

Eligibility Guidelines: Flint residents who are DHHS clients, PATH participants, ex-offenders, and persons with disabilities.

Benefits Available: Connection to employment and comprehensive 24 months of wraparound services after job placement. Community Ventures (CV) can assist Flint residents negatively impacted by contaminated drinking water by providing employment and wraparound services to those effected. CV can also help recruit and retain companies in Flint by partnering with companies and bringing companies together in coordinated community development efforts to help Flint residents. We have done this through promoting social enterprise partnerships like New Life Enterprises, through the formation of an Employer Resource Network (ERN), in Flint, and by partnering with United Way and local financial institutions in providing hard ship loans and financial literacy to Flint residents. CV could expand upon these efforts with a special focus on helping those most negatively impacted by the water crisis.

Application Process: Participants are referred from Mott Community College, Genesee-Shiawassee MWA (MWA), Mid-Michigan Goodwill, New Life Enterprises or DHHS.

Program Name: **Job's for America's Graduates**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: Students from middle school to 21 years of age.

The JAG Flint program targeted at-risk students at two Flint-area high schools (Flint Northwestern and Flint Southwestern) to help them earn a high school diploma and prepare for college/careers following high school.

Benefits Available:

JAG-Flint's mission focuses on the following:

- Deliver a unique set of services to at-risk and disadvantaged youth in high school;
- Provided follow-up services which will result in the graduate's pursuing a postsecondary education; and
- Ensured the participants entered the workforce in a quality job leading to a career.

The primary objectives of The JAG Model program are:

- Keep program participants in school through graduation.
- Extend program services to participants for 12 months after graduation.
- Assist graduates or completers in pursuit of a postsecondary education and/or an entry-level job that leads to a career.
- Deliver services to non-graduates and non-completers during the 12-month follow-up period to attain a GED certificate or a high school diploma.

Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Partnership Accountability Training Hope (PATH)
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Brian Marcotte, Manager, Welfare Reform Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals receiving Family Independence Program cash assistance (TANF)
Benefits Available: PATH is the work participation program required for families receiving cash assistance through the Family Independence Program administered by the Michigan Department of Health and Human Services. The Primary goals of PATH are two-fold. First, PATH will identify barriers and help participants connect to the resources they need to obtain employment. Second, the program helps Michigan reach the federally mandated 50% work participation requirement. Work participation is defined by the total number of participants fully engaged in job preparedness training, job search activities, and employment as a percentage of the states work eligible individuals receiving cash assistance.
The program is designed to assist eligible individuals in obtaining employment by offering job search assistance and work skills enhancement. The program offers vocational/occupational training, high school completion or GED attainment and a full range of supportive services that may be required to meet the job search and retention needs of the participants.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Trade Adjustment Assistance (TAA) Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Tammy Flynn, Manager, TAA Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals are eligible for the TAA program who have a qualifying separation from a company with a certified petition by the US Department of Labor (USDOL). A petition identifies a worker group at a specific firm or subdivision and covers all individuals in that group. Generally, if a worker is laid off, a petition must be submitted within one year of the layoff for that worker to be covered by the petition and the certification, if USDOL grants the petition. A group of workers may be eligible for TAA if their jobs are lost or threatened due to trade-related circumstances as determined by the USDOL investigation.
After the investigation, USDOL determines group eligibility to apply for TAA benefits and services. Workers in a certified group will be notified by their local Michigan Works! Agency, at which time they may apply for individual eligibility for benefits and services.
Benefits Available: Employment and case management services: Assessments, career guidance, pre-vocational services, labor market information, supportive services, information on financial aid, employment planning, and information on training.
Training: Up to 130 weeks of training including:
- Classroom training
- On-the-job training
- Customized training
- Registered Apprenticeships

Trade Readjustment Allowances (TRA): Up to 130 weeks of wage subsidies for workers enrolled in fulltime training within 26 weeks of their trade-related layoff or certification, whichever is later.
Re-employment Trade Adjustment Assistance: A wage subsidy for workers age 50 or over who are re-employed at annual wages of $50,000 or less.
Job Search Allowance: Reimbursement for job search costs outside the worker's local area.
Relocation Allowance: Reimbursement for relocation costs for a job outside the worker's local area.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

To learn more about how to file a petition, check on the status of a petition, or to obtain more information on benefits and services, please visit www.doleta.gov/tradeact or contact Tammy Flynn at flynnt@michigan.gov.

Program Name: GED To School
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Keenan Wade
Type of Support (Individual or Government): Government
Eligibility Guidelines: Must Pass Official Practice Test or Complete Adult Education GED Preparation Course.
Benefits Available: $150 per candidate to pay the cost of GED testing fees.
Application Process: Individuals should visit the GED To School website at http://michigan.gov/wda/0,5303,7-304-64362-298726--,00.html or call 517-373-1692 for additional information.

Program Name: Adult Education Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Cliff Akujobi, State Administrative Manager
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 16 and Older
Benefits Available: Adult Education provides an opportunity for students to improve or achieve education levels equivalent to those of high school graduates each year. Instruction is tailored to meet the individual needs of adult students. Standardized tests identify existing skill levels, appropriate instruction, and academic gains due to instruction. Adult Education consists of five components:

- High School Completion: Instruction designed to fulfill the requirements for a high school diploma.
- GED Test Preparation: Instruction in language arts, math, social studies, science, and writing, to enable successful completion of a GED test.
- Adult Literacy: Instruction in reading, English, language arts, math, and civics for adults without a high school diploma. The most basic literacy courses teach adults to read.
- English as a Second Language: Instruction in reading, speaking, writing, and understanding the English language.
- Labor Employment Related/Employer Workforce Readiness: Instruction in job- or employment-related mathematics, reading, and communication skills. Instruction may be "applied," which means that the academic material is directly related to specific job requirements.

Application Process:
Individuals should contact the Office of Adult Education at 517-373-8800 or visit the Adult Education website at http://www.michigan.gov/wda/0,5303,7-304-64362—,00.html

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

Subject: RE: SECOND REQUEST: Quest Diagnostics interested in helping to provide lead testing at no charge - need information - CONFIDENTIAL

Thanks for the follow up!

In my experience, we are prevented on (at least) two fronts:

1. Performing these for our clients at no charge would potentially be perceived as an inducement.

2. Performing testing for no charge when not also offering that to Government pay programs (Medicaid/Medicare) is also illegal.

Obviously, the AG would know much more!

While we are being requested to perform free testing, that may not be in the best interest of our stakeholders and stockholders as well, so we are interested in learning what subsidies may be available for uninsured patients involved in this incident so that we might do the honorable thing the honorable way for all.

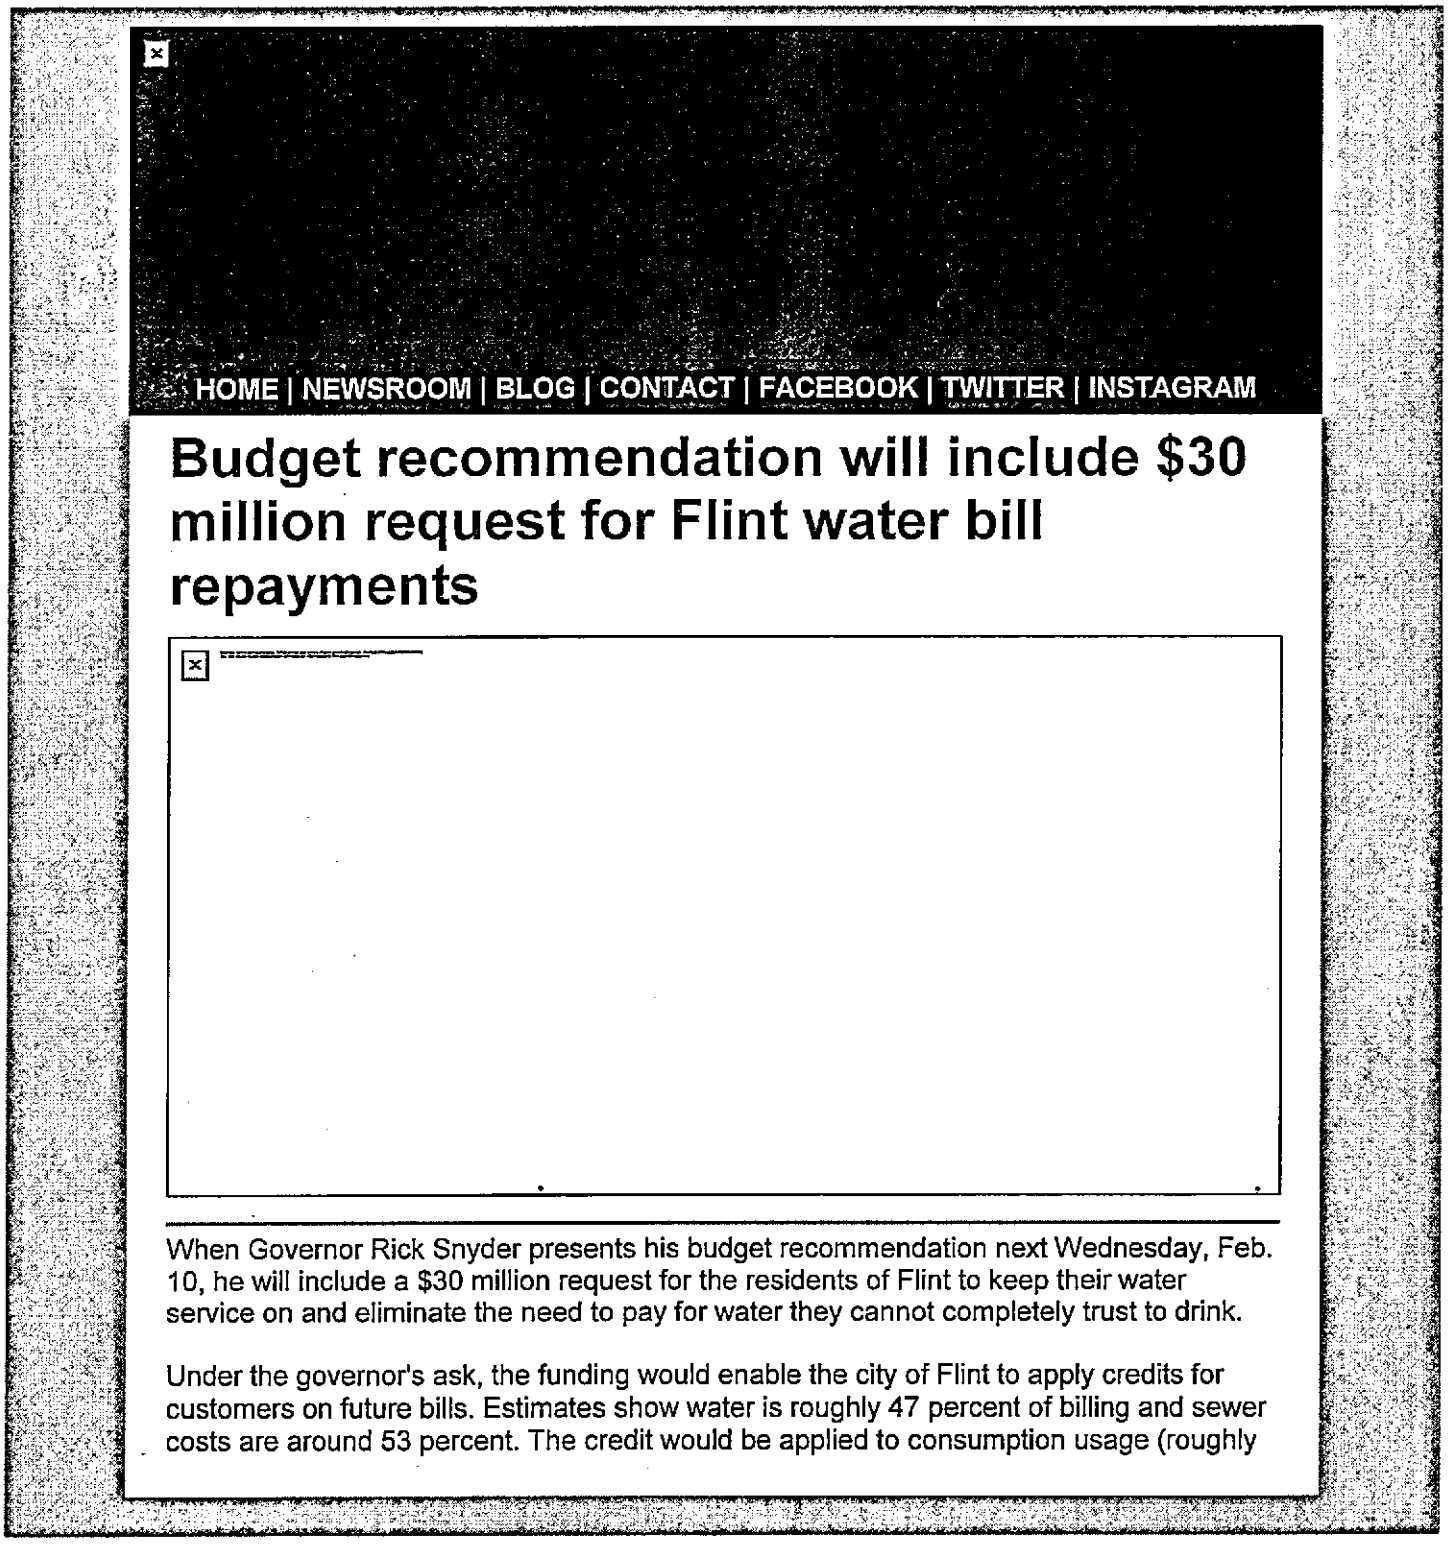
Subject: "Flint residents should not have to pay for water they cannot drink"



HOME | NEWSROOM | BLOG | CONTACT | FACEBOOK | TWITTER | INSTAGRAM

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Friday, January 29, 2016 9:46 AM
To: MSP-EOC-MDATGEN
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

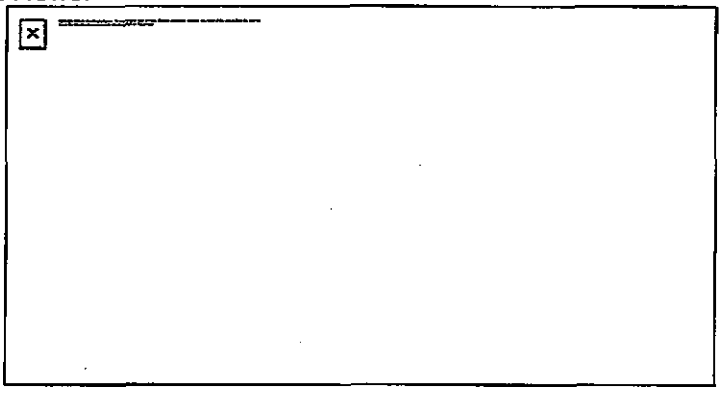
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

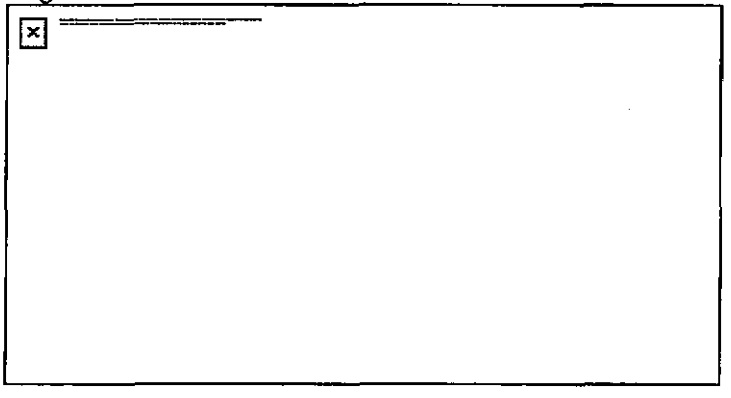
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

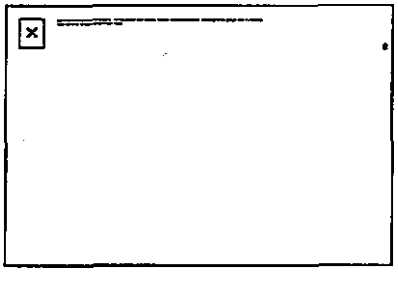


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



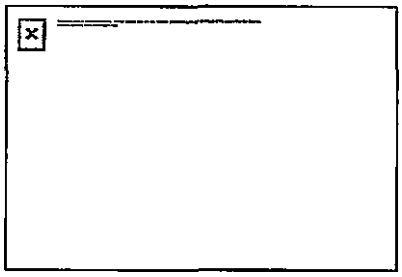
Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**



Visit HelpForFlint.com to learn how you can help Flint residents.

MSP-EOC-MDATGEN

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: MSP-EOC-MDATGEN
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

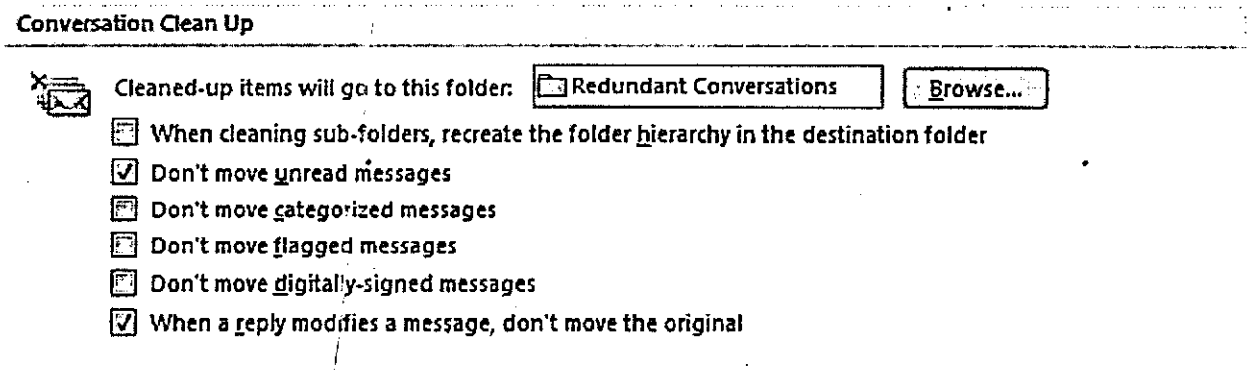
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

HOMESERVE SM
Protecting homeowners in Michigan

Peel and affix this label

326

Date:	1/12/16
Status:	Not Covered

** Important Information Regarding Your Water Service Line **

Dear Paul T. Igram,

This letter is to inform you that as a homeowner you are responsible for the full cost of repairing your exterior water line. We have found that your property at 1725 Lincoln Dr. is not covered with Exterior Water Service Line Coverage from HomeServe.

The water service line buried underground on your property could fail without warning, leaving you responsible for the cost of repair or replacement. Replacement of this line can be expensive—costing you thousands of dollars in unforeseen expenses—which could burden finances.

This protection is available for eligible Flint homeowners.

Benefit Amount:	$6,000 annually with multiple service calls for covered repairs 30-day wait period with a money-back guarantee
Available For:	City water and Private well lines
Monthly Rate:	~~$5.49~~ $2.74
Property Address:	
City:	

* * * Important * * *

You can now receive 50% off the regular monthly price shown above for the *first year*. Take action to help protect the buried water line on your property. Complete and return the enclosed form—remember to affix your address label—or call 1-877-444-7750 to accept this *optional* coverage. For fastest processing, please visit CoveragePlans50.com.

Please respond within 30 days.

HomeServe USA Repair Management Corp. ("HomeServe"), with corporate offices located at 601 Merritt 7, 6th Floor, Norwalk, CT 06851, is an *independent company separate from your local utility or community* and offers this optional service plan as an authorized representative of the contract issuer, AMT Warranty Corp., 59 Maiden Lane, 43rd Floor, New York, NY 10038.

1848-2001-BP07-7-326-41011

1512_HS_BP3 1512SHSZxxMxxx

Important Questions & Answers

What am I responsible for?
As a homeowner, you are responsible for the exterior water service line on your property. In some towns, the service line beyond the property boundary to the main connection may remain the homeowner's responsibility, but it is not included in this coverage.

Does this coverage include well lines?
Yes, coverage provides for repair or replacement of the water service line on your property regardless of whether you are connected to a city water main or private well.

Does my homeowners insurance or local utility company cover this?
Most basic homeowners insurance policies and local utility companies do not cover repair or replacement of the water service line. If you find you have similar coverage, you can contact HomeServe to cancel and you will receive a refund of your service agreement fee, less any claims paid (where applicable).

Who is eligible for coverage?
A residential homeowner with sole responsibility for the exterior water service line may be eligible. Residences not affixed to a permanent foundation, recreational vehicles and properties used for commercial purposes are not eligible for coverage. If you live in a development community with a condominium, co-op or homeowners association, your exterior water service line may not be an individual homeowner's responsibility, so please check with your association before accepting this coverage.

What should I know about this coverage?
What's covered: Coverage provides, up to the benefit amount, for the covered cost to repair or replace a leaking or permanently blocked exterior water service line from your property boundary or well casing to the external wall of your home that is damaged due to normal wear and tear, not accident or negligence.
Not covered: Repair to any exterior water service line that branches off the main line, accidents and damage or negligence caused by you or others. Additional exclusions apply. To see full Terms and Conditions with complete coverage and exclusion details prior to enrolling call 1-877-444-7750 or go to CoveragePlans50.com.

When can I make a service call?
Your plan starts the day your form is processed, and there is an initial 30-day waiting period before you can make a service call, giving you 11 months of coverage during the first year. This prevents service calls on pre-existing conditions and helps keep the coverage affordable.

What is the cancellation policy?
You may cancel within 30 days of your start date for a full refund; cancellations after the first 30 days will result in a pro-rata refund less any claims paid (where applicable).

What is the term of my service agreement?
Your coverage is based on an annual contract. For E-Z Pay, credit card or debit card customers: regardless of the payment frequency you select, your service agreement will be automatically renewed annually on the same payment terms selected, at the then-current renewal price. Your coverage will remain in effect unless you call to discontinue.

What is E-Z Pay?
E-Z Pay is a paperless and stress-free way to pay for your coverage. Payments are automatically debited from the bank/checking account of your choice as your payment becomes due, at no additional cost.

What quality of repair can I expect?
Local, licensed and insured plumbers perform all covered repairs, which are guaranteed against defects in materials and workmanship for one year.

Who is HomeServe?
HomeServe is an independent company providing emergency home repair services and protection solutions to homeowners across the U.S. If you have questions about this mailing or to be removed from our mailing list, call 1-855-321-9871.

E-Z PAY (see back of letter)

I have enclosed a check for my first payment. Prices reflect 50% off the regular rate for my first year of coverage.

Regular Price	
☐ ~~$5.49~~	$2.74 per month
☐ ~~$16.47~~	$8.22 per quarter
☐ ~~$65.88~~	$32.88 per year

I authorize HomeServe to charge my account for Exterior Water Service Line Coverage at the frequency specified and my financial institution to debit these payments from the account provided. I understand that, regardless of the payment frequency I select, my optional coverage is based on an annual contract and will be renewed annually on the same payment terms selected at the then-current renewal price (currently $5.49 per month). I have the option to cancel this contract at any time

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must **first** be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Primary Contact:
Rebecca Cook, Commodities Division Director
Cookr6@michigan.gov

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

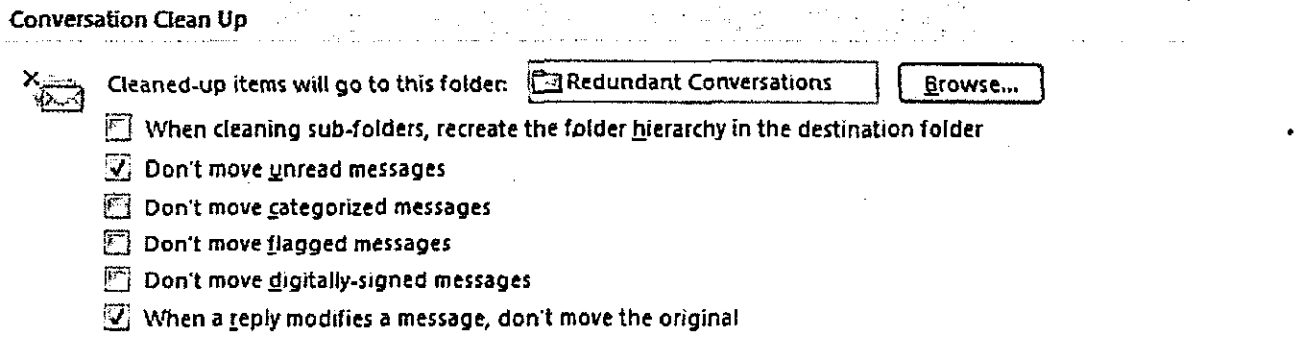
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Subject: SEOC PIO Dates for Next Two Weeks

Insp and Shannon-

Below are the dates and times that F/Lt Bowman and I will be working in the SEOC-PIO position over the next two weeks. Please add this to the schedule/calendar. There is one date, Friday February 26th that both of us have outstanding commitments. I have hiring interviews scheduled for a vacant sergeant position at the Lakeview Post. I would really like to keep this date/time as this position has been vacant since December 1. I can cancel/postpone it if needed however.

Do you have someone that could work in the SEOC-PIO position on Friday February 26th? Maybe bring Jane back in for the day? I have asked a few other PIO's, but have struck out with finding someone else to assist in this capacity.

Monday Feb 15th – Presidents Day
Tuesday Feb 16th – F/Lt Sweeney
Wednesday Feb 17th – F/Lt Sweeney
Thursday Fe 18th – F/Lt Bowman
Friday Feb 19th – F/Lt Bowman

Monday Feb 22nd – F/Lt Sweeney (8a – 4pm); F/Lt Bowman (4pm – 8pm)
Tuesday Feb 23rd – F/Lt Bowman
Wednesday Feb 24th – F/Lt Bowman
Thursday Feb 25th – F/Lt Sweeney
Friday Feb 26th - ????????

Thanks

Insp and Shanon-

As we discussed, Lt Bowman and I have spoken to Lt Kevin Caldwell. He is willing to assist Kyle and I in the SEOC in the role of PIO. Between the three of us I feel confident that we will be able to staff the 12 hour shifts for the next several weeks.

If approved, Lt Caldwell's first day in the MSP-SEOC will be February 26th from 8a- 8p. He will come into the SEOC on either the 24th or 25th for training.

Please run this through the chain of command to Insp O'Neil for approval of this request

Thank you

Hi Kevin,

Can you check to see if anyone ever looked into this mailer to see if it is legitimate? It came up again during the Governor's Tele-townhall, and 211 received calls about it tonight.

I'm looping in my fellow PIOs, Andrea and Jason, to see if we can pull together a media event regarding possible scams.

Thanks,
Shanon

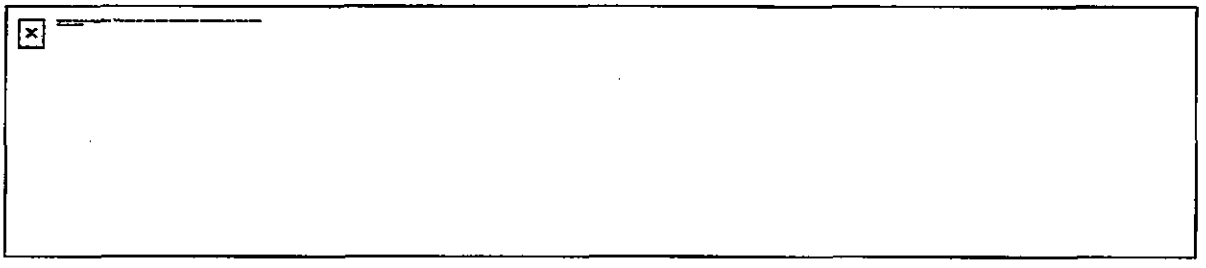
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

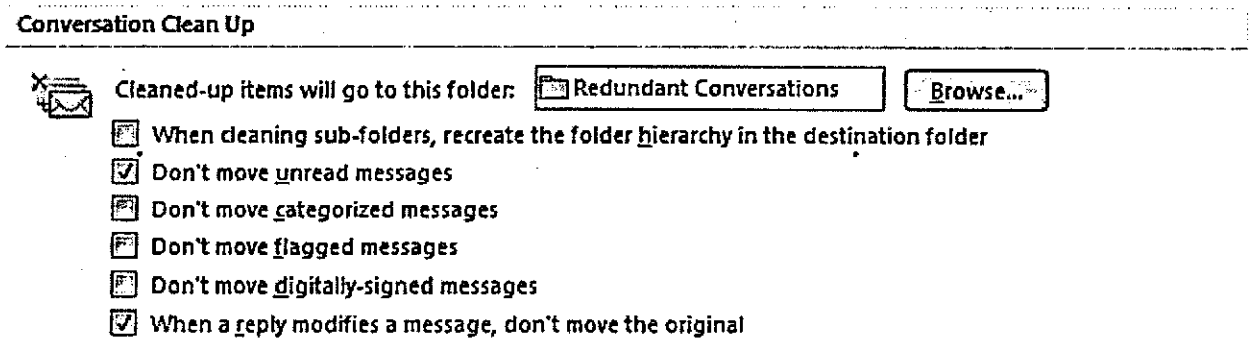
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 34

State launches new streamlined services for residents

New testing sites help confirm water quality

FLINT, Mich. – This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

MORE

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  - Health and wellness information
  - Off-site blood test referral
  - Assists with transportation support for appointments, as necessary
  - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  - Water testing and sampling information
  - Water sample collection
  - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
  - Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater/, by calling United Way 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

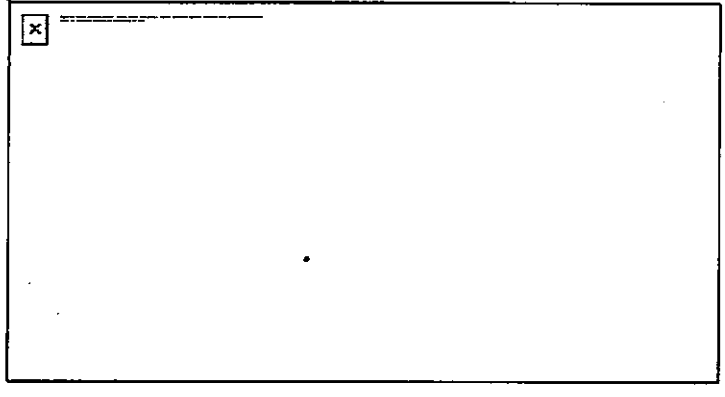
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

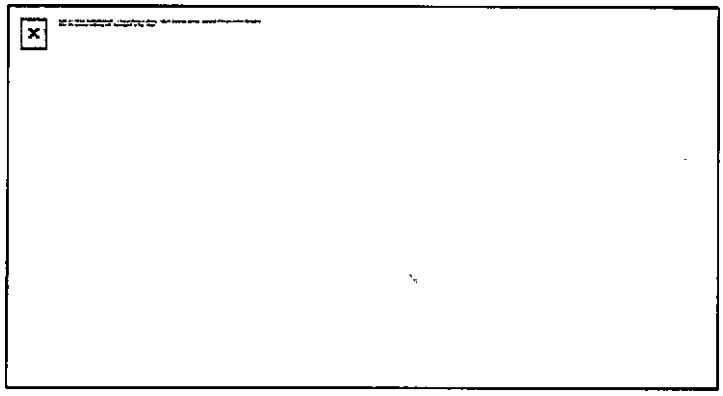
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

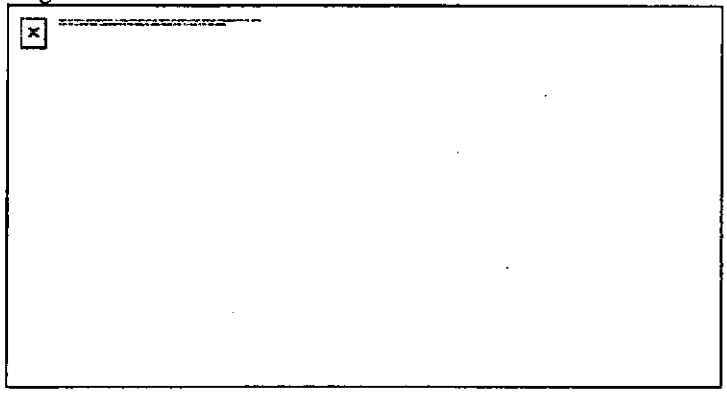
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

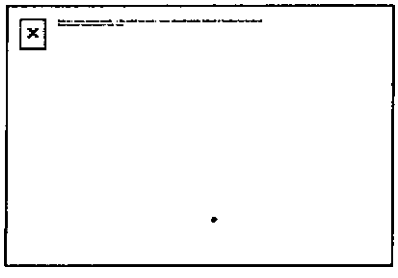


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



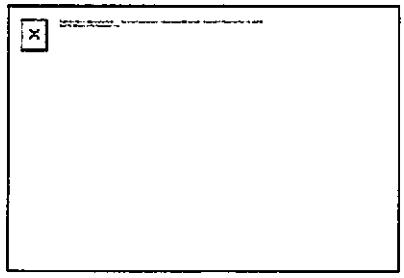
Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**



Visit HelpForFlint.com to learn how you can help Flint residents.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Primary Contact:
Rebecca Cook, Commodities Division Director
Cookr6@michigan.gov
Cell:

Secondary Contact:
Jeff Brownlee, Chief Procurement Officer
brownleej@michigan.gov
Cell

Sincerely,

Jeff Brownlee
Chief Procurement Officer

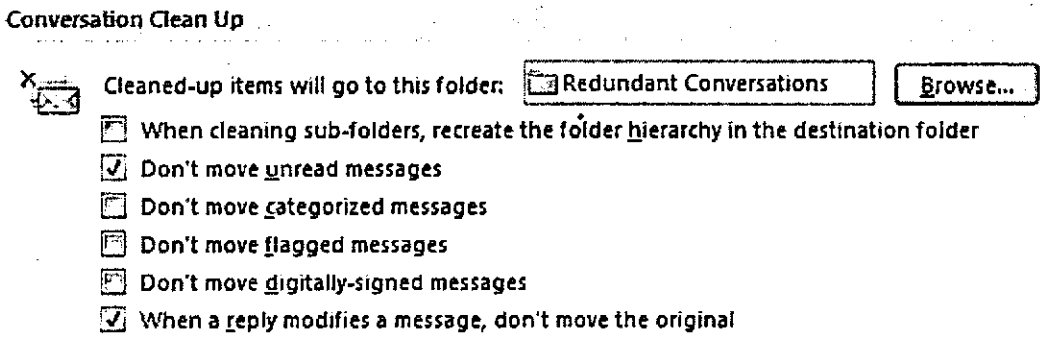
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. ***Click here to listen to the call.***

MSP-EOC-MDSTATE

From: MSP-EOC-MDSTATE
Sent: Wednesday, January 06, 2016 10:32 AM
To: Jarois, Rose (MDOS); Pena-Klanecky, Jackie (MDOS)
Cc: SOS-OccupancyServices; Badgero, William (MDOS)
Subject: Required at SEOC till Noon

The 9am briefing that Kevin and I came to has turned into a full activation for all departments... we are to stay on duty until noon, at which time non-essential departments (like us) are able to depart.

I do not see any further responsibilities beyond noon today, other than participating on update calls in the future days.

Bill

MSP-EOC-MDSTATE

Subject: FW: Flint water

Update provided to the SEOC by us just now:

"SOS Downtown Branch on S. Saginaw is on City of Flint supply. MDOS is supplying water via a water supply service for staff to consume. There is no publicly available water source (i.e. drinking fountain) at this branch. The Flint Area Super Center on Fenton Rd. is not on City of Flint supply."

I will get with Bill Strong and Amy Winn on the website information so that they can inform the Flint Downtown staff.

Sent: Wednesday, January 06, 2016 9:47 AM
To: Jarois, Rose (MDOS)
Subject: Question about Flint Water

Rose,

This is Bill on the SEOC system... I have not volunteered this yet, but would MDOS want offer to place informational pamphlets for customers who may not have computers or cell phones? DHHS is discussing sending fliers out to daycares and having information centers set up.

I can see this being a good thing to offer, but may also lead to customers asking our staff specific questions they may not have the answers to...

Also, I did confirm that FASC is off City water, but Downtown is on it. Currently Flint Downtown has a water service (like Culligan) providing drinking water. We do not have a drinking fountain in the Flint Downtown branch.

Thanks,
Bill

Subject: Flint Water Question
Importance: High

Bill, Drew, or Roy,

I got an out of office message from Amy, so I am following up with you three. Could you let me know if the Downtown Flint branch has City of Flint water as a source? If so, are we still doing bottled water for staff and shutting down the drinking fountain? I think I recall that the LL didn't install a filter, right?

I am emailing from the State Emergency Operations Center and need to report out our Department's status. I know from last fall that FASC is not on City of Flint water.

Thank you,
Bill

Subject: Question about Flint Water

Rose,

This is Bill on the SEOC system... I have not volunteered this yet, but would MDOS want offer to place informational pamphlets for customers who may not have computers or cell phones? DHHS is discussing sending fliers out to daycares and having information centers set up.

I can see this being a good thing to offer, but may also lead to customers asking our staff specific questions they may not have the answers to...

Also, I did confirm that FASC is off City water, but Downtown is on it. Currently Flint Downtown has a water service (like Culligan) providing drinking water. We do not have a drinking fountain in the Flint Downtown branch.

Thanks,
Bill

Update provided to the SEOC by us just now:

"SOS Downtown Branch on S. Saginaw is on City of Flint supply. MDOS is supplying water via a water supply service for staff to consume. There is no publicly available water source (i.e. drinking fountain) at this branch. The Flint Area Super Center on Fenton Rd. is not on City of Flint supply."

I will get with Bill Strong and Amy Winn on the website information so that they can inform the Flint Downtown staff.

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

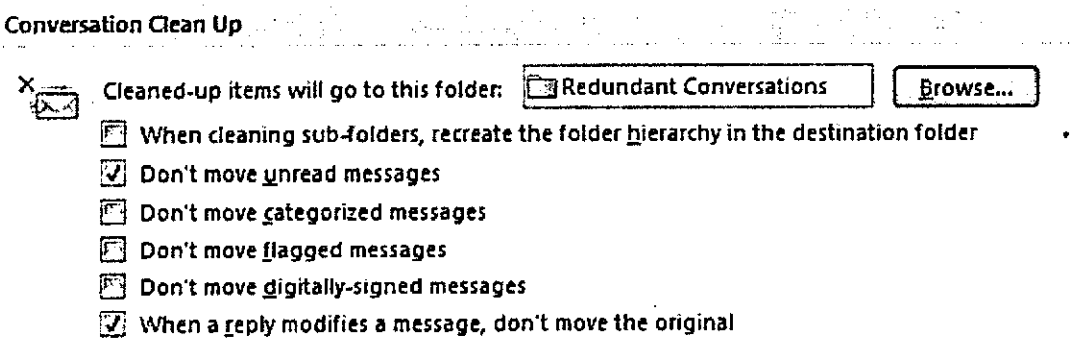
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

Michigan Emergency Management Plan (MEMP) 2016 Revision
Request for Revisions from Plan Partners
November 2015

During the next two months, the Emergency Management and Homeland Security Division of the Michigan State Police (MSP/EMHSD) will **revise the April 2014 edition of the MEMP**. As an integral partner, you are asked to recommend appropriate plan revisions to address organizational changes and specific operational or hazard-related issues.

Please review the MEMP elements pertaining to your agency, with particular attention paid to task assignments and task implementation narrative.

If changes are required, please make the changes electronically, via strikethrough and color-coded replacement text, exactly as they will appear in the revised plan. Submit your changes to the MSP/EMHSD State Planner: Zach Baker, PEM: bakerz@michigan.gov.

If changes are not required, please send an e-mail response to Mr. Baker, indicating the plan is correct as written.

As most of you know, we underwent our EMAP recertification process last year, staff changes, and some significant revisions for our REP processes, so the production of a 2015 revision was not undertaken. We have incorporated changes that you submitted for a 2015 revisions into a preliminary 2016 draft. Please request a copy of the MS Word document for the components you need to revise. The overall document is large and broken up into several individual files, so we will transmit only those you need.

The deadline to submit MEMP revisions is **Friday, January 29, 2016**. As we intend to publish the revised MEMP by the end of March; prompt response to this request is always appreciated.

Again, please submit revisions electronically to Zach Baker at bakerz@michigan.gov. Questions about the MEMP or this revision may also be directed to Mr. Baker by email or telephone at (517) 335-5045.

It is also our intent to form a work group in the near future to look at more substantive changes and reorganizations of the MEMP, so please keep in mind anyone you might want to include in the work group. Thank you in advance for your contributions toward maintaining Michigan's Emergency Management Plan!

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must **first** be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

January 4, 2016

TO: Commanding Officer - Emergency Management Division
Department of State Police; District #3
Emergency Management Division District Coordinator
Post #35 State Police Post Commander

On October 1, 2015 residents within the City of Flint, located within Genesee County, were exposed to toxic levels of lead resulting in an imminent danger to public health and safety caused by elevated lead levels in the public water distribution system due to utilizing the Flint River as a primary source of water without proper corrosion control treatment. As a result of this situation, the following conditions exist: lead toxicosis in City of Flint residents and accelerated deterioration of the City of Flint water distribution system.

Therefore, as Board of Commissioners Chairperson of Genesee County, in accordance with Section 10 of 1976 PA 390, as amended, I hereby declare that a "State of emergency" exists therein, that the response and recovery aspects of the emergency operations plan have been activated, and that local resources are being utilized to the fullest possible extent.

12. **Next Call**

Good Morning June,

Here are the items for today:

1. Note taking:
    a. In the 0830 briefing take notes and capture the following:
        i. Major activities or courses of action for the UCG and local EOC.
        ii. Any items of concern mentioned by anyone.
        iii. Task assignments issued to local or SEOC.
    b. For the 0930 call take notes either using the template on the shared drive or by hand and type them in following the briefing.
        i. The notes are located in the following location:
            1. SHARED>DISASTER>2015-10 Flint Water>Agency Brief Notes
        ii. Capture as much critical information as possible during the briefing.
            1. Items to capture
                a. Meetings
                b. Critical tasks
                c. Areas of concern
                d. Accomplishments
    c. Have Richard assist you in taking notes to ensure the information is captured.
2. Assist planning section chief
    a. Assist the planning section chief with any assignments as necessary.

I will be working from my desk today so feel free to call me if you have any questions

Thanks,

Zach

Raquel Hardy 2.9.16

Situation Report Process

1. Bullet Point reminder
   a. At 1530 (3:30p) or 1.5 hours before the time due send an email to the following reminding them to send bullet points of today's activities.
      i. List of recipients:
         1. msp-seocopsc@michigan.gov
         2. msp-seoclgc@michigan.gov
         3. plangc@michigan.gov
         4. msp-seocfgc@michigan.gov
         5. msp-seocgis@michigan.gov
         6. msp-seocgis2@michigan.gov
         7. hollanderh@michigan.gov (or local EOC planning) — Incorrect Spelling — Hollenderh@
         8. Webert1@michigan.gov (State VAL)
         9. Msp-seoc7@michigan.gov (State VAL SEOC address)
2. Sit Rep Preparation
   a. At 1700 (5:00p) open the MICIMS dashboard for the incident and click on the **Situation Report Process** under the **Menus** section.
   b. In the **Situation Report Process Board** click on the **Situation Report-Step 1-Agency Reports** link.
   c. In the **SEOC Agency Reports** board verify that the Last updated column shows that the agency report has been updated for today (for agencies that are present in the SEOC or have a supporting role).
   d. If they are not up to date please check with the representative and work the report updated prior to continuing in the Sit Rep Builder (the process in MICIMS).
3. Executive Summary
   a. At 1700 (5pm) make a copy of the previous days executive summary and rename it "Sit Rep Executive Summary 2016mmdd (replace mm with numbers of the month and dd with numbers of the day). This document is located in the s drive in the following location:
      i. Shared>Disaster>2015-10 Flint Water>Sit Reps>Executive Summary
   b. Open up the renamed Sit Rep and select all (Ctrl+A) and click highlight (in Home Tab and Font section) to highlight all the text. Then save the document.
   c. As you update the content you will remove the highlighting on the sections to indicate you have updated them.
   d. As you receive the bullet points from the section chiefs and staff by email update the corresponding sections with the information provided. This will require you to copy and paste the bullets and wordsmith the sections as necessary to ensure that they flow well.
   e. Who will send the bullets:
      i. Logistics->Logistics Section Chief.
      ii. JIC->pull information from the twice daily briefings and/or the JIC Sit Rep.
      iii. Recovery Branch-> bullets will accompany the daily numbers for the teams. - Field Team Visits

Thanks
V. M

iv. Operations->Operations Section Chief.
v. Finance-> Finance Section Chief
vi. GIS-> GIS Staff/Section Leader
vii. DTMB-> Pull information from twice daily briefings and/or Agency Sit Rep.
viii. DHHS-CH-> Pull information from twice daily briefings and/or Agency Sit Rep.
ix. DEQ-> Pull information from twice daily briefings and/or Agency Sit Rep.
x. Local EOC-> Local EOC Planning will send bullets.

f. To update the numbers:
    i. Pull information for the following numbers from the following locations:
        1. Recovery
            a. Numbers sent along with bullet points (totals can be obtained by adding today's totals to the previous days count).
        2. Operations
            a. Warehouse Numbers
                i. These numbers will be in the Google Drive Pipeline document around 6:30p every evening.
            b. PODs
                i. These numbers are obtained from the **National Guard Reporting FD PODs 2016-mm-dd.** This is located in the following location on the S: drive.
                    1. SHARED>DISASTER>2015-10 Flint Water>MI CIMS Data for Sit Rep>POD numbers>National Guard Reporting FD PODs 2016-mm-dd.
                    2. Pull the numbers from the **1700 TOTAL NUMBERS** sheet. It will be the numbers in the orange box.

4. Situation Report Process (in MICIMS)
    a. You can begin this process once all of the state agencies have submitted their Sit Reps (verify using the Sit Rep Prep process above).
    b. In the **Situation Report Process Board** click on the **Situation Report-Step 1-Agency Reports** link.
    c. In the board click the **Situation Report-Step-1-Planning Portion** link.
    d. In the **Michigan Planning Section** board click the **Edit** button.
    e. In the editing page set the **Operation Period Begin and End** to reflect the current operational period (this only changes once a week currently).
    f. Change the **Situation Report No.** this number is changed by adding 1 each Sit rep.
    g. Change the **SEOC Hours of Operation Begin and End** these change daily and you should only have to change the date.
    h. Once you have changed those items click the **Save** button and close the page.
    i. Next you will need to click the **Situation Report-Step 2-Send to Planning** link.
    j. In this page click the **Send to Planning** button and wait 30 seconds then close the page.
    k. Next you will click on the **Situation Report-Step 3-Editing** button.

l. Click on the **Edit** button.
m. Scroll down to the text box below the **Incident Response/Recovery Priorities/Objectives.**
    i. Ensure that the objectives are the current objectives from the Incident Action Plan for the current Operational Period (verify with Planning Section Chief if unsure).
    ii. These can be pulled from the following location if they are not current:
        1. SHARED>DISASTER>2015-10 Flint Water>Objectives & Tactics. From here you can pull the most recent objectives.
    iii. If the objectives need to be updated copy and paste them and format them accordingly.
n. Next scroll down to the text box below the **Emergency Declarations** title.
    i. In this section verify that all the declarations are listed in the appropriate sections. If any are missing, copy and paste them from the previous Sit Rep in the following location.
        1. SHARED>DISASTER>2015-10 Flint Water> Sit Reps
o. Next scroll down to the **Weather Conditions, Upcoming Forecast**
    i. In this text box you will need to remove the "Updated xxxx am/pm" from the line so that it only shows the date. Then go to each date in parenthesis and change them from abbreviations to the full name (e.g. Jan to January).
    ii. In this box you will also need to un-capitalize any words that are incorrectly capitalized.
p. Finally scroll through the Agency Sit Reps and remove any extra spaces following the text (at the bottom) in each text box to prevent large blank spaces on the final Sit Rep.
q. Placing the Executive Summary
    i. Once the executive summary has been completed go to the text box below the **Executive Summary** title.
        1. Delete the information currently in the box and copy and paste the text from your finished summary in word.
        2. Once this has been pasted scroll through the summary and place spaces between each section to make the summary easier to read.

5. Approval Process
    a. Have the Planning Section chief review the finished product before printing and distributing with other section chiefs and SMEs. PDF & Print
    b. Once the planning Section has reviewed and approved the finished product do the following:
        i. In the **Situation Report Process** board click on the **Situation Report-Step3-Editing** link.
        ii. In the **Situation Report-Step3-Editing** page click on the page and the select all (Ctrl+A) to select the entire document.
        iii. Right click on the mouse and select copy from the menu.
        iv. Open up Microsoft word and select **File>New>Create.**

v. In the new document paste (Ctrl+v) the copied Sit Rep.
vi. In the pasted Sit Rep Scroll down until you see the title "Damage Assessment and Emergency Status Report" for the second time.
vii. Select the text from second title through the end of the document and delete the selected text.
viii. Click on **File>Save As** and route to the following location:
    1. SHARED>DISASTER>2015-10 Flint Water>Sit Reps
ix. Name the word document to **Sit Rep ##** replace the number with the sit rep number we are currently on (will be previous sit rep +1).

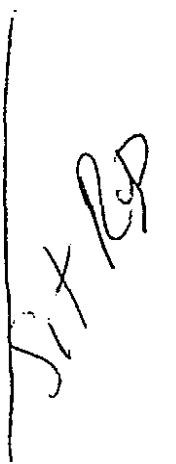
c. Once you have save the document click on **File>Save and Send** click on **Send as Attachment.**
d. Once it opens up in an outlook window send the document and the following text to Peter Manning (manningp@michigan.gov) for review.
    i. Text for Email:

Mr. Manning,

Please review the attached situation report and provide any changes.

Thanks,

Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)



e. Once you have sent the copy to Peter Manning go back to the version in MICIMS you copied from for the word doc and click on **Create PDF.**
f. Once the PDF version is created click print (Ctrl+p), in the print window on the right hand side click the right arrow until you see the "Damage Assessment and Emergency Status Report Title" appear again (should be around page 6 or 7).
g. In the **Pages to Print** section (top left) click the pages button and put from 1 to the page the duplication begins you found above.
h. Click the box to print on both sides of paper and press print.
i. Once the document is printed highlight the Executive Sumnmary title to indicate to operations and logistics that those are the sections that need review.
j. Next give the sit rep to the operations chief for review, once they review give the report to the logistics chief if they are present, and see if the state director would like to review the report.
k. Once all have reviewed (including Peter Manning) make any necessary changes.
l. In the **Situation Report-Step3-Editing Version** click the **Edit.** In the edit page check the **Publish** box to the left of save. Then click **Save** and close the window.

6. Final Step
    a. In the **Situation Report Process** board click the **Situation Report-Step4-Published** link.
    b. Click **View** for the most recently published Situation Report (should be the one you just published).
    c. Click **Create PDF** at the top of the page.

d. Save the document (Shift+Ctrl+s).
e. Route to the following location in the window:
    i. SHARED>DISASTER>2015-10 Flint Water>Sit Reps
f. Name the document using the following convention:
    i. 2015-10-01 City of Flint Water Contamination-Shortage SitRep ## 2016-mm-dd.
        1. ##=sit rep number
        2. mm= month
        3. dd= day

7. **CONGRATULATIONS YOU FINISHED!!!!! ☺**

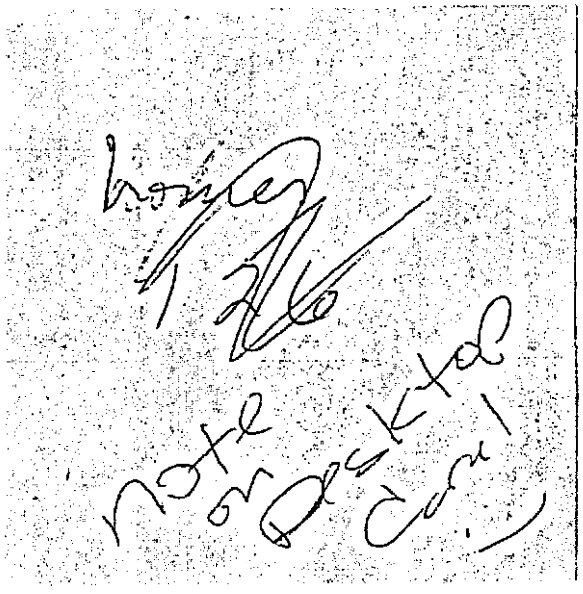
If someone gets an ~~update~~ email and FOIA is already copied does the person still need to send it in?



Matt-
The Governors Report is only being submitted once a week. Additionally we also need to send Capt. the Field team #'s each night by 6:45pm. I updated the procedures and those sections are highlighted. Call if you have any questions. Amanda

Ask him if they had any field teams out today.
↳ NO
transitioning to new team

9. **PIO**
10. **Deputy State Director**
11. **Next Call**

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.

13. Integrate the FWICC goals, priorities, and objectives into the SEOC.

12. Implement a comprehensive long term recovery and transition plan.

11. Track and account for all commodity donations and incident expenditures.

2. Track and account for all commodities.

3. Deliver coordinated and effective messaging through the Joint Information Center (JIC).

8. Coordinate with all key local state and federal agencies and organizations.

9. Provide situational awareness and common operating picture of all activities.

7. Gather, analyze, and disseminate GIS data to develop products for future planning.

- Establish criteria for eliminate public health advisory.

Do not delete below:

~~5. Continue to maintain adequate staffing to support operational requirements.~~

~~10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan. (fold objectives under 12)~~

~~6. Develop an overview of possible assistance programs.~~

~~4. Develop a long term public health and services plan. (fold objectives under 8)~~

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, February 25, 2016

GENERAL INFORMATION

- **A bill appropriating $30 million to provide credits to Flint water customers** will be signed by Governor Snyder in Flint on Friday, February 26. The appropriation provides for reimbursement for the estimated 65% of water bills that goes to customers' personal use (drinking, cooking, bathing). Reimbursement will be retroactive to April 2014 when the water supply was switched to the Flint River.
- **Flint Farmers' Market will offer free nutrition information and cooking demonstrations focusing on foods that can help limit the effects of lead poisoning, especially in children.** Hurley Wellness Services, Michigan State University Extension, and Flint Food Works are partners on the initiative.
    - Upcoming cooking demonstration dates are March 1, 3, 8, 15, 19, 24, and 29; April 7, 16, 21, and 26; and May 5, 10, 21, 19 and 24.
    - The Flint Farmers' Market is located at 300 E. First St. in downtown Flint. Open year-round Tuesdays and Thursdays, 9 a.m. – 6 p.m.; and Saturdays, 8 a.m. – 5 p.m. Activities and vendors information is www.flintfarmersmarket.com.
    - There is a video on community nutrition at the Flint Farmers' Market: https://youtu.be/vEBSRAbDwJo
    - For healthy recipes, visit www.cookingmatters.org.
- **A text alert notification has been set up for Flint** to provide real-time updates on response efforts.
    - Sign up by texting the word FLINT to 444-999.
- **The MDHHS lead and Legionella information line will suspend operation on Monday February 29** due to low demand in recent weeks. 2-1-1 will refer calls with health lead and general health questions. The MDHHS number for reporting rashes and other skin conditions will continue operating Monday-Friday 8am – 5pm.
- **Building effective teams for response work:** The New York Times Magazine has published a story on research by Google on what factors contribute most to highly effective work teams. Well worth a read by response partners as we work together to support Flint during the response and recovery: http://www.nytimes.com/2016/02/28/magazine/what-google-learned-from-its-quest-to-build-the-perfect-team.html?_r=0

CALL VOLUME

Call volume on was a bit lighter than average, which can be attributed to the weather.

SPECIAL NEEDS/REQUESTS

Governor Snyder held a Tele Town Hall from 11:15 am – noon with Flint residents. State officials responded to a variety of issues and questions raised by residents including:

- **Where to get free lead testing for adults**
    - **ADULTS WERE TOLD TO CALL 2-1-1 IF THEY ARE TURNED AWAY BY THEIR PHYSICIAN OR HEALTH DEPT FOR LEAD TESTING.**
    - **2-1-1 HAS NO RESOURCES FOR ADULTS TO RECEIVE FREE LEAD TESTING. ALL INFORMATION AND RESOURCES IN 2-1-1 DATABASE INDICATE ADULT TESTING IS PAID BY INSURANCE OR OUT OF POCKET. PLEASE CONTACT jennifer.pollak@lifewayscmh.org IF YOU ARE AWARE OF FREE TESTING OPTIONS FOR ADULTS**
    - 2-1-1 will track and report this unmet need for follow up with SEOC and governor's office.
- **A resident asked what to do about water test results showing lead levels of 2 parts per billion in her home.**

- *The response to the resident stated, "When water was from Detroit, 2 ppb was average. This is probably normal background level."*
- **A participant on the call asked 2-1-1 how does this statement align with other published information that no level of lead is safe. CAN DHHS/SEOC PROVIDE CLARIFICATION?**

- **What's being done about copper?**
  - The state is also testing Flint water for copper – out of 12,000+ samples tested, around 200 had copper levels higher than what is considered safe. The state is inspecting plumbing in these houses to identify the source of the contamination and fix it. Risk from copper is lower than from lead – it's a required nutrient, but high levels can be a problem. It can cause mild nausea at high levels. Best thing is to test water.
- **Concern about lead exposure through bathing** – a caller expressed a concern about a their personal perception that there is conflicting information about absorbing lead through skin
  - Dr. Eden Wells from MDHHS said, "The greatest risk is drinking or eating lead which leads to absorption through stomach and small intestine. It is not advisable to bathe or shower for an extended period, mostly due to risk of drinking the water accidentally. *Lead Absorption through skin is not considered a viable way to lead toxicity."*
- **The state is working with the school district to replace all Water fixtures in schools**
  - Expect to finish replacements and flush out lines in March.
  - Goal is to have drinkable water in schools by end of spring break.
- **Will Flint residents get any of the jobs for work to address lead?**
  - This is a stated goal for state and local government.
  - Orchard Services (?) and the Y have hired residents to help with canvassing. Local residents are hired and working now.
    - 2-1-1 is working to verify if either agency is still hiring and, if so, what are their hiring needs?

RUMOR/SCAM CONTROL

- SCAM ALERT: **A caller to the governor's Tele Town Hall reported being approached by a solicitor at a local mall to provide personal contact information in order to receive a compensation check instead of a water bill credit.**
  - State officials confirmed that reimbursement for past water bill payments will be addressed through water bill credits only – there will be no direct payments to residents.

- **The Attorney General's Office investigates reports of potential scams.** These can be reported to the Charitable Trust Section at ct_email@michigan.gov. The AG has tips on how to avoid falling victim to con artists at http://www.michigan.gov/ag/0,4534,7-164-17337_20942-375279--,00.html.

UNRESOLVED

☑ **From 2/23/16: Concern about getting in trouble for other issues during home lead pipe inspections.** 2-1-1 received a call today from a resident who knows she has lead pipes that need replacement, but is concerned about inspectors coming into her home because of other (unspecified) potential violations that may exist. **CAN A PARTNER AT SEOC PROVIDE GUIDANCE OR A POLICY STATEMENT ON HOW INSPECTORS ARE EXPECTED TO HANDLE SUSPECTED CIVIL CODE OR CRIMINAL VIOLATIONS OBSERVED WHEN THEY ARE LOOKING FOR LEAD PIPES? Based on the caller's concerns, she is looking for reassurance that an unrelated violation will not be reported to authorities (excepting child/elder abuse).**

RESOLUTION: SEOC provided the following statement, "Regarding the concern about getting in trouble for other issues during home lead pipe inspections, personnel doing the lead pipe

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/23/2016 08:00:00
Operational Period End:	03/01/2016 08:00:00
Situation Report No.	50
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/24/2016 08:00:00
SEOC Hours of Operation End:	02/24/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 24, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded rapid response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Meeting on Long Term Recovery Plan for the PODs and distribution.
- Worked with DOC on staffing plan.
- Reviewed all resource/task requests for status updates.

JIC:
- Pushed messaging on social media about winter weather and Water Response Sites continuing operations.
- Dispatched National Guard PIO to take photos of soldiers in action at Water Resource Sites during the severe weather.
- Drafted and issued a news release about emergency operations continuing during the winter storm. The news release was picked up by local and statewide media.
- Continued routing public information materials for approval, including a frequently asked questions sheet about the Flint drinking water lead and copper lab report.
- Updated the Daily JIC activities log to catalog actions completed for the day and planned products and events for the week.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing, Distribution Process Meetings, and Tactics Meeting.
- Team priority for today: Continued visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Team priority scheduled tomorrow: Continue visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 7 American Red Cross teams scheduled for Tuesday, February 23, 2016, weather permitting.

o Total homes visited:
- 29,287 (round 3 total).
- 440 (today).

o Water:
- 229,092 liters or 19,091 cases (round 3 total).
- 9,072 liters or 756 cases (today).

o Faucet filters:
- 8,150 (round 3 total).
- 47 (today).

o Replacement cartridges:
- 9,000 (round 3 total).
- 309 (today).

o Water test kits:
- 3,599 (round 3 total).
- 84 (today).

Planning Section:
- Developed and approved Sit Rep #50.
- Updated the Flint Water Timeline document.
- Participated in daily UCG, state agency, and distribution process meetings.

Operations Section:
- Participated in Unified Coordination Group briefing.
- Facilitated Command/General Staff/SEOC briefing.
- Participated in Distribution Process meeting.

• Assisted State agencies in handling requests from Governor's office, media, etc.
• Adjusted staff schedules due to weather emergency for today and tomorrow.
• Attended the Long-Term Recovery meeting to discuss the highlights of the plan.

• Warehouse Numbers as of 1800 (warehouse inventory numbers will be low today due to FEMA inventory team not being in warehouse) :
⊔ Water (liters):
• 237,093 liters or 19,757 cases (warehouse #1).
• 446,250 liters or 37,187 cases (warehouse #2).
⊔ Filters (faucet):
• 68,442.
□ Replacement cartridges:
• 426,262.
□ Test kits (prepped):
• 32,159.

• PODs (number as of 1700 2/24):
⊓ Water:
• 94,584 liters or 7882 cases.
□ Filters (faucet):
• 140.
□ Replacement cartridges:
• 422.
□ Test kits:
• 113.

Finance Section:
• Review state agency financial status reports submitted for compilation into weekly cost summary report.
• Reviewed lodging bills received by EMHSD for staff staying in Flint.
• Reviewed Civil Service regulations regarding administrative leave usage.
• Compiled list of EMHSD costs related to City of Flint incident.

GIS branch updates:
• Updated water test maps for yesterday and today.
• Created two maps of potential POD locations.
• Developed database of changes in lead water tests over time.
• Met with DNR to discuss Sentinel databases on ArcGIS online.
• Synchronized field tem data with master parcel dataset.

DTMB:
• DTMB has released one fork truck driver and a supervisor at the Clio Rd. warehouse beginning Thursday, February 25.
• DTMB Print & Graphics delivered 11 print orders to the JIC.
• Provided DTMB expenditures to-date to financial chief and DTMB management.
• Arranged SEOC DTMB coverage schedule through March.

DHHS-CH:
• The CHECC phone bank is closed this afternoon due to the inclement weather. However, the CHECC will remain operational with limited staff today and tomorrow. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
• Dr. Wells provided her weekly Wednesday Webinar on the "Management of Lead Exposure in Adults and a Brief Note on Chelation."
• Followed-up with DEQ and LARA regarding the lead and copper levels reported for the School of the Deaf, and the status of re-testing. Confirmed that both agencies are still waiting for the landlord to complete fixture replacements since that work is being done through an independent contractor hired by the landlord.

DEQ:
• Continued Sentinel B bottle pick-up in the morning. Winter storm warning caused a delay in operations beginning at noon.
• Tested ground penetrating radar for possible detection of lead lines.
• Draft residential flushing guidance completed.
• 234 samples delivered to the DEQ lab.

State VAL:
• Worked with command on finalizing Long Term Distribution Plan.

Unified Coordination Group (UCG):
• WQTF: EPA teams face challenge with the snow today. Teams will meet at noon today to determine continued operations. Have reviewed 25 results and still seeing lead across the board, the system won't recover in the next couple of month.
• HMTF: This is the last practical day for the behavior health teams; they transition out tomorrow. They will work on wrapping up and ensuring that Genesee County is well plugged into recovery efforts.
• PEATF: Working with EPA and MDEQ on information that can be included on a leave behind document for residents after sampling visit.
• CDC: Discussions today on how the EPI can transition to the MDHHS.

Local EOC:
• Coordinated snow removal and delivery of snow equipment to National Guard (snow shovels, salt) to Fire Station PODs.
• Met with Food Bank of Eastern Michigan for water distribution transition planning.
• National Guard experiencing slower day at the Fire Station PODs due to weather conditions.
• Door-to-door field operations heavily impacted by weather conditions. Southern Baptist Disaster Relief teams demobilized around 1200, MDEQ around 1200 and ARC around 1500.
• Southern Baptist Disaster Relief visited 73 homes for delivery of supplies requested via 2-1-1 hotline with five teams. Distributed 232 cases of water, 16 faucet filters, 22 replacement cartridges, 3 pitcher filters, 15 water sample kits, 15 door hangers and Received 7 water samples.
• Southern Baptist Disaster Relief will evaluate weather and road conditions on 02/25/2016 throughout the day and determine if it is safe for them to deploy field teams. Will most likely not be able to deploy any teams for delivery of supplies requested via 2-1-1 hotline before noon tomorrow.

Injuries:

• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. *Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.*
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Weather Conditions

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI - February 24

* Winter Storm will bring snow, strong winds and blowing snow Wednesday (February 24) through Thursday (February 25)
* More than eight inches of wet and heavy, difficult to shovel snow is expected. Could receive a foot of snow or more before snow ends Thursday
* Hazardous travel and some power outages can be expected Wednesday through Thursday
* Travel will be extremely dangerous at times, especially from around noon Wednesday through Wednesday night.
* May take a long time for neighborhoods to get dug out of the snow or have roads cleared.
* This storm is likely to bring significant snow, wind and hazardous travel to much of lower Michigan

* Quiet weather Tuesday (February 23), Friday (February 26)
* Additional light snow possible Saturday (February 27) and Sunday (February 28)
* Wind chills in the single digits Thursday (February 25) and Friday (February 26). Time to frostbite from exposed skin will be 30 minutes or less.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 6 p.m. on Feb. 24.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, and Transportation.

Hotline operators were dismissed early due to the winter storm. They were also canceled for Feb. 25.

Tasks accomplished:
- Media hotline staff answered less than five emails and phone calls that ranged from news media inquiries about the state of Michigan continuing operations during the snow to Legionnaires disease.
- Pushed messaging on social media about winter weather and Water Response Sites continuing operations.
- Dispatched National Guard PIO to take photos of soldiers in action at Water Resource Sites during the severe weather.
- Created a media monitoring report and looked for misinformation; found none.
- Drafted and issued a news release about emergency operations continuing during the winter storm. The news release was picked up by local and statewide media.
- Continued routing public information materials for approval, including a frequently asked questions sheet about the Flint drinking water lead and copper lab report.
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
- Received printed information sheets for distribution to Water Response Sites and community outreach meetings. Created go-packs for speaking opportunities.

Agriculture and Rural Development (MDARD)

MDARD will not complete assessments or water sampling being done today due to the weather. Staff will continue to do followup with businesses as needed with notification of sample results and any work that can be done remotely.

No situation report received for yesterday's activities due to state offices being closed at 12:00 p.m. today.

American Red Cross (ARC)

The American Red Cross deployed 7 Water Response Teams on Wednesday, 2/24/16. Due to the winter storm the teams were brought back in from their assigned routes about 3pm.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm. The VRC will operate from 9 to 5 tomorrow. Today 44 event-based volunteers were processed through the VRC, while 46 were assigned and active on projects.

Volunteers assembled 900 water bottle recycling kits today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Note: State Government dismissed employees at 12:00 Noon today due to weather emergency; no impact to MDCR operations at this time.

Community Health (MDCH)

The CHECC phone bank is closed this afternoon due to the inclement weather. However, the CHECC will remain operational with limited staff today and tomorrow. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Attached is the MDHHS Director's Report for today, 2/24/16.

Dr. Wells provided her weekly Wednesday Webinar on the "Management of Lead Exposure in Adults and a Brief Note on Chelation." The webinar was recorded and will be posted on MITRAIN. Slides are also attached.

Followed-up with DEQ and LARA regarding the lead and copper levels reported for the School of the Deaf, and the status of re-testing. Confirmed that both agencies are still waiting for the landlord to complete fixture replacements since that work is being

done through an independent contactor hired by the landlord. Therefore, the most current sampling data available is from January 23rd that is posted on the Flint Water website. However, please note that the school has a Culligan system installed to provide drinking water.

Corrections (MDOC)

Both Warehouses continue to be fully operational today as inclement weather slowed down operations at the PODS. PODs remained well supplied throughout day and will continue to be well supplied moving forward. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

Working with DTMB to evaluate the personnel resources assigned to Warehouse 1 by the building owner. We are reducing the forklift operators from 4 to 3. We also eliminated the forklift supervisor. Both resources were provided by the Building Owner.

Submitted a revised long-term Warehouse staffing plan to Logistics and Planning for continued operations.

Warehouse 2 is nearing 80% capacity. We will begin using palleted water from Warehouse 2 to distribute to the PODS.

All small bottles less than 1 liter were removed from all PODS and returned to the warehouse.

Rooms were reserved for warehouse personnel assigned to the Flint Warehouse due to inclement weather.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Brent Travelbee and Todd Bechler are managing the Corrections Public Safety Branch, Mike Farmer has been assigned to the OPS Desk and Bridget Spencer is managing the Recovery Branch of the SEOC.

234 DEQ (17 MDARD) test kits were delivered from Flint to Lansing today.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following:

Significant Tasks Completed

- Continued Sentinel B bottle pick-up in the morning. Winter storm warning caused a delay in operations beginning at noon.
- Tested ground penetrating radar for possible detection of lead lines.
- Draft residential flushing guidance completed.
- 234 total sampled delivered to the DEQ lab.

Items for Thursday February 25, 2016

- Finish sentinel B bottle pickup – weather dependent.
- Continued work on process mapping.

Human Services (MDHS)

Held weekly donation management meeting. MCSC gave updates on potential donors, various donations in process, and volunteer groups.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse. Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program. Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters. LARA will coordinate this training with Amway and the Local 370 plumbers.

UA Local 370 has established a web page for individuals to request assistance in placement of filters or kitchen faucets at flintplumber.org

Translation services for documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Provided all translated documents in Spanish to our Hispanic Liaison in hard copy. Arrangements in progress for assistance to various ethnic communities to provide services. 24 Child Care facilities have been mapped. Materials are being ordered Monday February 22 and Tuesday February 23. Due to school closings today and possibly tomorrow, no plumbing work will occur.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2412302016

2. UNIT: 46 MPC, 119 FA, 177 MP BDE, 272 RSG, 63 TC, 110th Attack Wing ANG

3. POC: Capt Jennifer E. Bechtel Email: ng.mi.flint.eoc@gmail.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has 67 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and distributing water, filters, replacement filter cartridges, and lead water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has 67 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs

a. POD 3 will not be getting another GSA card; will use GSA cards of other PODs to refuel

b. Signs picked up from city planning, waiting for lamination

c. No U-Turn signs requested for POD 3, painting of road at Station 3 denied by city engineering

d. Drive-thru/road-side service temporarily suspended at PODs 1, 3, and 8 IOT minimize chance of car strikes during slippery conditions. PODs will maintain normal 9 a.m. – 9 p.m. hours Wed/Thurs

e. Crown Lift Trucks is willing to donate electric pallet jack to Station 1. EOC passed information to Donations POC, Dave Martus (flintdonations@michigan.gov), to coordinate the donation

f. Site 1 reported that their laminated paper "Water Distribution Site" sign w/arrow is MIA. Lt Carter working on replacement

8. PERSONNEL : Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at

9. INTELLIGENCE / FORCE PROTECTION: No force protection threats at this time.

10. LOGISTICS: In support of TF Flint

a. Additional signs for the PODs have been received from the City of Flint GIS and waiting for lamination

11. COMMUNICATIONS:

a. 5 laptops and 1 printer were returned to the State by SSG Tilley
P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

DTMB has released one fork truck driver and a supervisor at the Clio Rd. warehouse beginning Thursday, February 25.
DTMB Print & Graphics delivered 11 print orders to the JIC.
Provided DTMB expenditures to-date to financial chief and DTMB management.
Arranged SEOC DTMB coverage schedule through March.

Transportation (MDOT)

Provided 2 staff to warehouse #2 (Pierson Rd).

Provided 2 portable light tower generators to Fire Station #5 on Western Rd.

Provided (3' x 5') standard signs Fire Stations/PODs (2 each site)
Provided 100 grabber traffic cones (narrow reflective cones) at Fire Station #3 Martin Luther King Rd. & Fire Station #6 Pierson Rd. (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Subject: RE: Field Team Information for 2/21 FINAL numbers (and update for 2/20)

FINAL numbers included

From: plangc
Sent: Sunday, February 21, 2016 7:07 PM
To: Kelenske, Chris (MSP)
Cc: MSP-FOIAProject; MSP-FOIAProject
Subject: Field Team Information for 2/21 (and update for 2/20

Capt. Kelenske,

Below is the breakdown of information on field teams for 2/21/16.

The team data totals are a combination of the 3 different home sampling teams. The titles of the teams changes based on my discussion with Mark Ducharme and the MDEQ team names. Yesterday, the final DEQ numbers were not reported till after 7:30 p.m. *The numbers sent to you were preliminary; so I included yesterday's final numbers in this report as well as today's* preliminary numbers (final two DEQ divisions have not yet reported their numbers). I will send the final numbers as soon as possible.

As you requested the Governor's report will contain the sentinel team totals.

Homes:

Teams	Number of Teams 2/20/16 final	Number of Teams 2/21/16 final
Sentinel B Sampling Teams	23	21
High Lead Outreach Teams (DHHS/DEQ/plumber)	1	1
High Lead Revisit Teams (Initial Sampling)	0	2
Team Data Totals		
Homes visited today	581	748
Inspected	217	269
Residents agreed to participate in sentinel B monitoring program	186	23
Lead lines identified	5	19
Also deployed on February 21, 2016 for Sentinel B work:		
Community Members	20	22
Plumbers	22	23

Volunteers:

Agency	Number of Teams	Number of Homes Reached
American Red Cross	5	352
Southern Baptist*	5	21

***(SB only worked for a couple of hours this afternoon. Only three teams worked in the field.)**

Businesses:

Agency	Number of Teams	Number of Businesses Reached	Number of Samples

MDARD	0	0	0

If you would like any additional information or different breakdowns please let us know and we will work with the state agencies to obtain it for future reports.

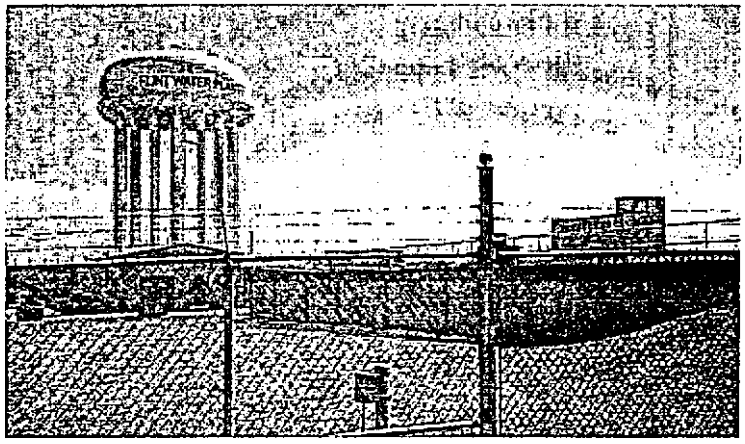
Contamination/Shortage	From: 02/23/2016 08:00:00 To: 03/01/2016 08:00:00	

3. Approved by:

FOSC:	David Samaniego or Deputy FCO Alicia Tate-Nadeau
SOSC:	Jackie Hampton or Kim Richmond
RPIC:	
State Director	Capt. Chris Kelenske, or Deputy State Director Anthony Katarsky

Incident Action Plan



4. Prepared by: Zachary Baker **Date / Time:** 02/21/2016 18:41:21

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage

2. Operational Period from: 02/23/2016 08:00:00to: 03/01/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Implement a comprehensive long term recovery and transition plan.
11. Track and account for all donations and expenditures.
2. Track and account for all commodities.
3. Deliver coordinated and effective messaging through the Joint Information Center (JIC).
8. Coordinate with all key local state and federal agencies and organizations.
9. Provide situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings.
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.

Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

Approved Site Safety Plan(s) Located at:

6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

☑ ICS 202	☑ ICS 206

				An MSU point of contact was established to identify volunteer multilingual students. Information was provided to MSU on the Genesee County Health Department mass clinic, planned for March 19 to acquire multilingual volunteers for the clinic. The CHECC behavioral health team participated in conference calls with Colorado (Aurora Shooting) and New York City (Hurricane Sandy), who have been awarded the SAMSHA Emergency Response Grant (SERG). Colorado and New York shared best practices on applying for the grant in addition to sharing successes and challenges utilizing grant funds. Colorado has shared their SERG application with the behavioral health team to utilize as a reference. Preliminary identification of a writing team and writing the Initial Description of the Emergency for the Michigan SERG application is in progress.	
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill		02/18/2016 18:25:36	The CHECC Communication Section is developing Water Testing Results FAQs/infographics. A Water Testing Result FAQ is being approved through MDHHS Environmental Health and will be sent to the JIC once approved. Water testing result Twitter posts have been sent to the JIC. MDHHS employees have been scheduled through Wednesday February 24 to assist the DEQ on the high lead/copper assessment team. CHECC Communications Section sent out the GovDelivery announcement for next week's installment of Dr. Wells' weekly webinar titled, "Management of Lead Exposure in Adults and a Brief Note on Chelation." The CHECC Nutrition SME invited the Michigan Food Bank Council Outreach Dietitian to join the nutrition work group. This work group consists of the various agencies in Flint offering food assistance as well as nutrition information to Flint residents. CHECC Operations section worked with the MDHHS Disabilities Unit Program Coordinator to continue efforts to identify and coordinate resources to assist vulnerable populations in Flint. The team is currently working to identify interpreters through the MDHHS Office for the Deaf and Hard of Hearing, identify a POC for multilingual student volunteers through Michigan State University and the University of Michigan – Flint. The MDHHS Disabilities Unit Program Coordinator contacted Reverence – Maternal Infant Health Program to ensure teen mothers are informed about the Flint water crisis, are receiving proper information along with recommendations for breast feeding and formula mixing. The Behavioral Health Team participated in the Flint Community Resilience Group's Data, Info, and Gap Analysis work group today. The data analysis conducted by this group will assist in generating additional needs assessment information that can be utilized in the SERG application.	Update
SEOC OPS Health and Env MDCH	Kathy Wahl		02/17/2016 17:57:38	The CHECC RC and communications chief held a call with the MDHHS PIO representative in the JIC today to clarify status and assignments of Water Testing Results FAQs/infographics. The CHECC is reviewing materials sent by the UCG in response to a request to develop a safe water toolkit that includes ways to identify cognitive effects of lead in children with planned distribution to healthcare providers, schools and daycare agencies. The documents provided for the toolkit originated from the CDC/ASTDR representatives at the Flint UCG. The CHECC Executive Group has requested the Communications Section review and provide a summary report on the contents of the documents provided and their suitability for such a toolkit. February 17, 2016 Dr. Jevon McFadden will be providing an update each Friday specific to the reports of rashes in Flint residents and subsequent follow-up. February 17, 2016 The purchase of additional blood lead test kits for GCHD is on hold pending clarification of need from GCHD. GCHD verified other supplies not needed at this time. The MDHHS Chief Medical Executive conducted the third weekly Flint Water Response Healthcare Provider Webinar today on the topic Mitigating Lead Exposure. Recordings of the webinars are being posted to the mi.gov/flintwater website and on MI-TRAIN under course ID: 1062012. Next Wednesday's topic will be "Management of Lead Exposure in Adults" and an announcement flyer will be sent via GovDelivery tomorrow. mutual aid request from the Department of Corrections was filled through the provision of N-95 masks to assist with warehouse operations in Flint.	Update
SEOC OPS Health and Env MDCH	Kathy Wahl		02/17/2016 14:29:10	The CHECC received a request from GCHD to provide blood lead testing kits to test an additional 1500 individuals. An order for thirty-five kits is being expedited with delivery to GCHD expected by early next week.	Update
SEOC OPS Health and Env MDCH	Kathy Wahl		02/17/2016 14:26:02	February 16, 2016 Completed a draft agenda for the healthcare provider symposium that will be hosted in Mid-March. The CHECC Communications section will work with Dr. Wells for detailed symposium development. February 16, 2016 Connected a SNAP-ED instructor to local Intermediate School District for a parent meeting tonight. MDE has requested the CHECC Nutrition SME to review three documents: Lead and Nutrition for Childcare Providers, Lead and Nutrition for First Hand News, and Lead and Nutrition for Administrators. MDHHS volunteer staff to provide health consultation to families have been confirmed to assist the DEQ assessment team for high lead and copper through Saturday, February 20. The CHECC Volunteer Registry Coordinator is working on coordinating further staffing through the new LEOC DEQ POC Mark DuCharme. At this time, the LEOC reports there is only one DEQ assessment team deploying per day, requiring one MDHHS volunteer per day. Working to draft current outreach materials for proposed case management strategy. This includes a list of health plans for Medicaid with contact information.	Update

				compared against the POD distribution data. James Tchorzynski was in Flint for half of the day observing POD distribution flows which will inform how POD inventory control and tracking will be implemented. We will initiate contact with DEQ to begin defining the flow of data from DEQ testing labs to map water test results Tactic E: No Update	
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/13/2016 15:04:56	Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local EOC of PODS. Also made a franchise water customer map for MDHS. Additionally, work continued mapping lead service line locations. At this point we are 20% complete with the city (NW Corner). Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams. We will be formatting them at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real time. Tactic C: Complete. Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The first phase is pushing out an app to POD staff controlling distributions to track their output in real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data. Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/12/2016 15:50:01	Tactic A: Today we began migrating content to ArcGIS Online to streamline resource management operations. This includes a layer for water customers, updated filter locations, and PODS. Additionally, work continued mapping lead service line locations. At this point we are 10% complete with the city (NW Corner). Tactic B: Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Plan to incorporate water customers into the tool to better plan distribution routes. Created and implemented an operational dashboard to monitor distributions real-time from within the SEOC. Providing hourly updates until the operations dashboard can be better refined to show details of what is being distributed. Building a similar tracker for PODS to track status of distributions from fixed sites. Currently, we are facing issues with having enough government mobile devices for field staff. May need to do install for field teams to ensure their devices work properly if they are not preformatted by GIS staff. Tactic C: Complete. ArcGIS online is the centralized resource. Coordination to continue, but recommend removing as a report item. Tactic D: Updated aging data, distro sites, and filters data sets. Additionally, building operational dashboards to track resource distributions in real time. Lead analysis is ongoing and is at 10% of the city. Tactic E: Coordination has been made. We will build a rough dataset by the close of the week. Currently, U of M Flint projects the final formal document will be ready by mid-February.	Update

				• Developed talking points for a congressional and legislative conference call. • Developed talking points for Governor Snyder's TeleTown Hall. • Drafted and issued social media posts about water response teams, water resource sites and actions taken to help Flint residents during the emergency. • Worked with the Governor's Office and National Guard to create a YouTube video about water resource sites. • Coordinated with the Department of Civil Rights to create public information materials in American Sign Language format.

				5. DEQ is participating in a 3p meeting 2/1/16 in Flint with EPA to discuss sampling plans. DEQ will ensure staff is available to participate on sampling teams.	
SEOC OPS Health and Env MDEQ	Jen Wolf		01/25/2016 11:16:58	1. As of COB 1/24 there are 7988 test kits at the warehouse. Additional supplies are on order and will be delivered throughout the week. 2. Samples are being turned in by residents to the collection sites on a regular basis and delivered to the laboratory daily. At this time there is not a need for additional messaging. 3. The laboratory has employed four additional staff from MDARD and MDLARA to assist with sample analysis. The MDEQ is also establishing a temporary position in the laboratory specifically for this work. The laboratory is operating 7 days a week to process samples. 4. At this time with the current orders coming in additional orders will not be placed today. Burn rates will be monitored and additional orders will be made as needed. The SEOC DEQ Rep is able to contact DEQ procurement directly for ordering, eliminating the need to stress the laboratory staff with bottle orders. 5. EMHSD Technical Unit Staff has provided access to DNR GIS staff to assist with mapping, etc. Requests have been made for DEQ Director, DEQ EMC and SEOC DEQ Reps to view data in ARC GIS. 6. The DEQ ECC will be activated today pending staff assignments. DNR GIS will provide support to the ECC staff as well.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		01/14/2016 12:09:26	18,761 bottles have been delivered, and turned into Test Kits. An additional 7200 bottles were shipped on 14 January with confirmed delivery of 19 January. 7200 bottles are shipping on 19 January, and we are seeking permission to pay additional charge to facilitate overnight delivery for arrival on 20 January, not yet confirmed. Also working on overnight delivery request for 14,400 bottles to be shipped on 21 January. Based on potential surge, we will order 10,080 bottles (140 cases) ARC volunteers are being utilized to assemble kits. Additional resources are being requested through ARC as needed. a preliminary plan to have Flint Water Filtration plant pick up samples from the PODs daily at ~ 1500 hours is being refined at the local level. We'll then refine the plan to provide transport to the DEQ lab We provided MSP with sample results for over 700 samples on 15 January for populating a GIS layer to show sample locations and results. DEQ continues to be engaged with the Logistics Team and developing plans for tracking of samples being returned by citizens.	Update

  - Taking Point Placeholder
- Work with White House Strong Cities– Strong Communities to identify Recovery Resources
  - Taking Point Placeholder
- Support Governor's Flint Water Interagency Coordinating Committee
  - Talking Point Placeholder

State

- Water Testing Effort:
  - The Michigan Department of Environmental Quality is facilitating a process to provide all impacted residences with a water testing kit. The American Red Cross is leading a volunteer effort to assemble the water test kits (instructions & bottles) which are delivered to the impacted residents through the water response teams and PODs. All residents are encouraged to submit a sample to the DEQ lab for analysis. Additionally, DEQ is leading an effort to identify 60 residents that will voluntarily participate in periodic testing to evaluate the effectiveness of an effort to introduce phosphates into the water distribution system to build sufficient scaling to reduce the intrusion of lead into the supply lines.
- Water Response Teams:
  - Water Response Teams, have commenced a mission to reach all residences within the impacted community through a door to door canvassing effort to deliver water, filters, informational literature, test kits, and replacement cartridges. The teams are comprised of local and state personnel, American Red Cross and volunteers. The teams are equipped with an advanced real time tracking system through an app developed by the state to optimize team efficiency and ensure 100 percent coverage of the community.
- PODs:
  - The State has five established Points of Distribution (PODs) throughout the impacted area providing water, filters, informational literature, test kits, and replacement cartridges. The PODs are currently manned and operated by Michigan National Guard personnel with American Red Cross support. The Pods are in operation 9:00am – 9:00pm.
- 211 (Hot Shots):
  - 2-1-1 is collecting a list of individuals needing home delivery and is providing that information to the Genesee County Sheriff's Department to deliver aid. 2-1-1 continues to monitor the needs of homebound/limited mobility residents. Impacted residents with access and functional needs can call 2-1-1 to receive assistance from the established Hot Shots team.

FEMA

Commodities

Commodities Distributed:

- Replacement Cartridges: 167, 401
- Faucet Filters: 47,935

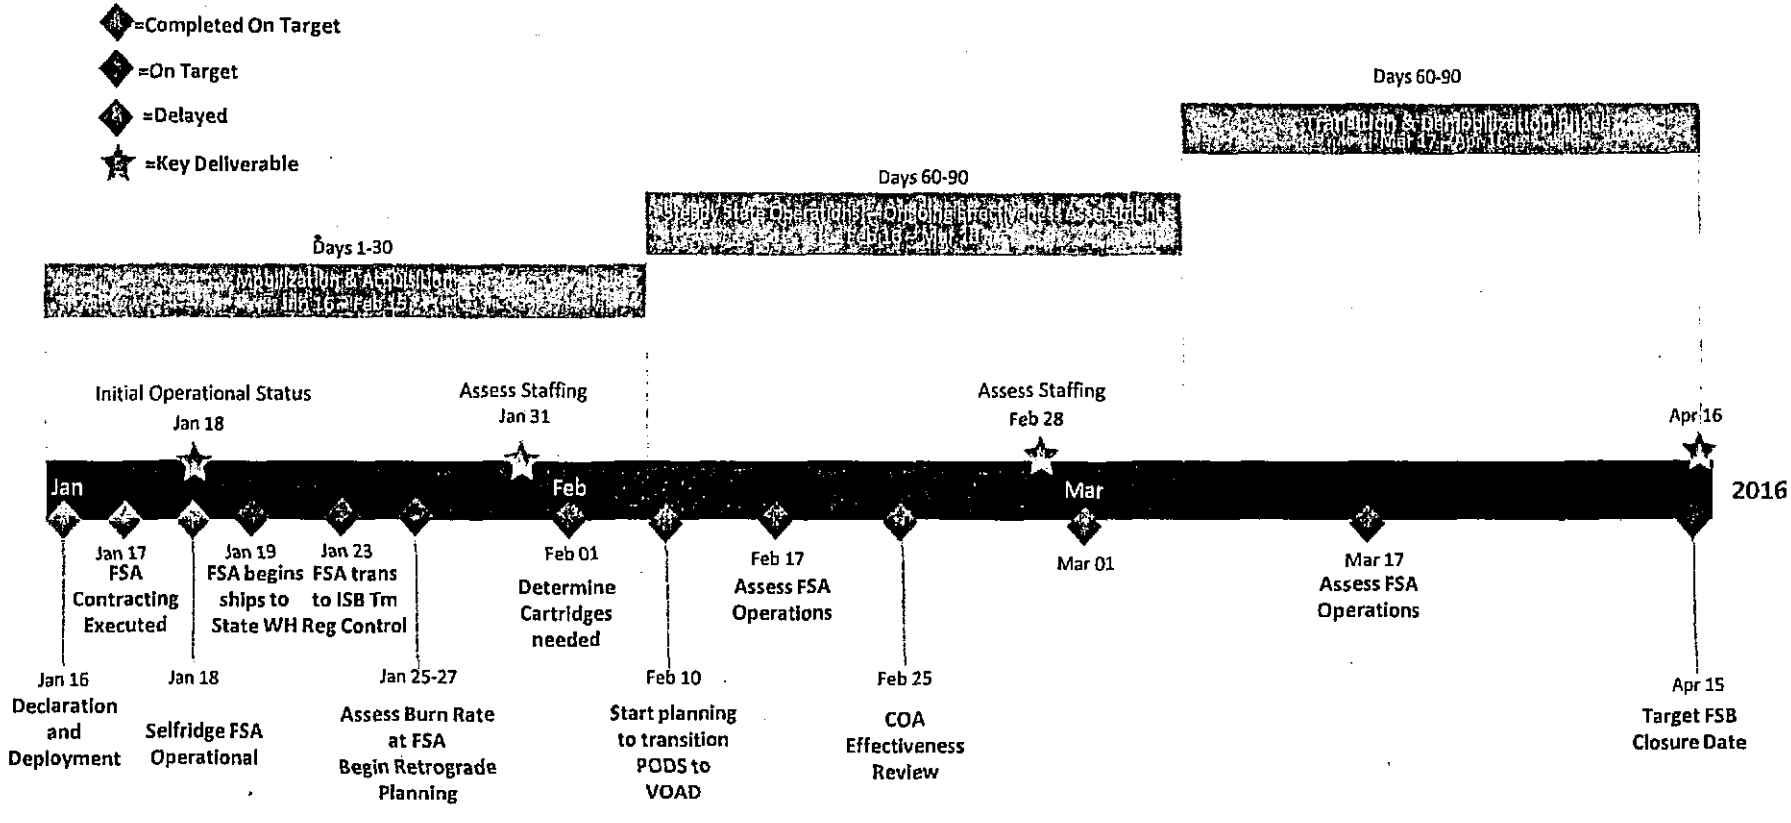
FEMA 3375-EM-MI Deliverable Timeline



FEMA Mission Priorities

STATE PRIORITIES

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long-term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop improved GIS strategy.
8. Develop a comprehensive Recovery Plan.

FEDERAL PRIORITIES

1. Sign FEMA/State agreement. (1/18)
2. Sign use agreement and establish Federal Staging Area (FSA) at Michigan Air National Guard Base, Selfridge. Establish a base inventory to sustain State water distribution efforts for one week. 400,000 liters of water (1/18).
3. Establish daily distribution of 57,000 liters of water to the State Staging Area for State distribution (1/19).
4. Complete HQ/RV Brief Template 1200 (1/19).

Mr. Frank Skaggs, Director
Field Operations Center-East
U.S. Small Business Administration
101 Marietta Street NW, Suite 700
Atlanta, Georgia 30303-2725

Dear Mr. Skaggs,

In May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to using its own water treatment plant drawn from the Flint River. The different properties of the water resulted in leaching of lead from pipes in the city's water infrastructure into the water supply. The consumption of the contaminated water caused increased lead exposure to the citizens. Exposure to lead can cause short and long-term negative health effects. However, the main health concerns are long-term effects in children, such as developmental, cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response the City of Flint declared a local State of Emergency on December 15, 2015. Further, on January 4, 2016 Genesee County declared a local State of Emergency and requested a governor's declaration of a state of emergency. A State of Emergency was declared for the city of Flint and the County of Genesee on January 5, 2016 due to the presence of lead in the public water supply above the EPA threshold of 15 ppb.

At least 5 businesses in the area have been impacted due to the nature of this event. A Sample Survey of these businesses was conducted by the Chamber of Commerce to determine the economic impact of those losses. The survey results , which are attached, show that 5 of the 5 businesses surveyed have an average gross revenue loss of 24% for the disaster period as compared to the same period in the previous year.

Based on the survey, I hereby certify, in accordance with the Code of Federal Regulations, Part 123.3, that, in the City of Flint in Genesee County more than five (5) small businesses combined, and more than one (1) individually, suffered substantial economic injury as a direct result of the contaminated public water supply that led to the initial public health emergency on October 1, 2015. I further certify that the degree of economic injury suffered is so severe that financial assistance at reasonable rates and terms is not otherwise available, thereby creating the necessity for federal involvement in the form of subsidized loans.

Sincerely,

Richard D. Snyder
Governor, State of Michigan

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: Joseph Lee

   Name of Property Owner: "Joe Lee's Hair Styling Studio"

   Business/Property Address: 6052 Clio Rd.

   Mailing Address: _____

   Telephone Numbers: Business: _____ Home: _____

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end?

   1 15 (month/year) to 1 16 (month/year)

   What were your business' revenues during that period? Est. $ 15,000.00 2016

   What were your business' revenues during the same period of the prior year? $ 22,00.00 2015

3. Amount of business interruption insurance received or anticipated, if any: $ 0

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	47
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/21/2016 08:00:00
SEOC Hours of Operation End:	02/21/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 21, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on list of needs for the Seventh Day Adventists.
- Worked on Resource/Task report for the Captain.

JIC:
- The Joint Information Center (JIC) will be on call Saturday February 20th and Sunday February 21st.

Recovery Branch:
- Attended UCG briefing, SEOC state agency briefings, and distribution process meetings.
- Finished printing Recovery Branch emails for FIOA request.
- Reviewed ICS-204 Obj. 1 for tomorrow.
- Forwarded maps and addresses to ARC of high PPB levels of those on AFN list.
- Team priority locations for today: Continued visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Team priority locations for tomorrow: Continue visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross teams scheduled for Monday, February 22, 2016.

o Total homes visited:
- 28,103 (round 3 total).
- 373 (today).

o Water:
- 210,084 liters or 17,507 cases (round 3 total).
- 6,432 liters or 536 cases (today).

o Faucet filters:
- 8,063 (round 3 total).
- 34 (today).

o Replacement cartridges:
- 8,012 (round 3 total).
- 356 (today).

o Water test kits:
- 3,352 (round 3 total).
- 110 (today).

Planning Section:
- Developed and approved Sit Rep #47.
- Updated burn rates and projection costs, per request.
- Updated the Flint Water Timeline document.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report with new MDEQ Sentinel Sampling numbers.
- Continued to and completed printing FOIA email documents for Planning Section Chief computer.

Operations Section:
- Participated in 0830 UCG briefing in SEOC.
- Facilitated 0930 state agency briefing.
- Participated in 1030 distribution process meeting.

and copper levels.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Human Services (MDHS)

We have been notified of an issue with some the Life Line Program Phones and their inability to allow direct dial to 211. We have reached out to Tom Page at 211 for assistance with this matter and Tom has given us and alternative toll free number of 1-844-875-9211 that individuals can use in place of 211.

Submitted a resource request for supplies to be delivered to a Community Conversation Event at the Prince of Peace Missionary Church to be held on 02/24/2016.
Requested Resources:
-50 Faucet Mounted Filter Systems
-75 Brita Replacement Cartridges
-75 PUR Replacement Cartridges
-100 Water Testing Kits

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse. Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program. Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters. LARA will coordinate this training with Amway and the Local 370 plumbers.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Provided all translated documents in Spanish to our Hispanic Liaison in hard copy. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Commanders Situation Report (SITREP)

1. DTG: 2111002016

2. UNIT: 46 MPC, 177 MP BDE, 272 RSG, 63 TC, 110th Attack Wing ANG

3. POC: 1LT Roland, John G. Email:

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and distributing water, filters, replacement filter cartridges, and lead water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off, laminated, and distributed to the POD Buildings.

b. Distribution numbers have been staying around the same levels. There was a small increase in distribution of water cases and Brita Faucet Filters.

1.) The water case increase distribution may be due to a decrease in water gallon availability.

c. Traffic barricades have been dropped off (by the City of Flint) and set in place at Fire Station 6 to prevent anymore vehicle to building collisions while drivers are backing up.

8 PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations

9. INTELLIGENCE / FORCE PROTECTION: No force protection threats at this time.

10. LOGISTICS: In support of TF Flint

a. Warehouse drivers will distribute additional recycling bags to the PODS on Monday, 22 February. The PODs will start tracking burn rate of recycling bags with this next set of recycle distribution.

b. Additional signs for the PODs may be requested through the City of Flint GIS after a site survey by 2LT Carter and SFC See.

11. COMMUNICATIONS:

a. Laptops and printer issues are still impeding operations. SSG Tilley will be contacting his POC in Lansing Monday morning, 22 February, IOT resolve the issues.
P: RRF cell phones alternate for WRTs

Executive Summary

SEOC Update:
Accomplished today (February 16, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe.
- Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Recovery Branch:

- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field - Water Distribution – turned 211 information over to local EOC and Southern Baptist Teams.
- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.
- Total homes visited:
  - 24,879 (round 3 total)*
  - 1,023 (today).
- Water cases (liters calculated by multiplying # of cases x 12):
  - 178,116 liters or 14,843 cases (round 3 total)*
  - 8,076 liters or 673 cases (today).
- Replacement cartridges:
  - 6,331 (round 3 total)*
  - 609 (today).
- Faucet filters:
  - 7,792 (round 3 total)*
  - 90 (today).

*Totals updated due to changes in previous data.

Planning Section:
- Developed and approved Sit Rep #42.
- Updated burn rates and projection costs, per request.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Long Term Recovery planning meeting.
- Participated in Unified Coordination Group briefing.
- Facilitated Command/General Staff/SEOC briefing.
- Participated in Distribution Process meeting.
- Assisted in developing print plan for FOIA request.
- Assisted state agencies in handling requests from Governor's office, media, etc.
- Warehouse Numbers as of 1800:
  - Water (liters):
    - 828,374 liters or 69,031 cases.
  - Filters (faucet):
    - 47,132.
  - Replacement cartridges:
    - 402,782.
  - Test Kits (prepped):
    - 35,854.
- PODs (Number as of 1700 2/15):
  - Water (cases):
    - 59,184 liters or 4,932 cases.
  - Filters (faucet):
    - 162.
  - Replacement Cartridges:
    - 453.
  - Test kits:
    - 131.

Finance Section:
- Gathering information for meeting with State Budget Office.
- Update Category B Financial Spreadsheet.

• Reviewing donation information for potential as future match.

GIS Branch Updates:
• Update MDEQ water testing layer.
• Generate a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
• Generate a list of total residences that potentially will be using a water filter that use water from the City of Flint.
• Compare and contrast 2016 Flint parcel layer with 2015 Flint parcel layer.
• Edit Flint Water Resource Team field data to parcel.

DTMB:
• Provided a dumpster for the Pierson Rd. Warehouse.
• Provided seven (7) iPads for DEQ sampling teams.
• DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
• Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
• Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
• DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

DHHS-CH (weekly):
• The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
• The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward.

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Continued monitoring and mapping of school fixture upgrade/replacements.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• CDC will meet with state on rash complaints/test results.
• Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
• Important to include state reps on each subgroup.

Local EOC:
• Sentinel monitoring teams collected 273 water samples at yesterday.
• Elevated lead and copper task force were out in the field today.
• Local EOC IC attended Community Stakeholders meeting.
• Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from commodity

distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.
• Created a media monitoring report and looked for misinformation.
• Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
• Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
• Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe. Additional translated news releases were received and routed.
• Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/12/16 included:
• 15 assessments conducted (6 initial, 9 follow-up and 2 second follow-up).
• 5 water samples collected.
• 6 water sample requests/appointments were scheduled.

As of 2/5/16, MDARD has completed initial water assessments at all food businesses in the high risk area and has conducted a total of 371 assessments (280 initial/ 91Follow-up). The compliance rate is 77.63%. 242 water samples have been collected and 41 are currently scheduled.

Also followed up with general information regarding testing of Pb in companion animals in response to question from DEQ desk.

Completed request from MSP planning regarding closures of food establishments as result of non compliance, see below:

I will be at the SEOC on Wednesday and follow up with Drs. Averill and Frank regarding Genesee county companion animal information.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Tuesday, 2/16/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

A limited number of water bottle recycling kits were assembled today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Informed senior leadership of current activities and concerns.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Dr. McFadden reported that to date there is no conclusion regarding the cause of rashes that have been reported, no common presentations on interview. Epidemiological investigations are on-going. A dermatologist has offered to do evaluations of individuals with rashes at no charge. Dr. McFadden's team will schedule the appointments and MDHHS -Human Services Representative is working with the local EOC to determine a transportation plan for these individuals if required. EPA test results of the water from the individuals' homes are expected today.

Shower filters are only NSF/ANSI certified for chlorine. Contacted makers of the KDF filters which are used on showers and was informed that due to the high flow rate of showers, the water is not in contact with filters long enough so they are not really designed for more than cosmetic purposes.

MDHHS continues to provide volunteers to accompany the MDEQ High Lead Home Teams.

Corrections (MDOC)

MDOC began staffing the second warehouse 7 days/week 10-6 effective today. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

The building owner of Warehouse 2 restricted access to an unsafe area (compressor room). A padlock w/chain and signage was used.

MSP dispatched a unit to Warehouse 2 for an abandoned vehicle with busted windows in the parking lot. The vehicle was not stolen and the issue was turned over to the city PD for disposition.

A temporary replacement battery will be delivered tomorrow for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

Met with FEMA VAL regarding safety concerns at Warehouse 1.
-Security staff to restrict access
-Propane storage areas
-Exhaust fumes in warehouse
-Safety Vests
-Floor tape designating machine and pedestrian areas
-First Aid and AED
-Dust Masks

We are addressing the issues and will correct them. A follow up will be in the next Sit-Rep.

MDOC will provide a Truck and Driver for the Flint Food Bank for Wednesday, February 17, 2016.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day

and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

403 DEQ and 0 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation.

MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

Reviewed incident objectives to reflect Director's priorities for upcoming week.

Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Continued monitoring and mapping of school fixture upgrade/replacements.

Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities.

LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies.

Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1612002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: Ssg Gazzeny, Darryl L. Cell: Email:

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502.

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke has a meeting on 16FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. Soldiers are preparing for the unit change at the PODs.

1.) 1-125 IN conducting relief in place within next 24 hours.

8. PERSONNEL Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations

9. INTELLIGENCE / FORCE PROTECTION:

10. LOGISTICS: In support of TF Flint

a. 60 cases of recycle bags have been placed at POD locations.

b. Recycling trailers are being assessed by schupon on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone.
C: 800 MHz radios issued to PODs and WRTs.
E: Runner.

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• POC needed for incoming unit
• OUT (last 24 hours)
Bottled water-3733 Water (Gallons)-2020 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-34 Brita Replacement Cartridge-128

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502

(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates and expenditures to-date.

Provided a dumpster for the Pierson Rd. Warehouse.
Provided seven (7) iPads for DEQ sampling teams.
DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
DTMB Print & Graphics printing multiple print jobs.
Added calendar access to two additional DEQ employees.
Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

SEOC Hours of Operation End:	02/15/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 15, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Drafted talking points for Captain Kelenske for tomorrow's Congressional/Legislative briefing.
- Drafted responses to multiple questions received from the staff of a Congressional member; answers pending review.
- Identified a PIO to attend weekly community partners meeting (held each Thursday at 3 p.m.).
- Reviewed and updated ICS204 form.

Recovery Branch:
o Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings and Tactics Meeting.
o Updated ICS 204 form for the tactics meeting.
o Provided information on apartment complex data to Governors representatives.
o Team priority for today: 6 teams in the field - One team finished 83 addresses assigned for today and continued water distribution and Rapid Response.
o Team priority scheduled tomorrow: water distribution and supplies requested.
o 5 American Red Cross Teams scheduled for Tuesday, February 16, 2016.

o Total homes visited:
□ 25,007 (round 3 total).
□ 792 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
□ 171,744 liters or 13,738 cases (round 3 total).
□ 6,888 liters or 574 cases (today).
o Replacement cartridges:
□ 5,722 (round 3 total).
□ 238 (today).
o Faucet filters:
□ 7,883 (round 3 total).
□ 62 (today).

Planning Section:
- Developed and approved IAP #10.
- Developed and approved Sit Rep # 41.
- Attended tactics meeting to update branch chief 204s.
- Participated in State Agency and planning briefing for SEOC.
- Fielded questions from section chiefs and Local EOC.

Operations Section:
- Met with State agency EMCs to determine progress with their current IAP objectives.
- Participated in the Unified Coordination Group briefing.
- Facilitated the State Agency briefing conference calls.
- Participated in both Distribution Process meetings, and Tactics meeting.
- 61 volunteers were active across the operation today.

- Warehouse Numbers as of 1800:

2. Ensure accurate tracking and accounting of all commodities.

Executive Summary

SEOC Update:
Accomplished today (February 11, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.

JIC:
- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the city of Flint's boil water advisory.
- MDHHS Chief Medical Executive Dr. Eden Wells attended a Great Lakes Health Connect press conference, announcing the donation of $250,000 to connect various health care providers in the Flint area so they can easily share information about patients affected by lead exposure. Dr. Well was interviewed by the Associated Press and gave an update about children blood-level testing in Flint. Dr. Wells also conducted an interview with Michigan Radio about the boil water advisory in Flint.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended Gov. Rick Snyder's media availability at the Food Bank of Eastern Michigan. More than 10 news media members were at the event, representing local and regional outlets.
- The National Guard PIO conducted on-camera interview with a media outlet at Flint Fire Station No. 6, updating the reporter about ongoing operations and community relations.
- Drafted a news release about a National Guard soldier saving a Flint resident's life. The JIC plans to issue the news release this afternoon.
- Drafted a media advisory about holding media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Drafted a follow-up news release to issue after the city of Flint's water warning is lifted.
- Drafted and issued social media posts about ongoing Flint water emergency, including daily numbers and links to Oral Heath and Adult Lead Exposure fact sheets

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings
- Merged lists compiled from various agencies in to one master Access and Functional Needs (AFN) List.
- Team Priority Visited Today: Active Water Subscribers without filters marked vacant or no contact.
- Team Priority Scheduled Tomorrow: Water Distribution and Rapid Response
- 8 American Red Cross Teams scheduled for Friday, February 12,
- Data is for 2/11/16 as of 5:00 pm:

o Total homes visited:
□ 20,057 (round 3 total).
□ 786 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
□ 140,808 liters or 11,734 cases (round 3 total).
□ 6,492 liters or 541 cases (today).
o Replacement cartridges:
□ 4,520 (round 3 total).
□ 269 (today).
o Faucet filters:
□ 7,427 (round 3 total).
□ 58 (today).

Planning Section:
- Participated in state, local, and distribution process meeting.
- Published Sit Rep #37.
- Worked to update daily data report.

• Attended Community Stakeholder meeting.
• Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
• Developing logistics procedures to aid transition to local EOC staff.
• 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
• Sentinel Site Monitoring Teams will be accompanied by media on 02/12/2016. Coordination through JIC.
• In response to water transmission line break, pipe has been fixed and reconnected. Line is being pressurized and properly treated, followed by 24 hour water testing period before Boiled Water Advisory can be lifted.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

SEOC Report for February 9, 2016
Full Days Since Emergency Declaration: 35

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

NSF Confirmed After Advisory is lifted → Filter is safe to use after the cartridge is replaced

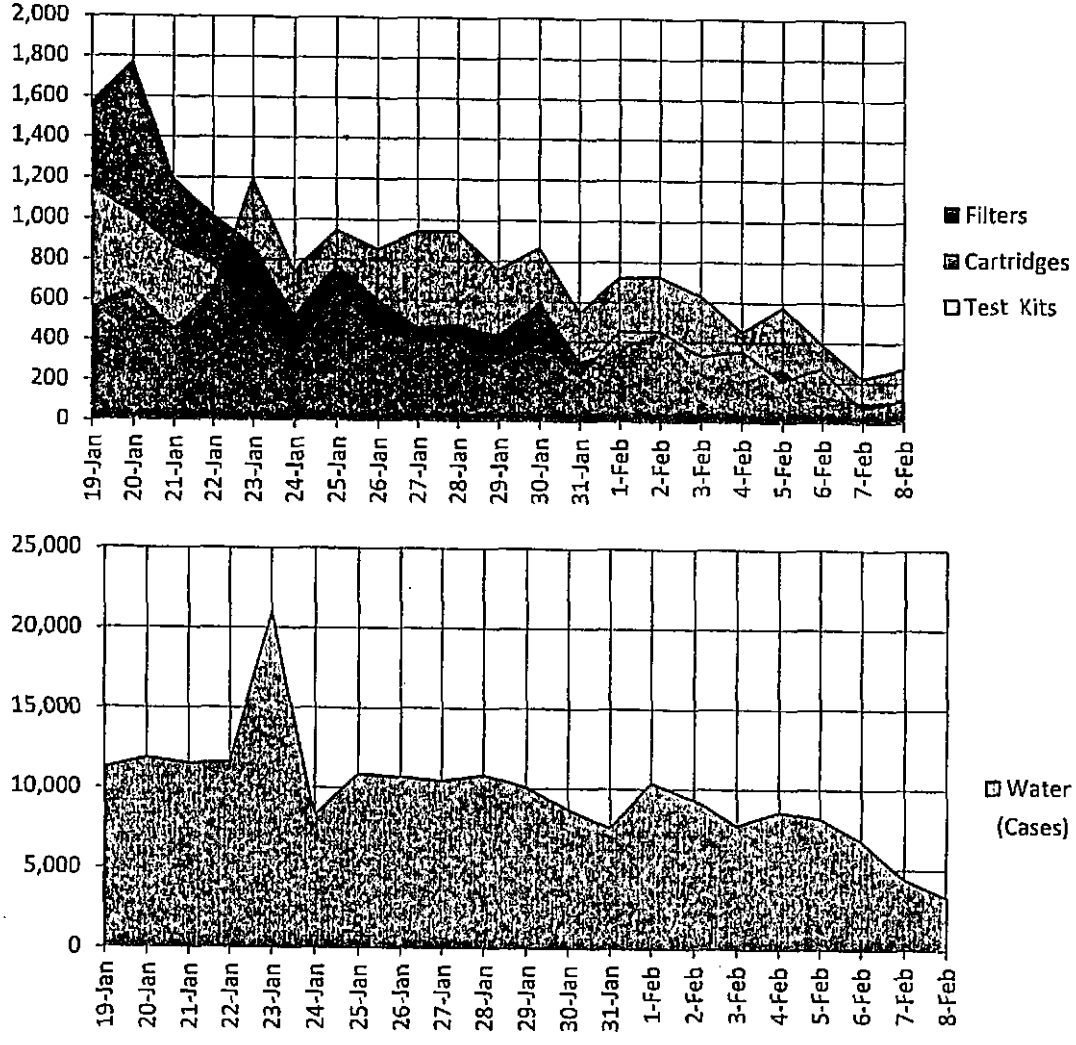
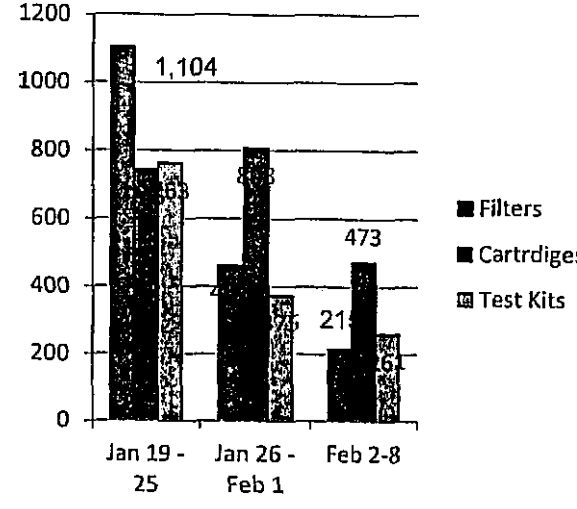
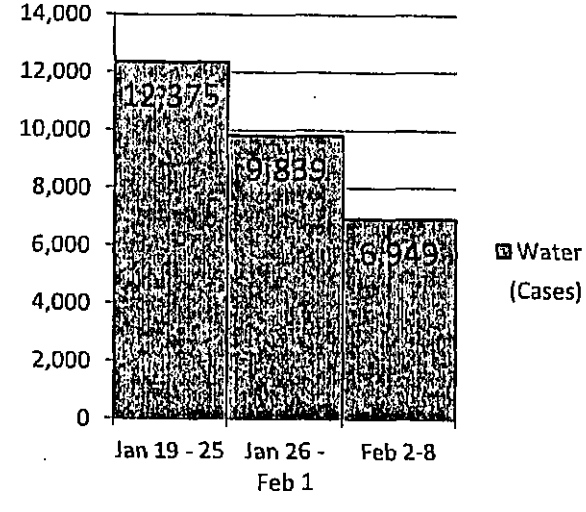
Daily Burn



Average Daily Burn By Week





Planning Section Chief:

Daily Battle Rhythm (Except for Monday- see below)

- Battle Rhythm
  - 0830- Local Agency Briefing
  - 0930- State Agency Briefing
  - 1030- Distribution Process Meeting
  - 1600- State Agency Briefing
  - 1700- Agency and Section Chief Sit Reps Due
  - 18:30- Distribution Process Meeting

Send daily items to note email every morning

Daily Meetings:

- 0830 ~~Local Call~~ VOG
  - Attend
- 0930 State Agency Call
  - Planning Section starts call.
  - Polycom system is placed by the State Director's Desk.
  - Dial in number:
    - Make sure to follow the prompts when dialing in.
    - Call in:
      - Access Code:
      - Host Password:
  - Turn on the speakers next to the Polycom. Those on the phone will not be able to hear if the speakers are not on.
  - You will need to hold the microphone to the Polycom when those on the phone are speaking.
  - Welcome everyone to the call.
  - Go over daily battle rhythm.
  - Introduce Operations Section.
  - From there, Ops. will call on each branch.
  - Assist with passing the microphone to state agencies up top.
  - If Ops. does not close the meeting, then prior to ending the call announce the next state agency call.
- 1030 Distribution Process Meeting
  - Attend
- 1600 State Agency Call
  - Lead, see directions above.
- 1830 Distribution Process Meeting
  - Attend

Daily Tasks:

- Ensure battle rhythm is correct at the start of the day.
  - Sunday night or Monday morning will need to be updated to include all the planning day activities (see below).
- Assist on daily situation report.
- Review daily situation report once developed by situation unit.
- After 5 p.m., work with Recovery Branch, Planning Section and Logistics section (ordering unit) to obtain daily numbers. **Check daily numbers against yesterday's numbers for accuracy.**
- Work with situation unit to obtain approval on sit rep from Ops, Logistics, Command and Peter Manning.
- Update the Flint Water Timeline Daily Update Final (location listed below) to include any high level events from the day and updated commodities distribution data.

Public Health Emergency Declaration for People Using the Flint City Water Supply with the Flint River as the Source

The County is issuing an Emergency Advisory recommending that people not drink the water coming from the City of Flint using the Flint River as the water source unless:

It has been tested to assure it does not contain elevated levels of lead.

It is being filtered through a National Sanitation Foundation (NSF) approved filter certified to remove lead that meets ANSI standard 53.

Findings reported in the Detroit Free Press September 30, 2015 indicate that Governor Snyder has publically acknowledged that Flint's water supply "appears" to have problems. Snyder has conceded that "it appears that (water) lead levels could be higher or have increased," and that there are "probably things that weren't fully understood when the switch was made." This is in direct contrast to previous reports from the State that downplayed the severity of the situation and conflicted with local data released by researchers at Hurley Medical Center.

Young children are most vulnerable to leads effects, because prior to age six, their brain and central nervous system are still forming and easily susceptible to damage. For an adult to suffer significant health effects, exposure to lead would have to be sustained and more intense. Most adults who are affected by lead have been exposed in an occupational setting, such as working as a house painter or in a battery recycling plant.

Pregnant women are at special risk because the lead they absorb crosses the placenta and enters the fetus.

It's important to remember that there is no known safe level of lead in a human body, Experts now use a reference level of 5 micrograms per deciliter to identify children with blood lead levels that are much higher than most children's levels. This new level is based on the U.S. population of children ages 1-5 years who are in the highest 2.5% of children when tested for lead in their blood.

Lead in water can contribute to a child's blood lead level. The Michigan Department of Environmental Quality, who regulates municipal water supplies, has assured us that the water leaving the Flint Water Plant meets all Federal and State requirements. The City of Flint has a documented problem with lead in its drinking water due to service and household lines that may contain lead or lead solder which can leach lead because of the corrosivity of the water since changing to the Flint River as the source supply. Generally, those who are most vulnerable

to leads health effects from exposure to unfiltered tap water are the very youngest children. For this reason, if you are not sure about the lead content in your tap water, it's best to either use a filter that has been found to be effective for reducing or eliminating lead, or to use bottled water instead. Water filters should be National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53. If these options are not available to you, then it's best to let the water run for at least five minutes before using it for either drinking or cooking purposes. Always use cold water instead of hot water for drinking and cooking.

It's especially important to avoid using untested or unfiltered tap water for mixing infant formula unless you can assure your water is lead free.

When leaded gasoline was in widespread use in this country, the lead came out the tail pipe and was deposited in yards near the roads. That lead may still be in those yards. In addition, lead paint continues to be a major source of childhood lead poisoning and can be found in homes built before 1978 when lead paint was banned in the U.S. and may be a hazard inside and outside the home especially where paint is worn or flaking.

There are many other potential sources of lead exposure, including:

- "Home remedies" and cosmetics imported from other countries
- Tamarind or chili-based candies from Mexico
- Stained glass windows
- Fishing sinkers
- Firing ranges
- Old, deteriorated mini-blinds
- Bean pots and painted ceramics
- Crystal decanters
- Lead crystal glassware

Since no safe level has been identified it is in everyone's interest to reduce exposure to lead as much as possible. Recommendations on ways to reduce lead exposure can be found on the Genesee County Health Department website www.gchd.us and Center for Disease Control and Prevention website: http://www.cdc.gov/nceh/lead/tips.htm .

Recent data provided by Hurley researchers has indicated a significant increase in blood lead levels in children after the switch to Flint River water. The County Health Officer has requested that MDHHS provide specific data to support their claim that state data is more comprehensive and does not show a significant increase. To date the state has failed to provide the requested data by the September 30, 2015 deadline in our previous request to the state.

Water Response Team – Door to Door Canvas

February 8, 2016

Recovery Staff Proposed Changes:

- Approve ARC to go from 10 to 5 ERVs/Teams.
  - ARC requested going from 10 to 5 ERV teams a week or so ago. They continue to train new drivers to give current staff breaks.
- Approve ARC to assist with 211, Rapid Response and AFN Lists.
  - Recovery is working on an Access and Functional Needs list for the Local EOC for ongoing service to AFN citizens and the goal is to have ARC assist with that, dispatched from Local EOC.
- Approve ARC to run water only teams
  - ARC is already doing water only delivery with event based volunteers rather than sending them out on the WRTs.
  - **Report amounts of water taken from warehouse/delivered to citizens.**
  - **Report Areas (38 as broken out by GIS) visited daily for situational awareness.**
  - Not required to be tracked on iPad.

Status of parcels and citizen contact:

- WRTs are finishing up list of homes that had zero contact/no filter over the last 3 weeks of canvassing.
- WRTs are finishing up "Vacant/Active/No Filter" list.
- 99.3% of parcels have been engaged in water response efforts.
- WRTs are down to 195 (1%) parcels that have not had personal contact – this can be continued to get to 100% contact with the 5 ERVs in the coming days.

Other Activities for ARC Volunteers

- Community Centers have expressed need for help passing out water
  - Can be coordinated thru LEOC/per meeting held with BJ and Jay.

Carol,

I was able to print most of the inbox emails but it took all of the day. Jan 9-16 in the inbox archive still needs to be printed. The sent boxes (4 total--- 1 in the email box, 3 in archive) will need to be printed today. The other 2 planning computers will also need to be printed, when a printer is available. We also did not get a chance to copy any of the notes yet.

I also spoke to Lori and group about printing of the shared drive.

- We have several folders:
  - Agency Brief Notes
  - Agendas
  - Gov Report
  - MI CIMS Data for Sit Rep
  - Sit Reps
  - Objective and Tactics
- Any of the reports that are in excel files can be put on a thumb drive (FOIA has an extra one we can use).
- Any word document or PDF document will need to be printed.

Another addition was Capt. asked us to compile a daily list of any of the teams that are going out in the field along with the number of houses they reach and number of samples they take. He needs this information to use during his 7:30 nightly call.

- The file for the template can be located here: S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\Field Teams. The PSC directions have also been updated to include this.
- We have asked all the agencies to put that information in their Sit Reps each day, so we can pull the list around 6 pm and compile it for Capt.
- MDEQ or MDCH might also email you the information.
- Please provide it to Capt. around 6:45 pm so he has time to ask any questions. Yesterday's sent email is still in the box. I have a feeling he might ask for additional information, depending on what questions he was asked during his call, so feel free to update the form if that happens.

The Governor's report also changed a little bit again today.

- Sam and I stayed to update the form for all of you. I believe that Ben said he would be in to work on it again today, but we wanted to make sure the majority was done if he did not come in by 12.
  - You will need to update the items to note.
- Ben and Nat worked all day to add in the data for the Sentinel Teams. You will need to find out from DEQ if the Sentinel Matrix data on the shared drive in the GovReport folder is up to date. This is not something we receive an email on them from. All other data is complete for 2/20
- When you look at the updated GIS data for homes visited went up by 33 homes but the number of homes confirmed with filters only went up 5. This made the unconfirmed number go up, not down—which is not usually the case. This makes the data look off, but after checking the math several times, we know it is valid. I just wanted to make sure you knew the reason in case someone asks.
- Before you print, double check the numbers. The path for each are located in the PSC procedures.
- You no longer have to select each tab when putting the file into a PDF! That was one great update for today.

The Flint Water Timeline will need to be updated with commodities totals once the Gov report is complete.

Please do not hesitate to call Sam or me if you have any questions.

Amanda

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.
2. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- *10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force* out in the field.

Subject: Daily Summary

Capt. Kelenske,

Below is today's summary of events. The Sit Rep has been reviewed by Peter Manning.

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.
   * There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Subject: New report

Hey Amanda

After allowing my brain to think last night, I am still not sure about this new reporting. When Nat was talking right before we left and said that he did not have a specific time for when he wanted the new report. He was doing it to make sure that it was done by 5:00 pm. I am thinking that doing the reporting at night is still the best, since we are going through all of the numbers for the Sit Rep anyway and everything is familiar. Having the same people do the reporting that have been working on everything allows for less confusion. It will be someone else doing the reporting in the morning and this has caused confusion on other things when the new person is working.

Justification for nightly reporting and process:

- We need almost all of the data at night for the Sit Rep (except DEQ)
- Make all state agencies provide the data by 1800 every day.
    - If this means that DEQ only has partial data, then they can make up the difference the next day; the same as the way that the PODs are being reported.
- The Sit Rep is started at 1700.
- The POD data should be entered by 1700.
- The FWRT data should be completed by 1800.
- The warehouse data should be in by 1800.
- The numbers sheet should be completed by 1830, if the above data is complete.
- As long as the above is all done, then the Sit Rep should be done by 1930ish.
- Peter Manning, SEOC LOG, SEOC OPS, and State Director should have the Sit Rep reviewed by 2000.
- Everything entered and complete by 2015-2030.
- The issue that comes into play is the Governor data.
    - If the SEOC can make the statement that the Governor Data sheet will be used from the previous day and any changes will not take affect till the next day, then this should be able to be done by 2000 as well.
        - As you are aware, the issue comes into play when the Governor Data sheet changes the day the data is due.

In the end it is up to Capt. to make the decision of when he wants the data, but if the data is not going to be done until noon, then it might as well be done the night before.

Just my 2 cents.

We can talk later.

Thanks
Sam

Samuel Jonker-Burke
Resource Unit Leader, State Emergency Operations Center

MDE

Dr. Katie Wilson, Deputy Under Secretary @ USDA Food Nutrition Services visited a Flint elementary school and the health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From that visit, came a USDA media release that highlighted the efforts between the USDA, MI Dept of Education and all Health/Human Services partners to expand nutrition programs such as Community Eligibility Provision, Summer Electronic Benefits Transfer (EBT), Fresh Fruit and Vegetable Program, Ready to Feed Formula program through WIC, nutrition education programming through Child and Adult Care Food Program, USDA Foods programs including The Emergency Food Assistance Program (TEFAP), Kathy and that WIC funding will help cover the cost of lead testing for WIC participants. Embedded within that media release was nutrition education information further detailing the targeted nutrients, direct links to nutrition education materials from MSU Extension, and details about expanded benefits and nutrition education at the Flint Farmers Market.

Local Program Conference Call Agenda

February 10, 2016

Phone Number:
PIN: · Host Code #

1. **Welcome and Roll Call**
2. **Distribution Status as of 2/9/16**
    a. Homes visited by FWRT on 2/9: **440**

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,180** residential parcels that have the ability to use the Flint Water System. Of these

- **26,985 (99.3%)** of the parcels have been engaged as part of response efforts
- **23,857 (87.9%)** of the parcels have been confirmed have some form of filter
- **10,758 (39.6%)** of the parcels have volunteered for water testing

3. **Distributed on 2/9/16 (PODS & FWRT)**
    a. Water Filters 317 (total 104,861)
    b. Cases of Water **2,895** (total 303,720)
    c. Filter cartridges 374 (total 211,721)
    d. Test kits **198** (total 35,998)

4. **Neighborhood canvasing campaign**
    i. 8:30~~am~~-5:00pm 10 Red (ARC) (2-4 personnel) teams
    ii. 41 volunteers for 2/9/2016.

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Visit (83) City of Flint Addresses that receive City Water and continue to classify as a No Contact. List of addresses sorted by Map Section and corresponding Maps are attached.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC. It is likely the iPads will not be used due to the extreme cold temperatures.

* gallon drug priority

Capt. Kelenske,

Below is a summary of events for today. The Sit Rep has been reviewed by Peter Manning.

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Capt. Kelenske,

Below is today's summary of events. The Sit Rep has been reviewed by Peter Manning.

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.
   * There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.

- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- *Developing logistics procedures to aid transition to local EOC staff.*
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Subject: ~~RE: Local EOC Bullets~~

Do you know if they are looking for something in particular? Bags distributed? Amount of water bottles collected? Additional households signed up with Republic Services?

So far, I can only give you the following numbers:
Recycling bags, door-to-door: 6000 (all donated by Republic Services) Recycling bags, community events: 3000 (approximately 1000 donated by Republic Services, 2000 by Schupan Recycling) Recycling bags, PODs: 11,000 (all donated by Republic Services, 6500 were distributed to the PODs on Tuesday and they should all still have some on site).
Door hangers, door-to-door: 8000 (include sign-up information for curbside recycling)

In regard to the amount of water bottles, I don't have a figure on that yet. Schupan Recycling was planning to report volumes that they pick up at the stations. However, they only had to empty their trailers once so far.
As far as the Young's Environmental Cleanup sites go: Young's only provides roll-off containers that do get emptied by another recycling company. It is my understanding that Young's does not receive totals of collected recyclable material.

If requested, I can also ask Republic Services if they can provide an overview of new signups since the recycling program started. I don't know if they would volunteer that information, though.

The issue with reporting these numbers is that the recycling effort is mostly driven by private contributions from local and statewide recycling stakeholders. The state's involvement is mostly providing printed materials and bringing awareness to the issue through news releases through the JIC. With this being an effort that is mostly driven by organizations outside the emergency response system, it is hard to establish the same level of accountability with them that we are used to from the involved government agencies, or contracted businesses.

Henrik

I received a request from Nate from the governor's office regarding tracking and counting the quantity of recycling on Sunday when I was in Planning. He asked again where were are with this and if and how we are tracking.

Do you have any information or update on this request? Thanks!

Local Agency Briefing – 8:30 a.m.

Today we listened to the UCG conference call at 8:30 a.m.

- Feds present include EPA, CDC, HHS, FEMA, HUD, USDA
- State agencies present include Community Health, DEQ, County EM, City, Flint, ARC
- Broken into functional task forces
    - Water Task Force
        - Continue w/ water sampling & filters
        - Dealing with soluble lead and scalable lead from pipes
        - EPA meeting on Feb. 27 is in planning stages
        - Begin replacing lead lines next week
        - Concern – any disruption will affect scaling, etc.
        - Size of system is oversized for size of city
        - Concerns with rapid changes
    - Health and Medical Task Force
        - Outbriefing yesterday
        - Mass transit system helping in transport of people to clinics
        - DOE meeting tomorrow how lead crisis has impacted schools
    - Nutrition Task Force
        - Review request from HHS to review the age issue (children)
    - Public and External Affairs – messaging, releasing
        - Congressional meeting yesterday
        - Dr. Lurie is at UCG today for 0110 meeting with state leaders and p.m. meeting with ARC
        - Lots of community outreach events this weekend
        - CERT training tomorrow in Lansing
    - Human Services Task Force – has wrapped up their work
- Planning – developed Action Plan which aligns with the task forces
- State Health
    - CHECC – request for
- State EM
    - Status updates needed on objectives
- SEOC – Capt. Kelenske
    - The long term recovery should have draft by today and final by Friday.
    - EPA has concerns on Fast Response program
        - EPA will be doing this
- DEQ
    - Dealing w/ water main break using normal break procedures

    - First set of samples collected yesterday. None are turning color yet
    - Will collect another sample today. Second set of results should be received tomorrow.
- County EM (Henrick)
    - Involved in long term water distribution discussions in Lansing during last couple of days
    - Long term testing
    - Taking care of rapid response requests
- CHECC
    - Outreach to clinics
    - Forms being translated into Spanish
- City
    - Handling concerns call in to Mayor
- ARC – Couldn't hear

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 11. The JIC was operational until 10 p.m. on Feb. 10.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the city of Flint's boil water advisory.
- MDHHS Chief Medical Executive Dr. Eden Wells attended a Great Lakes Health Connect press conference, announcing the donation of $250,000 to connect various health care providers in the Flint area so they can easily share information about patients affected by lead exposure. Dr. Well was interviewed by the Associated Press and gave an update about children blood-level testing in Flint. Dr. Wells also conducted an interview with Michigan Radio about the boil water advisory in Flint.
- Created a morning and afternoon media monitoring report.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended Gov. Rick Snyder's media availability at the Food Bank of Eastern Michigan. More than 10 news media members were at the event, representing local and regional outlets.
- Drafted talking points for Capt. Chris Kelenske for a 2:30 p.m. TeleTown Hall meeting hosted by the Governor's Office.
- The National Guard PIO conducted on-camera interview with a media outlet at Flint Fire Station No. 6, updating the reporter about ongoing operations and community relations.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Drafted a news release about a National Guard soldier saving a Flint resident's life. The JIC plans to issue the news release this afternoon.
- Drafted a media advisory about holding a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Drafted a follow-up news release to issue after the city of Flint's water warning is lifted.
- Continued working to have staffing for Feb. 16-26 by Thursday. Staffing has become difficult.
- Drafted and issued social media posts about ongoing Flint water emergency, including daily numbers and links to Oral Heath and Adult Lead Exposure fact sheets.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/10/2016 included:
- 6 food establishment assessments conducted (all follow-ups) and 5 in-use water samples collected
- no water sample requests/appointments were scheduled

As of 2/10/16, MDARD has completed a total of 346 food establishment assessments (271 initial/75 follow-up). 267 establishments are verified to be in compliance (77.17%). All high and medium risk firms have had an initial assessment. 214 water samples have been collected and 160 are currently scheduled.

MDARD's Animal Industry Division has created an Incident Management Team to deal with pet testing related issues in Flint.

Provided information to the JIC and Capt. Kelenski regarding using water from Flint for growing vegetables in response to a call on the Governor's Tele-Town Hall today.

American Red Cross (ARC)

The American Red Cross deployed 6 Water Response Teams on Thursday, 2/11/16, to deliver bottled water, and 3 Rapid Response Teams responding to calls from individuals needing additional support.

The Volunteer Reception Center was operating from 9-5 on Thursday. The VRC will operate on the same schedule tomorrow.

Water test kits are being assembled today. We anticipate that about 3,000 will have been completed by the end of the day.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Advised senior leadership of forthcoming FOIA process request.

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

The State Chief Medical Executive, Dr. Eden Wells, conducted a webinar today for healthcare professionals in Flint that focused on pregnancy and breastfeeding. The peak number of people/sites in attendance was 42. Positive feedback was received, particularly on the discussion portion of the webinar. The recording was sent to the MDHHS PIO, and will also be available on the flint water website and on MI-TRAIN.

a. POD 5 has two generator lighting units from MDOT. All PODs now have sufficient lighting.

1. Station 5 received a key and key code to utilize the fuel pump at station 5. A fuel can was purchased locally.

b. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations

9. INTELLIGENCE / FORCE PROTECTION: More firefighter units will respond to emergencies to equalize pressure in the water lines, due to the water main damage.

10. LOGISTICS: In support of TF Flint

a. Schupon has placed an order for more instruction cards attached to recycle bags.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• OUT (last 24 hours)
Bottled water-4615 Water (Gallons)218 Lead Testing Kits-121
Pitcher (23 cup)-0 Brita Faucet Filter-96 Brita Replacement Cartridge-131
Pur Filter-61 Pur Replacement Filter-244

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Two DTMB drivers were involved in an accident last evening upon return to Lansing. Their vehicle was hit from behind at an intersection. Both were treated and released and were medically cleared to return to work. The accident was reported to their

Executive Summary

SEOC Update:
Accomplished today (February 10, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Attended long term recovery meeting.
- Coordinated water order with FEMA.

JIC:
- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until October 2015.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and Gov. Rick Snyder's media roundtable in Lansing.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on February 9, 2016.
- Drafted social media posts about ongoing Flint water emergency, including U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings, and Tactics Meeting.
- Merged lists compiled from various agencies in to one master Access and Functional Needs (AFN) List.
- Met with Distribution Meeting participants regarding possible courses of action related to Boil Advisory and replacement cartridge distribution.
- Team Priority Visited Today: Active Water Subscribers without filters marked vacant or no contact.
- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant or no contact.
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.
- Data is for 2/10/16 as of 5:00 pm:

o Total homes visited:
- 19,271 (round 3 total).
- 302 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 134,316 liters or 11,193 cases (round 3 total).
- 2,628 liters or 219 cases (today).

o Replacement cartridges:
- 4,251 (round 3 total).
- 136 (today).

o Faucet filters:
- 7,369 (round 3 total).
- 29 (today).

Planning Section:
- Participated in state, local, and distribution process meeting.
- Published Sit Rep #36.
- Worked with Distribution Process group to strategize the impacts of the boil water advisory.
- Worked to update daily data report.

Operations Section:
- Continued to monitor the Flint City water main break, the repair progress and its cause.

- Assisted in working on a plan of action to replace all filter cartridges once the boil water advisory is lifted.
- Met with United Parcel Service (UPS) re: delivery of replacement filter cartridges to functional and mobility needs citizens.
- Led the Local Agency briefing and State Agency conference call.
- Participated in the Distribution Process meeting.
- SEOC State Agency Briefing:
- Warehouse Numbers as of 1800:
- Water (liters):
- 582,536 liters or 48,544 cases.
- Filters (faucet):
- 49,520.
- Replacement cartridges:
- 378,140.
- Test Kits (prepped):
- 18,886.
- PODs (1700 2/7 – 1600 2/10):
- Water (cases):
- 48,048 liters or 4,004 cases.
- Filters (faucet):
- 125.
- Replacement Cartridges:
- 257.
- Test kits:
- 108.

Finance Section:
- Reviewed cost reports received from state agencies to see if additional information is needed.
- Requested additional cost information from state agencies.
- Reviewed current cost data from state agencies that have submitted information.
- Updated Resource Request Information.

GIS Branch Updates:
- Water Sampling Results Mapping.
- Daily Data Pulls.
- Daily JIC Map.
- Daily Parcel Pairing & numbers to Ben Geiger.
- Boil Alert Map.
- Addressed matching of at-risk elderly with high lead test result addresses.

DTMB:
- Continued to provide DTMB management with daily updates and resource requests received.
- Provided expenses to date to include personnel overtime from January 6 through February 6, 2016 to the Financial Chief.
- Coordinating equipment delivery for Pierson Road warehouse.
- Reconciled expenditures to-date for record keeping.
- Requested to acquire two replacement 16-20 foot trucks with 6 foot lift gates to replace two vehicles that have broken down to assist with water distribution.

DHHS-CH:
- The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
- The State Chief Medical Executive, Dr. Eden Wells, conducted a webinar today for healthcare professionals in Flint that focused on pregnancy and breastfeeding. The peak number of people/sites in attendance was 42. Positive feedback was received, particularly on the discussion portion of the webinar. The recording was sent to the MDHHS PIO, and will also be available on the flint water website and on MI-TRAIN.
- Continue to provide clarification in reference to the teams that are visiting homes in Flint. MDHHS is accompanying DEQ on the Initial Assessment Teams that are visiting homes that have tested high in copper and/or lead.

DEQ:
- Coordinated message of filter cartridge for local media dissemination.
- Deployed Sentinel water sampling collection crews and began data collection.
- Provided the Director's Office with data to respond to the Congressional Committee of Energy and Commerce information request.
- Tracked progress of data collection at Sentinel water sampling sites.
- Met with Director's staff for clarification of EPA's 2/8/16 memo on compliance deficiencies and began preparing a response.
- Reviewed incident objectives to determine activities for the upcoming week.

State Voluntary Agency Liaison (VAL):
- Continued meeting with FEMA, county and city to develop distribution transition plan.
- Met with Seventh Day Adventist for transition of warehouse #2.

Unified Coordination Group (UCG):
- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- HSTF: Returning to a programmatic/recovery stage and providing support from DC not in the UCG.
- HMTF: Public Health Support Team of 7 transitioning out today. Working to capture work products and setting up continued sustainment at the state level. Two nurse case workers starting today.
Mental health team here until the 14th working to bring in new team.
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- GCHD: Requested clear understating of expectations of county and has concerns on whether their staff can perform this task.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC:
• Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
• Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
• Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
• Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
• Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.
• Coordinating rapid response deliveries to homebound residents and special locations.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
- Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
- Shared the updated resource guides for water donations and recycling with 211.
- Continued updating and revising internal and general talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
- Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
- Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.
- Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
- Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for February 16 – 26 by Thursday.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/9/16 included:
- 2 food establishment assessments conducted (both follow-up) and 2 in use water samples collected
- 5 water sample requests/appointments were scheduled

NOTE: There was a break in the water main at the Flint Water plant, so staff were unable to collect the majority of planned water samples today.

As of 2/8/16, MDARD has completed a total of 331 food establishment assessments (263 initial/68 follow-up). 231 establishments are verified to be in compliance (70%). All high and medium risk firms have had an initial assessment. 196 water samples have been collected and 137 are currently scheduled. Data is now being auto-calculated, resulting in reduction in total assessments reported on 2/5/16, but is now a more accurate count of total assessments.

The food establishment list with assessment, sampling and test results has been combined and mapping activities are underway.

MDARD has a conference call on February 10th at 8:30 am with stakeholder groups, including MSU, MDHHS and Genesee County to provide an update on current lead testing plans for dogs and to explore funding options and other assistance to provide additional testing.

The keep your pet safe from lead poster was posted on the FlintWater website (attached). A veterinarian guidance document was finalized today and will be posted as soon as possible.

American Red Cross (ARC)

The American Red Cross deployed 10 Water Response Teams on Tuesday, 2/9/16, to attempt contact at those residences where no one had yet answered the door.

The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm. The VRC will be operating from 9-5 again on Wednesday.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Reviewed foreign languages documentation.

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.

Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy Under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.

MDHHS held a conference call with the Michigan Pharmacist Association and other community pharmacy members to discuss the potential role of pharmacies in the Flint response efforts. Options will be explored in regards to blood lead testing, communications, and nutritional counseling.

Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

Corrections (MDOC)

MDOC continued operations at both warehouses with warehouse 2 opening as scheduled. All PODs were well supplied during the entire operational period.

MDOC continues to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

MDOC had employees on the ground in Flint today.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are working with Finance and MDOC assets to capture total employee payroll information and expenditures.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow

Worked with DEQ lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main break.

Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.

Reviewed upcoming deadlines from EPA Order tracking spreadsheet.

Coordinated putting together sentinel site teams .

Briefed updated Incident Objectives to reflect activities for the upcoming week.

Human Services (MDHS)

Looking into filtration system for a child care institute, possibly through donation.

Donation details being entering into MI CIMS.

211 reporting that the number of calls related to Flint was down to 10.5% for Feb 1 - Feb 7.

Daily update conference call with MDHHS Budget & Field Operations.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team
LARA completed mapping at the International Academy of Flint and created a materials list.
LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
Translation services for various documents continue to be provided as needed.
Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 0913002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. Cell: Email:

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 65 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. POD 5 has two generator lighting units from MDOT. All PODs now have sufficient lighting.

1. Fuel cans and the utilization of station 5 fuel pump is being requested through city of Flint liaison.

b. 4 Detroit Piston players will be purchasing food and visiting the POD Soldiers in appreciation of their assistance to Flint.

b. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: Soldiers are currently assigned to the POD operations.58 Soldiers are assigned in five teams at Fire Stations

9. INTELLIGENCE / FORCE PROTECTION: Water main at Dort highway near I475 has broke causing massive flooding. Water has been shutoff in respected areas therefore increasing water request at POD locations.

10. LOGISTICS: In support of TF Flint

a. The order for a pallet of rock salt from the state purchasing office should arrive at warehouse COB 09Feb2016.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
- AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
- An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
- OUT (last 24 hours)

SEOC Hours of Operation End:	02/09/2016 20:00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.*

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit

Executive Summary

SEOC Update:
Accomplished today (February 13, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.

JIC:
- JIC (Shanon Banner) was on call this weekend.
- On Monday (State holiday), she will be in the SEOC in the morning, and working from her office in the afternoon.
- JIC will be back up on Tuesday.

Recovery Branch:
- Attended Local brief, SEOC State Agency briefing meetings, Distribution Process meetings.
- Team priority visited today: Water distribution and rapid response.
- Team priority scheduled tomorrow: Visit the 83 addresses of City of Flint residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.
- 8 American Red Cross Teams scheduled for Sunday, February 14, 2016.

o Total homes visited:
- 23,169 (round 3 total).
- 788 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 154,644liters or 12,887 cases (round 3 total).
- 5,292 liters or 441 cases (today).

o Replacement cartridges:
- 5,173 (round 3 total).
- 305 (today).

o Faucet filters:
- 7,752 (round 3 total).
- 96 (today).

Planning Section:
- Published Sit Rep #39.
- Submitted daily Governor's report with research and clarifications.
- Participated in daily calls and meetings with UCG, state agencies and distribution process.
- Updated the Flint Water Timeline.

Operations Section:
- Attended 0830 UCG briefing conference call in SEOC.
- Conducted 0930 and 1600 State Agency Briefings.
- Attended 1030 and 1830 Distribution Process meetings.
- Responded to questions from Representative Kildee's office.
- Directed question on POD hours from the UCG to the State Director.
- Filed accident report of state EMC falling in SEOC to MSP Operations (Safety Officer), EMHSD command, and DTMB facilities.
- Discussion ensued about National Guard mission which has a current end date of Feb 16 (Tuesday).
- Warehouse Numbers as of 1800:

- Water (liters):
- 734,755 liters or 61,230 cases.
- Filters (faucet):
- 47,132.
- Replacement cartridges:

- 375,514.

□ Test Kits (prepped):
- 28,823.
- PODs (Number as of 1700 2/12):

□ Water (cases):
- 32,544 liters or 2,712 cases.

□ Filters (faucet):
- 85.

□ Replacement Cartridges:
- 317.

□ Test kits:
- 88.

Finance Section:
- Update Spending Plan.
- Reviewing Agency Expenditures for inclusion as Category B eligible costs.
- Begin updates to cost reports for upcoming week submittal.

GIS Branch Updates:
- Meeting with ARC about lists for Red Cross missions.
- MSHDA/HUD Homes.
- Water Pressure Contours Map.
- Water Results Test.
- Filter points.
- Daily update Maps.

DTMB:
- Addressing parking issues at the Flint State Office Building parking ramp.
- Procured first aid kits for warehouses.
- Providing rights to DEQ SharePoint site.

DHHS-CH (weekly):
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
- MDHHS continues planning efforts in support of lead blood level testing for children age 6 and under.

DEQ:
- Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
- Continued assembling data for EPA Emergency Administrative Order and second EPA request.
- Reviewed incident objectives to reflect Director's priorities for upcoming week.
- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.

Unified Coordination Group (UCG):
- There is a public meeting at noon today that EPA staff will attend on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:
- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Approximately 210 households have agreed to be sentinel monitoring points for long-term water testing as of 02/13/2016.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 12. The JIC was operational until 9:30 p.m. on Feb. 11.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Treasury. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Media hotline staff answered more than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the status of the water pipes in Flint.
- MDHHS Chief Medical Executive Dr. Eden Wells joined Senator Stabenow, Mayor Weaver, Dr. Hanna-Attisha to join the Children's Health Fund to deliver a mobile medical clinic that will provide medical care to children in Flint.
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs staffed the Flint Water Interagency Coordinating Committee for media. Two media outlets attempted to

attend the meeting, but were advised about the LiveStreaming service available at www.michigan.gov/snyderlive. The news media was unhappy about not being able to attend in person.
• Issued a news release about a National Guard soldier saving a Flint resident's life. National Guard Spec. Charles Colwell was made available for media interviews at Flint Fire Station No. 1. Interviews were conducted with WEYI-TV 25, WNEM-TV5 and WJRT-TV 12.
• Continued routing public information materials for approval, including fact sheets on breast feeding and lead poisoning, lead and children fact sheet by the Michigan Alliance for Families, Frequently Asked Questions fact sheet, and supporting children and families fact sheet.
• Drafted a news release about the boil water advisory being lifted. The JIC intends to issue the news release upon approvals and official notification from partners.
• Held a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint. More 10 news media outlets attended, including local and regional members.
• Completed staffing for the next two weeks.

Agriculture and Rural Development (MDARD)

MDARD's activities for 2/12/2016 included the following:
We have addressed the resource request from Genesee County regarding blood testing for pets. MDARD will cover the costs of the MSU Diagnostic Center's tests for lead in blood and the sample form and index code have been provided. However, the other portion of the request, to test for copper, is per the State Veterinarian not best done through a blood test and an alternative has been suggested for those pet owners concerned about copper exposure.

American Red Cross (ARC)

The American Red Cross deployed 6 teams on Saturday, 2/13/16: 4 rapid response teams in partnership with AmeriCorps NCCC and 2 mobile teams.

The Volunteer Reception Center is operating today from 9am to 5pm. The plan is for the VRC to operate on the same schedule tomorrow.

Approximately 8,400 water test kits were assembled by VRC volunteers today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Advised senior leadership of forthcoming FOIA process request. Engaged in constituent outreach regarding request for informational documents.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Additional addresses of medically dependent individuals in the 48502 zip code were provided to GIS to be added to the medically dependent map and to be reviewed to make sure these addresses have been touched by the water and filter distribution strategy.

Corrections (MDOC)

Warehouse 2 is fully functioning and has been receiving loose, non-pallet water donations.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

2 hand pallet jacks arrived at the warehouse today from ALTA Equipment.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

LARA plumbing supplies were delivered to the warehouse today. LARA employees were on-site to inventory.

122 test kits were delivered from Flint to Lansing today. 122 were residential. No MDARD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Deployed Sentinel water sampling collection crews and continued data collection and monitoring.

- Continued assembling data for EPA Emergency Administrative Order and second EPA request.

- Reviewed incident objectives to reflect Director's priorities for upcoming week.

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.

□ Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 233 of 402 homes were visited (changed 234 to 233 homes visited at 7:15pm).

Human Services (MDHS)

Participated in the SEOC Distribution Process Meetings at 10:30 and 18:30. No new action items.

Continue to review activities to provide support and assistance to assigned Human Services branch.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

LARA continuing efforts to plan and schedule faucet replacements for Flint schools. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can *cause immediate negative health effects. However, the main health concerns are long-term effects in children such as* developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. *Water is treated with a supplemental phosphate addition to rebuild the protective layer in the* distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, *predictive blood lead levels for affected areas, demographics, etc.*

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	46
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/20/2016 08:00:00
SEOC Hours of Operation End:	02/20/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 20, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on armed vs unarmed security for warehouses proposal.

JIC:
- On call this weekend.
- Lt. Governor Brian Calley hosted a Tele Town Hall meeting today at 1100 with local officials.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing meetings, Distribution Process meetings.
- Completed copying of S:drive for FOIA project – flash drive given to FOI Unit.
- Requested more detailed list of iPads available to Southern Baptists.
- Team Priority Visited Today: Continued visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges. Over 300 plus were visited today and the total is 1,000 or less as of 1900 hours today.
- Team Priority Scheduled Tomorrow: Continue visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Sunday, February 21, 2016.

o Total homes visited:
- 27,703 (round 3 total).
- 546 (today).

o Water:
- 203,652 liters or 16,971 cases (round 3 total).
- 7,476 liters or 623 cases (today).

o Faucet filters:
- 7,932 (round 3 total).
- 97 (today).

o Replacement cartridges:
- 8,249 (round 3 total).
- 317 (today).

o Water test kits:
- 3,242 (round 3 total).
- 141 (today).

Planning Section:
- Developed and approved Sit Rep #46.
- Updated burn rates and projection costs, per request.
- Updated Flint Water Timeline.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.
- Started printing FOIA documents for PSC computer.

Operations Section:
- Participated in 0830 UCG briefing in SEOC.
- Facilitated 0930 state agency briefing.
- Participated in 1030 distribution process meeting.
- Facilitated 0400 state agency briefing.
- Warehouse Numbers as of 1800:

□ Water (liters):
• 638,072 liters or 53,172 cases.
□ Filters (faucet):
• 69,282.
□ Replacement cartridges:
• 426,442.
□ Test kits (prepped):
• 33,301.
• PODs (number as of 1700 2/20):
□ Water:
• 92,464 liters or 7,707 cases.
□ Filters (faucet):
• 113.
□ Replacement cartridges:
• 415.
□ Test kits:
• 152.

Finance Section:
• Review Category B cost information received from the city of Flint.
• Conference call with MDHHS Purchasing section.
• Compile weekly status update report for SBO.

GIS branch updates:
• Worked on creating new dashboards for Governor's meeting on Monday.
• Updated Access and Functional Needs.
• Daily Parcel Pairing.
• PODS map for Jay.
• Updated zip codes for MDCH.
• Water Sampling Test Results.

DTMB:
• Issued (10) iPads for DEQ EOC with wall and car chargers.
• Delivered print orders to the Genesee County Emergency Operations Center.
• DEQ requested temporary office and parking space for executive working in Flint at the State Office Building.

DHHS-CH:
• Dr. Nicole Lurie will be returning to Flint on Sunday for a briefing with the UCG, and she will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
• The CHECC and MDHHS PIOs are working to ensure that request for assistance of an elderly homebound individual whose residence tested high in lead is able to obtain a blood lead test.
• Case managers working in Flint are concerned about individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. The phone does not allow them to dial 2-1-1, so a separate number has been provided to them to call.

DEQ:
• Continue to monitor progress of Sentinel Sampling and support as necessary.
• Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team).

State VAL:
• No update.

Unified Coordination Group (UCG):
• MDHHS requested a special project to use WIC cash value benefits to purchase fruit and vegetables at the farmers market.
• UCG Daily Sit Rep available in MI CIMS.
• MDEQ located 24 lead service lines; looking at the adjacent properties to the original 10 lead service line locations did produce a number of additional lead service lines.
• Tele Town Hall with the Lt. Governor at 11:00 am.
• Genesee County EOC worked with Good 360 yesterday and steered them away from sending products that will not be useful, such as shower filters.

Local EOC:
• Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that requested delivery via 2-1-1 hotline.
• 21 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
• MSU recycling event originally scheduled for 02/20/2016 was postponed.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 19.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services, State, and Treasury. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Media hotline staff answered fewer than 10 emails and phone calls that ranged from contractors looking to help with replacing lead service lines to media inquiries about lead-level testing in schools and pipes sitting outside of the Flint Water Treatment Plant. Questions were routed from WDIV-TV 4 in Detroit and WJBK-TV 2 in Detroit.
• Created a media monitoring report and looked for misinformation. Found an article where Genesee County Sheriff Robert Pickell states that he doesn't trust the lead water testing being conducted in the city of Flint. The Flint JIC brought this to the Genesee County JIC liaison's attention.
• Issued a news release about the postponement of the recycling event on Saturday, Feb. 20, with MSU student athletes.
• Created a news release to remind Flint residents to replace their filter cartridges. The intention is to issue the news release today.
• Updated community outreach spreadsheet to include parent-teacher organizations and other local events.
• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
• Issued and scheduled social media posts for distribution.
• Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
• Follow-up with United Way 2-1-1 about outstanding rumors and questions.
• Updated talking points for Captain Kelenske for the Feb. 20 TeleTown Hall with Lt. Gov. Brian Calley.

Agriculture and Rural Development (MDARD)

Summary of activities from MDARD at the SEOC on 2/20/16 (this information came in after the 4pm report on Friday):
Current and Planned Objectives for MDARD's Animal Industry Division, relating to pets & Flint for February 21 -27, 2016:
*Pay for laboratory cost of blood or tissue lead and copper level testing of pets in high risk homes where lead water sampling is >150ppb and/or copper is >1300ppb. MSU study will cover copper testing if pet owner agrees to study otherwise MDARD will pay for testing of copper.
*Continue liaison efforts with response organizations assisting with potential lead toxicity in pets in Flint.
*Determine appropriate response to levels of copper in pets in collaboration with MSU CVM.
*Respond to calls from veterinarians and the public seeking assistance or guidance related to pets.

MDARD will also coordinate with LARA to respond to some specific questions that have come in from a restaurant.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Saturday, 2/20/16. We plan to deploy 5 teams tomorrow as well.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday. The VRC processed 126 event-based volunteers today. 146 event-based volunteers were active on projects today

Volunteers assembled more than 2,700 bottle recycling kits today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Received confirmation that the ASPR, Dr. Nicole Lurie will be returning to Flint tomorrow, 2/21/16 for a briefing with the UCG. Six congressional delegates are also planning to visit Flint on Monday, for which Dr. Lurie will be providing them with information on the current situation in Flint.

The CHECC and MDHHS PIOs are working to ensure that special requests for assistance of an elderly homebound individual whose residence has tested high in lead is able to obtain a blood lead test. The CHECC is coordinating with the GCHD to fulfill this task.

Case managers working in Flint have expressed concern in reference to individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. Unfortunately, the phone will not allow them to dial 2-1-1 and reach the 2-1-1 operators. Instead, there is a separate number that they will need to call. Have been in contact with 2-1-1, MDHHS PIOs, and FEMA regarding options for messaging in order to ensure communication is provided to these individuals in Flint with Life Line phones. This work will be ongoing, as the Life Line program consumer assistance center is closed on the weekends. Hoping to explore the option of a "robo-call" (reverse 9-1-1 mechanism) for notifying consumers.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

Safety concerns continue to be addressed at Warehouse 1.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

162 DEQ test kits were delivered from Flint to Lansing today.

Education (MDE)

1. MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements. Regular meetings are scheduled between MDE staff and that of GISD and Flint Community Schools.

2. LARA indicates that replacement of fixtures at MSD is scheduled for next weekend (27-28 February).

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continue to monitor progress of Sentinel Sampling and support as necessary.
- Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team).

Sentinel B accomplishments as of 1500 hrs.:
- 416 Homes visited
- 148 Inspected
- 128 Residents agreed to participate in sentinel monitoring program
- 2 Lead lines

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse. Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program. Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters. LARA will coordinate this training with Amway and the Local 370 plumbers.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Provided all translated documents in Spanish to our Hispanic Liaison in hard copy. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2012452016

2. UNIT: Points of Distribution (PODs), NG TF FLINT

3. POC: Capt Bechtel, Jennifer E. Email:

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has 67 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has 67 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs to assist citizens have been printed off, laminated, and delivered to PODs

b. Not anticipating VIP at POD 5 on Monday, February 22nd

c. A GSA card expired the 16th, leaving a POD unable to purchase fuel. Used temp card

d. MDOT portable light stand out at POD 5. SEOC submitted fix request to MDOT

e. One Mile March did not have any major effect on PODs

8. PERSONNEL · Soldiers are currently assigned to the POD operations · Soldiers are assigned in five teams at Fire Stations

9. INTELLIGENCE / FORCE PROTECTION: Citizen stopped by Station 3 yesterday after march to inform them that the new motto is "No pipes, no peace."

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse. Warehouse drivers will distribute bags evenly to the PODS on Monday.

11. COMMUNICATIONS:
a. POD 8 operational with ANG provided laptops

b. Working to change wireless settings in replacement laptops delivered to PODs. 125 IN laptops have been left behind for

immediate use in daily reporting. Resolution in process.

P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• RIP/TOA activities complete and all PODs are running entirely under new NCOICs
• OUT (last 24 hours)
Bottled water-6,946 Water (Gallons)-630 Lead Testing Kits-192
Pitcher (23 cup)-0 Brita Faucet Filter-65 Brita Replacement Cartridge-216
Pur Filter-82 Pur Replacement Filter-281

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

Issued (10) iPads for DEQ EOC with wall and car chargers.
Delivered print orders to the Genesee County Emergency Operations Center.
DEQ requested temporary office and parking space for executive working in Flint at the State Office Building.

Transportation (MDOT)

Providing 2 staff to warehouse #2 (Pierson Rd).

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Providing (3' x 5') standard signs Fire Stations/PODs (2 each site)
Providing 100 grabber traffic cones (narrow reflective cones) at Fire Station #3 Martin Luther King Rd. & Fire Station #6 Pierson Rd. (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

SEOC Hours of Operation End:	02/20/2016 20:00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

      - Access Code:
      - Host Password:
  - Turn on the speakers next to the Polycom. Those on the phone will not be able to hear if the speakers are not on.
  - You will need to hold the microphone (must be mic #2) to the Polycom when those on the phone are speaking.
  - Welcome everyone to the call.
  - Go over daily battle rhythm.
  - Introduce Operations Section.
  - From there, Ops. will call on each branch.
  - Assist with passing the microphone to state agencies up top.
  - If Ops. does not close the meeting, then prior to ending the call announce the next state agency call.
- 1030 Distribution Process Meeting
  - Attend
- 1600 State Agency Call
  - Lead. Same agenda and process as 0930 meeting.
- 1830 Distribution Process Meeting
  - Attend

Daily Tasks:

- Ensure battle rhythm is correct at the start of the day.
  - PIO usually notifies the PSC of Legislative and Congressional calls.
  - Sunday night or Monday morning will need to be updated to include all the planning day activities (see below).
- Assist on daily situation report.
- Review daily situation report once developed by situation unit.
- After 5 p.m., work with Recovery Branch, Planning Section and Logistics section (ordering unit) to obtain daily numbers. **Check daily numbers against yesterday's numbers for accuracy.**

- suzanne.ragsdale@fema.dhs.gov
- Marc.franklin@fema.dhs.gov
- Henrik Hollaender
- Michelle Kuzera

Monday Reports:

- As part of the Monday Daily Summary email also include:
  - Updated Governor's Timeline.
  - State Agency Event's for the week.
    - This document provides an overview of important events each state agency will be participating in during the next week.

Planning Day (Monday's):

- Battle Rhythm
  - 0800- Unified Command Objectives Meeting
  - 0830- Local Agency Briefing
  - 0930- Command/General Staff/SEOC Briefing
  - 1030- Distribution Process Meeting
  - 1230- ICS 204 Submissions Due
  - 1330- Tactics Meeting
  - 1600- Planning Meeting/SEOC Briefing
  - 1700- Agency and Section Chief Sit Reps Due
  - 1830- Distribution Process Meeting
- Update Incident Action Period objectives during Unified Command Meeting at 0800.
  - Project copy of last week objectives for the meeting.
    - S:\DISASTER\2015-10 Flint Water\Objectives & Tactics
  - If technology is not available, print 8 copies for meeting.
- During 0930 meeting Planning Section will read each objective.
  - This takes place after the daily battle rhythm is announced.
- Work with branches to develop or update ICS 204 forms.
- Update IAP, org chart, ICS forms (204, 205a, 208, map).
- Hold tactics meeting to review ICS 204 forms.
  - Ops. Section Chief runs this meeting.
- Once tactics meeting is complete and all 204 forms have been updated, print 4 copies of each ICS 204 and IAP.
- Distribute each specific ICS 204 to the appropriate branch directors or section chiefs.
- Provide Ops, State Director, FEMA FCO copies of ICS form and IAP.
- Brief updates to IAP during 4 pm State Agency call.
  - Ops Section Chief will read each objective and each agency will read the tactics they have developed for the week.
- Update ICS 204 and IAP based on any requests from the meeting.
- Once all updates have been made, have Ops Chief, State Director, and FCO review, approve, and sign IAP.
- Post IAP to MI CIMS in File Library.

Updated 2/12

Planning Section Chief:

Daily Battle Rhythm (Except for Monday- see below)

- Battle Rhythm
  - 0830- Unified Coordination Group Conference Call (SEOC)
  - 0930- State Agency Briefing
  - 1030- Distribution Process Meeting
  - 1600- State Agency Briefing
  - 1700- Agency and Section Chief Sit Reps Due
  - 1830- Distribution Process Meeting

Daily Meetings:

- 0830 Unified Coordination Group Conference Call
  - Attend
- 0930 State Agency Call
  - Planning Section starts call.
  - Polycom system is placed by the State Director's Desk.
  - Dial in number:
    - Make sure to follow the prompts when dialing in.
    - Call in: 1-877-848-7030
      - Access Code: 6314918
      - Host Password: 5657
  - Turn on the speakers next to the Polycom. Those on the phone will not be able to hear if the speakers are not on.
  - You will need to hold the microphone (must be mic #2) to the Polycom when those on the phone are speaking.
  - Welcome everyone to the call.
  - Go over daily battle rhythm.
  - Introduce Operations Section.
  - From there, Ops. will call on each branch.
  - Assist with passing the microphone to state agencies up top.
  - If Ops. does not close the meeting, then prior to ending the call announce the next state agency call.
- 1030 Distribution Process Meeting
  - Attend
- 1600 State Agency Call
  - Lead, see directions above. Sim @ 0725
- 1830 Distribution Process Meeting
  - Attend

Daily Tasks:

- Ensure battle rhythm is correct at the start of the day.
  - PIO usually notifies the position of Legislative and Congressional calls.
  - Sunday night or Monday morning will need to be updated to include all the planning day activities (see below).
- Assist on daily situation report.
- Review daily situation report once developed by situation unit.
- After 5 p.m., work with Recovery Branch, Planning Section and Logistics section (ordering unit) to obtain daily numbers. **Check daily numbers against yesterday's numbers for accuracy.**
- Work with situation unit to obtain approval on sit rep from Ops, Logistics, Command and Peter Manning (AG)
- Update the Flint Water Timeline Daily Update Final (location listed below) to include any high level events from the day and updated commodities distribution data.
  - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC

Governor's Report- Submit by 12 pm, daily.

- This is the daily summary of data. It is developed based of the data from the night before.
- The PSC will need to work with the state agencies to identify the daily items to note. This should include any high level information or big events taking place. It should not be more than 4-5 bullets total. Daily and routine information will be included in the daily sit rep.
- Currently Sam and Amanda are working each day to validate the information and pull the report.
- Once the report is ready, they will put it in PDF and notify the PSC.
    - S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC\Gov Report PDFs
        - It will be the PDF for the current date.
- The PSC will email the report, by noon, to the following individuals:
    - Capt. Kelenske
    - Mr. Katarsky
    - Mr. Nat Forstner
    - Mr. Ben Geiger
- After the report is sent, forward to:
    - deborah.fulk@fema.dhs.gov
    - suzanne.ragsdale@fema.dhs.gov
    - marc.franklin@fema.dhs.gov
    - Michelle Kuzera
    - SEOC PIO (msp-seocpio@michigan.gov)

Evening Tasks:

- Develop agenda for State Agency Call, if not done the night before.
    - S:\DISASTER\2015-10 Flint Water\Agendas
    - Provide Ops. Chief with a copy.
- Complete nightly reports listed below.

Nightly Reports

- Develop daily summary notes for Command. This will be emailed to Capt., Mr. Tony Katarsky and Ops Section Chief. If an alternative Deputy State Director is in the SEOC also include them on the email.
    - Template is available on the shared drive S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC titled "Daily Summary" or see sent email for previous day's email.
    - Information for the daily summary report is captured from: S:\DISASTER\2015-10 Flint Water\Sit Reps\Executive Summary.
        - Follow the template above, not all information from the Executive Summary needs to be included, keep it high level.
    - Check daily numbers against yesterday's numbers for accuracy.
    - Attach:
        - Daily Sit Rep.
        - Daily Maps (usually lead and copper map and any additional map requested).
    - Prior to sending make sure all maps and Governor's data is attached.
- Once the Daily Summary has been sent to Command, forward the email original email and attach the GIS daily parcel data email to the following contacts:
    - deborah.fulk@fema.dhs.gov
    - suzanne.ragsdale@fema.dhs.gov
    - Marc.franklin@fema.dhs.gov
    - Henrik Hollaender
    - Michelle Kuzera

Planning Day (Monday's):

- Battle Rhythm
    - 0800- Unified Command Objectives Meeting
    - 0830- Local Agency Briefing
    - 0930 Command/General Staff/SEOC Briefing

    - 1030- Distribution Process Meeting
    - 1230- ICS 204 Submissions Due
    - 1330- Tactics Meeting
    - 1600- Planning Meeting/SEOC Briefing
    - 1700- Agency and Section Chief Sit Reps Due
    - 18:30- Distribution Process Meeting
- Update Incident Action Period objectives during Unified Command Meeting at 0800.
    - Project copy of last week objectives for the meeting.
        - S:\DISASTER\2015-10 Flint Water\Objectives & Tactics
    - If technology is not available, print 8 copies for meeting.
- During 0930 meeting Planning Section will read each objective.
    - This takes place after the daily battle rhythm is announced.
- Work with branches to develop or update ICS 204 forms.
- Update IAP, org chart, ICS forms (204, 205a, 208, map).
- Hold tactics meeting to review ICS 204 forms.
    - Ops. Section Chief runs this meeting.
- Once tactics meeting is complete and all 204 forms have been updated, print 4 copies of each ICS 204 and IAP.
- Distribute each specific ICS 204 to the appropriate branch directors.
- Provide Ops, State Director, FEMA copies of ICS form and IAP.
- Brief updates to IAP during 4 pm State Agency call.
    - Ops Section Chief will read each objective and each agency will read the tactics they have developed for the week.
- Update ICS 204 and IAP based on any requests from the meeting.
- Once all updates have been made, have Ops Chief, State Director, and FCO review and approve IAP.
- Post IAP to MI CIMS in File Library.

Monday Reports:

- As part of the Monday Daily Summary Report also include:
    - Summary of previous week's burn rate.
    - Updated Governor's Timeline.
    - State Agency Event's for the week.
        - This document provides an overview of important events each state agency will be participating in during the next week.

2.5.16

Situation Report Process

1. Bullet Point reminder
    a. At 1530 (3:30p) or 1.5 hours before the time due send an email to the following reminding them to send bullet points of today's activities.
        i. List of recipients:
            1. msp-seocopsc@michigan.gov
            2. msp-seoclgc@michigan.gov
            3. plangc@michigan.gov
            4. msp-seocfgc@michigan.gov
            5. msp-seocgis@michigan.gov
            6. msp-seocgis2@michigan.gov
            7. hollanderh@michigan.gov (or local EOC planning)
            8. Webert1@michigan.gov (State VAL)
            9. Msp-seoc7@michigan.gov (State VAL SEOC address)
2. Sit Rep Preparation
    a. At 1700 (5:00p) open the MICIMS dashboard for the incident and click on the **Situation Report Process** under the **Menus** section.
    b. In the **Situation Report Process Board** click on the **Situation Report-Step 1-Agency Reports** link.
    c. In the **SEOC Agency Reports** board verify that the Last updated column shows that the agency report has been updated for today (for agencies that are present in the SEOC or have a supporting role).
    d. If they are not up to date please check with the representative and work the report updated prior to continuing in the Sit Rep Builder (the process in MICIMS).
3. Executive Summary
    a. At 1700 (5pm) make a copy of the previous days executive summary and rename it "Sit Rep Executive Summary 2016mmdd (replace mm with numbers of the month and dd with numbers of the day). This document is located in the s drive in the following location:
        i. Shared>Disaster>2015-10 Flint Water>Sit Reps>Executive Summary
    b. Open up the renamed Sit Rep and select all (Ctrl+A) and click highlight (in Home Tab and Font section) to highlight all the text. Then save the document.
    c. As you update the content you will remove the highlighting on the sections to indicate you have updated them.
    d. As you receive the bullet points from the section chiefs and staff by email update the corresponding sections with the information provided. This will require you to copy and paste the bullets and wordsmith the sections as necessary to ensure that they flow well.
    e. Who will send the bullets:
        i. Logistics->Logistics Section Chief.
        ii. JIC->pull information from the twice daily briefings and/or the JIC Sit Rep.
        iii. Recovery Branch-> bullets will accompany the daily numbers for the teams.

l. Click on the **Edit** button.
m. Scroll down to the text box below the **Incident Response/Recovery Priorities/Objectives**.
    i. Ensure that the objectives are the current objectives from the Incident Action Plan for the current Operational Period (verify with Planning Section Chief if unsure).
    ii. These can be pulled from the following location if they are not current:
        1. SHARED>DISASTER>2015-10 Flint Water>Objectives & Tactics. From here you can pull the most recent objectives.
    iii. If the objectives need to be updated copy and paste them and format them accordingly.
n. Next scroll down to the text box below the **Emergency Declarations** title.
    i. In this section verify that all the declarations are listed in the appropriate sections. If any are missing, copy and paste them from the previous Sit Rep in the following location.
        1. SHARED>DISASTER>2015-10 Flint Water> Sit Reps
o. Next scroll down to the **Weather Conditions, Upcoming Forecast**
    i. In this text box you will need to remove the "Updated xxxx am/pm" from the line so that it only shows the date. Then go to each date in parenthesis and change them from abbreviations to the full name (e.g. Jan to January).
    ii. In this box you will also need to un-capitalize any words that are incorrectly capitalized.
p. Finally scroll through the Agency Sit Reps and remove any extra spaces following the text (at the bottom) in each text box to prevent large blank spaces on the final Sit Rep.
q. Placing the Executive Summary
    i. Once the executive summary has been completed go to the text box below the **Executive Summary** title.
        1. Delete the information currently in the box and copy and paste the text from your finished summary in word.
        2. Once this has been pasted scroll through the summary and place spaces between each section to make the summary easier to read.

5. Approval Process
    a. Have the Planning Section chief review the finished product before printing and distributing with other section chiefs and SMEs.
    b. Once the planning Section has reviewed and approved the finished product do the following:
        i. In the **Situation Report Process** board click on the **Situation Report-Step3-Editing** link.
        ii. In the **Situation Report-Step3-Editing** page click on the page and the select all (Ctrl+A) to select the entire document.
        iii. Right click on the mouse and select copy from the menu.
        iv. Open up Microsoft word and select **File>New>Create.**

d. Save the document (Shift+Ctrl+s).
e. Route to the following location in the window:
    i. SHARED>DISASTER>2015-10 Flint Water>Sit Reps
f. Name the document using the following convention:
    i. 2015-10-01 City of Flint Wtaer Contamination-Shortage SitRep ## 2016-mm-dd.
        1. ##=sit rep number
        2. mm= month
        3. dd= day

7. **CONGRATULATIONS YOU FINISHED!!!!! ☺**

SEOC Report for February 9, 2016

Full Days Since Emergency Declaration: 35

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Commodity Totals	Purchased Thru Yesterday*	Distributed Thru Yesterday
Water	4,696,050 liters 391337.5 cases	3,591,276 liters 299,273 cases
Filters	269,444	104,500
Cartridges	594,197	211,255

Days to Depletion Data

Open S:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\Days to Depletion data for Gov Report

Update the inventory numbers from the Google DOC "Pipeline" Warehouse current day.

Open S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\Day to Day POD Comparison. Use the daily average for the previous days listed on the total page starting in row 88.

The "Days remaining of Commodities" will populate based on the formula.

As of 2/10/15, not using until further notice

FEMA POD Comparison

Open (S:\disaster\2015-10 Flint Water\MICIMS DATA For Sit Rep) DAY to DAY POD Comparison

Rename to (S:\disaster\2015-10 Flint Water\MICIMS DATA FOR SIT REP\FEMA POD Comparison) DAY TO DAY POD Comparison for FEMA mm-dd-16

Will need to do the following to the following tabs :Station 1, Station 3, Station 5, Station 6, + Station

Click on the view tab on the top of excel. Go to "Freeze Panes" Click the down arrow. Click Unfreeze Panes.

Click on the top left corner of the spreadsheet or ctrl+A. Right click on any row number. Click Unhide in the menu that pops up.

Make sure the entire spreadsheet is selected. If not click on the top left corner of the spreadsheet or ctrl+A Right click anywhere in the spreadsheet and click Copy in the menu that pops up.

Click ctrl+home to make sure the cursor is in cell A1. Right click do a special paste as either "value" or "text" (Different windows may open which is why it may be labeled "Value" or "text")

Check to see if the chart data on the chart tab has been entered for the current day. If not, then see the back page.

over→

Day to Day POD Comparison

Go to the "Charts" tab.

There are two sets of charts listed. The top row is POD trends based on hourly information. The bottom row is POD daily totals.

The following will be done for all of the POD trends charts:
Right click in a chart. Click the "select data" in the window that pops up. Click the "add" button. A new window will open. Click on the ↖ button next to the "Series Name section. Click on the "total" tab on the bottom of the spreadsheet. Click on the date in row 7 that data will be pulled from. Hit "enter". Click on the ↖ button next to the "Series values" section. Click on the "total" tab on the bottom of the spreadsheet. Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the 0900-1100 section, then click and hold ctrl, then click the same value under the 1100-1400, 1400-1700, and 1700-2100 sections. Let go of ctrl and click enter. After the window closes click ok.

The following will be done for all of the POD daily totals:
Do the same as above until the "series values" section. Click on the ↖ button next to the "series values" section. Click on the "total" tab on the bottom of the spreadsheet. Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the "Total" section. Click enter. After the window closes click ok.

1. Update POD sheets from previous day ("POD Data")

2. "Day to Day POD Comparison" process

3. "FEMA POD Comparison" (Due 1130) process

4. Continuously update "POD Data" process

5. "Data For Governor's Office" process

6. "End of the Day Numbers" process

7. "Projection sheet for pod-team based on inventory" proces

Data for GOV

Open (situated on the 2015-10 Flint Water Project Data to Set Up) "Gov. Data v2 draft" spreadsheet

Also open (Desktop) "Raw Data for Gov Data spreadsheet"

Commodities Daily Total (Flint Water Response Team) section:
Update from the "National Guard Reporting FD PODs -2016-mm-dd" spreadsheet FWRT or FDOD TOTALS TAB

Commodities - Daily Total (Points of Distribution) section:
Update previous day with Final data in the "National Guard Reporting FD PODs 2016-mm-dd" spreadsheet Totals Tab

Purchased To Date Section:
Update with information that is provided by Mary K, Pam or Jane to Amanda. This data is entered into the "Raw Data for Gov Data" that was opened above. The calculation results in the difference field will be entered into the "Gov. Data v2 draft" spreadsheet.

MDEQ section: ~~Not needed~~ (Might be Send to Amanda)
Go to michigan.gov/flintwater. Find the "DEQ reports to EPA" open the spreadsheet for test results. Total the amount of tests each day and total the results of test 15 ppb and below.

Do periodically

OPEN ATTACHED SPREADSHEET

* FOR THE FIRST ENTRY OF THE DAY COPY THE "AMOUNT ON HAND" FOR THE STRATEGIC INVETORY → DO A SPECIAL PASTE AS EITHER AS VALUES OR VALUE

FOR ALL HOURS: COPY THE "AMOUNT OUT" AND "AMOUNT DELIVERED IN" AND DO A SPECIAL PASTE EITHER AS VALUES OR VALUE INTO THE "OUT" AND "IN" COLUMNS

MONITOR THE TOTAL COLUMN TO MAKE SURE THAT THE INVENTORY DOES NOT GET LOW. THERE ARE 3 FILTERS THAT WILL COMMUNICATE INVENTORY GET LOW. THE YELLOW FILTER MEANS THAT THE INVENTORY IS AT HALF. THE RED MEANS INVENTORY IS ZERO.

↳ WHEN IT IS YELLOW MAKE A DETERMINATION IF IT LOOKS TO LOW BASED THE PAST HOURS "OUT" COLUMN. IF TOO LOW THEN CALL GENESSEE COUNTY EOC AND MAKE SURE THAT THEY ARE AWARE

↳ WHEN IT IS RED THEN CALL GENESSEE COUNTY AND MAKE SURE THAT THEY ARE AWARE

IF FILTER TURNS RED MAKE SURE THAT THERE IS AT LEAST ONE TYPE OF FILTER AVAILABLE. IF THERE ARE 0 TUC AND PUCH THE CALL GENESSEE COUNTY EOC TO LET THEM KNOW.

Day to Day POD Comparison

Go to the "Charts" tab.

There are two sets of charts listed. The top row is POD trends based on hourly information. The bottom row is POD daily totals.

The following will be done for all of the POD trends charts:
Right click in a chart. Click the "select data" in the window that pops up. Click the "add" button. A new window will open. Click on the ↖ button next to the "Series Name section. Click on the "total" tab on the bottom of the spreadsheet. Click on the date in row 7 that data will be pulled from. Hit "enter". Click on the ↖ button next to the "Series values" section. Click on the "total" tab on the bottom of the spreadsheet. Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the 0900-1100 section, then click and hold ctrl, then click the same value under the 1100-1400, 1400-1700, and 1700-2100 sections. Let go of ctrl and click enter. After the window closes click ok

The following will be done for all of the POD daily totals:
Do the same as above until the "series values" section. Click on the ↖ button next to the "series values" section. Click on the "total" tab on the bottom of the spreadsheet. Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the "Total" section. Click enter. After the window closes click ok.

Do before gov data

End of the Day Numbers:

After email is received from the recovery unit:

- Open: (s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\POD Numbers) National Guard Report FD PODs 2016-mm-dd
- Open: (s:\disaster\2015-10 Flint Water\Recovery\Daily Water Response Team Plans) "Round 3 Distribution numbers for neighborhoods" spreadsheet into the "National Guard Reporting FD PODs 2016-mm-dd" spreadsheet "FWRT" tab in the current day field cell C4-C17

After data is entered for the "Data for Governor's Office" procedure:

- Manually enter into the National Guard Report FD PODs 2016-mm-dd located at s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\POD Numbers the purchases information from the "Data for Governor's Office". Columns AB – AG of the "National Guard" sheet will need to be manually entered with the totals from the "Data for Governor's Office" sheet.

Data for Governor's Office

Open: s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep

"Gov. Data v2 draft" spreadsheet

~~(Also open (desktop)~~ "Raw data for Gov Data" spreadsheet) Also listed in the above folder

Commodities- Daily total (Flint Water Response Teams) section: (Completed after 1800 daily)

- Update from the "National Guard Reporting FD PODS-2016-mm-dd" (today's) spreadsheet. FWRT or 1700 totals tab.

Commodities – Daily total (Points of Distribution) section: (Completed anytime during the day for the previous day)

- Update previous day with final data in the yesterday's "National Guard Reporting FD PODS-2016-mm-dd" spreadsheet total tab.
- ***This section will always be a day behind, because the final POD information is not available until after the SEOC closes for the day.

Purchased to Date section: (Completed after 1830 daily)

- Update with information that is provided by Mary K, Pam or Jane to Planning Section Chief. This data is entered into the "Raw Data for Gov. Data" that was opened above. The calculation results in the difference field will be entered into the "Gov. Data v2 draft" spreadsheet.

MDEQ: (Can be updated at any time of the day for the previous day; daily)

- SEMC will provide data on drinking water results to Planning Section Chief. These will be a hard entry, please work with PSC to ensure they are entered daily.

Warehouse-Nightly Inventory: (Completed after 1830 daily)

- Open the Google Doc "pipeline". Go to the current warehouse tab. Get the inventory numbers for water, total filters (Brita & Pur), replacement filters (Brita & Pur), and lead test kits. Enter this data into the "Gove. Data v2 draft" spreadsheet.

Make sure to log all donated #'s!

Due to FEMA by 10:30

Rename: S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep\FEMA POD Comparison\ Day to Day POD Comparison for FEMA mm-dd-16

Will need to do the following for the followings tabs:

- =station 1, station 3, station 5, station 6, & station 8
- Click on the view tab on the top of excel.
- Go to "freeze panes".
- Click the down arrow.
- Click unfreeze panes.
- Click on the top left corner of the spreadsheet or ctrl+A.
- Right click on any row number.
- Click unhide in the menu that pops up.
- Make sure the entire spreadsheet is selected. If not click on the top left corner of the spreadsheet or ctrl+A. Right click anywhere in the spreadsheet and click copy in the menu that pops up.
- Click ctrl+home to make sure the cursor is in cell A1. Right click do a special paste as either "value" or "text" (different windows may open is why it may be labeled "value" or "text".

***** Check to see if the chart data on the chart tab has been entered for the current day if not see the next section.**

Day to Day POD Comparison

S:\DISASTER\2015-10 Flint Water\MI CIMS Data for Sit Rep

Go to the "Charts" table.

There are two sets of charts listed. The top row is POD trends based on hourly information. The bottom row is POD daily totals.

The following will be done for all of the POD trend charts: (Top Row)

- Right click in a chart.
- Click the "select data" in the window that pops up.
- Click the "add" button. A new window will open.
- Click the " " button next to the "series name" section.
- Click on the "total" tab on the bottom of the spreadsheet.
- Click on the date in row 7 that data will be pulled from.
- Hit "enter".

- Click on the " " button next to the "series values" section.
- Click on the "total" tab on the bottom of the spreadsheet.
- Click on the item that is being used (next to water cases, total filters, total replacement filters, or lead testing kits) under the 0900-1100 section, then click and hold ctrl, then click the same value under the 1100-1400, 1400-1700, and 1700-2100 sections. Let go of crtl and click enter.
- After the window closes click ok.

The following will be done for all of POD daily totals: (Bottom Row)

- Do the same as above until the "series value" section.
- Click on the button next to the "series value" section.
- Click of the "total" tab on the bottom of the spreadsheet.
- Click on the item that is being used (the value next to water cases, total filters, total replacement filters, or lead testing kits) under the "total" section.
- Click enter. After the window closes click ok.

Carol -

We are waiting for a couple questions asked from the Governor's office today.
- Apartment Complex information
- Commodities Stockpile (Wendy)
- Break down on data for homes that do not have filters (GIS)

If you get any information please flag it and I will add it to the daily summary tomorrow

Also flag any of the work availability - I will finalize the schedule this weekend.

I should be in around 0930 if you have any questions.

Amanda

What you have - donations + purchases

What you are getting = (donations + recovery) FEMA

= What you receive

Scope

This report is an overview of actions taken in support of the creation of a comprehensive Geographic Information Systems (GIS) Strategy (SEOC Objective 6) during the initial SEOC operational period (01/06/2016 to 01/08/2016). This report focuses on the following tasks assigned by SEOC command staff:

- Task 1: Identify critical needs for maps and overlays
- Task 2: Identify current and potential resources for data collection
- Task 3: Contact and coordinate with identified agencies to obtain and centrally locate all data
- Task 4: Provide spatial analytics in support of SEOC

Based on the Command Emphasis on identifying priorities established in the initial IAP, EMHSD staff surveyed local GIS professionals to gain a baseline understanding of the status of existing data, systems, methods, and issues present with the current GIS infrastructure. The core participants in this survey included:

- Flint Department of Public Works
- Flint Water Maintenance Department
- Flint City Planning and GIS
- Genesee County GIS Department
- University of Michigan (U of M) Flint

Overview of Critical Local GIS Resources

Currently, there are three agencies involved in the management of GIS resources needed to effectively generate products in support of the Flint Water Emergency. Based on interviews with local GIS practitioners, these groups represent the only GIS staff identified as being available within local government to support this incident. The agencies include Genesee County GIS (1 Staff available), City of Flint GIS (1 Staff available), and the City of Flint Department of Public Works (1 staff available). These agencies have varying resources. The following were identified as critical to effectively create a comprehensive GIS solution. However, in order to effectively manage the Flint Water Emergency several of these systems will need to be upgraded, reconfigured, or further developed.

- Flint City ArcGIS Online Site – This system is fully capable of hosting all data, web-based mapping applications, and other GIS resources needed to support this incident for both government and public use. However, there is currently only a limited amount of content available and support from SEOC GIS staff is needed to bring several critical viewers online. Additionally, the City of Flint has a draft of an issues tracking system for public works that could be used to manage the replacement of the City's lead pipes.
- City of Flint's Department of Public Works Water Infrastructure Database – This database is incomplete and nearly 40 years out of date. The vast majority of data needed to bring this database current is only available in print. The Department of Public Works recently contracted U of M Flint to migrate the printed content into a computer based GIS format. However, work isn't projected to be completed until April of 2016 and does not include any service line changes from the past 35 years. As this is arguably the most critical dataset needed to address the Flint Water Crisis a focus of the next operational period will be to further investigate what is needed to fix this issue and provide recommendations to command that can make the data available in a more acceptable timeframe.
- Genesee County Water Filter Tracking System – Currently, Genesee County has developed their own internal tracking system to manage the distribution of water filters throughout the city. This viewer captures address information, but does not capture it accurately or associate it with parcel information that is needed to effectively plan filter distribution operations. Updating this system is a high priority before future resources are

deployed to ensure accurate and actionable data is being captured. As of the conclusion of this operational period approximately 15,000 records exist in this system. SEOC GIS staff has dedicated a significant amount of labor repairing the historic records, and continuing without rebuilding this tool is not sustainable without additional SEOC staff.

- Local Planning iPads and the Problem Spotter App – the city planning department has 30 iPads specially configured to do GIS data collection. Several apps have already been developed for the public works department to manage the update of utilities. However, the tools have not been fully deployed due to training gaps and issues with workflow. Locals discussed that they need support to bring these applications into production.
- Genesee County ArcGIS Online Parcel Viewer and Pictometry imagery viewer – This website can be used to quickly cross reference addresses to parcels and view properties on high resolution imagery.

Critical Needs for Maps and Overlays:

Several GIS key datasets were also made available and have been procured by SEOC GIS in preparation for developing a consolidated GIS data source. Critical Databases include:

- Parcels for City of Flint and surrounding municipalities
- City of Flint fire hydrant locations with date of installation
- Water Filters distribution table (spatial data currently unusable)
- Water Distribution Sites
- Water infrastructure issues report indicating failing or near failure water lines (non-GIS ready format)
- City of Flint Water Mains
- Miscellaneous Flint Base Layers
- City of Flint water service lines and curb stops (combination of printed maps and excel tables listing updates. No digital map data available.)

There are several key issues that must be addressed before this data can be efficiently mobilized to support large scale map production. Below is a priority list of items that must be fixed:

- ACTION ITEM 1: Update the Genesee County Water Filter Tracking System to self-validate addresses and append parcel ID's to effectively track water resources
- ACTION ITEM 2: Update and modernize the City of Flint's Department of Public Works Water Infrastructure Database by working with U of M Flint to expedite the scanning and digitizing of service line information
- ACTION ITEM 3: Use City of Flint Parcel data to determine house age and build estimates for service line lead materials based on standard installation dates
- ACTION ITEM 4: Implement an Asset Management System within Flint's Public Works Department and
- ACTION ITEM 5: Gather information of transmission line problem in the City of Flint water Systems that is causing water latency to the high risk lead exposure areas
- ACTION ITEM 6: Develop a rental properties map to display multi-tenant housing for use in filter distribution planning

Obtain and Centrally Locate All Data:

Based on discussions with all participating GIS practitioners it was determined that the Flint City ArcGIS Online Website is the best option for centrally hosting data. At the close of this operational period the SEOC was granted access to publish to this site. Next week efforts will begin to deploy the core datasets within this environment.

- ACTION ITEM 1: Employ Flint's ArcGIS for sharing and mobilizing GIS data between participating agencies
- ACTION ITEM 2: Ensure apps for mobile data collection are functioning as designed and develop training plan for public works personnel
- ACTION ITEM 3: Contact ESRI disaster response team to temporarily expand the capacity of GIS systems in support of the Flint Water Emergency

Provide spatial analytics in support of SEOC:

In order to effectively assess the scope of the Flint Water Emergency and prescribe action all map data must be able to link back to a master list of all existing addresses within the city. This facilitates the capacity to display where action is being taken while also showing areas in which issues still need to be addressed. During meetings with Flint GIS practitioners it was determined that the parcels are ideal to act as this keystone dataset as they already contain detailed contact information for both the resident and owner per the Flint equalization department. Using this strategy in conjunction with the existing Flint Mobile Collection systems, dashboards can quickly be developed for the city parcels using existing Flint GIS infrastructure and be utilized by local and state EOC staff to track the statuses in near-real-time.

- ACTION ITEM 1: Develop a database linking all flint street address to parcel ID's to facilitate cross referencing water filter information and lead issues with home owner contact information from Flint's equalization records
- ACTION ITEM 2: Utilize existing ArcGIS Online to create a live dashboard to quickly track status of key datasets

Other Critical Notes from Site Visits:

- Water Latency Issue: Flint DPW indicated that a water main within the city has been failing for approximately 10 years that provides service to the highest risk area of the city. They believe that several service cutoffs may have failed in a closed position blocking water distribution along those lines. As such, water to this section of the city is being routed along a much longer route to these homes on alternate lines. Recommend having a specialist from the state review this issue to determine if latency issues identified can be resolved.
- Service Lines Materials Issues: Flint DPW stated that during the growth of the city the vast majority of vacant parcels were fitted with service lines to the curb to the water main for use in future development. DPW estimates that approximately 80% of the city was developed using this method. Although residences may have records showing their service lines are non-lead, DPW believes that this short segment from the main to curb may still be lead. Flint began using copper in the mid-1950s. DPW recommended mapping mains emplaced post 1950 to eliminate parcels that do not have lead lines.

Truck took remaining 10oz bottles back to warehouse quantity of 1764. The remainder was passed out to Flint residents. Quantity of 728 given to residents. Total of pallets left is 468. This equals the "1500-1600" total of 2960. New total is 468 plus the new 720 dropped off, total is 1188.

Numbers are from 1700.

Commodities- Daily total (Flint Water Response Teams) section: (Completed after 1800 daily)

- Update from the "National Guard Reporting FD PODS-2016-mm-dd" (today's) spreadsheet. FWRT or 1700 totals tab.

- Commodities – Daily total (Points of Distribution) section: (Completed anytime during the day for the previous day)

  - Update previous day with final data in the yesterday's "National Guard Reporting FD PODS-2016-mm-dd" spreadsheet total tab.
  - ***This section will always be a day behind, because the final POD information is not available until after the SEOC closes for the day.

- Purchased to Date section: (Completed after 1830 daily)

  - Update with information that is provided by Mary K, Pam or Jane to Planning Section Chief. This data is entered into the "Raw Data for Gov. Data" that was opened above. The calculation results in the difference field will be entered into the "Gov. Data v2 draft" spreadsheet.

MDEQ: (Can be updated at any time of the day for the previous day; daily)

15ppb and less

- SEMC will provide data on drinking water results to Planning Section Chief. These will be a hard entry, please work with PSC to ensure they are entered daily. michigan.gov/flintwater testing result

- Warehouse-Nightly Inventory: (Completed after 1830 daily) Open the excel file Flint Residential Test Re

  - Open the Google Doc "pipeline". Go to the current warehouse tab. Get the inventory numbers for water, total filters (Brita & Pur), replacement filters (Brita & Pur), and lead test kits. Enter this data into the "Gove. Data v2 draft" spreadsheet.

2/16/16 Evening Distribution Meeting

Up swing in replacement filters

WNBA - Shock (Detroit)
↳ handed out shower filters
↳ People coming to PODs asking for these showerhead filter, but we do not have them.

NG is going to provide trigger points that they have been using

ARC - 5 teams

OIC Tim Carter - new guard at local EOC

2/19/16
DISTRIBUTION EVENING MEETING

ARC 6 teams tomorrow

2/20/16
DISTRIBUTION MORNING MEETING

- POD 5 → light out (MDOT light)
- Barriers for stopping trucks from hitting PODs

ARC - 5 teams
Couple groups with there own water & vehicles

Southern Baptist - 80% caught up of list

2/20/16
DISTRIBUTION EVENING MEETING

- Southern Baptist Gets numbers in the morning

2/22/16
NERD Meeting

- is the follow up for the high lead levels being tracked.
  - 48hr required for high results
  -

* - map out blood levels
  - Compare to water test results
  - need to see if high blood levels is result of other lead in the home (paint, etc.)

* - Data back to 2010 to be able to show trends in blood levels for lead.

- DCH has environmental lead issues
* - Dr Moran study
- lead in the system for 28 days

- rental vs owner
  - rental will have lead sitting in the lines possible

- Comment: Potential people using abandon/vacant have address when giving info at the PODs
- identify vacant/abandon homes

- population

-Talk w/Capt about DEQ Data on line

- need to make sure

2/22/16

ARC

- 15 ARC

- Reduce capacity on Monday
  - ↳ 2 to 3 Vehicles
  - ↳ Less than 7 days

LOCAL EOC

Run the numbers per hour based on a percentage. To see the percentage of 2atwr used each hour. Determine if t he pods can be shut down at 8:30. Suggest a news release going out saying that the pods will be closing at 8:30 s tarting next monday, so that people have a week to be prepared. Make a determination that based on the percent age used that cost out ways the benefit

Discuss with Mike Farmer to see about making sure that the pods are stocked at the 6:00 deliveey.

Do graphs based on the hourly comparison. do weekly graph based on totals for the week.
Create a sheet that has the auto pull for the hours. Use the find and replace to build the sheet. Hight light the sect ion and change all to (example : 2016-02-3). This maybe the hourly sheet that I already started.

Recommend removing finest filters from PODS.
Get name and address of person.
↳ check address in database
↳ don't deny filter but politely let them know that this address has received "X" amount of filters already.

Supposed to 500 volunteers (300 + 200) on Saturday

need to figure out how much inventory is in all of the donated warehouse. to ensure that the Clio warehouse inventory does not need to be ussed

my assumption is that these volunteers (who will only be providing water and not nessasarily part of our group) will go to 4,000 ish homes.

↳ if the warehouse will be used then we need to project if we will have enough water.

SEOC Report for Tuesday, February 23, 2016

Full Days Since Emergency Declaration: 49

Check Forwards Items to Note (File)

Items to Note

- Congressional/Legislative Call scheduled today (2/23/16).
- MDLARA has a meeting scheduled for tomorrow (2/24/16) at Flint Schools with Parent Counsel regarding plumbing replacement project.
- MSP recieved information that Senator Sanders is planning to visit Flint on Thursday (2/25/16).
- American Red Cross has 6 FWR Teams addressing the access and functional needs list of Flint residents. At the current daily rate, all identified residents on this list should be contacted by Sunday, February 28, 2016 unless the incoming winter storm impeeds this.
- MDEQ has 10 collection teams today for the Sentinel B sampling, plus 1 team for elevated lead and copper levels.
